## U. S. Department of Labor Wage Determination

CBA WD

REGISTER OF WAGE DETERMINATION UNDER | U.S. DEPARTMENT OF LABOR  
THE SERVICE CONTRACT ACT | EMPLOYMENT STANDARDS ADMINISTRATION

By direction of the Secretary | WAGE AND HOUR DIVISION  
of Labor | WASHINGTON D.C. 20210

|  
|  
| Wage Determination No.: CBA-2011-4412  
Diane Koplewski | Division of | Revision No.: 0  
Director | Wage Determinations | Date Of Last Revision: 8/11/2011

---

State: Texas

Area: Harris

---

Employed on NASA, Lyndon B. Johson Space Center, Houston, TX contract for  
Aircraft Maintenance and Operational Support.

Collective Bargaining Agreement between contractor: CCS Applied  
Technologies, LLC, and union: International Association of Machinists and  
Aerospace Workers Local District, effective 9/17/2009 through 9/16/2012.

In accordance with Section 2(a) and 4(c) of the Service Contract Act, as  
amended, employees employed by the contractor(s) in performing services  
covered by the Collective Bargaining Agreement(s) are to be paid wage  
rates and fringe benefits set forth in the current collective bargaining  
agreement and modified extension agreement(s).

---

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

**HEALTH & WELFARE:** Life, accident, and health insurance plans, sick leave, pension plans, civic and personal leave, severance pay, and savings and thrift plans. Minimum employer contributions costing an average of \$3.59 per hour computed on the basis of all hours worked by service employees employed on the contract.

**VACATION:** 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

**HOLIDAYS:** A minimum of ten paid holidays per year, New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) **COMPUTER EMPLOYEES:** Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than \$27.63 (or on a salary or fee basis at a rate not less than \$455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds \$27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the

conformance procedures described in the conformance note included on this wage determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

- (1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;
- (2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;
- (3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or
- (4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) **APPLICABLE TO AIR TRAFFIC CONTROLLERS ONLY - NIGHT DIFFERENTIAL:** An employee is entitled to pay for all work performed between the hours of 6:00 P.M. and 6:00 A.M. at the rate of basic pay plus a night pay differential amounting to 10 percent of the rate of basic pay.

3) **AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY:** If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

**HAZARDOUS PAY DIFFERENTIAL:** An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**\*\* UNIFORM ALLOWANCE \*\***

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

**Conformance Process:**

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

99841 - Vending Machine Repairer	14.41
99842 - Vending Machine Repairer Helper	12.31

---

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

**HEALTH & WELFARE:** Life, accident, and health insurance plans, sick leave, pension plans, civic and personal leave, severance pay, and savings and thrift plans. Minimum employer contributions costing an average of \$3.59 per hour computed on the basis of all hours worked by service employees employed on the contract.

**VACATION:** 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

**HOLIDAYS:** A minimum of ten paid holidays per year, New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) **COMPUTER EMPLOYEES:** Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than \$27.63 (or on a salary or fee basis at a rate not less than \$455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds \$27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate,

then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

- (1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;
- (2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;
- (3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or
- (4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

**HAZARDOUS PAY DIFFERENTIAL:** An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**\*\* UNIFORM ALLOWANCE \*\***

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or

local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

#### REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

##### Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order

proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.

3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

**HEALTH & WELFARE:** Life, accident, and health insurance plans, sick leave, pension plans, civic and personal leave, severance pay, and savings and thrift plans. Minimum employer contributions costing an average of \$3.59 per hour computed on the basis of all hours worked by service employees employed on the contract.

**VACATION:** 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 8 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

**HOLIDAYS:** A minimum of ten paid holidays per year, New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) **COMPUTER EMPLOYEES:** Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than \$27.63 (or on a salary or fee basis at a rate not less than \$455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds \$27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer

occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am.

If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

**HAZARDOUS PAY DIFFERENTIAL:** An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives.

Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**\*\* UNIFORM ALLOWANCE \*\***

If employees are required to wear uniforms in the performance of this contract

(either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).

2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.

3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

---

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

**HEALTH & WELFARE:** Life, accident, and health insurance plans, sick leave, pension plans, civic and personal leave, severance pay, and savings and thrift plans. Minimum employer contributions costing an average of \$3.59 per hour computed on the basis of all hours worked by service employees employed on the contract.

**VACATION:** 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

**HOLIDAYS:** A minimum of ten paid holidays per year, New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) **COMPUTER EMPLOYEES:** Under the SCA at section 8(b), this wage determination does not apply to any employee who individually qualifies as a bona fide executive, administrative, or professional employee as defined in 29 C.F.R. Part 541. Because most Computer System Analysts and Computer Programmers who are compensated at a rate not less than \$27.63 (or on a salary or fee basis at a rate not less than \$455 per week) an hour would likely qualify as exempt computer professionals, (29 C.F.R. 541.400) wage rates may not be listed on this wage determination for all occupations within those job families. In addition, because this wage determination may not list a wage rate for some or all occupations within those job families if the survey data indicates that the prevailing wage rate for the occupation equals or exceeds \$27.63 per hour conformances may be necessary for certain nonexempt employees. For example, if an individual employee is nonexempt but nevertheless performs duties within the scope of one of the Computer Systems Analyst or Computer Programmer occupations for which this wage determination does not specify an SCA wage rate, then the wage rate for that employee must be conformed in accordance with the conformance procedures described in the conformance note included on this wage determination.

Additionally, because job titles vary widely and change quickly in the computer industry, job titles are not determinative of the application of the computer professional exemption. Therefore, the exemption applies only to computer employees who satisfy the compensation requirements and whose primary duty consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am.

If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

**HAZARDOUS PAY DIFFERENTIAL:** An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives.

Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**\*\* UNIFORM ALLOWANCE \*\***

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining

agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

#### REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

##### Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage

and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

## **AGREEMENT**

This Agreement is made and entered into by and between CSC Applied Technologies, LLC, JSC Aviation Maintenance and Modification Program (hereinafter the "Company"), solely with respect to NASA Contract Number NNJ09JE44C and follow-on contract for employees based at Ellington Field, Houston, Texas and the International Association of Machinists and Aerospace Workers, AFL-CIO, District Number 37 (hereinafter the "Union").

### **ARTICLE 1**

#### **RECOGNITION**

- 1.1 The Company hereby recognizes the Union as the sole and exclusive bargaining agent for 1) the production unit, consisting of permanent, full-time maintenance and stores employees of the Company as certified by the National Labor Relations Board, Case Number 23-RM-224, dated in Houston, Texas March 10, 1969, and herein designated to be those job classifications as agreed upon in Appendix A, attached hereto and made part of this Agreement, except the clerks, excluding all other employees including office clerical personnel and supervisors as defined by the National Labor Relations Act, as amended, and 2) the clerks unit, consisting of all plant clerical employees including quality control clerks, engineering clerks, supply clerks and aircraft maintenance clerks located at the Company's Ellington Field, Houston, Texas location; excluding all other employees, including office clerical and supervisors as defined by the National Labor Relations Act, as amended.

### **ARTICLE 2**

#### **PURPOSE OF AGREEMENT**

- 2.1 This Agreement, for the purposes of collective bargaining, shall establish for the employees of the Company in the job classifications covered hereby, rates of pay, wages, hours of employment, other conditions of employment and an orderly procedure for the settlement of any dispute arising out of interpretation or alleged violation of the terms and conditions of this Agreement.

### **ARTICLE 3**

#### **STATUS OF AGREEMENT**

- 3.1 Neither the Company nor the Union, their officers or agents, shall discriminate against any employee with regard to employment, promotion, layoff, transfer, or other conditions of employment because of race, color, disability not related to the performance of the essential functions of a job, creed, age, sex, religious affiliation, national origin or ancestry, union membership or activities.
- 3.2 Except as specifically provided for herein with respect to grievances, the Union agrees that neither it, its agents nor any of its individual members will solicit Union membership or conduct Union business during working hours; provided, however, that this paragraph shall not be construed as restraining any right guaranteed to the Union or its members by any valid law.

- 3.3 This Agreement shall supersede any and all agreements, written or verbal, existing or previously executed, between the Company and the Union affecting employees in the job classifications covered hereby.
- 3.4 No agreement, alteration or modification of any of the terms, conditions or covenants contained herein shall be binding upon the Parties hereto unless such agreement is made and executed in writing between the Company and the Union. It is understood and agreed that in this case, the term "Union" will be defined as the Union Business Representative and Stewards as defined in Article 29 of this Agreement.
- 3.5 Employees covered by this Agreement shall be governed by all Company rules, regulations and orders which are not in conflict with the terms and conditions of this Agreement.
- 3.6 In the event the Company desires to implement any additional rules or regulations during the term of this Agreement, it will meet with the Union committee to discuss the proposed rule or regulation in an attempt to reach an agreement. If the Parties cannot agree, the Company will provide the Union a copy of the rule or regulation. The new rule or regulation will be then be posted on Company bulletin boards and will become effective upon posting. The Union's recourse, when an agreement has not been reached, will be to process a grievance through the grievance procedure up to and including arbitration. It is understood that the grievance will be based on whether the rule is reasonable.
- 3.7 The Agreement will be printed at Company expense and copies will be made available within thirty days of contract signing to each employee on the payroll and, in reasonable numbers, to the Union.

#### **ARTICLE 4**

##### **SUCCESSOR CLAUSE**

- 4.1 The provisions of this Agreement shall be binding upon the Company and its successors, assigns or future purchasers, and all of the terms, and obligations herein contained shall not be affected or changed in any respect by the consolidation, merger, sale, transfer or assignment of the Company of any or all of its property, or affected or changed in any respect by any change in the legal status, ownership or management of the Company. It is the intent of this Article to promote industrial peace and harmony, ensure continuity of employment and representation, to maintain the current and prospective level of wages and benefits as specifically identified herein, regardless of the identity of the employer organization having jurisdiction over the work of this bargaining unit.

#### **ARTICLE 5**

##### **NO STRIKE - NO LOCKOUT**

- 5.1 It is mutually understood and agreed that the Company will not lock out any employee, and that the Union will not authorize, conduct, support or otherwise take part in any slowdown, sit-down, work stoppage, strike or picketing of Company premises during the term of this Agreement.

## **ARTICLE 6**

### **SUPERVISORS WORKING**

- 6.1 Supervisory personnel shall not perform those tasks normally performed by any employee covered by this Agreement, except supervisory personnel may perform work with employees covered hereby for the purpose of training, under emergency conditions, in proving production methods, in the performance of necessary work when production difficulties are encountered, when regular employees are not readily available or when performing Designated Systems Inspections. This Article shall in no way or manner be construed as to encroach upon any work within the bargaining unit nor is it the intent to arbitrarily restrict bargaining unit overtime assignments.

## **ARTICLE 7**

### **SUBCONTRACTING**

- 7.1 The Company agrees that during the term of this Agreement no work usually performed by the employees will be subcontracted except in instances wherein the Company determines that such work cannot be effectively performed with its own employees due to lack of skills, tools, equipment, facilities, or due to economic considerations.

## **ARTICLE 8**

### **MANAGEMENT RIGHTS**

- 8.1 Except as specifically abridged, delegated, granted or modified by this Agreement, all management rights, powers and authority possessed by the Company prior to the execution of this Agreement are retained by the Company and remain exclusively and without limitation within the rights of management.

## **ARTICLE 9**

### **PROBATIONARY PERIOD**

- 9.1 New employees shall be considered probationary employees for a period of 90 calendar days of active employment from date of hire. During this period the Company may release such probationary employees as it finds advisable and such shall not constitute a grievance against the Company.

## **ARTICLE 10**

### **JOB CLASSIFICATIONS**

- 10.1 Job Classifications covered hereby shall be those job classifications specifically enumerated, attached hereto as Appendix A, and made a part of this Agreement.
- 10.2 If during the term of this Agreement, it becomes necessary to establish new job classifications within the bargaining unit, the Company shall notify the Union in writing within 5 days of such addition and the wage rate established therefore. If not in

agreement with the wage rate of a new job classification, the Union may, within 5 days after receipt of such notice, request a meeting with the Company for the express purpose of negotiating such wage rate. If no agreement is reached, either Party may appeal the matter of the proper wage rate to arbitration in accordance with the arbitration procedure established in this Agreement. During such negotiations and/or arbitration, the Company's proposed wage rate may be put into effect. Any wage rate agreed to by the Company and Union or established by arbitration shall be made effective as of the date the employee was assigned to the job.

- 10.3 An employee will not be required to re-qualify for his/her assigned job. It is understood that employees may be required to periodically recertify for required certifications. In the event the employee fails to retain such licenses and/or certifications required for his/her assigned job, the employee will be laid-off in accordance with Article 28 of this Agreement and afforded the bumping privileges described therein.
- 10.4 Employees assigned as Designated Systems Inspectors (DSI's) will be required to pass annual examinations to retain the DSI designation. In cases where the employee does not utilize the DSI designation for a period of 60 days, he/she may be required to pass the same examination to retain the designation. It is understood and agreed that the examination will be revised each year and shall be considered fair for the purpose of determining the employee's eligibility to retain the designation when at least seventy-five percent (75%) of employees taking the examination pass the test on the first attempt.
- 10.5 Employees who receive formal training on a specific type aircraft or major component shall not be eligible to bid on any other job opening for a period of nine months from completion date of the formal training period, unless said job opening is directly related to that aircraft or major component. For the purposes of this paragraph, "formal training" is defined as any training which requires the Government or Company to expend funds for course tuition/fees and/or travel expenses.

## ARTICLE 11

### WAGE RULES

- 11.1 The rate ranges set forth in Appendix A attached hereto and made a part of this Agreement shall prevail on and after the effective dates indicated therein. The base rate of employees covered by this Agreement hired prior to 16 September 1997 will be increased as follows:

Effective October 2, 2009	4% Per Hour
Effective October 1, 2010	3.5% Per Hour
Effective September 30, 2011	3.5% Per Hour

No employee's base rate shall exceed the maximums stated in Appendix A.

The rate ranges set forth in Appendix B attached hereto and made a part of this Agreement shall prevail on and after the effective dates indicated therein. The base rate of employees covered by this Agreement hired on or after 16 September 1997 will be increased as follows:

Effective October 2, 2009	4% Per Hour
Effective October 1, 2010	3.5% Per Hour
Effective September 30, 2011	3.5% Per Hour

- 11.2 For the purpose of this Agreement, "base rate" is defined as the rate an employee receives for a particular job classification. Base rate does not include any premiums or bonus for shift work, overtime or any other premium pay of any kind or character.
- 11.3 An employee transferred to a job classification with a higher rate range shall receive the entry rate of the higher job classification or 40 cents more than his/her present rate, whichever is greater. An employee so transferred and later returned to a job classification with a lower rate range shall receive his/her rate in the lower job classification at the time of the initial transfer. An employee transferred and later returned to a job classification with a lower rate range for any other reason shall receive the maximum rate of the lower job classification or continue at his/her present rate, whichever is lesser. Pay increases or decreases relative to such transfers shall become effective on the date of assumption of the new assignment.
- 11.4 Effective November 1997, employees will be provided the option of direct deposit. All employees shall be paid on alternate Fridays for the two work weeks prior to the work week ending the preceding Thursday.
- It is understood that whichever standard workweek an employee is assigned, the payday will be Friday. If employees do not wish to come to the company offices during business hours on Friday or to have their paychecks picked up by an authorized person or mailed to their homes, they may participate in direct deposit. Direct deposit will be placed in the employee's account in his/her designated bank or credit union account on or before payday.
- 11.5 Effective the dates shown above, an employee who has continuous service will receive a pay increase of sixty cents (\$0.60) per hour the first year of the Agreement, sixty five cents (\$0.65) per hour the second year of the Agreement and seventy cents (\$0.70) per hour the third year of the Agreement, until the maximum of his/her classification is reached. When an annual wage increment results in an employee reaching four (\$0.04) cents or less from the maximum, the employee will be paid the additional amount necessary to reach the maximum. The Company may increase on an individual basis periodic increases to exceed the automatic increases provided.
- 11.6 In the event the JSC Aviation Maintenance and Modification Program achieves an average award fee evaluation of ninety percent (90%) to ninety-three percent (93%) for the periods shown below, each employee covered by this Agreement will be provided a lump-sum award in the amount of five hundred dollars (\$500.00).

Performance Period	Award Paid
01 March 2009 to 31 August 2009	November 2009 <sup>1</sup>
01 September 2009 to 28 February 2010	May 2010 <sup>1</sup>
01 March 2010 to 28 February 2011	May 2011
01 March 2011 to 29 February 2012	May 2012

In the event the JSC Aviation Maintenance and Modification Program achieves an average award fee evaluation exceeding ninety-three percent (93%) for the periods shown below,

each employee covered by this Agreement will be provided a lump-sum award in the amount of seven hundred fifty dollars (\$750.00).

Performance Period	Award Paid
01 March 2009 to 31 August 2009	November 2009 <sup>1</sup>
01 September 2009 to 28 February 2010	May 2010 <sup>1</sup>
01 March 2010 to 28 February 2011	May 2011
01 March 2011 to 29 February 2012	May 2012

Note: 1 Award periods cover six (6) months only and will be paid at 50% of stated amounts.

## ARTICLE 12

### HOURS OF WORK

- 12.1 No provision of this Agreement shall be construed as a guarantee of any specified number of hours of work either per day or per week.
- 12.2 Eight consecutive hours, exclusive of a lunch period of no less than 30 minutes nor more than one hour, shall constitute a standard work shift.
- 12.3 The payweek shall consist of seven consecutive days beginning at 0001 hours Friday and ending at 2400 hours the next Thursday.

A "creditable workweek" shall be defined as a payweek in which the employee records any hours compensable under the terms of this Agreement.

A standard workweek schedule shall consist of five 8 hour work days, with 2 consecutive regularly scheduled days off within the workweek.

The Company will employ two (2) standard workweeks as follows; 1) A workweek where the regularly scheduled days off are Friday and Saturday, and 2) A workweek where the regularly scheduled days off are Saturday and Sunday.

In the case of workweeks where the consecutive workdays off are defined as Friday and Saturday, those days will be considered as the sixth and seventh consecutive workdays, respectively, for the purpose of calculating sixth and seventh day premiums.

In the case of workweeks where the consecutive workdays off are defined as Saturday and Sunday, those days will be considered as the sixth and seventh consecutive workdays, respectively, for the purpose of calculating sixth and seventh day premiums.

A permanent change in shift assignment of an employee shall be effective on a Friday.

- 12.4 Regular work shifts shall be established by the Company. The first (day) regular shift will begin between 5:00 AM and 8:00 AM. The second (afternoon) regular shift will begin between 1:00 PM and 4:00 PM. The third (night) regular shift will begin between 10:00 PM and Midnight. While employees are on TDY assignments, the Company shall have the option of starting shifts based on operational requirements.
- 12.5 The permanent starting times of regular work shifts shall not normally be changed, nor new or additional work schedules established, without 48 hours advance notice thereof to

affected employees. Posting by the Company of the notice of shift change on plant bulletin boards shall be considered as meeting such notice requirements. In addition, the Company will make a good faith effort to notify affected employees who are on the premises. If less than 48 hours notice of permanent shift change is given, affected employees shall be paid, in addition to regular straight time pay, a premium of 50% of the employees' base rate for the first 8 hours worked thereon.

- 12.6 Any employee, in the absence of notice not to report to work, who reports for work on his/her regular shift and for whom there is not work available, shall, except when such lack of work is due to an act of God, sabotage, national emergency, strike or picketing of Company premises or other circumstances beyond the control of the Company, receive a minimum of 4 hours pay at his/her base rate, exclusive of all premiums. Such paid hours not worked shall not be considered as time worked for purposes of computing overtime.
- 12.7 The Company shall designate a 15 minute break period during each half of the work shift which may be taken without loss of pay for the purpose of relaxation and smoking. It is agreed that, because of the requirement of service, this break period will normally be provided for each employee within 30 minutes of the midpoint of each half of the workday. It is further understood that occasional unusual circumstances may necessitate other arrangements. Employees on a regularly scheduled shift required to work in excess of two hours overtime will be accorded a 15 minute break period at the end of their regular shift and an additional break for each additional two hours of overtime work. When an employee is required to work through his/her break period, his/her break period will be rescheduled or added at the end of his/her shift.
- 12.8 The lunch period will normally start 4 hours after the regular starting time of the work shift of the employee. It is agreed that, on those occasions when requirements of service make it necessary to request certain employees to start their lunch period before or after their regular lunch period, these individuals will be scheduled as close to the regular lunch period as possible.

## ARTICLE 13

### OVERTIME

- 13.1 The provisions of this Article are intended only to provide the basis for calculation and payment of overtime and shall not be construed as a guarantee of any specific overtime hours per day or per week.
- 13.2 Overtime will first be offered to the employee of the Branch in the required classification who has the required qualifications and the lowest posted overtime balance. In the event that employee declines the available overtime hours, the available work will be offered in turn to the Branch employee(s) in the required classification who has/have the required qualifications with the next lowest posted overtime balance(s) until the work is accepted. In the event no Branch employee in the required classification accepts the available overtime, the Branch employee in the required classification who has the required qualifications with the lowest posted overtime balance will be required to perform the overtime work.

Branch employees not at the facility will be contacted by telephone. Employees who are contacted by telephone for overtime will be contacted at the telephone number that they provide the Company. If the employee is not reached when the call is made the Company will go to the next person on the list. Failure on the part of an employee to keep the

Company informed of the employee's correct telephone number relieves the Company of the responsibility of any notification.

- 13.3 It is understood and agreed that the Company reserves the right to require employees covered by this Agreement to perform overtime work in order to meet Government contract requirements. When such overtime is required, eligible employees will be given as much advance notice as possible. Normally overtime will be worked by those employees in the branch whose shift is immediately adjacent to the overtime requirements. It is understood and agreed that in order to maintain job continuity the Company may request employee(s) currently performing a particular job to continue that job on overtime without running the overtime list. Should the employee decline the overtime, the normal overtime scheduling procedure shall go into effect. Nothing in this agreement shall be construed as requiring the Company to call in employees for overtime work when qualified employees in that classification are on Company premises. Nothing in this agreement shall prohibit the assignment of work to employees outside the branch/workcenter requiring the overtime when sufficient numbers of qualified personnel from that branch/workcenter are not available.
- 13.4 An employee who declines offered overtime hours will be credited the number of overtime hours as if he/she had worked. Similarly, employees unavailable to perform available overtime work as a result of absence from the workplace (except for travel on Company business) will be credited the number of overtime hours as if he/she had worked. Upon return from travel on Company business, employees will be charged with all overtime hours worked while on travel status.
- 13.5 Overtime shall be paid on the following basis:
- a) At one and one-half times (1-1/2) the effective hourly rate for hours worked in excess of eight (8) in a normal workday,
  - b) At one and one-half times (1-1/2) the effective hourly rate for hours worked on the sixth (6th) consecutive workday within the workweek,
  - c) At two (2) times the effective hourly rate for hours worked in excess of twelve (12) in a normal workday,
  - d) At two (2) times the effective hourly rate for hours worked on the seventh (7th) consecutive workday within the workweek, and
  - e) At two (2) times the effective hourly rate for hours worked on Holidays as designated in this Agreement, in addition to the regular Holiday pay.
- 13.6 No overtime shall be worked except by direction of the proper supervisory personnel of the Company.
- 13.7 There shall be no pyramiding of overtime and other premium payments.
- 13.8 It is understood and agreed that the Company will make good faith efforts to equalize overtime by classification by Workcenter within each Branch. Substantiated inequities in overtime assignments shall be rectified by the assignment of the next available overtime hours which the affected employee is qualified and available to perform. It is understood and agreed that availability of overtime work will be determined by the Company.

- 13.9 Overtime hours by Workcenter for each Branch will be posted bi-weekly by classification showing the number of overtime hours worked, the number of overtime hours declined and the total number of overtime hours credited to the individual employee. All overtime hours will be converted to straight-time hours for the purposes of this posting and for overtime distribution purposes.
- 13.10 Overtime will be considered equalized when the variance from high to low by Workcenter within the Branch does not exceed fifty (50) hours. It is understood and agreed that the Company will not be liable in cases where a variance exceeding fifty (50) hours results from 1) an employee having been unable to perform available overtime work as a result of being on an approved leave of absence which exceeded two (2) weeks, or 2) an employee having been unable to perform the available overtime work because he/she lacked required qualifications.
- 13.11 Overtime balances will be reduced to zero annually effective the first Friday of each successive January.
- 13.12 Overtime records will be made available to employees on request.
- 13.13 In the event an employee is bypassed for available overtime work on the basis of qualifications, the Company will inform the Steward and the employee of the qualification(s) required for the available work so that the employee may seek training in order to qualify for such overtime work in the future. It is understood and agreed that the Company will be obligated to provide timely on-the-job training.
- 13.14 Employees transferring into a branch will be charged with one-half (1/2) hour over the highest overtime balance in their classification on their new branch list.
- 13.15 When an employee has completed an eight (8) hour shift and has been relieved for the day and has clocked out, or when an employee is on one of his/her regularly scheduled days off, and is recalled to work, he/she shall be guaranteed a minimum of four (4) hours work, or pay in lieu thereof, at his/her applicable rate of pay. Employees who are scheduled for overtime work on their regularly scheduled days off will receive pay for a total of two (2) straight time hours in cases where the overtime is cancelled. Cancellation pay does not apply if overtime is assigned and cancelled during the same shift.
- 13.16 Employees who prefer not to work overtime may sign an Overtime Waiver Statement on a form provided by the Company. Such waiver shall be effective on the next overtime posting after the waiver is received by the Team Leader. The waiver shall be effective for a minimum of ninety (90) calendar days. Such employees will not be asked to work overtime, yet will be charged with overtime that would have been offered to them during the period the waiver is in effect. Such employees may be required to work overtime in accordance with Paragraph 13.2 if no other employees accept the overtime assignment. If the employee desires to rescind his/her Overtime Waiver Statement, he/she must notify his/her Team Leader, in writing, and the waiver will be rescinded on the next overtime posting. Once rescinded, the employee may not submit a new Overtime Waiver Statement for a period of ninety (90) calendar days.
- 13.17 If the employee is not given at least two (2) hours notice of required overtime prior to the end of his shift, he will be provided the opportunity to work a minimum of two (2) hours or pay in lieu of work if not required to work.

## ARTICLE 14

### PREMIUMS

- 14.1 Employees working the second or third shifts as defined in Article 12.4 will be paid a premium of \$1.25 for each hour worked. Employees assigned to the second or third shifts will retain such premium while temporarily assigned to first shift. Employees on TDY assignment, who are not otherwise eligible under this paragraph, will be eligible for shift premium on shifts which start between 1:00 p.m. and midnight.
- 14.2 Crew Leaders will be provided a premium of \$0.50 per hour for each hour worked. Crew Leader positions shall be posted for bid in accordance with Article 27 Job Vacancies but limited to the affected Branch/Workcenter. It is understood and agreed that the Crew Leader designation is not a classification and will be made/rescinded at the sole discretion of the Company.
- 14.3 Assistant Crew Leaders will be provided a premium of \$0.25 per hour for each hour worked. All Assistant Crew Leaders will report to a Crew Leader in that Branch. Assistant Crew Leader positions shall be posted for bid in accordance with Article 27 Job Vacancies but limited to the affected Branch/Workcenter. It is understood and agreed that the Assistant Crew Leader designation is not a classification and will be made/rescinded at the sole discretion of the Company.
- 14.4 Designated Systems Inspectors (DSI's) will be provided a premium of \$0.35 per hour for each hour worked. It is understood and agreed that the Designated Systems Inspector (DSI) designation is not a classification and will be made/rescinded at the sole discretion of the Company. Designated System Inspector (DSI) vacancies will be offered to the senior qualified employee in the affected workcenter.
- 14.5 Employees required to travel in the performance of their duties will be paid a premium of one dollar (\$1.00) per hour for each hour paid while in travel status.

## ARTICLE 15

### TRAVEL

- 15.1 Employees who are required to travel in the performance of their job responsibilities shall be compensated for expenses as authorized by NASA travel regulations. Employees must have the necessary qualifications to be considered for travel. In the event an employee is bypassed for available travel work on the basis of qualifications, the employee will be charged on the trip list and overtime list. The Company will inform the steward and employee of the qualifications required for the available work. It is understood and agreed that the Company will be obligated to provide timely on the job training. Effective January 1, 2007, employees required to travel on Company business shall possess a valid credit card. If the employee chooses not to use a personal card for travel, he/she may apply for a Company-sponsored credit card to be used for Company business purposes only. Employees shall file a travel claim upon return from the trip. In the event the employee cannot qualify for a Company credit card, funds will be provided for travel by another means. An employee who refuses to use a personal card or to apply for a Company card or who improperly uses his/her Company-provided card shall be deemed ineligible for travel. Ineligible employees shall be charged for trips.

- 15.2 The use of personal-owned vehicles shall not be authorized for Company travel in lieu of Company-provided transportation.
- 15.3 The use of rental cars will be authorized in accordance with NASA Travel Regulations.
- 15.4 Employees, when traveling for the Company on Company business will be covered by the Company group travel accident policy.
- 15.5 Required travel time shall be considered as time worked for the purpose of computing overtime. An employee required by the Company to travel during regularly scheduled working hours shall be compensated therefore at his/her appropriate straight time base rate of pay, including all premiums to which he/she would otherwise be entitled.
- 15.6 All maintenance requiring travel away from Ellington will be assigned by the trip list. Trips will first be offered to employees of the Branch with the required qualifications to perform the work/fulfill mission requirements. DSI will be filled first followed by other qualifications. Should no per diem be required then such employee shall not be charged with a trip assignment. While away from Ellington under this paragraph an employee shall not be deemed available for the trip assignment except when the employee returns to Ellington with sufficient time for the Company and the employee to prepare for such trip. An employee entering the branch shall be placed on the list based on his/her hire-in-seniority and shall be bypassed the first time his/her name is reached on the trip list. He/she shall be offered the trip the second time his/her name is reached on the trip list. After an employee has accepted a trip assignment, he/she shall be removed from consideration for other trips for a period no longer than 30 calendar days or until the accepted trip is implemented or cancelled, whichever is sooner.
- Eligible employees not at the facility will be contacted by telephone. Employees who are contacted by telephone for travel will be contacted at the telephone number that they provide the Company. If the employee is not reached when the call is made the Company will go to the next person on the list. Failure on the part of an employee to keep the Company informed of the employee's correct telephone number relieves the Company of the responsibility of any notification.
- 15.7 Employees will have the right to decline voluntary travel assignments. Where an assignment is declined the employee will be charged with any overtime that is derived from said travel assignment or the overtime he/she actually worked during the trip, whichever is greater, and the affected branch list will reflect the declined trip.
- 15.8 If the Company is unable to obtain a sufficient number of volunteers for a trip, the Company may man the job by mandatorily assigning the low seniority qualified employee in the branch having the work. All trips taken under this paragraph will be charged to the employee's branch trip and overtime list.
- 15.9 All travel as a result of training will be charged to the employee on the trip list. Employees may be sent on trips for training out of sequence on the trip list and will be bypassed on the first trip they would normally be asked to take after their return.
- 15.10 An employee will not be required to lay over on a trip after completing his assignment.
- 15.11 The Company may provide bargaining unit employees with a phone credit card or number while on TDY status for business purposes only.

- 15.12 For travel Outside the Continental United States (OCONUS) to military bases and facilities in government-designated Hardship or Danger Zones refer to Appendix G.

## ARTICLE 16

### JURY SERVICE

- 16.1 When an employee is necessarily absent from his/her regular work shift by reason of required jury service, or to report to a court in person in response to a jury duty summons, or to report for jury examination, he/she shall be granted pay for those hours during which he/she is necessarily absent from his/her regular work shift. An employee who is on second shift will be considered as being assigned to first shift during the time he/she serves on jury duty.
- 16.2 Pay for such time lost shall be computed at the employee's straight time base rate of pay, exclusive of all premiums. In no event shall payment be made for jury duty performed on the employee's regularly scheduled days off, holidays defined herein or for any hours in excess of 8 in any regular workday or hours in excess of 40 in any workweek. Employees shall retain all moneys paid by the court and no deductions for such pay shall be made from the employee's paycheck.
- 16.3 Pay for such time lost shall not, for any employee, exceed a total of 90 regular 8 hour workdays in any one calendar year.
- 16.4 To be eligible for payment of jury service pay, an employee must notify his/her Team Leader no later than the completion of his/her regular work shift next following receipt by him/her of such notice or summons. A copy of the jury summons must be furnished to the Company before jury duty is served. Further, he/she shall be ineligible to receive jury service pay until such time as he/she presents to the Company a statement from an official of the court attesting to the date or dates and times of such jury service.
- 16.5 Nothing in this Agreement shall be construed as requiring payment of any kind to any employee who loses time from his/her regular work shift due to any court appearances wherein he/she is a plaintiff or defendant in any action, civil or criminal, or witness for a plaintiff or defendant in any action, civil or criminal, unless called by the Company as a witness.
- 16.6 Pay for time not worked under the provisions of this Article shall be considered as time worked for purposes of computing overtime.

## ARTICLE 17

### HOLIDAYS

- 17.1 The following 11 days are designated as holidays: New Year's Day, Martin Luther King Holiday, Presidents' Day, Memorial Day, Independence Day, Labor Day, Columbus Day, Veteran's Day, Thanksgiving Day, the day after Thanksgiving Day, Christmas Day, and any additional holidays observed and authorized the Company by the National Aeronautics and Space Administration. If NASA adopts the day after Thanksgiving Day as a holiday, holiday pay for the day after Thanksgiving Day will be doubled.

- 17.2 Any holiday that falls on a Sunday will normally be observed on the following Monday and any holiday that falls on a Saturday will normally be observed on the preceding Friday.
- 17.3 Employees are eligible for holiday pay provided they work their last full regular work shift preceding the holiday and no less than one-half of their regular work shift following the holiday, or vice versa.
- 17.4 Work, for the purpose of determining eligibility for holiday pay, includes paid time off (vacation, sick leave, death in family, jury duty, license test, military leave) and unpaid time off when authorized in advance by the Company. This does not apply to persons on leave of absence. Pay received under the Company group insurance disability plan does not qualify the employee for holiday pay.
- 17.5 When an employee is excused from work on a holiday and is eligible for holiday pay under paragraphs 17.3 and 17.4 above, he/she shall receive, as holiday pay, 8 hours pay, exclusive of all premiums, at his/her straight time base rate.
- 17.6 The Company reserves the right to require employees to work on a holiday. When an employee is required to work on a holiday, in addition to holiday pay provided in paragraph 17.5 above, he/she shall receive 200% of his/her straight time base rate of pay for all hours worked.
- 17.7 Paid holidays not worked shall be considered as time worked for purposes of computing overtime.

## ARTICLE 18

### VACATIONS

- 18.1 Full-time employees covered by this Agreement will accrue vacation hours each creditable workweek based on the length of their uninterrupted service on the Ellington aircraft maintenance contract or with the Company, whichever is greater.
- 18.2 Employees with 0 through 5 years of uninterrupted service accrue vacation hours at a rate of 1.54 hours per creditable workweek to a maximum of 80 hours per year. Employees with 6 through 10 years of uninterrupted service accrue vacation hours at a rate of 2.31 hours per creditable workweek to a maximum of 120 hours per year. Employees with 11 through 20 years of uninterrupted service accrue vacation hours at a rate of 3.08 hours per creditable workweek to a maximum of 160 hours per year. Employees more than 20 years of uninterrupted service accrue vacation hours at a rate 3.85 hours per creditable workweek to a maximum of 200 hour per year.
- Employees may accrue total vacation hours up to two and one half (2.5) times their annual accrual rates. Thereafter, no vacation hours will accrue until the employee utilizes the previously accrued hours.
- 18.3 Employees are eligible to utilize accrued vacation hours after completion of six (6) months uninterrupted service on the contract.
- 18.4 Vacation pay shall be computed at the employee's straight time base rate at the time of vacation but excluding all other premiums, and shall be limited to those hours the employee had accrued as of the date the vacation period commenced.

- 18.5 Request for vacation of 40 hours or less must be submitted no less than one week in advance and the employee shall receive a signed slip of approval or disapproval no later than the day following receipt of request. Request for vacation of more than 40 hours must be submitted no less than 30 days in advance and will, insofar as is practical, be granted as requested by eligible employees. A request for one day or less may be approved by the employee's Team Leader if it is requested in advance and the absence will not interfere with production requirements. When conflicts in requested vacation periods arise, the employee having the greater seniority shall be given preference provided the request is submitted more than 90 days in advance. In the event of an award bid, vacation requests approved by the previous unit or Team Leader shall be resubmitted to the new unit or Team Leader for approval or rescheduling to prevent conflicts of scheduled vacations in that unit or shift.
- 18.6 Final approval of vacation requests rests exclusively with the Company to assure orderly operation of the plant.
- 18.7 When a holiday, as defined in this Agreement, falls within an employee's vacation period, such holiday hours shall not be charged as vacation hours.
- 18.8 Unused vacation accruals will be paid to employees who have successfully completed 6 months of employment, upon termination of employment, regardless of the reason for the termination.
- 18.9 Paid vacation shall be considered as time worked for purposes of computing overtime.
- 18.10 Employees shall be paid vacation pay in advance provided such advance pay is requested, in writing, no less than one week prior to the employee's last regularly scheduled workday prior to the vacation, except that pay for vacations of less than one full workweek may not be requested in advance.

## ARTICLE 19

### SICK/PERSONAL LEAVE

- 19.1 Employees shall accrue sick/personal leave at the rate of 1.54 hours per creditable workweek. Sick leave is available for use only after completion of the probationary period. Sick leave shall not be used for any reason other than to cover absences from work resulting from the employee's personal illness or injury or resulting from the employee's personal medical doctor or dental appointment, or resulting from the medical doctor or dental appointment of the spouse or child, when supported by a written statement from the doctor or dentist. Making a false claim for sick leave, or misrepresenting any facts in applying for sick leave, will be cause for immediate discipline up to and including discharge. A request for personal leave may be approved by the employee's Team Leader if it is requested in advance and the absence will not interfere with production requirements.
- 19.2 There shall be no restriction on accumulation of unused sick leave.
- 19.3 Sick pay shall be computed at the employee's base rate at the time of illness or termination of employment but excluding all other premiums.
- 19.4 Paid sick leave shall not be considered as time worked for purposes of computing overtime.

- 19.5 If the Company has reasonable grounds to believe that an employee is using sick leave for an improper reason, the Company may require the employee to present a certificate from a qualified, licensed medical doctor to support the time off.
- 19.6 New hires will, upon satisfactory completion of their respective probationary periods, be allowed to utilize accrued sick leave consistent with the provisions of this Article.
- 19.7 An employee who is laid off or whose employment is terminated shall, upon layoff or termination, be paid for all accrued and unused sick leave.
- 19.8 Employees who receive Short Term Disability payments as a result of an injury or illness may, in addition, receive payment for approved sick leave of 2.6 hours per day if enrolled in the standard 66.23% Short Term Disability plan or 2.0 hours per day if enrolled in the "high option" 75% Short Term Disability plan. Vacation may be authorized at the same rate per day when sick leave is exhausted.

In the event of non-work related illness or injury, employees will be required to exhaust available sick leave hours prior to receiving Short Term Disability benefits, except that accruals of eighty (80) hours or less will be retained by the employee.

## ARTICLE 20

### DEATH IN FAMILY

- 20.1 Employees shall be allowed three workdays off, with pay, in the event of a confirmed death in their family. For the purpose of this Article, the term "family" will be defined as follows: parent or legal guardian, parent-in-law, spouse, brother, brother-in-law, sister, sister-in-law, child or stepchild of the employee, grandparent, grandparent-in-law and grandchild.
- If the place of burial is over 300 miles from the employee's place of residence and the burial is to be held on other than one of his/her regularly scheduled days off, he/she shall be allowed one additional workday off, with pay, to accommodate travel time. Mileage shall be determined by Rand-McNally mileage tables.
- 20.2 Pay for such time off shall be computed at 8 hours per day at the employee's straight time base rate, exclusive of all premiums.
- 20.3 Pay for time not worked under the provisions of this Article shall be considered as time worked for purposes of computing overtime.
- 20.4 If an employee requires time off exceeding that authorized above, vacation time not exceeding 20 workdays, will be authorized if requested by the employee and provided the employee has sufficient accrued vacation and is otherwise eligible to take vacation. If the employee does not have sufficient accrued vacation after using all accrued vacation he/she can take leave without pay not to exceed 10 workdays provided that not more than an aggregate of 20 workdays are taken.

## ARTICLE 21

### ABSENCE FROM WORK

- 21.1 An employee shall not leave work, be absent from work, or fail to report on time without prior permission from his/her Team Leader/Manager except for illness or injury, or other reason beyond the control of the employee.
- 21.2 Any employee who shall fail to call in with a reason for absence defined in paragraph 21.1 for 3 consecutive work days or who shall fail to report for work for 3 consecutive work days shall be deemed to have resigned without notice.
- 21.3 It is the duty of every employee who, for any reason, is unable to report to work as scheduled, or who expects to report for work late, to notify Maintenance Control, Production Control or their Team Leader, as appropriate of the reasons *therefore as far in advance of his/her scheduled starting time as possible*, indicating when he/she expects to report for work. An employee absent from work due to illness or injury shall advise the personnel department of his/her condition each Monday, or at such less frequent intervals as directed by the Company.

## ARTICLE 22

### LEAVES OF ABSENCE

- 22.1 The Company provides the following types of leaves of absence:
- a) Family Care Leave Of Absence,
  - b) Personal Leave of Absence ,
  - c) Military Leave of Absence ,
  - d) Extended Military Leave of Absence , and
  - e) Medical Leave of Absence .

Employees covered by this Agreement will be provided the appropriate type of leave consistent with the applicable CSC Applied Technologies Human Resources Management Policy HRMP 247 Revision 9, *effective September 17, 2008*. If there is a conflict between the policy and other provisions of this Agreement, the Agreement will prevail.

- 22.2 Except as specifically provided for herein, no employee may engage in gainful employment for anyone other than the Company while on leave of absence without prior *written permission from the Company*. Absent such permission, an employee so engaging shall be deemed to have resigned without notice from the Company's service.
- 22.3 Employees elected or appointed to full-time positions as IAMAW Union Representatives shall be given a leave of absence without pay for their term of office, or any renewal thereof. During such leave of absence, a bargaining unit employee shall retain and will continue to accrue seniority. Upon completion of such leaves of absence, such employee may exercise seniority rights to return to their former position. Not more than two employees are to be granted leave of absence for Union office at any one time.

- 22.6 An employee will be given necessary time off, with pay, up to twice in a calendar year, for the purpose of taking job related federal license examinations, providing the employee has prior approval to be absent from work and returns a slip from the examining officer confirming the employee took the examination.

## ARTICLE 23

### GROUP INSURANCE

- 23.1 As these plans are provided by outside vendors and/or are Company-wide plans, the Company may find it necessary or desirable to amend, revise, or replace some or all of the plans with like or comparable plans during the life of this Agreement. However, should such action be anticipated, the Company will notify the Union and meet with the Union as soon as possible after such notification to negotiate the impact on the bargaining unit employees.
- 23.2 Full-time employees may participate in the Company's group insurance plans. Both the Company and the employee shall share the cost of the Health Care and Dental Care Options plans shown below. The premiums shown are the total cost for the current plans paid by the employee and by the company as of the effective date of this Agreement. Cost distribution (splits) for future plans and years and premiums for 2010 rates are specified below. Rates for 2011 and 2012 will be made available to the Union no later than October 1 of the prior year. The parties agree that if the vendor cancels or modifies any of the listed health care plans during the term of this Agreement or if the rates for those plans for the plan years of 2011 or 2012 increase more than 25 %, the parties will meet to negotiate lower cost options prior to the time of annual enrollment for those years. Some of the basic insurance services as shown in 23.5 through 23.8 are provided at no cost to the employee and some options are paid 100% by the employee as stated in each of these sections. Contribution amounts for employee paid benefits in these sections will be published annually at time of benefits enrollment.

Family	\$ 8.57	\$ 21.27	\$ 8.69	\$ 20.28

Maintain current Dental plans and rates for balance of 2009 calendar year. For 2010 and beyond, employee pays Enhanced at 40% of Total Cost and Core at 30% of Total Cost.

#### 23.5 Short Term Disability Options

- a) The Company will provide Short Term Disability insurance with a benefit level of up to sixty-six and two-thirds percent (66 2/3%) of weekly compensation as defined in the Summary Plan Description at no cost to the employee.
- b) The employee may elect Short Term Disability insurance with a benefit level of up to seventy-five percent (75%) of weekly compensation as defined in the Summary Plan Description via payroll deduction.

#### 23.6 Life Insurance Options

- a) The Company will provide employees covered by this Agreement Life Insurance equal to two times (2x) annual salary rounded to the next highest one hundred dollars (\$100.00) as described in the applicable Summary Plan Description.

- b) Employees covered by this Agreement may purchase supplemental life via payroll deduction.

#### 23.7 Accidental Death and Dismemberment Options

- a) The Company will provide employees covered by this Agreement Accidental Death and Dismemberment insurance equal to one times (1x) annual salary rounded to the next highest one hundred dollars (\$100.00) as described in the applicable Summary Plan Description.
- b) Employees covered by this Agreement may purchase supplemental accidental death and dismemberment insurance via payroll deduction.

#### 23.8 Additional Options

In addition, full-time employees may participate in optional insurance programs, to include additional Long Term Disability, Vision Coverage, Employee Life, additional Employee AD&D and Dependent Life by paying the full cost of the coverages selected.

The Company will also offer Health Care and Dependent Care Spending Accounts.

The Company will provide an Employee Assistance Program and Business Travel Accident Insurance at no cost to the employees.

### ARTICLE 24

#### RETIREMENT PLANS

##### 24.1 Company 401K Retirement Savings Plan

For the remainder of the calendar year 2006, all employees in the bargaining unit will participate in the Company's Savings Plan, a defined contributions retirement plan with pre-tax savings (401K) provisions. The Company will make monthly cash contributions equal to four percent (4%) of the employee's gross wages into their accounts. The provisions of this program are as stated in the Summary Plan Description to be provided to all eligible employees except the Company contribution will be limited to that stated above.

Effective January 1, 2007, Bargaining unit employees may participate in the Company's 401K Savings Plan as described in the Plan Documents and Rules, on a voluntary basis. There will be no Company discretionary or matching contributions to this Plan in behalf of employees covered by this Agreement.

##### 24.2 I.A.M National Pension Plan

For the remainder of the calendar year 2006, all employees in the bargaining unit will participate in the Company's Savings Plan, a defined contributions retirement plan with pre-tax savings (401K) provisions. The Company will make monthly cash contributions equal to four percent (4.0%) of the employee's gross wages into their accounts. The provisions of this program are as stated in the Summary Plan Description to be provided to all eligible employees except the Company contribution will be limited to that stated above.

Effective January 1, 2007, the Company shall contribute to the I.A.M. National Pension Fund, National Pension Plan for each hour or portion thereof to a maximum of 40 hours per work week and to a maximum of 2080 hours per calendar year for which employees in all job classifications covered by this Agreement are entitled to receive pay under this Agreement as follows:

\$ 1.50	per	hour	effective	October 2, 2009
\$ 1.55	per	hour	effective	October 1, 2010
\$ 1.65	per	hour	effective	September 30, 2011

The Company shall continue contributions based on a forty (40) hour work week while an employee is off work in pay status due to paid vacations, paid holidays, paid sick leave, paid personal leave and/or other paid time off covered by this Agreement.

Contributions for a new part-time and/or new full-time employee shall be payable from the first day following the completion of the probationary period.

The Union and Company will adopt and agree to be bound by, and hereby assent to, the Trust Agreement, dated May 1, 1960, as amended, creating the I.A.M. National Pension Fund and the Plan rules adopted by the Trustees of the I.A.M. National Pension Fund in establishing and administering the foregoing Plan pursuant to the said Trust Agreement, as currently in effect and as the Trust and Plan may be amended from time to time.

The parties acknowledge that the Trustees of the I.A.M. National Pension Fund may terminate the participation of the employees and the Company in the Plan if the successor collective bargaining agreement fails to renew the provisions of this pension Article or reduces the Contribution Rate. The parties may increase the Contribution Rate and/or add job classifications or categories of hours for which contributions are payable.

This Article contains the entire Agreement between the parties regarding pension and retirement under this Plan and any contrary provisions in this Agreement shall be void. No oral or written modification of this Agreement shall be binding upon the Trustees of the I.A.M. National Pension Fund. No grievance procedure, settlement or arbitration decision with respect to the obligation to contribute shall be binding upon the Trustees of the Pension Fund.

## ARTICLE 25

### SAFETY AND HEALTH

- 25.1 Employees shall be required to comply with all safety rules and regulations established by the Company and to wear such serviceable protective clothing or use such safety equipment as required by the Company. Protective clothing and safety equipment furnished by the company remains the property of the Company and each employee shall be responsible for proper use thereof. The Company will make available serviceable rain gear for those employees required to perform work outside during inclement weather.
- 25.2 When an employee is injured so seriously as to require that he be excused from work by an authorized representative of management, he/she shall be paid for the balance of the regular scheduled shift on which the industrial injury occurred.

- 25.3 Should the Company have reason to believe an employee is physically or mentally unable to satisfactorily perform the duties of his/her job classification, such employee shall be required to take such medical examination as may be directed by the Company. The Company shall pay for each such examination. Should an employee fail to pass the Company's medical examination and, as a result thereof, is determined by the Company to be unable to perform the essential functions of his/her job classification, the Company agrees to meet with the Union for the purpose of endeavoring to agree on reassignment of the employee to available work for which he/she is qualified and which he/she is able to perform. If the Company and the Union are unable to reach agreement, the employee may then be designated for layoff and may exercise his/her seniority rights as provided in Article 28.
- 25.4 Emergency first aid care will be provided for employees in case of injury or illness.
- 25.5 Stewards shall be members of the Safety Committee, and a Steward shall be a member of each sub-committee designated to investigate personnel accidents, injuries, and/or unsafe conditions.
- 25.6 The Union recognizes the need for performing certain maintenance/modification functions outside of hangars. It is not the intent of management to unreasonably require extensive or prolonged outside work during periods of unusually severe weather.
- 25.7 Employees on Sick Leave, limited or restricted duty are not eligible for overtime, travel or temporary assignment.

## ARTICLE 26

### SENIORITY

- 26.1 The term "seniority" as used herein contemplates only that *relationship of each employee in the bargaining unit to other employees in the bargaining unit.*
- 26.2 Seniority shall accrue from the date of employment in the bargaining unit except that employees who were in the bargaining unit on May 6, 1969 shall have the seniority dates listed in Appendix E.
- 26.3 A seniority list shall be posted by the Company within 30 days after execution of this Agreement and shall set forth the seniority date of each employee covered hereby. Such list shall be revised and brought up to date each 3 months thereafter.
- 26.4 Employees shall have a period of 10 workdays after posting of seniority lists to protest, in writing, an error in the list. If such protest is not made within 10 workdays, the seniority list will stand as posted until the following posting at which time it will be corrected.
- 26.5 When two or more employees have the same seniority date, the older employee shall have the greater seniority.
- 26.6 An employee shall be deemed no longer employed by the Company and shall have his name stricken from the seniority list under any of the following circumstances: (1) discharge for cause; (2) resignation; (3) failure to comply with the reduction and restoration of forces provisions of this Agreement; (4) failure to be recalled from layoff within 12 months after such layoff; (5) failure to report for work upon expiration of an approved leave of absence; (6) *accepting other employment while on approved leave of*

absence without prior permission as provided in this Agreement; (7) unexcused absence from work for a period of 3 workdays as provided in this Agreement; (8) retirement of the employee in accordance with the Company's established retirement policy.

- 26.7 Any employee leaving the service of the Company will, upon request, be furnished with a letter setting forth the individual's classification and length of service.

## ARTICLE 27

### JOB VACANCIES

- 27.1 The Company recognizes the principle of granting preferential treatment to employees with greatest seniority. The Company agrees to award job vacancies on the basis of seniority provided that the senior employee has the ability, experience and qualifications necessary to perform the work. Selection of internal candidates for posted jobs covered by this Agreement will be made by an ad hoc selection committee comprised of the following:

- 1) Department Manager,
- 2) Team Leader,
- 3) Crew Leader and/or Union Steward,
- 4) Quality Control Representative, and
- 5) Division Contract Administration Manager.

It is understood and agreed that the selection committee for clerical positions covered by this Agreement will be comprised of the Department Manager, Division Contract Administration Manager, and Team Leader (if applicable).

- 27.2 When it is determined by the Company that a vacancy in a job classification covered hereby exists, such vacancy shall be posted on Company bulletin boards for bidding. Such notice shall contain the following information: (1) job classification, (2) branch, (3) shift, (4) qualification requirements, (5) required reporting date and time, and (6) date and time after which bids will no longer be accepted. The employee who is awarded the vacancy will be allowed to report to the vacancy within 30 days after being awarded the bid.
- 27.3 Bidding shall be held open for a period of 3 workdays following posting of the notice of job vacancy.
- 27.4 Bids must be made in writing to the Division Contract Administration Manager, or his/her designated representative, who shall affix a date and time to validate timely filing. A Steward may submit a bid for an absent employee if the employee has so requested in writing prior to his/her absence, and such employee will be bound by the Steward's bid for him/her.
- 27.5 The Company reserves the right to cancel any posted bid prior to the successful bidder assuming the duties thereof.

- 27.6 When an employee is awarded a posted job vacancy and such employee, in the opinion of the Company, fails to satisfactorily perform the duties thereof within 30 working days after assuming such duties, he/she will be returned to the same branch, classification and shift held prior to the award of such vacancy. An employee so returned shall not be eligible to bid again for the job from which he/she returned for a period of 12 months.
- 27.7 The notice of bid award shall be posted on Company bulletin boards within 5 working days after the close of the bid. All other bidders shall be so notified with 5 working days of the bid award, with a copy to the Chief Steward.
- 27.8 A successful bidder cannot bid for another vacancy for a period of 12 months following award, except to a vacancy in a higher classification.
- 27.9 In the event there is no successful bidder for the job vacancy, the Company may, at its option, fill such vacancy by new hire.
- 27.10 When the Company finds it necessary to realign the work force within a branch, such realignment will first be filled by volunteers from within that branch, then the low senior employees within that branch shall be forced to complete the realignment. After an employee has been forced to change shifts due to a realignment of the work force then such employee shall be offered by seniority any openings on the shift he/she was forced to leave within the branch before the opening is posted for bid.
- 27.11 It is understood that changes in qualification requirements may be necessary because of job or customer requirements. When such changes become necessary the Company shall notify the Union and the Parties shall meet to negotiate the proposed changes to the qualification requirements within the ten day period following notification. If agreement is not reached between the Company and the Union, the Union may contest the reasonableness of the proposed changes through the grievance and arbitration procedure by filing a written grievance with the Division Manager within five working days of the expiration of the 10 day negotiation period provided for above.
- 27.12 It is understood that changes in qualification requirements shall not be used to disqualify employees from bumping or bidding into job classifications where skills, abilities and licenses/certifications are substantially equal to those held by incumbents in that classification.
- 27.13 Costs associated with training directly applicable to the execution of an employee's present job functions will be paid by the Company provided such training is required by the Company's contract with NASA.

## ARTICLE 28

### REDUCTION AND RESTORATION OF FORCES

- 28.1 The Company recognizes the principle of granting preferential treatment to employees with the greatest seniority. When it is determined by the Company that a reduction in force is required, the Company agrees to effect such reduction in force, and any subsequent restoration thereof, on the basis of seniority, provided that the senior employee has proven to the satisfaction of the Company that he/she has the ability, experience and qualifications necessary to perform the work.

- 28.2 An employee shall be given no less than 4 regular workdays notice of layoff, or pay in lieu thereof. Pay in lieu of notice shall be computed based on 8 hours daily at the employee's base rate, including all premiums. Such notice, or pay in lieu thereof, shall apply to layoff resultant from termination of Company's contract with the United States Government.
- 28.3 Reductions in force ("layoffs") shall be effected consistent with paragraph 28.1 above in inverse order of seniority by job classification in the branch and shift having such overage of employees.
- 28.4 An employee who is notified of layoff may exercise his/her seniority to displace a junior employee in the same job classification, or in a lower job classification or in a job classification he/she previously held and performed satisfactorily, if the employee is qualified to perform the job of the employee displaced. Employees will only be allowed to bump into positions for which they could qualify on a job bid. Such employee shall indicate his/her election to exercise seniority or accept layoff within 48 hours of receipt of the notice of layoff. The Company reserves the right to assign qualified employees who are laid off to available openings in areas not affected.

When an employee is laid off due to a reduction in force and exercises his/her seniority right to displace a junior employee, the senior employee will have only recall rights to that branch and classification he/she was laid off from when a vacancy occurs in that branch and classification and the employee will forfeit all recall rights if he/she bids to another job vacancy.

Employees who are laid off from the service of the Company due to reduction in the work force shall, for a period not to exceed 12 months, retain and continue to accrue seniority.

- 28.5 In a restoration of force, the most senior employee laid off or reduced from the job classification shall be recalled first.
- 28.6 In a restoration of force, the Company may telephone and shall telegraph or mail a registered or certified notice of recall to the employee or employees entitled thereto with a copy to the Union. Employees who fail to contact the Division Contract Administration Manager's office within five working days after delivery to the employee's last known address of such notice shall forfeit all recall rights and shall be considered as having voluntarily resigned from the service of the Company. The Company, at its discretion, may extend this period.
- 28.7 All notices required under the provisions of this Article shall be sent to the employee at the last address filed by him/her with the Division Contract Administration Manager.
- 28.8 Each employee laid off shall keep the Division Contract Administration Manager informed in writing of his/her current mailing address. Notice by the Company to the employee's mailing address so listed with the Division Contract Administration Manager shall be considered as fulfilling the recall notice requirements herein. An employee failing to comply with the provisions of this paragraph shall be considered as having voluntarily resigned from the service of the Company.
- 28.9 An employee who re-enters the bargaining unit from a leave of absence may return to the last job classification therein, which he/she held, provided he/she has sufficient seniority. In the event such employee does not have sufficient seniority, he/she may exercise displacement rights in accordance with provisions of this Article.

## ARTICLE 29

### STEWARDS

- 29.1 The Union will select a total of 6 Stewards from among full time employees within the bargaining unit who have completed their probationary period with the Company. One of these Stewards will be designated as Chief Steward. Stewards will be selected at large.
- 29.2 Upon execution of this Agreement, the Union shall promptly furnish the Division Contract Administration Manager, in writing, the names of Stewards and shall thereafter promptly advise the Division Contract Administration Manager, in writing, of any change in Stewards. No Steward will be recognized as such by the Company prior to receipt of written notice of appointment.
- 29.3 Each properly designated Steward shall be allowed a total of not more than 4 hours each week during his/her regularly scheduled working hours without loss of pay for the purpose of investigating and settling or adjusting disputes, grievances or complaints arising out of interpretations or alleged violation of the terms and conditions of this Agreement. The Chief Steward shall, and the Union's business representative may, be present at the third step of the grievance procedure as provided herein.
- 29.4 A Steward shall secure the permission of his/her supervisor before leaving his/her work station, reporting back to his/her supervisor upon return to his/her work station. A Steward shall not be denied such permission without good cause.
- 29.5 Article shall be considered as time worked for the purpose of computing overtime.
- 29.6 For the purpose of applying Article 28, Reduction and Restoration of Forces, the Stewards shall be deemed to have super seniority only regarding loss of employment.
- 29.7 The Company shall promptly furnish the Union, in writing, the names of any supervisors or other Company officials authorized to settle any complaint or grievance and thereafter promptly advise the Union, in writing, of any change.
- 29.8 The Company will furnish the Chief Steward with the names, classification and unit of all new employees within 30 days after employment.
- 29.9 On a monthly basis consenting employees (new hires) will be afforded the opportunity to meet with a Steward for a brief meeting for the purpose of discussing Union business. Time spent on this activity will be charged against the 4 hours per week allotted to Stewards for the purpose of handling Union business.
- 29.10 Any Union Steward elected from the bargaining unit shall not be charged or asked for trips or overtime while involved in contractual negotiations or preparations for negotiations if written notice is given to the Company 72 hours in advance.

## ARTICLE 30

### DISCHARGE AND DISCIPLINE

- 30.1 The Company may discipline or discharge employees for just cause. Should the employee feel such action improper, he/she shall then be extended all rights and privileges accorded him/her in the grievance and arbitration procedures contained herein. The

Company shall remind the employee of his/her right to Union representation in any discussions incident to disciplinary or discharge actions.

- 30.2 In cases of documented verbal, written reprimand, suspension without pay, or discharge, the Company agrees to notify the Chief Steward, but if he/she is not available, a Steward, prior to taking any action, where such prior notification is reasonably possible. The Chief Steward or Steward shall initial any forms to be issued to the employee.
- 30.3 In all cases where written documented verbal, written reprimands or letters of suspension are given to employees, the Chief Steward will routinely receive a written copy of said documented verbal, written reprimand, or letter of suspension.
- 30.4 The procedure for clearing written documented verbal, written reprimands or letters of suspension shall be as defined in the Memorandum of Agreement entitled "Disciplinary Procedures" dated 23 September 1994.

## **ARTICLE 31**

### **GRIEVANCE PROCEDURE**

- 31.1 Nothing in this Agreement shall prevent an employee individually or through a Steward, from discussing any problem with his/her Team Leader, or other official of the Company, but there shall be no formal grievance until it has been reduced to writing as provided in paragraph 31.5. Neither Stewards nor other Union officials shall solicit grievances. A grieving employee may personally participate in meetings with Company representatives through Step 3 of the grievance procedure. The Company shall have no obligation to secure the participation of the grieving employee.
- 31.2 Prior to a complaint being considered a formal grievance and being reduced to writing, the complaining employee shall first take up the complaint with a Steward, and either or both shall then attempt to settle the complaint verbally with the employee's Team Leader. To contact a Steward the complaining employee shall ask his/her Team Leader to call the Steward to come to the employee's work position. The Team Leader will not unreasonably delay calling the Steward for the employee, and the Steward's own Team Leader will not unreasonably delay releasing the Steward to go handle the complaint. The Steward will normally talk with the employee near the employee's work location and will be permitted to contact other employees in the complaining employee's unit to secure information leading to the settlement of the complaint.
- 31.3 A formal grievance must be filed by an employee, through a Steward, or by the Chief Steward, within 6 work days after the occurrence giving rise to it, otherwise it shall be waived. Claims for money shall not be valid for a period of more than 30 calendar days prior to the date of filing such grievance, or the date on which the grievance arose, whichever is most recent.
- 31.4 For the presentation and adjustment of grievances arising out of interpretation or alleged violation of the terms and conditions of this Agreement, the following procedure is hereby established:
- 31.5 Step 1: An employee having a formal grievance shall present such grievance in writing through a Steward to his/her Team Leader. Such written grievance shall state specifically the reason therefore, the remedy sought and the paragraph of this Agreement which has been violated. The Team Leader and the Steward shall endeavor to arrive at a

satisfactory adjustment of the grievance. The Team Leader shall then render his/her decision thereon, in writing, within 3 workdays after receipt of the formal grievance.

- 31.6 Step 2: If a decision rendered in Step 1 hereof is not satisfactory, the grievance may then be appealed, in writing, to the Department Manager, provided such appeal is filed no later than 3 work days after receipt by the Steward of the decision rendered in Step 1 hereof, or the last day on which such decision was due, whichever is sooner, otherwise such decision shall be final and the employee shall have no further recourse. The Department Manager shall render a written decision thereon within 3 work days after receipt of such appeal.
- 31.7 Step 3: If not satisfactorily settled in Step 2 hereof, the grievance may then be appealed in writing to the Division Manager no later than 5 work days after receipt by the Steward of the decision rendered in Step 2 hereof, or the last day on which such decision was due, whichever is sooner, otherwise such decision shall be final and the employee shall have no further recourse. The Division Manager shall render a written decision to the Steward thereon within 10 work days after receipt of such appeal and will forward a copy of that decision to the Union Business Representative by regular mail.
- 31.8 If the decision of the Company is not furnished to the Steward as specified within the time limits set forth in Steps 1 and 2 of the grievance procedure, the employee may consider such lack of decision as an unsatisfactory one and appeal accordingly to the next step.
- 31.9 If the decision of the Company is not furnished to the Steward as specified within the time limits set forth in Step 3 of the grievance procedure, the Union may consider such lack of decision as an unsatisfactory one and appeal accordingly to arbitration under Article 32.
- 31.10 If a grievance arising out of interpretation or alleged violation of the terms and conditions of this Agreement is properly processed according to the grievance procedure herein established, and no satisfactory adjustment or settlement is reached, such grievance may then be appealed to arbitration as provided in Article 32, provided such written notice of appeal is filed by the Union with the Division Manager no later than 30 work days after receipt by the Steward of the decision rendered in Step 3 of the grievance procedure, or the last day on which such decision was due, whichever is sooner, otherwise such decision shall be final and the employee shall have no further recourse.
- 31.11 The time limits specified herein may be extended by mutual agreement of the Parties hereto.
- 31.12 An employee covered hereby may be represented by a Steward, or other duly elected and authorized officials of the Union, at any and all conferences with the Company arising from the processing of any formal grievance hereunder; provided, however, that such representation shall be limited at any one time to no more than 2 Union officials who are employed by the Company and on Company time.
- 31.13 Nothing in this Agreement shall be construed to prevent supervisory personnel, or other officials of the Company, from discussing any matter with an employee relating to that employee's relationship with the Company. However, if disciplinary action is taken, the employee shall then have the right to Union representation and the Company shall remind him of that right.
- 31.14 A grievance may be filed by an affected employee on behalf of himself and other similarly affected employees. It is the intent of this paragraph to eliminate the need for multiple filings of a grievance.

## **ARTICLE 32**

### **ARBITRATION PROCEDURE**

- 32.1 Any formal grievance arising out of interpretation or alleged violation of the terms and conditions of this Agreement which has been properly processed according to the grievance procedure established in this Agreement, and on which no satisfactory settlement has been reached, may be submitted to arbitration in the following manner:
- 32.2 Within 10 work days after receipt by the Division Manager of the appeal to arbitration provided in the grievance procedure established in Article 31, the Company's Division Manager and a Union business representative, the Chief Steward, and the Steward who wrote the grievance shall meet for the purpose of attempting to settle or adjust the dispute. The Parties may, by mutual agreement, meet more frequently in order to resolve the dispute.
- 32.3 If, within 10 work days from the time of the meeting provided in paragraph 32.2, such persons cannot agree on a settlement or adjustment of the dispute, a list of 5 arbitrators will be requested from the Federal Mediation and Conciliation Service. Each Party hereto shall then alternately strike a name from such list until one remains, who shall be the arbitrator.
- 32.4 The arbitrator shall hear both Parties to the dispute. His/her decision shall be final and binding on the Parties hereto, provided that nothing herein shall abridge the rights accorded the Parties hereto under valid public law.
- 32.5 Parties hereto may be represented at arbitration hearings by such person as they may choose and designate. Evidence may be presented either orally or in writing, or both.
- 32.6 The Parties may summon witnesses who can be spared without interference with the operation of the Company's plant.
- 32.7 Each of the Parties hereto will assume the compensation and other expenses of the witnesses called or summoned by it.
- 32.8 The fee and expenses of the arbitrator shall be shared equally by the Company and the Union.
- 32.9 The arbitrator shall not have authority to add to, subtract from or in any manner modify the terms and conditions of this Agreement, but shall have authority only to interpret such terms and conditions.

## **ARTICLE 33**

### **UNIFORMS**

- 33.1 Employees will be required to wear uniforms designated by the Company and to maintain them in a clean and neat condition. Employees will have the option of selecting either long or short sleeved uniforms shirts.
- 33.2 The Company shall provide five new uniforms upon an employee's initial hiring, or upon a uniform change. Thereafter, employees shall be entitled to four uniforms each year to be issued at the employee's option.

- 33.3 All employees required to wear uniforms shall be provided the sum of \$4.00 per week for uniform upkeep.
- 33.4 Upon termination, employees will be required to turn in the same number of uniforms provided by the Company under these provisions, up to a maximum of four. Failure to turn in uniforms upon termination will result in a charge for the actual cost per set.
- 33.5 This Article does not apply to employees in the clerks unit.

#### **ARTICLE 34**

##### **BULLETIN BOARDS**

- 34.1 The Company shall make available to the Union reasonable space on Company bulletin boards for posting certain Union notices.
- 34.2 The Union agrees to submit all notices to be posted, signed by an appropriate official of the Union, to the Company's Division Manager or his/her duly designated representative for approval. The Company agrees to post promptly all approved notices.
- 34.3 *Automatic approval shall be extended to the following:*
  - (1) notice of Union recreational, social affairs and special notices relating to Union business,
  - (2) notices of Union elections,
  - (3) notices of Union appointments and the results of Union elections, and
  - (4) notices of Union meetings.
- 34.4 There shall be no distribution or posting by the Union, or by employees, of advertising or political material, notices, or any other kinds of literature on the Company's property other than herein provided.

#### **ARTICLE 35**

##### **PLANT VISITATION**

- 35.1 Duly authorized representatives of the Union who are not employees of the Company shall have reasonable access to the Company's premises during established working hours.
- 35.2 Not more than two such representatives of the Union will be granted access at any one time and while on Company premises, such Union representatives shall be governed by all applicable security, safety and plant rules and regulations.
- 35.3 Union representatives desiring to enter the Company's premises for the purposes herein stated shall make application for admittance to, and be accompanied by, the Division Contract Administration Manager.

**ARTICLE 36**

**CHECK-OFF**

- 36.1 Upon receipt from an employee of a voluntarily executed and signed authorization form, the Company agrees to deduct biweekly, from the wages of such employee, initiation fees and biweekly dues uniformly required as a condition of acquiring and maintaining membership in the Union, or amounts equal thereto. Such amounts will be certified by the Financial Secretary of the Local Lodge.
- 36.2 Such payroll deductions shall be made by the Company from each biweekly paycheck received by the employee beginning with the payroll period next commencing after receipt by the Company of the properly executed and signed authorization form. All amounts deducted shall be remitted to the Financial Secretary of the Local Lodge no later than the fifteenth day of the month following the month in which the deduction is made and shall be accompanied by a list of employees for whom deductions were made and the amounts thereof.
- 36.3 In the event an employee's earnings for the payroll period from which deductions are to be made are insufficient to cover all authorized payroll deductions for such payroll period, deductions will receive preference in the order determined by the Company. The Company shall not be obligated to deduct from any subsequent paycheck initiation fees or biweekly dues (or amounts equal thereto) not deducted due to lack of sufficient earnings.
- 36.4 The Union shall indemnify and save the Company harmless against any and all claims, demands, suits or other form of liability including reasonable attorney's fees that may arise out of or by reason of any action taken or not taken by the Company in reliance upon information furnished to the Company by the Union for the purpose of complying with any of the provisions of this Article.
- 36.5 The Parties hereto agree that the approved check-off authorization form shall be as follows:

NAME OF EMPLOYEE \_\_\_\_\_

EMPLOYEE NUMBER \_\_\_\_\_ DATE \_\_\_\_\_

I hereby authorize and direct the Company to deduct from my earned pay, beginning with the pay period following receipt hereof by the Company, initiation fees and/or my regular biweekly Union dues, on account of membership in Local Lodge Number 1786, District Number 37, International Association of Machinists and Aerospace Workers, AFL-CIO, or amounts equal thereto.

I submit this authorization and assignment with the understanding that it will be effective for a period of one year from the date hereof, or until the date on which I may be transferred from the bargaining unit covered by the collective bargaining agreement between the Company and Local Lodge Number 1786, District Number 37, International Association of Machinist and Aerospace Workers, AFL-CIO, or until the date of termination of said collective bargaining agreement, whichever may occur first.

This authorization and assignment shall continue in full force and effect for a yearly period beyond the irrevocable period set forth above, each subsequent yearly period shall be similarly irrevocable unless revoked by me within fifteen days after any irrevocable period

hereof. Such revocation shall be affected by written notice, sent by registered mail, return receipt requested, to the Company and to the Union within such fifteen day period.

