STENNIS SPACE CENTER PROTECTIVE SERVICES CONTRACT

VEHICLE EQUIPMENT STANDARDS

Attachment J-11.1

ATTACHMENT J-11.1 –VEHICLE EQUIPMENT STANDARDS

1.0 Vehicle Fleet

1.1. The vehicle fleet will be Government Furnished through an existing U.S. General Services Administration (GSA) Contract with SSC/NASA. The SSC Transportation Officer will determine the size and makes of the fleet. (Reference Attachment J-11.2, *Government Provided GSA Leased Vehicles* for the current list of those provided.)

2.0 Patrol Vehicle Equipment Requirements

2.1. The Contractor shall provide each patrol vehicle with the items listed below. Contractor acquired equipment will be treated as contractor owned and contractor accountable.

1. Fire extinguisher
2. First aid kit
3. Lock out kit (4 vehicles minimum)
4. Jumper cables
5. Video surveillance equipment
6. Vehicle decals designed by NASA, and shown below. The fully reflective decals shall be installed on side and door panels. (Note: This will require removal of existing vehicle decals.)

2.2 The Government shall provide each vehicle with the items listed below. These items shall be considered as government furnished, contractor accountable property.

1. Radio equipment (handhelds)
2. Vehicular mounted RADAR detector (3 maximum)
3. Exterior top mounted light bar
4. Exterior driver mounted spot light (8 maximum)
5. Interior rear mounted blue/red strobe (3 maximum)
6. Interior dash mounted blue/red strobe (3 maximum)
7. Interior rear mounted directional bar light (7 maximum)
8. Appropriate control/switch box(es) (as required to operate items 3, 5, 6 and 7)
9. Public Address (PA) and siren control box
10. Grill mounted speaker

2.3 The Contractor shall be responsible for all repairs and/or replacements of vehicle equipment (contractor acquired and government furnished) with the exception of radio equipment. Items determined to be beyond economical repair shall be disposed of IAW NPR 4200.2B, *Equipment Management Manual for Property Custodians w/Change 1* , NPD 4300.1B, *NASA Personal Property Disposal Policy,* and NPR 4300.1A, *NASA Personal Property Disposal Procedural Requirements.*

2.4 As GSA determines that it is time to replace vehicles in the fleet (determined either by mileage or age), the Contractor shall remove all equipment from the existing vehicle and install in/on the replacement vehicle.

2.5 The Contractor shall standardize the vehicle equipment for all patrol vehicles to ensure that vehicles conform to a standardized visual pattern and present a coherent and professional appearance.
