NOTICE TO ALL BIDDERS

SUBJECT: Policy on Delivery of Bids and Public Bid Openings at GSFC/WFF

As a result of recent heightened security at this and other Federal facilities, the procedures/process for gaining access to this Facility have changed significantly from those in the past. All individuals requiring access to Goddard Space Flight Center/Wallops Flight Facility (GSFC/WFF) are required to present a picture ID and will be continually escorted while on GSFC/WFF. Individuals must be U.S. citizens or Permanent Resident Aliens. Permanent Resident Aliens are required to have his or her original green card on their person at all times while on Center.

As a result of the above, new policies are being instituted for the receipt and public opening of bids/offers conducted by NASA at this Facility. These new procedures will primarily affect bidders desiring to hand deliver bids/offers and those individuals wanting to attend the public bid opening for any sealed bid action. Bids/offers will continue to be received through the U.S. Postal Service and/or other courier, but must be received by NASA by the established bid due date/time to be considered timely. Reference Section L.28 of the Invitation for Bids.

The public bid opening will be conducted immediately following the receipt of bids, at 3:00 p.m. Eastern, in Building E-105, Room 300. Individuals desiring to attend the public bid opening should arrive at the GSFC/WFF Reception Building (Bldg. No. N-1), on the scheduled date, not later than 2:45 p.m. Eastern. As stated in paragraph 1 above, **all individuals must be U.S. citizens or Permanent Resident Aliens and have in their possession a current picture ID/original green card** to allow issuance of a temporary NASA Visitor's Pass. Transportation will be provided to and from the GSFC/WFF Reception Building (Bldg. N-1) to Building E-105 for the public bid opening.

Accordingly, the bid due date/time for NNG15549738R, Wallops Airfield Repair Project, COF Phase 1, is established as Thursday, August 20, 2015, 2:30 p.m. Eastern. A public bid opening will be conducted at 3:00 p.m. Eastern, Thursday, August 20, 2015.
