

**Amendment #1**  
**RFQ NNC13ZRH006Q**  
**C-Band Solid State Power Amplifiers**

This document presents 1 question and one specification modification.

- 1) *Q – Is your requirement for an amplifier module or a rack mountable configuration with internal power supply, controls, etc.?*

**A – Per the RFQ, our requirement is for a track mountable configuration with internal power supply, controls, etc.**

- 2) The frequency range specification is hereby changed. Currently the frequency range is listed as 5060 – 5150 MHz. This requirement is hereby deleted, and a new frequency range of 5000 – 5150 MHz is inserted in its place.
