

Tape Library Questions

1. Q: When the media gets placed back on the shelves, will it be in a similar order that it was removed, or will there be a sort that needs to take place?  
A:
2. Q: How much SpaceSaver material is in stock that needs to be re-used? Could this information be provided with quantities and part #'s?  
A:
3. Q: Is any of the shelving moving, or is it just getting reconfigured?  
A:
4. Q: Can you provide me with a current room layout? Is the shelving currently on a high density mobile system?  
A:
5. Q: Can you provide me with an elevation of how the shelving will look when complete (How many shelves, supports and reinforcements per unit)?  
A:
6. Q: Will a dumpster be provided for the existing tape bars that are being removed?  
A:
7. Q: Will you be having a site visit or allow vendors the opportunity to review the site?  
A:
8. Q: Do you have an actual floor plan in which we can see the highlighted areas that will be affected?  
A:
9. Q: Please confirm the following:  
Reconfigure two rows, which include 8 sections 12" deep that will have 5 new shelves added?  
A:  
Reconfigure two rows, which include 8 sections 24" deep that will have 5 new shelves added?  
A:
10. Q: Will the additional parts be on site during the reconfiguration?  
A:
11. Q: Will there be 9 tracks being stored on the shelves? Based on the weight would you like to use Heavy Duty supports? Media is usually heavier than paper so it is recommended.  
A:

12. Q: Do you have an idea of the linear filing inches (lfi) of media that need to be removed? You can simply provide me with a shelf count and I can figure out the lfi from there.

A:

13. Q: Can you provide any cost associated with ICAM toolset or what that might entail, we've had various background screenings required, but I am unfamiliar with this?

A:

14. Q: Please confirm actual implementation dates requested? Based on Spacesaver current lead times the Requested implementation date of 12/31/12 may not be achievable.

A:
