Truckdriver, Tractor-Trailer	17.86

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: Life, accident, and health insurance plans, sick leave, pension plans, civic and personal leave, severance pay, and savings and thrift plans. Minimum employer contributions costing an average of $2.56 per hour computed on the basis of all hours worked by service employees employed on the contract.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE PARENTHESES AFTER THEM RECEIVE THE FOLLOWING BENEFITS (as numbered):

1) Does not apply to employees employed in a bona fide executive, administrative, or professional capacity as defined and delineated in 29 CFR 541. (See CFR 4.156)

2) APPLICABLE TO AIR TRAFFIC CONTROLLERS ONLY - NIGHT DIFFERENTIAL: An employee is entitled to pay for all work performed between the hours of 6:00 P.M. and 6:00 A.M. at the rate of basic pay plus a night pay differential amounting to 10 percent of the rate of basic pay.

3) WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordinance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and

hauling of ordance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordance, explosives, and incendiary material differential pay.

OCCUPATION NOTES:

Refuse Collector: The rate for the Refuse Collector occupation applies does not apply to Cuyahoga County. See Wage Determination 1966-0048 for the wage rates and fringe benefits for Cuyahoga County.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of $3.35 per week (or $.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

** NOTES APPLYING TO THIS WAGE DETERMINATION **

Source of Occupational Title and Descriptions:

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations," Fourth Edition, January 1993, as amended by the Third Supplement, dated March 1997, unless otherwise indicated. This publication may be obtained from the Superintendent of Documents, at 202-783-3238, or by writing to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Copies of specific job descriptions may also be obtained from the appropriate contracting officer.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).

2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such

unlisted class(es) of employees performs any contract work.

3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT

14. DESCRIPTION OF AMENDMENT/MODIFICATION *(Organized by UCF section headings, including solicitation/contract subject matter where feasible.)*

a. The Government agrees that administrative leave, was granted to government employees at Glenn Research Center from approximately 11:00 a.m. September 11, 2001 through 12:01 a.m. September 13, 2001, hereinafter referred to as "the period of excused absence." The Government also agrees that all contractor personnel, with the exception of those required to perform round-the-clock requirements, were instructed by the Government to vacate the Center during that time period.

b. The contract price is increased by $16,064 for the cost of salaries and wages paid by the Contractor for the period of the excused absence. This amount is payable upon submittal of an invoice in that amount for "September 11-12, 2001 GRC Closure."

c. The Contractor agrees that the price increase reflects complete equitable adjustment for the Contractor's cost resulting from the period of excused absence.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

CODE FACILITY CODE

☐ 9A. AMENDMENT OF SOLICITATION NO.

9B. DATED *(SEE ITEM 11)*

☒ 10A. MODIFICATION OF CONTRACT/ORDER NO. NAS3-98030

10B. DATED *(SEE ITEM 13)* January 30, 1998

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended, ☐ is not extended. Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods:

(a) By completing Items 8 and 15, and returning ____ copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. **FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER.** If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA *(If required)*

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS, IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

☐	A	THIS CHANGE ORDER IS ISSUED PURSUANT TO *(Specify authority)* THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
☐	B	THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES *(Such as changes in paying office, appropriation date, etc.)* SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
☒	C	THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF: Clauses 52.222-44, "Fair Labor Standards Act and Service Contract Act - Price Adjustment" and 52.243-1, "Changes--Fixed Price (Alternate I)
☐	D	OTHER *(Specify type of modification and authority)*

E. IMPORTANT: Contractor ☐ is not, ☒ is required to sign this document and return 1 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION *(Organized by UCF section headings, including solicitation/contract subject matter where feasible.)*

(see page 2)

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER *(Type or print)*		16A. NAME AND TITLE OF CONTRACTING OFFICER *(Type or print)* Mark W. Manthey, Contracting Officer	
15B. CONTRACTOR/OFFEROR BY _____ *(Signature of person authorized to sign)*	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA BY _____ *(Signature of Contracting Officer)*	16C. DATE SIGNED

a. In Clause B.2, the annual quantities for PRS No. C9-10, "Lighting 5 Year PGM," are hereby changed to "0" for contract Option Periods 3 and 4, retroactive to March 1, 2001.

b. Clause B.5, "CONTRACT PRICES," is hereby revised by replacing the prices for contract Option Periods 3 and 4 with the prices itemized on pages 3 through 4 of this modification. The price changes reflect the following individual adjustments:

1) The elimination of the requirement for re-lamping resulted in a total net price reduction of [redacted], consisting of a [redacted] reduction for Option Period 3 and another [redacted] reduction in Option Period 4. (b)4

2) Settlement of a claim for price adjustment due to an increase in wages for Roads & Grounds maintenance personnel, retroactive to May 1, 2001, resulted in price increases of [redacted] for Option Period 3 and another [redacted] for Option Period 4. (b)4

3) Settlement of a claim for price adjustment due to a new training requirement for Crane Operators, resulting in a price increase of $10,000 for Option Period 3.

The total net value of these price adjustments is a reduction of $610,776, consisting of a decrease of $164,460 in Option Period 3 of and a decrease of $446,308 in Option Period 4.

c. Paragraph 1.c., "Inspections, Testing, and Certification," in Section C11, "PERSONNEL AND MATERIAL HANDLING SYSTEMS," is hereby revised by adding the following:

"All personnel operating lifting equipment shall receive formal training and a physical examination to be certified to operate such equipment."

d. In Clause E.3, "SCHEDULE OF DEDCTIONS," the unit prices for contract Option Periods 3 and 4 are replaced with the unit prices contained in Attachment B to this modification.

e. Clause G.2, "SUBMITTAL OF INVOICES," is amended by adding the following language:

"Invoices shall be based on the revised prices effective immediately. The invoice for October 1 -15, 2001 shall reflect the following itemized adjustments:

1. a credit of [redacted] for the reduced scope of work
2. an additional amount of [redacted] for settlement of the claim for new training requirements (b)4
3. an additional amount of [redacted] for settlement of the claim for wage increase for the preceding 5 months"

f. In consideration of the modification agreed to herein as complete equitable adjustments for the Contractor's proposals for adjustment, the Contractor hereby releases the Government from any and all liability under this contract for further equitable adjustments attributable to such facts or circumstances giving rise to those adjustments.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: Life, accident, and health insurance plans, sick leave, pension plans, civic and personal leave, severance pay, and savings and thrift plans. Minimum employer contributions costing an average of $2.56 per hour computed on the basis of all hours worked by service employees employed on the contract.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE PARENTHESES AFTER THEM RECEIVE THE FOLLOWING BENEFITS (as numbered):

1) Does not apply to employees employed in a bona fide executive, administrative, or professional capacity as defined and delineated in 29 CFR 541. (See CFR 4.156)

2) APPLICABLE TO AIR TRAFFIC CONTROLLERS ONLY - NIGHT DIFFERENTIAL: An employee is entitled to pay for all work performed between the hours of 6:00 P.M. and 6:00 A.M. at the rate of basic pay plus a night pay differential amounting to 10 percent of the rate of basic pay.

3) WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard including working with or in close proximity to explosives and incendiary materials involved in research, testing, manufacturing, inspection, renovation, maintenance, and disposal. Such as: Screening, blending, dying, mixing, and pressing of sensitive explosives pyrotechnic compositions such as lead azide, black powder and photoflash power. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive explosives and incendiary materials. All operations involving regarding and clearing of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard. Including working with or in close proximity to explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation and, possibly adjacent employees, irritation of the skin, minor burns and the like; minimal damage to immediate or

adjacent work area or equipment being used.

All operations involving, unloading, storage, and hauling of explosive and incendiary ordnance material other than small arms ammunition. (Distribution of raw nitroglycerine is covered under high degree hazard.)

OCCUPATION NOTES:

Refuse Collector: The rate for the Refuse Collector occupation applies does not apply to Cuyahoga County. See Wage Determination 1966-0048 for the wage rates and fringe benefits for Cuyahoga County.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of $3.35 per week (or $.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

** NOTES APPLYING TO THIS WAGE DETERMINATION **

Source of Occupational Title and Descriptions:

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations," Fourth Edition, January 1993, as amended by the Third Supplement, dated March 1997, unless otherwise indicated. This publication may be obtained from the Superintendent of Documents, at 202-783-3238, or by writing to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Copies of specific job descriptions may also be obtained from the appropriate contracting officer.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).

2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees

themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.

3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

	D	OTHER *(Specify type of modification and authority)*

E. IMPORTANT: Contractor is not required to sign this document.

14. DESCRIPTION OF AMENDMENT/MODIFICATION *(Organized by UCF section headings, including solicitation/contract subject matter where feasible.)*

The contract quantities and prices are changed as detailed on the following pages.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15a. NAME AND TITLE OF SIGNER *(Type or print)*		15a. NAME AND TITLE OF CONTRACTING OFFICER *(Type or print)*	
		Mark W. Manthey, Contracting Officer	
15B. CONTRACTOR/OFFEROR	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA	16C. DATE SIGNED
BY_____ *(Signature of person authorized to sign)*		BY_____ *(Signature of Contracting Officer)*	

a. In Clause B.2, "QUANTITIES OF SERVICES," the required annual quantities for each Contract Requirement are replaced in their entirety with the quantities listed on pages 6 through 11 of this modification. These new quantities will serve as the baseline for any adjustments made pursuant to clause B.4, "VARIATION IN QUANTITIES," for contract years 3, 4, and 5.

b. In clause B.5, "CONTRACT PRICES," the prices and hourly rates set forth for contract years 3, 4 and 5 are replaced with the prices and rates set forth on pages 3 through 5.

c. The revision to item 1004 of clause B.5 made by item c. in Modification 3 (which revision specified that rates would be increased by [redacted] for every hour ordered after 4,980 hours) is hereby deleted. (b)4

d. Contract Requirement C14-01d, "Building 500 Watchstanding," is hereby deleted retroactive to March 1, 2001.

e. The Statement of Work (SOW) is modified by incorporating the revised PM Checklists attached to this modification retroactive to March 1, 2000. The SOW is further modified by deleting the following contract requirements, also retroactive to March 1, 2000:

C9-05b	Motor Annual PT&I
C11-02a	Crane Monthly PM
C15-18	Water Cooler Semi-annual PM

f. Clause G.6, "LIST OF AVAILABLE INSTALLATION-OWNED PROPERTY AND SERVICES," is hereby revised by adding, as item "F," automotive fuels for contractor-owned vehicles used exclusively in the performance of this contract.

g. Clause H.2, at paragraph (d)(ii)(a), is hereby revised at by deleting the requirement that Unit Priced Tasks be developed using the PULSAR software program.

h. Clause 1852.204-74, "Central Contractor Registration," is hereby added to the list of NASA FAR Supplement clauses incorporated by reference in Section I.1.II of the contract.

i. Attachment J-E.1, "Schedule of Deductions," is replaced with the enclosed new attachment of the same title.

j. The payment of the amounts due to the contractor as a result of Modification 15 were/are payable, upon the contractor's submittal of an invoice, in two installments as follows:

October 1, 2000	$100,000
March 1, 2001	$146,163

k. The price changes made by this modification are summarized below.

Description	Year 3	Year 4	Year 5	TOTAL
"Re-Scope"	-$121,051	-$123,061	-$131,177	($375,289)
Delete Watchstanding	[redacted]			
IBEW Wage Increase	$39,050	$73,437	$108,454	$220,941

I.6 SECURITY REQUIREMENTS FOR UNCLASSIFIED INFORMATION TECHNOLOGY RESOURCES (JULY 2000)

(a) The Contractor shall comply with the security requirements outlined in NASA Policy Directive (NPD) 2810.1, Security of Information Technology, and NASA Procedures and Guidelines (NPG) 2810.1, Security of Information Technology. These policies apply to all IT systems and networks under NASA's purview operated by or on behalf of the Federal Government, regardless of location.

(b) (1) The Contractor shall ensure compliance by its employees with Federal directives and guidelines that deal with IT Security including, but not limited to, OMB Circular A-130, Management of Federal Information Resources, OMB Circular A-130 Appendix III, Security of Federal Automated Information Resources, the Computer Security Act of 1987 (40 U.S.C. 1441 et seq.), and all applicable Federal Information Processing Standards (FIPS).

(2) All Federally owned information is considered sensitive to some degree and must be appropriately protected by the Contractor as specified in applicable IT Security Plans. Types of sensitive information that may be found on NASA systems that the Contractor may have access to include, but are not limited to --

(i) Privacy Act information (5 U.S.C. 552a et seq.);

(ii) Export Controlled Data, (e.g. Resources protected by the International Traffic in Arms Regulations (22 CFR Parts 120-130)).

(3) The Contractor shall ensure that all systems connected to a NASA network or operated by the Contractor for NASA conform with NASA and Center security policies and procedures.

(c) (1) The Contractor's screening of Contractor personnel will be conducted in accordance with NPG 2810.1, Section 4.5 for personnel requiring unescorted or unsupervised physical or electronic access to NASA systems, programs, and data.

(2) The Contractor shall ensure that all such employees have at least a National Agency Check investigation. The Contractor shall submit a personnel security questionnaire (NASA Form 531), Name Check Request for National Agency Check (NAC) investigation, and Standard Form 85P, Questionnaire for Public Trust Positions (for specified sensitive positions), and a Fingerprint Card (FD-258 with NASA overprint in Origin Block) to the Center Chief of Security for each Contractor employee requiring screening. The required forms may be obtained from the Center Chief of Security. In the event that the NAC is not satisfactory, access shall not be granted. At the option of the Government, background screenings may not be required for employees with recent or current Federal Government investigative clearances.

(3) The Contractor shall have an employee checkout process that ensures --

(i) Return of badges, keys, electronic access devices and NASA equipment;

(ii) Notification to NASA of planned employee terminations at least three days in advance of the employee's departure. In the case of termination for cause, NASA shall be notified immediately. All NASA accounts and/or network access granted terminated employees shall be disabled immediately upon the employee's separation from the Contractor; and

(iii) That the terminated employee has no continuing access to systems under the operation of the Contractor for NASA. Any access must be disabled the day the employee separates from the Contractor.

(4) Granting a non-permanent resident alien (foreign national) access to NASA IT resources requires special authorization. The Contractor shall obtain authorization from the Center Chief of Security prior to granting a non-permanent resident alien access to NASA IT systems and networks.

(d) (1) The Contractor shall ensure that its employees with access to NASA information
resources receive annual IT security awareness and training in NASA IT Security policies,
procedures, computer ethics, and best practices.

(2) The Contractor shall employ an effective method for communicating to all its employees and assessing that they understand any Information Technology Security policies and guidance provided by the Center Information Technology Security Manager (CITSM) and/or Center CIO Representative as part of the new employee briefing process. The Contractor shall ensure that all employees represent that they have read and understand any new Information Technology Security policy and guidance provided by the CITSM and Center CIO Representative over the duration of the contract.

(3) The Contractor shall ensure that its employees performing duties as system and network administrators in addition to performing routine maintenance possess specific IT security skills. These skills include the following:

(i) Utilizing software security tools.

(ii) Analyzing logging and audit data.

(iii) Responding and reporting to computer or network incidents as per NPG 2810.1.

(iv) Preserving electronic evidence as per NPG 2810.1.

(v) Recovering to a safe state of operation.

(4) The Contractor shall provide training to employees to whom they plan to assign system administrator roles. That training shall provide the employees with a full level of proficiency to meet all NASA system administrators' functional requirements. The Contractor shall have methods or processes to document that employees have mastered the training material, or have the required knowledge and skills. This applies to all system administrator requirements.

(e) The Contractor shall promptly report to the Center IT Security Manager any suspected computer or network security

incidents occurring on any system operated by the Contractor for NASA or connected to a NASA network. If it is validated that there is an incident, the Contractor shall provide access to the affected system(s) and system records to NASA and any NASA designated third party so that a detailed investigation can be conducted.

(f) The Contractor shall develop procedures and implementation plans that ensure that IT resources leaving the control of an assigned user (such as being reassigned, repaired, replaced, or excessed) have all NASA data and sensitive application software permanently removed by a NASA- approved technique. NASA-owned applications acquired via a "site license" or "server license" shall be removed prior to the resources leaving NASA's use. Damaged IT storage media for which data recovery is not possible shall be degaussed or destroyed. If the assigned task is to be assumed by another duly authorized person, at the Government's option, the IT resources may remain intact for assignment and use of the new user.

(g) The Contractor shall afford NASA, including the Office of Inspector General, access to the Contractor's and subcontractor's facilities, installations, operations, documentation, databases and personnel. Access shall be provided to the extent required to carry out a program of IT inspection, investigation and audit to safeguard against threats and hazards to the integrity, availability and confidentiality of NASA data, and to preserve evidence of computer crime.

(h) (1) The Contractor shall document all vulnerability testing and risk assessments conducted in accordance with NPG 2810.1 and any other IT security requirements specified in the contract or as directed by the Contracting Officer.

(2) The results of these tests shall be provided to the Center IT Security Manager. Any Contractor system(s) connected to a NASA network or operated by the Contractor for NASA may be subject to vulnerability assessment or penetration testing as part of the Center's IT security compliance assessment and the Contractor shall be required to assist in the completion of these activities.

(3) A decision to accept any residual risk shall be the responsibility of NASA. The Contractor shall notify the NASA system owner and the NASA data owner within 5 working days if new or unanticipated threats or hazards are discovered by the Contractor, made known to the Contractor, or if existing safeguards fail to function effectively. The Contractor shall make appropriate risk reduction recommendations to the NASA system owner and/or the NASA data owner and document the risk or modifications in the IT Security Plan.

(i) The Contractor shall develop a procedure to accomplish the recording and tracking of IT System Security Plans, including updates, and IT system penetration and vulnerability tests for all NASA systems under its control or for systems outsourced to them to be managed on behalf of NASA. The Contractor must report the results of these actions directly to the Center IT Security Manager.

(j) When directed by the Contracting Officer, the Contractor shall submit for NASA approval a post-award security implementation plan outlining how the Contractor intends to meet the requirements of NPG 2810.1. The plan shall subsequently be incorporated into the contract as a compliance document after receiving Government approval. The plan shall demonstrate thorough understanding of NPG 2810.1 and shall include as a minimum, the security measures and program safeguards to ensure that IT resources acquired and used by Contractor and subcontractor personnel --

(1) Are protected from unauthorized access, alteration, disclosure, or misuse of information processed, stored, or transmitted;

(2) Can maintain the continuity of automated information support for NASA missions, programs, and functions;

(3) Incorporate management, general, and application controls sufficient to provide cost-effective assurance of the systems' integrity and accuracy;

(4) Have appropriate technical, personnel, administrative, environmental, and access safeguards;

(5) Document and follow a virus protection program for all IT resources under its control; and

(6) Document and follow a network intrusion prevention program for all IT resources under its control.

(k) Prior to selecting any IT security solution, the Contractor shall consult with their Center IT Security Manager to ensure interoperability and compatibility with other systems with which there is a data or system interface requirement.

(l) The Contractor shall comply with all Federal and NASA encryption requirements for NASA flight programs (e.g., secure flight termination systems, encryption for satellite uplinks, encryption for flight and satellite command and control for both up and down link) and involve the Center Communications Security (COMSEC) Manager when selecting encryption solutions.

(m) The Contractor shall incorporate this clause in all subcontracts where the requirements identified in this clause are applicable to the performance of the subcontract.

E. IMPORTANT: Contractor is not required to sign this document.

14. DESCRIPTION OF AMENDMENT/MODIFICATION *(Organized by UCF section headings, including solicitation/contract subject matter where feasible.)*

The contract quantities and prices are changed as detailed on the following pages.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15a. NAME AND TITLE OF SIGNER *(Type or print)*		15a. NAME AND TITLE OF CONTRACTING OFFICER *(Type or print)*	
		Mark W. Manthey, Contracting Officer	
15B. CONTRACTOR/OFFEROR BY _____ *(Signature of person authorized to sign)*	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA BY _____ *(Signature of Contracting Officer)*	16C. DATE SIGNED

a. Clause B.2, "QUANTITIES OF SERVICES," is replaced in its entirety with the enclosed new clause, which reflects the quantities of services as determined jointly by the parties to be accurate as of February 28, 1998. These new quantities will serve as the baseline for any adjustments made pursuant to clause B.4, "VARIATION IN QUANTITIES."

b. Clause B.4, "VARIATION IN QUANTITIES," is revised by adding the following new paragraph"

"(d) Contract price adjustments resulting from this clause will include retroactive adjustments for the prior contract year and prospective increases for the subsequent year. The prospective adjustment will be based on the prior year's actual quantities. The amount of the retroactive adjustment will be based on the difference in the actual quantities and the quantities on which the related prospective adjustment was based."

c. Clause B.5, "CONTRACT PRICES," is replaced in its entirety with the enclosed new clause, reflecting the total price changes resulting from this modification. These price increases reflect the following items, with the value of each change shown in (parenthesis):

(1) Price adjustment claim pursuant pursuant to clause 52.222-44 resulting from the collective bargaining agreement between ColeJon Mechanical Corporation and Teamsters local 416 dated September 29, 1997 (value: $1,335,018).

(2) Price adjustment claim pursuant to clause 52.222-44 resulting from a new the collective bargaining agreement between JDD, Inc. and Teamsters Local 416 effective March 1, 1999 (value: $94,895)

(3) Price adjustment claim pursuant to clause H.7 resulting from a declared federal holiday and from closure of the Lewis Research Center due to inclement weather (value: $1,318).

(4) Price adjustment for revision of estimated annual quantities, in accordance with paragraph (a) of clause B.4 (value: $575,251).

(5) Retroactive price adjustment for actual quantities of services required during the first contract year, in accordance with paragraph (b) of clause B.4 (value: $6,535).

(6) Price adjustment claim for extensive off-shift requirements performed on May 15-16, 1998 (value: $5,500).

(7) The addition of the "Watchstanding" requirement for contract years 3 through 5, including the correction of the price for year 2, which was added by Contract Modification 9 (value: [redacted] (b)4

(8) Price adjustment for IBEW Local 38 JATC contribution increase (value: [redacted] (b)4

The total value of the changes is [redacted] (b)4

d. Clause E.3 is replaced with the following text, and the referenced attachment is included with this modification:

"E.3 SCHEDULE OF DEDUCTIONS

The unit prices on which any deductions, or price adjustments made pursuant to Clause B.4, "VARIATION IN QUANTITIES," would be based, are itemized on Attachment J-E.1, "Schedule of Deductions."

e. Clause H.2 is revised by adding the following new language to the end of current paragraph (d)(ii)(a), "UPT Pricing:"

"The applicable co-efficient shall be calculated as follows:
(1) determine the percentage of change in the Means Composite labor rate from the prior year;
(2) determine the percentage of change in the Means City Index from the prior year;
(3) sum the result of (1) and (2) above;
(4) determine the percentage of change in the contractor's CBA labor rate from the prior year;
(5) subtracting the results of (3) from (4) above;
(6) add the result of (5) above to the prior year's co-efficient.

f. The Contractor agrees as follows:

Contractor's Statement of Release

In consideration of the modification agreed to herein as complete equitable adjustments for the Contractor's proposals for adjustment, the Contractor hereby releases the Government from any and all liability under this contract for further equitable adjustments attributable to such facts or circumstances giving rise to those adjustments.

B.2 QUANTITIES OF SERVICES

The quantities of each service required to be performed each contract year are set forth below. These quantities may be adjusted in accordance with Clause B.3, "VARIATION IN QUANTITIES."

14. DESCRIPTION OF AMENDMENT/MODIFICATION *(Organized by UCF section headings, including solicitation/contract subject matter where feasible.)*

The contract is modified in scope and in value by the addition of the requirements to perform roads and grounds maintenance services and to provide 24-hour Watchstanding of the boilers in Building 500. The specific changes to the contract are explained on the pages below.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15a. NAME AND TITLE OF SIGNER *(Type or print)*		16a. NAME AND TITLE OF CONTRACTING OFFICER *(Type or print)*	
Clarence H. Sweet		Mark W. Manthey, Contracting Officer	
15B. CONTRACTOR/OFFEROR	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA	16C. DATE SIGNED
BY (Signature of person authorized to sign)	3-1-99	BY (Signature of Contracting Officer)	3/1/99

A. Clause B.5, CONTRACT PRICES, is modified as follows:

1. To reflect the addition of roads and grounds maintenance tasks to section C12;

a. Sections 1001, 2001, 3001, 4001, and 5001 are modified by replacing the existing "$0.00" prices for item C12, Surfaced Areas, with the following:

Contract Period	Monthly Price	Annual Price
March 1998 - Feb 1999	$41,483.50	$ 82,967
March 1999 - Feb 2000	$38,059.50	$456,714
March 2000 - Feb 2001	$38,992.25	$467,907
March 2001 - Feb 2002	$39,143.17	$469,718
March 2002 - Feb 2003	$43,106.10	$517,273

b. Sections 1003, 2003, 3003, 4003, and 5003 are modified by adding the following new labor categories and rates:

Contract line item -->	1003	2003	3003	4003	5003
Straight Time					
Groundskeeper (temp)	$24.33	$23.47	$24.04	$24.04	$24.04
Premium Hours					
Grounds supervisor	$0.94	$0.94	$0.94	$0.94	$0.94
Equipment operator	$0.94	$0.94	$0.94	$0.94	$0.94
Lead groundskeeper	$0.94	$0.94	$0.94	$0.94	$0.94
Groundskeeper	$0.94	$0.94	$0.94	$0.94	$0.94
Groundskeeper (temp)	$24.44	$24.41	$24.98	$24.98	$24.98
Overtime @ 1.5 X					
Grounds supervisor	$49.31	$50.25	$50.60	$50.60	$50.60
Equipment operator	$37.14	$40.38	$41.37	$41.37	$41.37
Lead groundskeeper	$40.31	$37.10	$37.95	$37.95	$37.95
Groundskeeper	$35.25	$35.21	$36.06	$36.06	$36.06
Overtime @ 2 X					
Grounds supervisor	$65.74	$67.00	$67.46	$67.46	$67.46
Equipment operator	$53.74	$53.84	$55.16	$55.16	$55.16
Lead groundskeeper	$49.52	$49.46	$50.60	$50.60	$50.60
Groundskeeper	$47.00	$46.94	$48.08	$48.08	$48.08

2. To reflect the addition of a new contract requirement for 24-hour, in-person monitoring of the Building 500 boilers to section C14;

Section 1001 is modified by adding monthly and annual prices for a new item C14-01d, "Building 500 Watchstanding:"

Contract Period	Monthly Price	Annual Price
March 1998 - Feb 1999	[redacted]	[redacted]

(b)4

3. As a result of the above, the contract values are increased by the following amounts:

Contract Year	Amount of Increase
1	[redacted]
2	$456,714
3	$467,907
4	$469,718
5	$517,273
TOTAL	[redacted]

(b)4

B. The amount of available funding for the fixed-price contract requirements is increased from $5,618,562 by $326,417 to $5,944,979.

C. Section C12, Surfaced Areas, of the Statement of Work, is replaced by the attached new text, which incorporates new requirements for roads and grounds maintenance.

D. Section C14, "Heating Plants," is modified by adding the following new contract requirement:

Watchstanding The physical presence, at the specified station or equipment, of personnel qualified to operate, repair, and maintain that station or equipment and to perform emergency trouble calls on that equipment.

"Contract Requirement No. C14-01d, Building 500 Watchstanding. The Contractor shall provide continuous watchstanding (24 hours/day, 365 days/year), for the steam-generating equipment located in building 500.

E. Clause F.2 is modified by adding, after "except for services required under...," the words "section C.12.5 and..." and by adding the following new sentence after the existing second sentence: "The contractor shall provide the services required under section C.12.5 beginning on January 1, 1999."

F. Clause H.2, DELIVERY ORDER PROCEDURE, is modified by adding the following new parapraph (i):

"(i) Special Ordering Procedures for Snow & Ice Removal

For snow or ice removal services under section C.12.6 of the statement of work, the Contractor shall initiate services as weather conditions require. The government will issue a Delivery Order in advance of anticipated requirements for these services, and the Contractor shall be paid based on actual hours performed in providing these services. However, the Government will not be obligated to pay for, and the Contractor shall not be required to provide, services which cost in excess of the funding which has been provided by the Delivery Order.

E. Attachment J-G.3, "Available Government Special-Purpose Equipment," is modified by adding equipment listed on the attached list, entitled "Roads & Grounds Equipment," which is provided to support the added requirements in section C12 of the Statement of Work.

SECTION C12: SURFACED AREAS MAINTENANCE AND REPAIR

1. GENERAL REQUIREMENTS

a. General Intention. The work under this section shall include REP, ROI, trouble calls, crack sealing; cutout of pavement for utility repairs; excavation and shoring for utility repairs; temporary and permanent patching of sections of bituminous (flexible) and concrete (rigid) pavements; pavement marking; maintenance of interior and exterior signs and barricades; maintenance of guardrails; and maintenance of fencing and associated gates, and grounds maintenance, and internal and external pest control services. The Contractor shall provide repairs to surfaced areas damaged from excavation as a result of making underground utility repairs under this contract. All work shall comply with the applicable directives, manuals and instructions listed in attachment J-C1.1, Section J. Prohibited species shall not be disturbed according to the "Endangered Species Management Plan," Attachment J-C12.3.

b. Attachment J-C12.1 lists all of the Surfaced Areas Maintenance and Repair systems to be serviced under the contract, which include:

(1) Roadways
(2) Parking Lots
(3) Sidewalks
(4) Fences
(5) Traffic Signal Lights
(6) Motorized Gates
(7) Grounds
(8) Building entrances

2. DEFINITIONS

Refer to Section C2.

3. GOVERNMENT-FURNISHED PROPERTY

Refer to Attachment J-G.5 for equipment which will be provided by the Government. In addition, the Government will furnish the fuel and service maintenance for the above equipment and fuel for the mowers. The Government reserves the right to replace any vehicle or equipment that the Government owns. The Contractor will maintain, repair and replace lawn mowers as required, and the replacement mower(s) will be the property of the Contractor.

4. CONTRACTOR-FURNISHED ITEMS

The Contractor shall furnish operator maintenance on all equipment.

5. FIXED PRICE WORK

Recurring Services

The Contractor shall be responsible for routine grounds maintenance that include; grass cutting; maintenance of ornamental areas; collection and removal of leaves; trash and debris from grounds, window wells, roads and ditches; maintenance of earthen mounds; tree, hedges, and shrub trimming and pruning; animal control, and pest control; maintenance of baseball, soccer fields, and the jogging

track. The Contractor is also responsible for snow and ice removal, maintaining the grounds of the Day Care Center; weekly refuse pickup of grounds; maintenance of signs (street, traffic, etc.) maintenance of perimeter fence line and gates; maintenance of roadway and parking lots; and the trucking of excess snow to west area. The maps contained in Attachment J-C12.1d display the grounds to be maintained in this contract.

a. Contract Requirement C12-01 Routine Grounds Maintenance

Routine grounds maintenance shall be performed according to the requirements listed below and as specified on the grounds maintenance maps contained in Attachment J-C12.1d . Maps 1-GM through 4-GM identify the snow/lawn areas to be maintained, the locations of the work described in requirements below and the priority, location and quantities. The grass areas are identified as Type1, Type 2 and Type 3. Routine fixed-price service is required for these areas. Type 1 grass has the same requirements as Type 2 grass, and Type 3 grass has the same requirements as Type 1 and Type 2 with the exception of edging requirements. The Contractor shall provide services according to the requirements, quality standards, and schedule listed below.

(1) Maintain Type I Grass Area

The Contractor shall maintain Type I grass areas to acceptable Industry Standards. Attachment J-C12.1d provides information on the location and geographic boundaries of the land parcels which make up the area and a summary of the type of vegetation which they contain.

(a) Grass Cutting. All grass areas located within this maintenance level shall be maintained according to Industry Standards. Grass areas close or adjacent to buildings, hydrants, parking lots, manholes, fences, trees, hedges, and shrubs are included in mowing requirements. If any bare ground within the limits of a lawn area becomes vegetated with grass, weeds, or other similar growths through natural spread, i.e., not artificially planted, it shall be maintained. Grass cutting is to be accomplished free of scalping, rutting, bruising, and uneven and rough cutting and produce a neat, clean, even cut. After cutting, grass shall have a uniform height. Grass clippings shall be uniformly distributed over the mowed area, and shall not be windrowed or allowed to be deposited in piles or clumps. Grass clippings/trimmings shall be removed from sidewalks and other paved areas the same day the grass is cut and disposed of the day as collected.

(b) Trimming, Maintain around trees, shrubs, flower/shrub beds, cultivated areas, poles, walls, valves, and other similar objects shall be accomplished to match the height and appearance of the surrounding mowed grass. Trimming operations shall not damage trees and shrubs. Trimming with herbicide treatment shall be confined to an area extending a maximum 12 inches from the object being trimmed. Grassed areas, trees, or shrubs killed or damaged as a result of the Contractor's work shall be repaired or replaced by the Contractor at no cost to the Government. Trimming operations shall be considered a part of grass cutting and shall be accomplished concurrently with grass cutting operations. Grass cutting shall not be considered complete until all trimming operations are accomplished.

(c) Weeds and undesirable plant growth shall be eradicated from foundation plantings, ornamental islands, along perimeter fence lines, graveled electrical substations, storage areas and graveled perimeters and drives. The Contractor shall coordinate access to restricted and HARZARD areas with the COTR.

(d) Edging, All sidewalks, driveways, street edges, curbs, and other paved areas located within this maintenance level shall be edged. Edged lines shall be neat and clean, and shall be free of scalping, rutting, bruising, and uneven and rough cutting. All edging shall be performed by

mechanical (non-herbicidal) means, except where driveway and street pavement edges are not discernible due to grass encroachment. In these cases a straight and even line approximating the pavement edge shall be established and maintained by mechanical means. Herbicides shall not be used to eliminate or reduce normal mechanical edging along discernible straight paved edges such as sidewalks and, curbs. In conjunction with edging, all vegetation shall be removed from expansion joints and cracks, and that has encroached onto the paved areas in all paved surfaces in the parcel. Herbicides can be used to reduce the amount of mechanical work that may otherwise be necessary. Debris generated by edging operations that falls or is thrown on sidewalks, curbs, gutters, or streets or is thrown on nearby grass shall be removed from the site and the same day the edging is accomplished and disposed of the same day as collected.

(2) Maintain Type 2 Grass Areas

The Contractor shall maintain Type 2 grass areas as specified in Type I grass areas above in accordance with Industry Standards.

(3) Maintain Type 3 Grass Areas

The Contractor shall maintain Type 3 grass areas as specified in Type I grass areas in accordance with Industry Standards. Edging in this area is required only for the Type 3 grass area along underpass road once monthly and to the edges of the running track twice during the mowing season.

(4) Maintain Ornamental Areas

The contractor shall inspect and police ornamental areas. Areas shall be maintained free of weeds and unwanted grasses. Stone, mulch, and gravel shall be raked to a uniform pattern. Ornamental plantings shall be trimmed if necessary, to a uniform shape.

(5) Collect and Remove Leaves, Trash, and Debris from Grounds, Roads and Window wells

(a) Grass Cutting. Prior to cutting grass, any trash, paper, or other debris that would detract from the finished appearance of the cut or present a safety hazard shall be removed. Such debris includes but is not limited to paper, cans, bottles, limbs, pine cones, rocks, and other such objects within the maintenance area, and shall include trash, paper, dead leaves, and other debris lodged in shrubs, hedges, fences, and along foundation and other walls. Debris shall be disposed of the same day as collected.

(b) Leaf Removal The Contractor shall remove fallen leaves seasonal or as needed to maintain clear lawn areas, flower beds, and window wells. During leaf removal operations, the Contractor shall collect and dispose of all trash and debris. The Contractor shall collect and remove all leaves on grass, in and around shrubs and bushes, along surfaced areas, and next to buildings and structures. The Contractor is required to remove and dispose of leaves, trash, and debris on the same day as collected.

(6) Remove Debris from Open Ditches Culverts and Storm Catch Basins

The Contractor shall inspect and clean debris from open ditches, culverts and storm catch basins. Special inspection and cleaning shall be conducted following severe storms to ensure proper drainage and prevent flooding.

(7) Earthen Mounds

The Contractor shall maintain plant growth on earthen mounds, as shown on maps I -GM through 4-GM. Mounds covered with grass shall be mowed in accordance with Industry Standards. Mounds covered with miscellaneous plant growth shall be maintained with a trimmer. Weeds and grasses shall be eradicated around cable and piping trap that run through, around or over earthen mounds. Area number 22 on the map is not to be maintained. Maintain the exposure of the mound facing Building 204.

(8) Trim and Prune Ornamental and Shade Trees

The Contractor shall maintain ornamental and shade trees, as shown in attachment I.

(a) Tree Inspection. The Contractor shall inspect for dead, damaged, and diseased trees within the improved, semi-improved, and unimproved grounds area during the period of April through October. The contractor shall submit to the COTR, within five work days of the inspection, an inspection report identifying any dead, damaged, or diseased trees and recommend action to be taken.

(b) Tree Pruning. Trees shall be pruned in accordance with the following guidelines to selectively remove unwanted growth and encourage trees to grow or respond in a desired manner. All tree pruning shall be accomplished by or under the supervision of a person who's trained, experienced, and otherwise qualified in proper tree pruning techniques. Verification of such training, experience, and qualifications shall be acceptable to the COTR prior to initiation of any tree pruning. Trees shall be pruned according to their natural growth habit to evenly form and balance the tree, to promote proper health and growth, to respond to damage inflicted by natural or human causes, and to prevent interference with pedestrian and vehicular traffic. All clippings and debris shall be removed and disposed of the same working day. Pruning shall be accomplished in a manner so as to:

(i) Remove dead, damaged, or diseased wood; or structurally weak limbs that may cause a safety hazard or unsightly appearance, including the removal of dead palm fronds.

(ii) Remove branches that extend over buildings and endanger roofs, eaves, and windows; or hang within 8 feet vertically of sidewalks, parking lots, and driveways.

(iii) Provide clearance for buses, moving vans, and similar vehicles along streets.

(iv) Cut back branches that overhang or grow into power lines. Anticipate the effects of wind on branches, which might fall on power lines and cut back accordingly. Shape the entire tree rather than notch the top.

(v) Remove growth of small trees in front of windows, over entranceways or walks, and those that will obstruct vision at street intersections.

(vi) Remove sprouts, which grow from the trunk. Remove sprouts to the height of the first major lateral limb.

(vii) Branch stubs shall not be allowed. All branches shall be pruned (removed) back to the next major limb or the tree trunk. Pruning cuts shall be performed in a manner, which leaves the branch collar exposed (with no stub beyond the branch collar).

(9) Trim Evergreen Trees, Shrubs, and Hedges

The Contractor shall trim all damaged, unsightly or intrusive shrubs and hedges and remove all debris. Shrub or hedge limbs that rub against buildings or structures (including fences), extend over surfaced areas, or interfere with vehicular lines of sight shall also be trimmed or removed. Attachment I provide the identification of evergreen trees, shrubs and hedges.

(a.) Shrubs. The Contractor shall trim and prune all shrubs and bushes, within the improved areas, to remove dead, injured, abnormal or otherwise undesirable growth and to reduce size if shrub or bush is causing interference with a structure or pedestrian or vehicular traffic. The Contractor shall establish and maintain the natural form of the shrubs and bushes by removing old and injured canes and allowing development of young and vigorous shoots. Evergreen shrubs shall be pruned between the beginning of May and the end of October. Summer flowering shrubs shall be pruned after flowering is complete and before the end of July.

(b.) Hedges. Hedges shall be trim to maintain their existing shapes; no informal hedges shall be converted to formal shapes. The Contractor shall maintain hedges free of all dead or broken limbs. All clippings, branches and debris resulting from hedge trimming and pruning shall be removed the same day work is accomplished. Hedge trimming shall be performed between the beginning of May and the end of October.

(10) Animal and Pest Control (indoor and outdoor)

The Contractor shall provide services to set humane traps for the capture, and removal of small nuisance animals such as; raccoons, opossum, woodchucks, ground hogs, squirrel, and birds. Captured animals and birds shall be safely removed from the main area of Lewis and released in a more remote area. If the Contractor is required to remove an injured, diseased or dead deer, the removal shall be coordinated with the City of Brookpark, or the City of Fairview Park or the City of Cleveland. These traps shall be checked daily. Trapped rodents shall be removed from the Lewis Research Center that same day. The Contractor shall provide control and eradication of pests, insects, rodents and other undesirable species, from the grounds and buildings.

(11) Maintain Soccer Field

The Contractor shall maintain the soccer field in accordance with Type 2 Grass. The field shall be maintained from the beginning of May, through the end of September

(12) Maintain Baseball Fields

The Contractor shall maintain the two baseball fields. Foul lines and out of bound markers; shall be maintained. Infield shall be dressed following rainy periods or when compacted. Weeds and grasses shall be eradicated along outfield fence lines. Outfield grass shall be maintained according to Type 2, Grass Area. Infields shall be supplied with soil as required and raked. Following inclement weather, the infields shall be raked. The fields shall be maintained from the beginning of May through, the end of September.

(13) Maintain Jogging Track

The jogging track shall be raked and rolled to maintain a safe jogging environment. Weeds and grasses shall be removed from track surfaces. Ruts and holes shall be filled to maintain even surface.

(14) Snow and Ice Removal

(a) During normal work hours, the Contractor shall remove snow and ice to maintain safe access to facilities by the means of plowing, shoveling and/or abrasive melting agent. Areas include, but are not limited to, all roads and streets, taxi runway, parking areas, walkways, building entrances/exits (including steps, handicapped ramps and landings leading to all building doors), storm water runoff and remove snow that are blocking refuse containers. Also the Contractor shall provide clear access to fire hydrants. Locations and quantities of roads, parking areas, and walkways are specified on maps I-SRP through 3-SRP. If desired, the Contractor can provide and install snow fencing to minimize plowing due to drifting snow in areas identified on the map labeled Attachment E.

(b) Plan of Operation The Contractor shall submit to the COTR for approval a General Snow and Ice Removal Plan of Operations. The Plan should incorporate existing procedures, standards and scheduling documentation, an anticipated order of precedence for snow and ice removal operations considering all of the effected surfaced areas and their relative priorities as specified on the maps. The Contractor shall review the Plan at lease twice annually and submit a updated Plan, at no additional cost to the Government.

(15) Maintain Perimeter Grounds Day Care Center, Building 398

The Contractor shall maintain the perimeter lawn areas around the Day Care Center, Building 398. The lawn areas shall be maintained according to Type 2 Grass Area. Playground pea gravel shall be tilled and raked. Weeds and grasses along perimeter fence lines shall be eradicated. The Contractor shall notify Day Care Center personnel prior to any application of herbicides and bug control.

(16) Maintain the Recreation Grounds (Bldg. 317 & 318) and Management Conference Building (Bldg. 300)

The Contractor shall maintain the grounds free of debris, provide bug control, and remove any low dead tree limbs.

(17) Weekly Sweep of Grounds

The Contractor shall conduct a weekly pick-up of any debris throughout the Center grounds, roadways and streets, and parking lots. The debris generated shall be removed and disposed of the same day.

(18) Signs Maintenance

The Contractor shall provide minor repair and/or refurbishment to existing signs, including posts and sign supports. Sign shall be repaired and/or refurbished to same size, color, design and durability as the original throughout the Center.

(19) Perimeter Fence Line Maintenance

The Contractor shall maintain the inside of the perimeter fence, including removal of debris and trash, grass, weeds, trees (less 2 inches in diameter) and all other vegetative growth to the ground or payment level within a maximum of 12 inches on the inside of the fence lines. The debris generated shall be removed and disposed all the same day.

(20) Roadway and Parking Lots Maintenance

The Contractor shall maintain roadways and parking lots by repairing minor damage, such as small potholes, cracks, or breaks.

(21) Truck Excess Snow to West Area of Lewis

In the event of a large quantity of snow pile built-up, the Contractor shall move excess snow from roadways and parking lots, by loaded into trucks or trailers and transported to the Lewis West Area parking area. The dump area for excess snow is defined in Map 3-SRP.

b. "Trouble Call" Requirements

The Contractor shall perform trouble call work as necessary to ensure normal operation of those items listed in the General Requirements section 1 paragraph B, and maintain surfaced areas necessary to ensure safe and orderly condition. The Contractor also perform trouble call work as necessary to determine the cause of system and equipment malfunctions, eliminate the cause(s), and restore the system or equipment to satisfactory working condition, such as; traffic signal not operating, motorized gate not operating, etc.

6. INDEFINITE QUANTITY WORK

Indefinite quantity work, list below are some examples of IDIQ work, shall be ordered in accordance with section C6 in conjunction with the CMMS

a. Perimeter Fence Line Maintenance.

Fence line maintenance shall consist of the removal of grass, weeds, trees (less than 2 inches in diameter at ground level), and all other vegetative growth to ground or pavement level within a maximum 12 inches on both sides of the fence lines. Debris generated by fence line maintenance shall be removed and disposed of the same working day.

b. Unscheduled Snow and Ice Removal Services

Unscheduled snow and ice removal is defined as snow and ice removal that is not performed during normal work hours. The Contractor shall remove snow and ice to maintain safe access to facilities by the means of plowing, shoveling and/or abrasive melting agent. Areas include, but are not limited to, all roads and streets, taxi runway, parking areas, walkways, building entrances/exits (including stairs, handicapped ramps and landings leading to all building doors), storm water runoff and remove snow that are blocking refuse containers. Also the Contractor shall provide clear access to fire hydrants. Locations and quantities of roads, parking areas, and walkways are specified in Attachment C, maps I-SRP through 3-SRP. If desired, the Contractor can provide and install snow fencing to minimize plowing due to drifting snow in areas identified on the map labeled Attachment E.

c. Road Surface Repair.

Resurfacing, "overlaying" of pavements, is not included in this contract. Repair of large sections of bituminous and concrete pavements, requiring replacement due to excavation and repair of collapsed sections of underground pipes, culverts or other structures, will be ordered as IDIQ work per paragraph C6.3, Section C6.

d. Excavation

The Contractor shall provide excavation services when exposure of underground piping is required to make repairs. The Contractor shall provide installation and removal of shoring, as required, to ensure safe working conditions for Contractor personnel. Upon completion of the excavation, the Contractor will backfill and compacts the excavation to the original grade. The Contractor will break-up and remove concrete, asphalt and other debris and dispose of it at an approved disposal site.

e. Outdoor Chemical Applications, Tree's

The Contractor shall spray or inject ornamental trees with fertilizers, dormant oil and pesticides as required to maintain trees free of disease.

f. Outdoor Chemical Applications

The Contractor shall apply fertilizers, fungicides, insecticides, herbicides, pesticides, and other specified chemicals in order to maintain the Type I and Type 2 Grass areas and plant life, in strict accordance with Lewis Environmental programs Manual and FIFRA.

g. Indoor Chemical Application

The Contractor shall provide services to chemically spray, dust and place bait for the control and eradication of household pests, insects, rodents and other undesirable species'. This service shall comply with all Federal codes and laws covering chemical applications and the services performed by an exterminator, licensed by the State of Ohio in this specific category. Specific attention should be given to building entranceways, rest rooms and areas involving food storage or preparation activities.

h. Type 3 Grass Edging

All sidewalks, driveways, street edges, curbs, and other paved areas located within this maintenance level shall be edged. Edged lines shall be neat and clean, and shall be free of scalping, rutting, bruising, and uneven and rough cutting. All edging shall be performed by mechanical (non-herbicidal) means, except where driveway and street pavement edges are not discernible due to grass encroachment. In these cases a straight and even line approximating the pavement edge shall be established and maintained by mechanical means. Herbicides shall not be used to eliminate or reduce normal mechanical edging along discernible straight paved edges such as sidewalks and, curbs. In conjunction with edging, all vegetation shall be removed from expansion joints and cracks, and that has encroached onto the paved areas in all paved surfaces in the parcel. Herbicides can be used to reduce the amount of mechanical work that may otherwise be necessary. Debris generated by edging operations that falls or is thrown on sidewalks, curbs, gutters, or streets or is thrown on nearby grass shall be removed from the site and the same day the edging is accomplished and disposed of the same day as collected.

7. RECORDS AND REPORTS

Herbicide Reporting - A detailed pesticide application report shall be submitted upon completion of the work..

8. DETAILED SPECIFICATIONS

a. The Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), officially cited in USC Title 7, Section 136, 61 Stat. 163 (1947), as amended, is the basis for federal pesticide legislation. The intent of FIFRA is to regulate the manufacture, transportation, application, storage and disposal of pesticides. The Federal law is administered by the U.S.E.P.A. Chapter 921 of the Ohio Revised Code defines the Ohio Pesticide Law. The Ohio Department of Agriculture enforces it within the State. The Occupational Safety and Health Act (OSHA) Safety and Health Standards pertaining to FIFRA are contained in.29 CFR 1910.

b. The Contractor shall be licensed by the State of Ohio to provide vegetation control in the categories specified in this contract. All work shall be in accordance with federal, state, local laws and Lewis regulations. All tanks, hoses, pups, control valves, and gauges shall be free of visible deterioration, shall not leak, and shall operate at the manufacturers' recommended rates and pressures. Contractor furnished equipment that has failed shall be replaced or repaired by the Contractor prior to resuming operations. Extreme care shall be exercised to avoid entry of herbicides into drainage structures, streams, ditches, and storm sewers.

c. The Contractor shall comply with the Lewis Environmental Programs Manual, ref. Chapter 24, Pest Control.

d. The Contractor shall protect plants and wildlife in accordance with the Lewis Endangered Species Management Plan, Attachment J.

e. Prior to entering and performing any grounds maintenance tasks in Area #34, and any other areas identified on the maps as hazard areas, the Contractor shall request and receive prior entry approval from the COTR.

f. All Contractor Employees operating snow removal equipment required a Commercial Drivers License (CDL) and shall possess a CDL. Equipment operators for all equipment shall be fully qualified to operate the equipment. In addition to equipment operation, qualifications shall include a thorough knowledge of station pavement layout including all curbs, guardrails, parking lots, hydrants, traffic signs, and utility access covers.

Attachment J-C12.1d

Grounds Inventory

Grounds Inventory

Grounds Maintenance work consists of approximately eighty-one acres of maintainable grass and eighty acres of field areas.

Fence

45,000 linear feet of fence line including the perimeter fence, substation enclosures, transformer enclosures, storage site enclosures and restricted enclosures.

Graveled Area

6 acres - Miscellaneous graveled area including areas around buildings, test sites and under overhead structures

5 acres - Around substations and transformers

4 acres - Around strage areas in South 40

1/10 acre - West Area Road berms

1-1/2 acre - Photovoltaic Complex

Shrubs

300 medium sized ornamental shrubs

Trees

450	Small to medium size ornamental flowering trees
140	Small to medium size shade trees

10. Appendix; Presidential Memorandum on Environmentally and Economically Beneficial Landscape Practices on Federal Landscaped Grounds 24

Executive Summary

This document is an outgrowth of the Biological Inventory of Lewis Research Center. The inventory was taken in 1995. The purpose of this Endangered Species Management Plan (ESMP) is to: present information on the Ohio-listed species at Lewis Research Center (LeRC); to define conservation goals for these species; to outline a plan for management of the species and their habitat that will enable achievement of conservation; to introduce landscaping practices designed to provide the Center with environmentally and economically beneficial results; and discuss other recommendations provided in the Biological Inventory report.

Implementing the recommendations will result in:

1. landscaping practices that comply with the letter and spirit of the Endangered Species Act, and;

2. compliance with an Executive Memorandum which addresses landscaping practices within federal facilities.

The level of effort required to meet these goals maybe outweighed by the cost savings resulting from more environmentally beneficial landscaping practices.

Executing the Plan requires that areas harboring potentially threatened species be protected. Three localized areas will be posted with signs notifying persons in the area of the presence of threatened species. Twice a year, the Environmental Management Office will monitor each of the areas to determine the health and abundance of the target species. This information will be recorded and placed on file within the Environmental Management Office. If any listed species displays a significant reduction in number, the EMO will consult with Ohio Department of Natural Areas and Preserves regarding plans for a recovery effort. All practicable means will be taken to implement the recommended recovery plan.

Three areas of Lewis have been designated as areas which should receive special conservation practices. These areas include the wooded area behind Building 309, Abram Creek Valley, and grassland adjacent to the airport. It was recommended that the grassland adjacent to the airport not be mowed until late summer to preserve habitat for birds. The remaining two areas should not be disturbed.

There is an optional practice that would generally benefit most desirable species. Some lawn areas within Lewis serve no purpose other than aesthetics. These areas could be permitted to revert to medium and tall grass meadows. This practice would reduce the level of maintenance effort at the Center while generally benefiting the environment.

1.0 Introduction

1.1 General Objectives and Purpose

The purpose of this Endangered Species Management Plan (ESMP) is to: present information on the Ohio-listed species at Lewis Research Center (LeRC) (Map 1); to define conservation goals for these species; to outline a plan for management of the species and their habitat that will enable achievement of conservation; to introduce landscaping practices designed to provide the Center with environmentally and economically beneficial results; and discuss other recommendations provided in the Biological Inventory report.

1.2 Regulations

The Endangered Species Act of 1973 established the purposes and policies of the United States with respect to endangered species. This Act requires Federal agencies to ensure that all federally associated activities within the United States do not have adverse impacts on the continued existence of threatened or endangered species or critical habitats that are important in conserving those species. 50 CFR 17.11 and 17.12, implemented in 1983, address endangered and threatened species and provide a listing of species which fall within these categories. The State of Ohio maintains its own Endangered and Threatened Species programs. Ohio's program is codified in ORC 1517 and 1518.

1.3 Applicability to LeRC

The Biological Inventory of NASA Lewis Research Center (1996), revealed the presence of no federally recognized endangered species. This was the conclusion of a survey performed at Lewis by the Ohio Department of Natural Areas and Preserves. The survey did, however, confirm the presence of a few state-listed potentially threatened species. The state regulations do

not apply on Federally owned land. Furthermore, the species located are potentially threatened, and state law does not require conservation of these species.

1.4 Plan Intent

Although environmental compliance is the greatest concern in resource management practices at LeRC, it would be shortsighted to ignore the long term consequences of landscape management practices. The presence of state listed potentially threatened species at Lewis has been documented. It is in the long term best interest of NASA to manage its landscape resources in a manner that will provide the critical habitat that will encourage the continued existence of potentially threatened species. This is the primary goal of this Management Plan. This Management Plan also addresses the general recommendations of the Biological Inventory report, which encourages Lewis to seek opportunities to use native plant species in its landscaping practices.

The components of the plan include, but are not limited to:

- Information on the species and habitat distribution and the size of the installation population
- Objective, measurable criteria for meeting conservation goals
- Specific management guidelines and necessary actions to meet those goals
- Estimates of the time, the cost, and the personnel needed to carry out those measures
- Recommended monitoring practices

2.0 Species Information

2.1 Plant Communities

No significant plant communities were discovered in 1995 at the Lewis Research Center. The natural vegetation has been highly disturbed by removal of forest cover and subsequent

FIGURE 1; *Castanea dentata*, AMERICAN CHESTNUT
ENDANGERED SPECIES MANAGEMENT PLAN
September 5, 1996

2.2.2 *Pycnanthemum muticum* (Michx.) Pers. Blunt Mountain-mint (Figure 2)

The following technical description of this species is adapted from "The Biological Inventory of LeRC";

Perennial, to approximately 80 centimeters (31 in.) tall; stems downy on sides and angles; leaves ovate to ovate-lanceolate, more than three times as long as wide, the margins serrate; cymes dense and head-like, with no or only the primary branches visible; calyx radially symmetrical; corolla whitish, approximately 5 mm (.2 in.) long. A few northeasternmost Ohio counties; open rocky areas, fens. Flowers late July-mid-September.

About 40-45 flowering plants of blunt mountain-mint were found along the edge of a wooded slope on the west side of Abram Creek northeast of Building 319 (Map 4). This perennial species occurs in sunny openings and edges in northeastern Ohio.

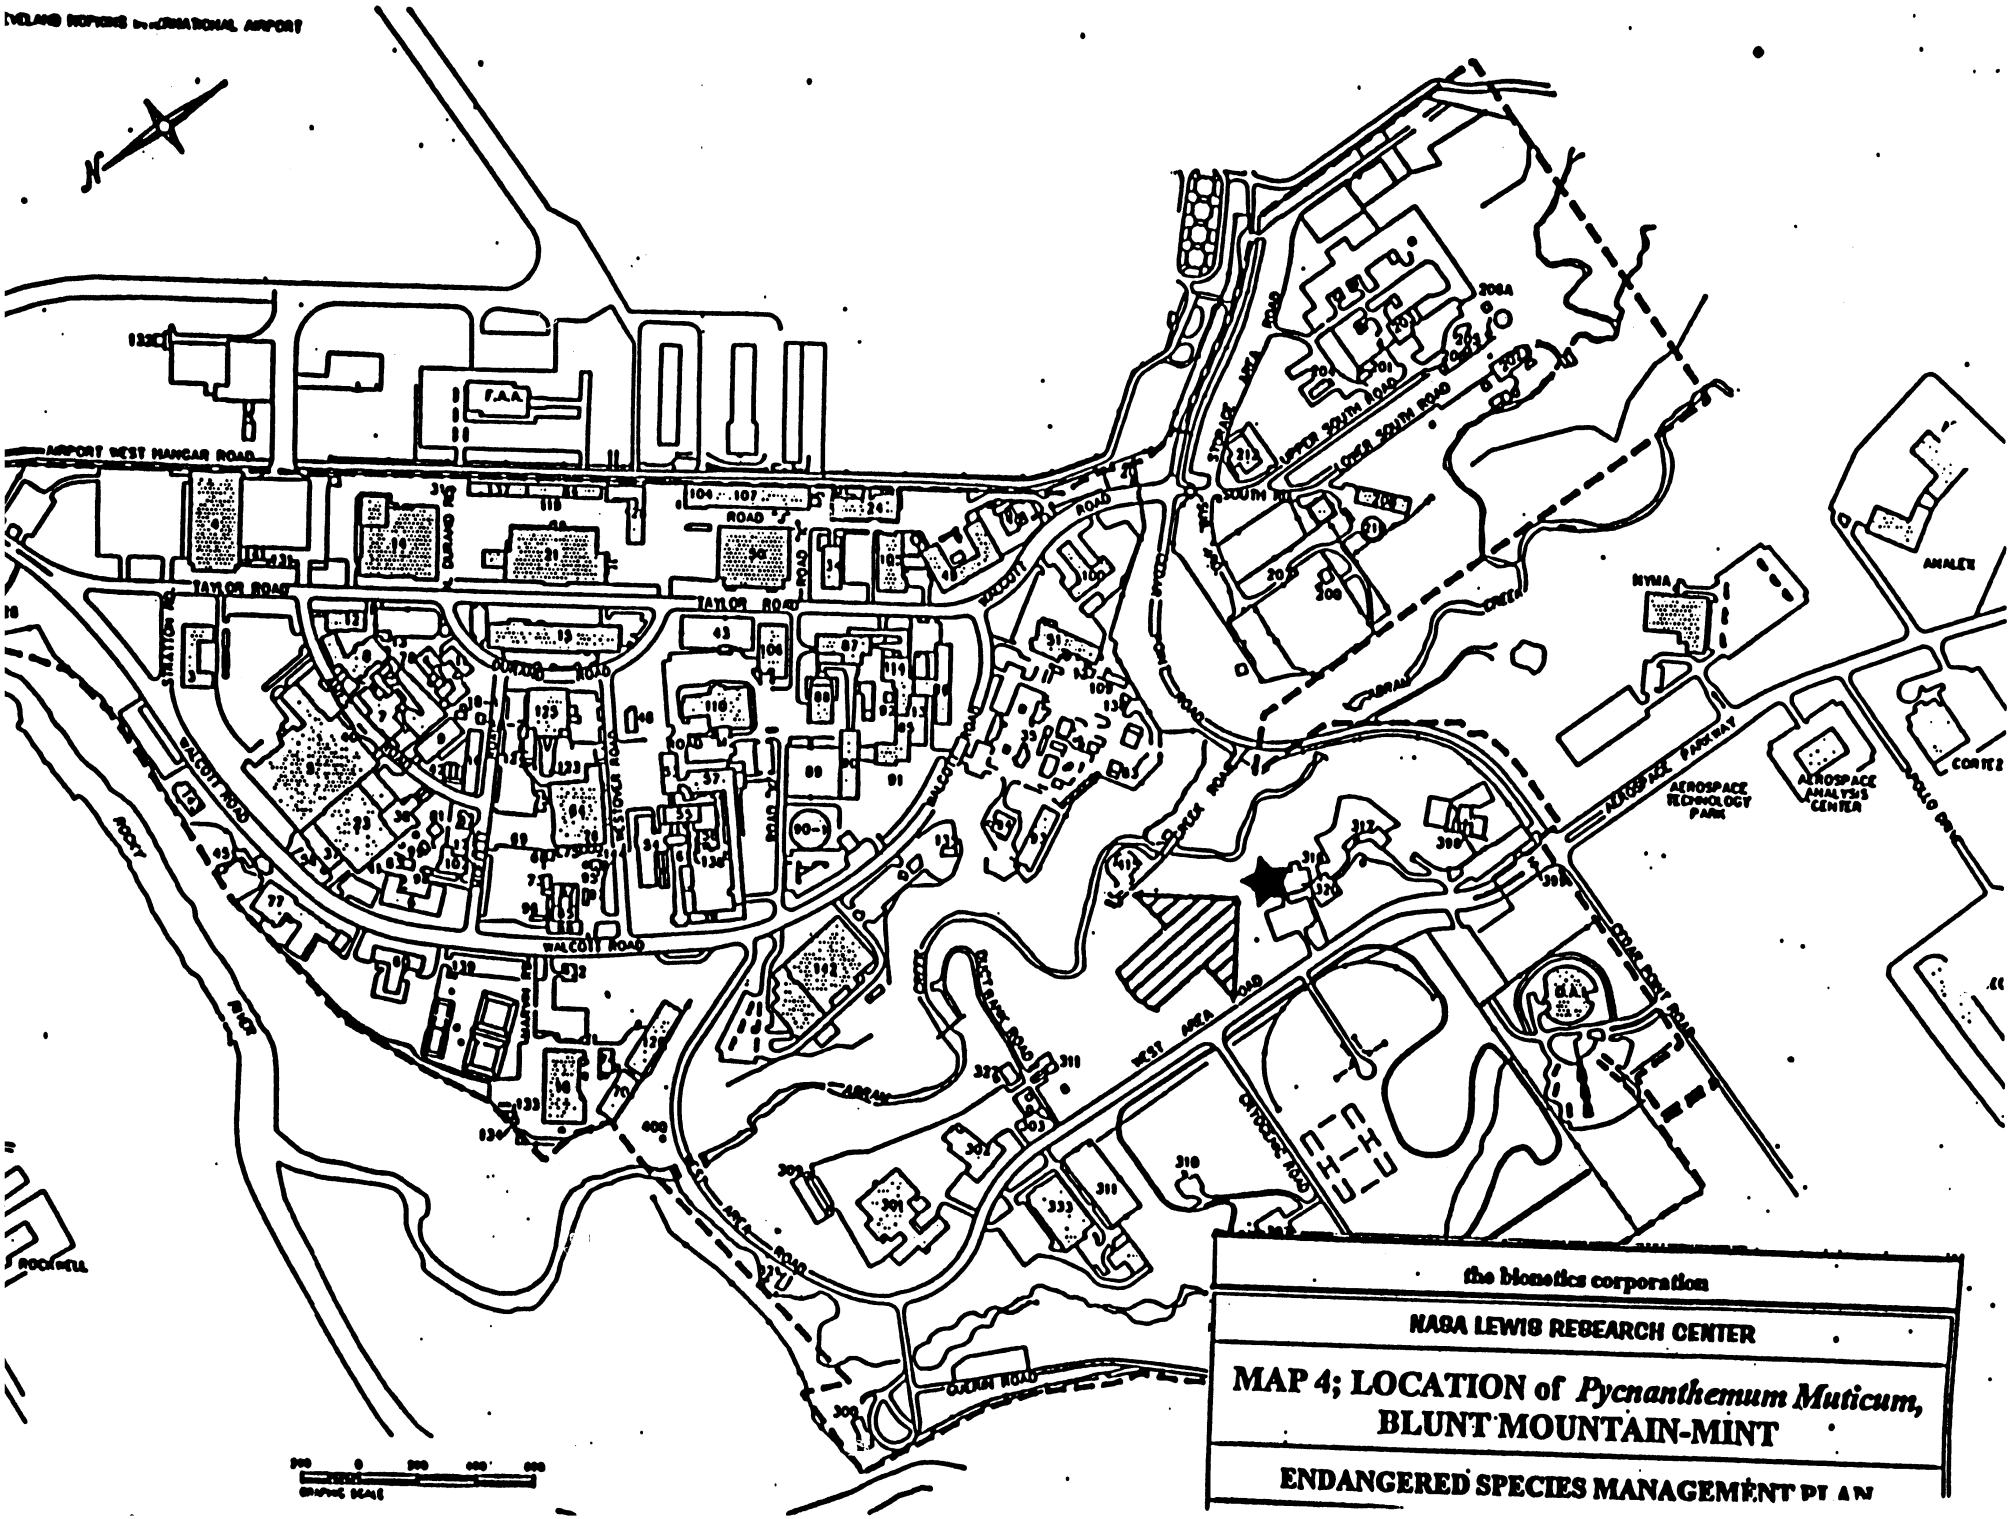
2.2.3 *Vitis cinerea* (Millard) Pigeon Grape (Figure 3)

The following technical description of this species is adapted from "The Biological Inventory of LeRC";

Woody vine; stems with tendrils and flowers at not more than any two consecutive nodes; leaves unlobed or with two very short lateral lobes or mere shoulders; young stems, petioles, and veins on leaf undersurface all densely beset with short, stiffish, diverging hairs approximately 0. 2 mm (.05 in.) long. Southern, mostly extreme south-central,)Ohio counties; bottomland thickets, stream banks. Flowers in June.

Some Ohio specimens are intermediates between *V. cinerea* and *V. aestivalis*. Most can be assigned to one species or the other, but a few cannot be satisfactorily placed in either.

In Moore's (1991) treatment, adopted here, Ohio plants are assigned to var. *baileyana* (Munson) Comeaux (V. *baileyana* Munson); var. *cinerea* occurs to the Southwest of Ohio.



the bionetics corporation
NASA LEWIS RESEARCH CENTER
MAP 4; LOCATION of *Pycnanthemum Muticum*, BLUNT MOUNTAIN-MINT
ENDANGERED SPECIES MANAGEMENT PLAN

Three vines of pigeon grape were found climbing on trees on the blufftop on the east side of the gorge of Abram Creek south of Building 142 (Map 5). This species is extremely similar to the common summer grape (*Vitis aestivalis*) which occurs throughout Ohio and which also grows at LeRC.

3.0 Conservation Goals

The conservation goals of LeRC are:

- to avoid activities that may destroy, inhibit, or adversely effect the survival of a federal or state listed species under the control of LeRC
- to maintain or promote the abundance and health of federal or state listed species under the control of LeRC
- to minimize the impact of activities at LeRC that may destroy, inhibit, or adversely affect the high quality habitat identified in the Biological Inventory report
- to use regionally native plants for landscaping whenever practicable.

4.0 Management Prescriptions and Actions

4.1 Ohio Threatened Species

The conservation goals are listed according to the species or category.

4.1.1 *Castanea dentata* (American chestnut)

The tree has an estimated short lifetime, due to its diseased condition. Therefore, no special management practices are recommended for this species. Avoidance of significant disturbances of the tree or its local environment is suggested. Warning signs, with notification requirements, will be installed in the vicinity of this plant.

4.1.2 *Pycnanthemum muticum* (blunt-mountain mint)

To insure long-term vigor or spread of this population, it is recommend that there be no mowing or clearing of the brushy edges of the slopes in the vicinity of the plants. The use of herbicides in this area must be approved by the Environmental Management Office. Warning signs, with notification requirements, will be installed in the vicinity of this plant community.

4.1.3 *Vitis cinerea* (pigeon grape)

The Ohio Department of Natural Areas and Preserves has recommended that no grape vines at LeRC be unnecessarily cut. The vines of pigeon grape should not be disturbed, but allowed to continue growing on the sunny edge of the wooded slope. The use of herbicides in this area must be approved by the Environmental Management Office. Warning signs, with notification requirements, will be installed in the vicinity of this plant community.

4.2 Management of Natural Wooded Habitat

Conservation strategies should be directed toward protection of large trees on the northwestern blufftops, valley walls, and floodplain of Abram Creek.

The oaks and other large trees may be enhanced and protected by the following means:

1) The ground surface should not be altered by digging into the soil or by adding to the soil depth. Both activities may have adverse impacts upon the root system of the trees. All construction should be undertaken as far away from the tree roots as possible.

5.2 Metrics

The success of this Management Plan will be measured by:

-the health and abundance of listed species under the control of LeRC
-the health and abundance of high quality habitat under the control of LeRC
-the reduction in the use of pesticides, fuel, labor, and energy at LeRC attributable to the implementation of the Management Plan
-the reduction in the volume of solid waste generated at LeRC attributable to the implementation of the Management Plan.

5.3 Costs Associated with Implementing the Plan

This Plan requires that signs be prepared for each of the three protected areas. Approximately seven weather resistant signs should be prepared and mounted securely in the protected areas. This effort should cost less than $1000.00 in materials and labor.

Monitoring the protected areas will require that a competent individual visit each protected area a minimum of two times per year. Inspection of all three sites and completion of the paperwork should require no more than eight hours of labor per year.

6.0 Responsibilities

6.1 The Environmental Management Office

The EMO will be responsible for the implementation of this plan and monitoring functions.

8.0 Definitions

Critical habitat

The specific areas within the geographical area occupied by the species, at the time it is listed in accordance with the provisions of Section 4 of the Endangered Species Act, on which are found those physical or biological features essential to the conservation of the species and which may require special management considerations or protection; and specific areas outside the geographical area occupied by the species at the time it is listed in accordance with the provisions of Section 4 of the Endangered Species Act upon a determination by the Secretary (of the Interior) that such areas are essential for the conservation of the species.

Endangered species

Any species listed, pursuant to the Endangered Species Act, which is in danger of extinction throughout all or a significant portion of its range.

Extirpated

A species or subspecies that occurred in Ohio at the time of European settlement and that has since disappeared from the state.

Listed species

Any species of fish, wildlife, or plant that has been determined to be endangered to threatened under Section 4 of the Endangered Species Act. Listed species are found in 50 CFR 17.11-17.12.

Native plant

A native plant species is one that occurs naturally in a region, ecosystem and/or habitat without direct or indirect actions.

(d) implement water-efficient practices, such as the use of mulches, efficient irrigation systems, audits to determine exact landscaping water-use needs, and recycled or reclaimed water and the selecting and siting of plants in a manner that conserves water and controls soil erosion Landscaping practices, such as planting regionally native shade trees around buildings to reduce air conditioning demands, can also provide innovative measures to meet the energy consumption reduction goal established in Executive Order No. 12902, Energy Efficiency and Water Conservation at Federal Facilities;" and

(e) create outdoor demonstrations incorporating native plants, as well as pollution prevention and water conservation techniques, to promote awareness of the environmental and economic benefits of implementing this directive. Agencies are encouraged to develop other methods for sharing information on landscaping advances with interested nonfederal parties.

In order to assist agencies in implementing this directive, the Federal Environmental Executive shall:

(a) establish an interagency working group to develop recommendations for guidance, including compliance with the requirements of the National Environmental Policy Act, 42 U.S.C. 4321, 4331-4335, and 4341-4347, and training needs to implement this directive. The recommendations are to be developed by November 1994; and

(b) issue the guidance by April 1995. To the extent practicable, agencies shall incorporate this guidance into their landscaping programs and practices by February 1996.

In addition, the Federal Environmental Executive shall establish annual awards to recognize outstanding landscaping efforts of agencies and individual employees. Agencies are encouraged to recognize exceptional performance in the implementation of this directive through their awards programs.

Agencies shall advise the Federal Environmental Executive by April 1996 on their progress in implementing this directive.

To enhance landscaping options and awareness, the Department of Agriculture shall conduct research on the suitability, propagation, and use of native plants for landscaping. The Department shall make available to agencies and the public the results of this research.

E. IMPORTANT: Contractor ☐ is not, ☒ is required to sign this document and return 1 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION *(Organized by UCF section headings, including solicitation/contract subject matter where feasible.)*

a. Block 20 of the award page of the contract is modified by replacing the stated amount of $3,700,000.00 with $5,415,543.00, the correct total contract value for the base period of the contract.

b. Clause B.2, "QUANTITIES OF SERVICES," is modified by adding the following 3 new lines:

PRS No.	PRS Title	Annual Quantity	Unit
C17-17b	Building HV System Protective Relays Triennial PGM	275	Each
C16-08	Waste Basin Facility Operation	52	Week
C16-09	Waste Basin Semi-annual PM	2	Each

(continued on page 2)

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15a. NAME AND TITLE OF SIGNER *(Type or print)*		15a. NAME AND TITLE OF CONTRACTING OFFICER *(Type or print)* Mark W. Manthey, Contracting Officer	
15B. CONTRACTOR/OFFEROR BY _____ *(Signature of person authorized to sign)*	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA BY _____ *(Signature of Contracting Officer)*	16C. DATE SIGNED

c. Clause B.5, CONTRACT PRICES, is modified under items 1001, 2001, 3001, 4001, and 5001 to reflect the additional fixed price requirements for new contract requirements. These price increases are retroactive to the start of the contract.

(1) As a result of the new contract requirement C9-17b, the monthly and annual prices for Item C9, "Electrical Distribution Systems," are replaced with the following new prices:

	Monthly			Annual		
	Previous Price	Increase	New Price	Previous Price	Increase	New Price
Base Year	$120,852	$3,712	$124,564	$1,450,219	$44,550	$1,494,769
Year Two	122,711	3,690	126,401	1,472,532	44,275	1,516,807
Year Three	128,939	3,804	132,743	1,547,263	45,650	1,592,913
Year Four	135,874	2,727	138,601	1,630,488	32,725	1,663,213
Year Five	142,811	2,727	145,538	1,713,736	32,725	1,746,461

The total value of the price increases for item C9 is $199,925.

(2) As a result of the new contract requirements C16-08 and C16-09, the monthly and annual prices for item C16, "Utility Distribution Systems," are replaced with the following new prices:

	Monthly			Annual		
	Previous Price	Increase	New Price	Previous Price	Increase	New Price
Base Year	$9,652	$391	$10,043	$115,828	$4,688	$120,516
Year Two	9,386	402	9,788	112,638	4,818	117,456
Year Three	9,394	413	9,807	112,722	4,962	117,684
Year Four	9,399	425	9,824	112,787	5,101	117,888
Year Five	9,398	437	9,835	112,775	5,245	118,020

The total value of these price increases for item C16 is $24,814.

(3) The combined total value of the price increases is $224,739.

c. Clause B.5, CONTRACT PRICES, is modified under Item 1003 to increase the hourly rates applicable to all Delivery Orders issued under this line item after Delivery Orders for a total of 4,980 labor hours have been issued. The increased rates shall be [redacted] times the existing rates as priced in the Contractor's proposal dated December 30, 1997.

d. Clause B.5, CONTRACT PRICES, is further modified by adding Line Items 1004, 2004, 3004, 4004, and 5004, which are "cost-only" rates. These rates shall be the hourly Line Item 1003, 2003, 3003, 4003, and 5003 rates, as priced in the Contractor's proposal dated December 30, 1997, divided by [redacted]. These rates shall be applied in accordance with Section C5-4.c.(2), as added below by this contract modification.

e. The enclosed new subpart 6, "YEAR 2000 COMPLIANCE," is added to Section C3 of the Statement of Work.

f. The enclosed revised subpart 4 of Section C5 of the Statement of Work, "Trouble Calls," replaces the existing subpart 4.

g. The enclosed new paragraph, requiring the Contractor to provide Government access to the Contractor's proprietary computer system, "Capella," is added to subpart 1.d, "Records and Reports," of Section C7.

h. Section C16, subpart 5, "FIXED PRICE WORK," is modified by adding new contract requirements C9-17b, C16-08 and C16-09. The descriptions of the new requirements, including new Checklists, are enclosed.

i. Clause E.3, "SCHEDULE OF DEDUCTIONS," is modified by adding the following new unit prices for the related new contract requirements:

PRS No.	PRS Title	Unit	Yr. 1	Yr. 2	Yr. 3	Yr. 4	Yr. 5
C17-17b	Bldg. HV Protect Relay	each	$162	$161	$166	$119	$119
C16-08	Waste Basin Facility Ops.	week	82	84	87	89	92
C16-09	Waste Basin Semi-Annual PM	each	216	222	229	236	242

j. Clause G.2, "SUBMISSION OF VOUCHERS," is modified by replacing the existing paragraph (a) with the following new paragraph:

(a) For the scheduled, recurring requirements performed for the fixed price, 1/24th of the annual price may be invoiced twice each calendar month. The first invoice each month may be submitted no earlier than the 15th day of each month, and the second invoice may be submitted no earlier than the 1st day of the month subsequent to the month being invoiced.

k. Clause G.4, "GOVERNMENT PROPERTY AVAILABLE UNDER THIS CONTRACT," is modified to reference the enclosed new Attachment J-G5, which shall be used to determine when the Special Purpose Equipment should be replaced (Table I) and the configuration requirements of any such replacement (Table II).

l. Clause H.2, "DELIVERY ORDER PROCEDURE," is modified in sections (b)(1) and (d)(ii)(a), "UPT Pricing," as shown below. A complete revision of Clause H.2, incorporating these changes, is enclosed.

Section (b)(1) changes:

A functional description of the work identifying the objectives or results desired from the contemplated delivery order, including listings of the Unit Priced Tasks (UPT's) and of the Non-pre-priced-unit tasks (NPPUT's). ***UPT's*** ~~which~~ are those ***work*** items ***consisting*** of ***new or replacement installations*** ~~work~~ ***the type of*** which ***are specifically listed in the "Facilities Construction Cost Data" manual published by the R. S. Means Company, Inc.*** ~~can be priced based on R.S. Means cost estimating standards,~~ ***NPPUT's***, ~~which~~ are items of work ***consisting of unscheduled services or alterations or modifications of existing equipment*** which ***are not specifically listed in the Means manual.*** ~~cannot be priced based on the Means standards;~~

Section (d)(ii)(a) changes:

UPT Pricing - The PULSAR software program shall be used for pricing UPT items. In developing prices, the latest edition, as of the date the price proposal is developed, of the "Facilities Construction Cost Data" manual published by the R. S. Means Company, Inc., shall be the basis for pricing of all UPT's. The total price of UPT's shall be the product of the Means-derived values times the applicable co-efficient listed in Clause B.4. ***If Government Material is to be provided under the Delivery Order, the Means-derived price shall be reduced by a reasonable proportion of the materials component of that price.***

The following new section is added to Section C3 of the Statement of Work:

6. YEAR 2000 COMPLIANCE

(a) "Year 2000 compliant," as used herein, means that the information technology (hardware, software and firmware, including embedded systems or any other electro-mechanical or processor-based systems used in accordance with its associated documentation) accurately processes date and date-related data (including, but not limited to, calculating, comparing, and sequencing) from, into, and between the twentieth and twenty-first centuries, and the years 1999 and 2000 and leap year calculations, to the extent that other information technology (IT), used in combination with the information technology being acquired, properly exchanges date and date-related data with it.

(b) Any IT provided or operated under this contract must be Year 2000 compliant. To ensure this result, the Contractor shall provide documentation describing how the IT items or services demonstrate Year 2000 compliance, consisting of standard product.

(c) Milestones for Renovation, Validation and Implementation: Any IT determined to be non-Year 2000 compliant shall be replaced, retired, or repaired in accordance with the following schedule:

"Renovation" includes making and documenting software and hardware changes, developing replacement systems, and decommissioning systems to be retired. The Contractor must complete renovation of affected software, hardware and firmware by September 30, 1998.

"Validation" includes unit, integration, system, and end-to-end testing for Year 2000 compliance. The Contractor must complete validation and testing of converted or replaced systems by January 31, 1999.

"Implementation" includes acceptance testing and integration of converted and replaced systems into a production environment. The Contractor must complete implementation by March 31, 1999.

(d) At a minimum, the Contractor shall provide documentation, including project plans and status reports, which demonstrate that the Contractor is meeting the milestones listed above.

Subpart 4 of Section C5 of the Statement of Work is replaced with the following new language:

4. Trouble Calls

a. Definition. Trouble Calls are service calls for repair, adjustment, or replacement necessary to correct a malfunction of any existing equipment or facilities maintained or operated under this contract and which normally should be completed for less than $2,000 in total costs (excluding profit) for labor, materials, and equipment.

b. Completion. A Trouble Call is determined to be completed when the following conditions have been met:

(1) Emergencies - The hazardous condition has been eliminated, either by repair, adjustment, replacement, or by isolation or shut down of the portion of the system in which the hazardous condition existed. If the initial response was isolation or shut down, subsequent and permanent correction of the problem shall also be performed, unless the cost of such correction and the cost of the initial response, would exceed $2,000 (in such case, a Delivery Order will be issued to perform the permanent correction).

(2) Routine - The cause of the system malfunction has been positively diagnosed and permanently corrected.

c. Limitations.

1. Emergency Trouble Calls

There is no limitation of the Contractor's financial responsibility with regard to responding to Emergency Trouble Calls, other than that set forth in b(1) above.

2. Routine Trouble Calls

(a) Once the cause of the problem has been positively diagnosed by the Contractor it is clear that the permanent correction of the system malfunction would, when combined with the cost of its diagnosis, exceed $2,000, the Contractor is not required to continue work under that Trouble Call. In this case, the Contractor shall notify the Government of the Contractor's diagnosis and a preliminary estimated cost to correct the problem under Delivery Order pricing.

(b) If the Contractor has not positively diagnosed the cause before it has incurred more than $2,000 in costs, continuation and completion of the diagnosis will be paid for at the hourly prices in Schedule B, line item *004.

(c) Where permanent correction would exceed $2,000, but temporary correction would not, temporary correction shall be made. If only temporary correction is made, the Contractor shall so notify the Government along with a preliminary cost estimate for permanent correction under Delivery Order pricing.

d. Limitation of Government's Liability. If the Contractor does not notify the Government, and incurs costs in excess of $2,000 to continue or completes the requirement, the Government is not obligated to place a Delivery Order and the Contractor may be liable for all cost incurred under the original Trouble Call.

The following new paragraph is added to Section C7, subpart 1.d:

The Contractor shall provide up to 15 Government workstations, through the Government Local Area Network, access to the Contractor's proprietary computer system ("Capella"). This access shall provide the Government, for any maintenance or repair work required to be performed under this contract, with current work status, parts availability, project management reports, work schedules, quality reports, and other data as mutually agreed between the Government and the Contractor.

The following new Contract Requirement is added to Section C9, subpart 5:

cc.1. Contract Requirement No. C9-17b, Building HV System Protective Relays Triennial PGM

The following 2 new Contract Requirements are added to Section C16, subpart 5:

h. Contract Requirement No. C16-08, Waste Basin Facility Operation. The Contractor shall maintain 100% operational status and system integrity of the industrial waste basin facility (bldg. 103), ensuring proper operation, making necessary adjustments and recording any discrepancies and reporting them to the Government. The following specific functions shall be performed three times each week:

- Inspect oil separator (skimmer) for proper operation
- Check oil level in waste oil holding tank
- Arrange for disposal of excessive oil in waste oil holding tank
- Inspect valve inlet pits to ensure they are dry
- Pump out water inlet valve pits contain liquid
- Check water level in basin #3
- when the basin is 3/4 full, pump to sanitary sewer until empty
- Check pumps for proper operation
- Make necessary adjustments to pumps when not operating properly

i. Contract Requirement No. C16-09, Waste Basin Semi-Annual PM.

The following new Checklist is added to attachment J-C9.2:

The following new clause H.2 replaces the existing clause H.2 in its entirety:

H.2 DELIVERY ORDER PROCEDURE

(a) Only the Contracting Officer may issue delivery orders to the Contractor, providing specific authorization or direction to perform work within the scope of the contract and as specified in the schedule. The Contractor may incur costs under this contract in performance of delivery orders and delivery order modifications issued in accordance with this clause. No other costs are authorized unless otherwise specified in the contract or expressly authorized by the Contracting Officer.

(b) Prior to issuing a delivery order, the COTR will provide the Contractor with the following data via the CMMS:

(1) A functional description of the work identifying the objectives or results desired from the contemplated delivery order, including listings of the Unit Priced Tasks (UPT's) and of the Non-pre-priced-unit tasks (NPPUT's). UPT's are those work items consisting of new or replacement installations the type of which are specifically listed in the "Facilities Construction Cost Data" manual published by the R. S. Means Company, Inc. NPPUT's, are items of work consisting of unscheduled services or alterations or modifications of existing equipment which are not specifically listed in the Means manual.

(2) a required completion date; and

(3) any applicable drawings, sketches and supplemental sheets.

(c) Within 10 working days after receipt of the COTR'S request, the Contractor shall submit a plan to perform the work. This plan shall include a complete listing of all tasks necessary to satisfactorily accomplish the overall work scope, and indicate any specific areas of disagreement with the Government's initial functional description of the work. For NPPUT items, this plan shall include the proposed labor effort, in terms of hours, using the labor categories listed in Clause B.4, and a listing of the types and amounts of any materials and equipment needed to be acquired for those NPPUT items. Any areas of disagreement over the scope of work will then be negotiated between the COTR and the Contractor.

(d) Development of prices

(i) Prior to developing a complete plan, the Contractor shall provide a preliminary price estimate for each NPPUT item within 3 working days of any such request by the COTR.

(ii) Subsequent to agreement of the scope of work, the Contractor shall prepare, and submit within 10 working days of such agreement, a detailed proposed fixed price for performing the work. UPT and NPPUT items shall be itemized separately and priced as follows:

(a) UPT Pricing - The PULSAR software program shall be used for pricing UPT items. In developing prices, the latest edition, as of the date the price proposal is developed, of the "Facilities Construction Cost Data" manual published by the R. S. Means Company, Inc., shall be the basis for pricing of all UPT's. The total price of UPT's shall be the product of the Means-derived values times the applicable co-efficient listed in Clause B.4. If Government Material is to be provided under the Delivery Order, the Means-derived price shall be reduced by a reasonable proportion of the materials component of that price.

(b) NPPUT Pricing - Prices of NPPUT work items shall be developed as follows.

1. Labor - The negotiated labor hours for each labor category will be multiplied by the applicable hourly rates listed in Clause B.4.

2. Material - For each individual repair part or material item which exceeds $2,500, the Contractor shall provide

quotes from at least 3 vendors, identifying each vendor's name and quoted price or prices, including any available discounts and rebates for core or salvage value. The proposed price must be based on the lowest quote obtained.

3. Equipment - For each piece of equipment which the Contractor must acquire to perform the work and which will cost more than $2,500, the Contractor must provide quotes from at least 2 vendors. For each equipment item, the Contractor shall describe it in terms of size, capacity, and quantity.

4. Total Price - The total price for NPPUT items shall be calculated as follows (references to "line items" are to the numbered line items contained in Clause B.4):

   a. multiplying the labor hours by the unit prices for line item *003A*, and

   b. multiplying the material quantities quoted unit prices by the multiplier in line item *003B, and

   c. multiplying the equipment quantities and quoted prices by the multiplier in line item *003C, and then

   d. adding those three amounts.

(* - these digits vary for each contract year or "sub-line" item)

(d) After review and any further discussions, the Contracting Officer may issue a Delivery Order to the Contractor containing, as a minimum, the following:

(1) Date of the order.

(2) Contract number and order number.

(3) Functional description of the work identifying the objectives or results desired from the order, including special instructions or other information necessary for performance of the task.

(4) Additional performance standards, and where appropriate, quality assurance standards.

(5) The firm-fixed-price of the order.

(6) The required completion date.

(7) Accounting and appropriation data.

(8) Special-purpose equipment to be acquired for the government.

(e) The Contractor shall provide acknowledgment of receipt and acceptance to the Contracting Officer within 3 working days after receipt of the order.

(f) If time constraints do not permit issuance of a fully defined delivery order in accordance with the procedures described in paragraphs (a) through (d), an order which includes a ceiling price may be issued.

(g) The Contracting Officer may amend tasks in the same manner in which they were issued. If, during performance of TO work, the Contractor encounters unforeseen conditions which impact the scope of work and which were not anticipated during the initial estimating procedures, the Contractor shall not proceed without obtaining the COTR's authorization. The COTR will direct the Contractor to estimate the change of scope for the unforeseen condition only, or prepare a new estimate for the total job as revised.

In the event of a conflict between the requirements of the order and the Contractor's approved task plan, the Delivery Order shall prevail.

The following new clauses are added to Section H:

H.8 SECURITY CLASSIFICATION REQUIREMENTS

Performance under this contract will involve access to and/or generation of classified information, work in a security area, or both, up to the level of "Secret." See FAR clause 52.204-2 in this contract and DD Form 254, "Contract Security Classification Specification," Attachment A.

H.9 SECURITY REQUIREMENTS (52.204-2) (AUG 1996)

(a) This clause applies to the extent that this contract involves access to information classified "Confidential," "Secret," or "Top Secret."

(b) The Contractor shall comply with--

(1) The Security Agreement (DD Form 441), including the National Industrial Security Program Operating Manual (DOD 5220.22-M); and

(2) Any revisions to that manual, notice of which has been furnished to the Contractor.

(c) If, subsequent to the date of this contract, the security classification or security requirements under this contract are changed by the Government and if the changes cause an increase or decrease in security costs or otherwise affect any other term or condition of this contract, the contract shall be subject to an equitable adjustment as if the changes were directed under the Changes clause of this contract.

(d) The Contractor agrees to insert terms that conform substantially to the language of this clause, including this paragraph (d) but excluding any reference to the Changes clause of this contract, in all subcontracts under this contract that involve access to classified information.

H.10 SECURITY PLAN FOR UNCLASSIFIED FEDERAL INFORMATION TECHNOLOGY SYSTEMS

The contractor shall submit for Government approval a detailed "Security Plan for Unclassified Federal Information Technology Systems." The plan shall be required as a contract data deliverable that will be subsequently incorporated into the contract as a compliance document after Government approval. The plan shall demonstrate thorough understanding of NMI 2410.7 and NHB 2410.9, and shall include the security measures and program safeguards to ensure that the information technology resources acquired and used by contractor and subcontractor personnel:

(a) Operate effectively and accurately;

(b) Are protected from unauthorized alteration, disclosure, or misuse of information processed, stored, or transmitted;

(c) Can maintain the continuity of automated information support for Government missions, programs, and functions;

(d) Incorporate management, general, and application controls sufficient to provide cost-effective assurance of the system's integrity and accuracy; and

(e) Have appropriate technical, personnel, administrative, environmental, and access safeguards.

H.11 SECURITY REQUIREMENTS FOR UNCLASSIFIED AUTOMATED INFORMATION RESOURCES 1852.204-76 (SEPTEMBER 1993)

(a) In addition to complying with any functional and technical security requirements set forth in the schedule and the clauses of this contract, the Contractor shall initiate personnel screening checks and obtain user responsibility agreements, as required by this clause, for each contractor employee requiring unescorted or unsupervised physical access or electronic access to the following limited or controlled areas, systems, programs and data:

the intrusion detection and alarm systems

(1) The Contractor shall submit a personnel security questionnaire (NASA Form 531, Name Check Request, for National Agency Check (NAC) investigations and Standard Form 85P, Questionnaire for Public Trust Positions, for specified sensitive positions) and a Fingerprint Card (FD-258 with NASA overprint in Origin Block) to the installation Security Officer for each Contractor employee who requires access. The required forms may be obtained from the installation security office. Employees may have fingerprints taken at the [Insert office name and location], or at any police department.

(i) Several months may be required for completion of complex personnel screening investigations. Background screening may not be required for employees with recent or current Federal Government investigations.

(ii) When employee access is necessary prior to completion of personnel screening, each contractor employee requiring access may be considered for escorted access. The installation Security Officer will establish the eligibility of proposed escorts.

(2) The Contractor shall ensure that each contractor employee requiring access executes any user responsibility agreements required by the Government prior to access. The Contractor shall provide signed copies of the agreements to the installation Security Officer for inclusion in the employee's security file. Unauthorized access is a violation of law and punishable under the provisions of 18 USC 1029, 18 USC 1030 and other applicable statutes.

(3) The Contractor shall notify the installation AIS Manager no later than the end of the day of the termination for cause of an authorized employee's access. The Contractor shall notify the COTR no later than ten days after an authorized employee no longer requires access for any other type of termination. Verbal notifications shall be confirmed in writing within thirty days.

(b) The Contractor shall incorporate this clause in all subcontracts where the requirements identified in paragraph (a) are applicable to performance of the subcontract.

H.12 PRIVACY OR SECURITY SAFEGUARDS (52.239-1) (AUG 1996)

(a) The Contractor shall not publish or disclose in any manner, without the Contracting Officer's written consent, the details of any safeguards either designed or developed by the Contractor under this contract or otherwise provided by the Government.

(b) To the extent required to carry out a program of inspection to safeguard against threats and hazards to the security, integrity, and confidentiality of Government data, the Contractor shall afford the Government access to the Contractor's facilities, installations, technical capabilities, operations, documentation, records, and databases.

(c) If new or unanticipated threats or hazards are discovered by either the Government or the Contractor, or if existing safeguards have ceased to function, the discoverer shall immediately bring the situation to the attention of the other party.

The following new Attachment is added to the contract :

ATTACHMENT J-G5

TABLE I. DESKTOP WORKSTATION MINIMUM "TO KEEP" HARDWARE CONFIGURATIONS

Item	PC Running Windows 95	PC Running Windows NT 4.0	Mac
Processor/clock speed	Pentium 90[3] MHz	Pentium 90[3] MHz	PowerPC 60 MHz 601
RAM	32 MB	64 MB[2] 32 MB[1]	32 MB
Internal Hard Drive	1 GB[2] 750 MB[1]	1 GB[2] 750 MB[1]	1 GB[2] 500 MB[1]
Color Monitor Size	SVGA 14"	SVGA 14"	13"
Keyboard	101 Extended	101 Extended	101 Extended
Internal Bus Topography	ISA Bus	ISA Bus	NuBus

[1] Minimum required. If less is used, the Center CIO is responsible for ensuring interoperability is maintained

[2] Recommended.

[3] Intel or Intel compatible PC.

UNIX systems are addressed in NASA-STD-2810, *UNIX Interoperability.*

TABLE II. DESKTOP WORKSTATION MINIMUM "TO BUY" HARDWARE CONFIGURATIONS

Item	Windows Intel/ Compatible PC	Macintosh
Processor/clock speed	Pentium II 233 MHz	PowerPC G3 Desktop 233 MHz
Level 2 Cache	512K	512K
RAM	64 MB	64 MB
Internal Hard Drive	4 GB	4 GB
Video RAM	2 MB	2 MB
Monitor	15" SVGA, .28 pitch	15", .28 pitch
Internal CD-ROM Drive	24x	24x
Keyboard	101 Extended	104 Extended
Network Interface	NDIS-3 Compliant[1]	Appropriate[1]
Internal Bus Topography	ISA/PCI	PCI
Energy Star Compliant	Yes	Yes
Sound capability	16-bit Sound Blaster compatible & speakers	Built-in

[1] The network interface is dependent on the physical configuration of the network at the local Center.

NOTE: Lewis currently prefers to use the 3Com 900 Combo Ethernet adapter so that computers can establish a connection to the network using the AUI port which is the predominant type at the Center and still connect to 10BaseT in areas that have been up updated. Dell Computer is the preferred computer brand

99730	Vending Machine Repairer	$ 11.08
99740	Vending Machine Repairer Helper	$ 9.66

**** Fringe Benefits Required For All Occupations Included In This Wage Determination ****

HEALTH & WELFARE: Life, accident, and health insurance plans, sick leave, pension plans, civic and personal leave, severance pay, and savings and thrift plans. Minimum employer contributions costing an average of $2.56 per hour computed on the basis of all hours worked by service employees employed on the contract.

VACATION: Two weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years; 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractor in the performance of similar work at the same Federal facility. (Reg. 4.173)

HOLIDAYS: Minimum of ten paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

1/ Does not apply to employees employed in a bona fide executive, administrative, or professional capacity as defined and delineated in

29 CFR 541. (See 29 CFR 4.156)

2/

Rates for this class are not applicable in Cuyahoga County, see Wage Determination 66-0048.

3/

APPLICABLE TO AIR TRAFFIC CONTROLLERS ONLY - NIGHT DIFFERENTIAL: An employee is entitled to pay for all work performed between the hours of 6:00 P.M. and 6:00 A.M. at the rate of basic pay plus a night pay differential amounting to 10 percent of the rate of basic pay.

4/

APPLICABLE TO WEATHER OBSERVERS ONLY - NIGHT PAY & SUNDAY PAY: If you work at night as a part of a regular tour of duty, you will earn a NIGHT DIFFERENTIAL and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employee (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of $4.25 per week (or $.85 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

**** NOTES APPLYING TO THIS WAGE DETERMINATION ****

Source of Occupational Titles and Descriptions:

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations," Fourth Edition, January 1993, as amended by the Second Supplement, dated

August 1995, unless otherwise indicated. This publication may be obtained from the Superintendent of Documents, at 202-783-3238, or by writing to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Copies of specific job descriptions may also be obtained from the appropriate contracting officer.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).

2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.

3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT

1. CONTRACT ID CODE	PAGE
	1 of

2. AMENDMENT/MODIFICATION NO.	3. EFFECTIVE DATE	4. REQUISITION/PURCHASE NO.	5. PROJECT NO. *(If applicable)*
