Addendum 1

The purpose of this Addendum is to revise the estimated value of the GSFC/ARC Contract. The contractor shall provide unique support for the Joint Polar Satellite Systems (JPSS) Program involving the development and evaluation of the JPSS mission, including the spacecraft instruments and ground system, system engineering. Aerospace will provide critical support to the JPSS Program in that they will oversee flight and ground test efforts, and conduct trending analysis, support development of operational procedures and on-orbit calibration programs, and evaluate instrument data and develop and test ground systems algorithms using that data. These services fall within the scope of the Statement of Work and core competencies as identified in the solicitation document under Clause C.1 entitled, "Scope of Work." The estimated value as identified in item 3 of the JOFOC entitled "Description of the supplies or services required, including an estimated value," shall be increased by \$80.25M to allot for JPSS Program support.

Accordingly,

1. GSFC/ARC estimated value under item 3 of the JOFOC is revised as follows:

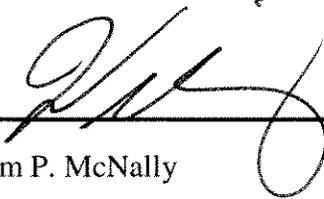

FROM: \$154M BY: \$80.25M *TO: \$234.25M*

2. All other text in the JOFOC remains unchanged.
