**Highlights #1**

**Lunar Atmosphere & Dust Environment Explorer (LADEE) Project Integrated S-Band STDN Transponder Component Assembly**

The Request for Proposal (RFP) for this LADEE Transponder requirement is intended to result in the award of a firm-fixed price contract.

The Government does not intend to acquire a commercial item using FAR Part 12. The NAICS Code for this requirement is listed as NAICS code 334220 - Radio and Television Broadcasting and Wireless Communications Equipment Manufacturing, with a size standard of 750.

The requirement will be solicited through a full and open competition.

**Projected Milestones for the Acquisition Cycle:**

The tentative schedule is below:

Issuance of Final Solicitation and Final SOW—May 2010  
Proposal(s) -- due 30 days following issuance of final solicitation  
Complete evaluation of proposal(s) – early July 2010  
Contract award—July 2010

No solicitation exists; therefore, do not request a copy of the solicitation. If a solicitation is released it will be synopsisized in FedBizOpps and on the NASA Acquisition Internet Service.

**Feedback from Industry Requested:**

Interested Parties are encouraged to furnish comments on all aspects of the draft Statement of Work.

All comments on the draft must be submitted electronically via email with subject header being “NNA10317283R” to the Acquisition Division by May 6, 2010 for consideration. All questions, together with the Government’s response, will be available at a later date. Please address any comments or questions to the following:
