

Construction of the Flight Projects Building
Solicitation No. NNG13412656E
Questions and Responses
December 5, 2012

1. *Does the Q and A answers from last bid apply to this bid?*

Response – Where required and when it applied Q&A answers were incorporated into the new solicitation specifications and drawings.

2. *Please confirm that Amendment 8 & 9 are the same and that we only need to acknowledge Amendment 8 on the Bid Form.*

Response: Confirmed. There is no amendment 9. It appears that FedBizOps experienced system glitch. The business opportunities NASA website only shows amendment 8.

3. *Scheduled chilled beam capacities noted on M-003 through M-006 are unattainable at scheduled sizes. Is the intent that larger beams be provided to meet scheduled capacity, or are beams at scheduled sizes being short of scheduled capacity to be provided?*

Response: The ceiling plan is fixed as designed. No larger beams or additional beams are acceptable. For the beams in question, as long as the beams performance is equal to the basis of design (with the same footing, the same primary airflow and water flow) they will be accepted.

4. *In specification section 08 71 00 are you changing the cores and/or locks from OAK to BEST?*

Response: Not necessarily, under part 2.1 it states “manufacturers and products are named only for the purpose of establishing a standard of quality and design and are in no way to be construed as limiting competition.”

5. *You just want the locks to ACCEPT the 7-pin Small Format Interchangeable Core comparable to one manufactured by Best Access Systems. Is that correct?*

Response: Yes, this is correct.

POTENTIAL BIDDERS

The cut-off date to submit questions to the Contracting Officer was Friday November 30, 2012. This allowed the Government time to ensure that all questions have been answered and posted through the Government Websites (NASA/FedBizOps) in a timely manner before the bid opening date of December 7, 2012.