SIGNATURE \_\_\_\_\_

## ARTICLE 37

### AGENCY SHOP

- 37.1 Membership in the Union is not compulsory. Employees have the right to join, not join, maintain, or drop their membership in the Union as they see fit. Neither Party shall exert any pressure on or discriminate against an employee as regards such matters.
- 37.2 Each employee in the bargaining unit shall, beginning on the 31st day following the execution of this Agreement or the 31st day following inception of employment, rehire, reinstatement, reemployment, recall, transfer or regression into the bargaining unit, as a condition of continued employment in the bargaining unit, execute and deliver to the Company a payroll deduction authorization as provided for in Article 36, or pay directly to the Union an amount of money equal to the Union's regular and usual initiation fee and its regular, uniform and usual monthly dues.
- 37.3 An employee within bargaining unit who is required to contribute to the Union as provided for in paragraph 37.2 and who subsequently transferred or promoted out of the bargaining unit or laid off shall not be subject to any of the provisions of this Article during the period of time such employee remains outside the bargaining unit or on layoff.
- 37.4 No employee within the bargaining unit shall be required to pay fees or dues covering any period during which the employee was not in the bargaining unit or was not on the Company's active payroll. The check-off authorization provided in Article 36 shall be automatically revoked whenever the employee is transferred or promoted out of the bargaining unit or whenever the employee is terminated from active employment for any reason, including layoff.
- 37.5 An employee within the bargaining unit shall be considered in good standing for the purposes of this Article when such employee tenders the amount of money equal to the Union's regular and usual initiation fee (due and payable only once per employee without regard to any interruption in service) and its regular, uniform and usual monthly dues to an authorized agent of the Union or through payroll deduction. Upon written demand from the Union, the Company shall terminate any employee within the bargaining unit who fails to tender the sum due the Union under paragraph 37.2 within 30 days from the date such sum is due, provided the Union informs the Company and the employee in writing and allows him an additional 15 days after the 30th day of delinquency. If the employee fails to resolve his/her dues delinquency with the Union during this 15 day period and after notification to the Company by the Union, the Company will terminate the employee effective the end of that payroll period.
- 37.6 Employees may handle the matter of payment of Union initiation fees and dues directly with the Union. In cases where deductions are made for employees who have already paid fees or dues to the Union, the Union will make refunds directly to such employee.
- 37.7 This Article shall cease forthwith to be applicable in the event of a court decision that the article is unlawful, notwithstanding an appeal; the Article shall be reinstated forthwith in the event of reversal of such court decision on appeal. The Union does hereby indemnify and

will save the Company harmless from and against any and all claims, demands, suits or other forms of liability incurred by the Company which arise out of placing into effect or carrying out the provisions of this Article, and it is expressly understood that this indemnity shall include, and the Union shall pay, any final judgment rendered against the Company in regard to the application of this Article, and the Union shall pay all attorneys' fees and other costs of litigation incurred by the Company in defending litigation, in court or before a government administrative agency, which pertains to the legality of this Article.

## ARTICLE 38

### TEMPORARY ASSIGNMENTS

- 38.1 The Company may temporarily (for 30 days or less) assign an employee to work in any other classification or shift when no work is available in the employee's regular classification or shift or when such assignment is required by work schedules, whether such work is at Ellington Field or at other operating locations. Overtime worked by an employee while on temporary assignment to another branch/workcenter shall be charged on the overtime list on regularly assigned branch/workcenter. Employees who refuse a voluntary temporary assignment shall not be charged overtime worked by the person who accepts the overtime while on temporary assignment.
- 38.2 An employee temporarily assigned to a job classification with higher rate range shall receive the entry rate of the higher job classification, if higher than his/her present rate. Pay increases or decreases relative to assignments shall become effective on the date of assumption of the new assignments.
- 38.3 Under compelling circumstances and upon approval of the Company, employees may be permitted to temporarily exchange their scheduled shifts provided such change can be accomplished without involving overtime pay to such employee; provided, further, that the employees concerned are, in the judgment of the Company, sufficiently qualified to perform each other's work assignments.
- 38.4 The Company may temporarily fill (for 30 days or less) a job vacancy by assignment during the period from the time a job vacancy is posted for bid and the time it is filled by a successful bidder.
- 38.5 Temporary vacancies expected to be of no more than 30 days duration need not be bid and may be filled by assignment from any Branch.
- 38.6 The Company may, for 30 days or less, assign an employee to work another shift. Temporary assignments due to work schedules will first be filled by senior qualified consenting employees who the Company considers can be released and next by the least senior qualified employee who the Company considers can be released. Upon completion of such temporary assignment, the employee will be returned to his/her original shift. For safety reasons, employees will be guaranteed a minimum of eight hours off the clock between shift changes. In the event that operational requirements prevent employees from transitioning back to their permanent shift, without the eight hours off the clock, the Company agrees to allow employees the difference between eight hours straight time pay and hours worked, if hours worked are less than eight hours. In cases of temporary shift changes at Ellington where less than twenty-four (24) hours notice is provided, the affected employee shall receive a premium of fifty percent (50%) on the first four (4) hours worked on the newly scheduled shift.

## **ARTICLE 39**

### **SAVINGS CLAUSE**

- 39.1 Should any part of this Agreement be rendered invalid by any court of competent jurisdiction, or if any provision shall be contrary to any law or regulation which has the full force and effect of law, such invalidation or illegality shall not serve to invalidate the remaining parts or provisions of this Agreement and they shall remain in full force and effect for term of this Agreement.

## **ARTICLE 40**

### **BRANCHES/WORK CENTERS**

- 40.1 The following nine (9) "branches" will be recognized for overtime and maintenance TDY purposes.
- a) T-38 Unscheduled/Flight Line Branch
  - b) T-38 Scheduled Maintenance Branch
  - c) STA/Administrative Aircraft Branch
  - d) Heavy Aircraft Branch
  - e) Airframes Branch
  - f) Avionics Branch
  - g) Power Plants Branch
  - h) Life Support Systems Branch
  - i) Logistics
- 40.2 For overtime and TDY purposes, night shift personnel will be considered as being in the same branch with day shift personnel.
- 40.3 Clerks will be considered as assigned to their respective departments for overtime and TDY purposes.
- 40.4 For purposes of overtime and TDY, it is understood that the work will first be offered to the workcenter within the branch that normally performs that work. Workcenters will be defined as posted by the overtime and trip lists in each respective Branch.

## **ARTICLE 41**

### **WEATHER SHUTDOWNS**

- 41.1 If operations at Ellington Field, NASA JSC are shut down by NASA because of weather or flooding conditions, employees will be paid for work days lost, at 8 hours per day base

pay, if NASA employees are paid for such days lost. This Article shall not restrict the Company's right to utilize the layoff procedure in the event of a weather shutdown.

#### **ARTICLE 42**

##### **UNION NEGOTIATING COMMITTEE PAY**

- 42.1 The Company agrees to pay Union negotiating committee members who are employees of the Company for time spent in actual negotiating sessions with Company bargaining committee members. The Company shall not be required to pay any such employee more than eight (8) hours pay at the employee's base rate for any calendar day of negotiations.
- 42.2 Time spent by Union negotiating committee members outside of actual negotiating sessions for purposes such as preparing for negotiations or any session, preparing proposals or counter proposals, participating in employee meetings, to include ratification meetings, or other such activities, shall not be compensable under this Article. Legitimate, agreed to caucuses during the course of any day's negotiations, however, are part of that day's session.
- 42.3 The Union Stewards will be the Negotiating Committee.

#### **ARTICLE 43**

##### **EFFECTIVE DATE AND DURATION**

- 43.1 This Agreement shall become effective 17 September 2009, and shall remain in full force and effect until midnight 16 September 2012, and shall renew itself without change each 16 September thereafter, unless written notice of intent of cancel or change is served by either Party hereto on the other by registered or certified mail, return receipt requested, addressed to the Company's Division Manager or the Union's Business Representative, no less than 60 days prior to 16 September 2012, or any 16 September thereafter.

IN WITNESS WHEREOF, the COMPANY and the UNION have signed this Agreement this 17th day of September, 2009.

**APPENDIX C**

**MEMORANDUM OF AGREEMENT  
23 SEPTEMBER 1994**

The Parties hereby recognize the Company rules and schedule of disciplinary actions as attached to this Memorandum of Agreement. All disciplinary actions shall be issued consistently with the offense committed and the employee's prior disciplinary history as illustrated therein.

It is understood and agreed that the list of rules attached is not exhaustive and that the Company reserves the right to establish new rules as described in Article 3 of the collective bargaining agreement.

With respect to the clearing of disciplinary actions from the employee's personnel file, it is understood and agreed that a "period of good conduct" will be defined as a period of time in which the employee receives no disciplinary actions.

Further, it is understood and agreed that, after a disciplinary action is cleared from the employee's personnel file, the Company will retain those disciplinary action documents separate from the employee's personnel file. However, once cleared in this manner, such documents will be inadmissible in future disciplinary proceedings against the employee.

## APPENDIX D

### MEMORANDUM OF AGREEMENT 20 AUGUST 1997

It is understood and agreed that persons designated as 'Crew Leaders' will continue to perform the routine work assignments of his/her normal job.

"Crew Leaders" will:

- 1) Schedule work in their respective unit or shop in conjunction with the Team Leader,
- 2) Prioritize work in their respective unit or shop in conjunction with the Team Leader,
- 3) Assign specific tasks to individual employees in their respective unit or shop, and
- 4) Will require DSI certification and perform DSI functions as required.

"Crew Leaders" will not:

- 1) Maintain or manage trip lists or overtime lists,
- 2) Approve vacation or other paid time off,
- 3) Effect or recommend disciplinary action,
- 4) Effect employee performance evaluations.

## APPENDIX F

### DRUG AND ALCOHOL FREE WORKPLACE PROGRAM FOR EMPLOYEE REPRESENTED BY INTERNATIONAL ASSOCIATION OF MACHINISTS AND AEROSPACE WORKERS, DISTRICT NUMBER 37

#### POLICY STATEMENT

CSC Applied Technologies, JSC Aviation Managed Services has a responsibility to provide and maintain a safe, healthful and productive work environment for all of its employees. An integral part of such an environment is a work force free from individuals illegally or unsafely using drugs or alcohol. The use of alcohol, illegal drugs, or improper use of legal drugs on Company property can cause avoidable injuries to employees, damage to property and productivity loss. Therefore, it is in the interest of the Company, its customers, and its employees that persons who abuse alcohol and/or drugs receive appropriate treatment and provided with the opportunity to recover from their disability. However, employees who are unable to satisfactorily complete or adhere to a rehabilitation program, may have to be removed from the workforce.

#### Application

The drug and alcohol testing provisions of this policy apply to all employees in the bargaining unit.

#### Prohibited Conduct

Pursuant to this policy, an employee may be subject to discipline for engaging in any of the following conduct

1. Using, selling, purchasing, possessing or working under the influence of alcohol, any illegal drug or any legal drug which has not been used for its intended purpose or as prescribed, while on Company premises and/or on Company time.
2. Failing to submit to a drug or alcohol test where such test is permitted under this Policy or altering any sample obtained during such a test.
3. Refusal to cooperate with law enforcement agencies in efforts to detect illegal use or possession of drugs in the workplace and to identify and prosecute the individual(s) involved.

Violation of these rules may result in appropriate, progressive disciplinary action in accordance with the procedures set forth in the collective bargaining agreement.

Any employee who is convicted of a drug-related crime shall notify the Company immediately of such conviction. For the purpose of this Policy, a "conviction" means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body with the responsibility to determine violations of federal, state or local criminal statutes. Information concerning any such conviction for violations of any statute based upon conduct occurring away from the Company's premises and outside work time shall not be a basis for imposing discipline under the collective bargaining agreement or for requiring reasonable suspicion testing without the observations required by this Policy.

## **Employee Assistance**

The Company recognizes that alcohol and drug abuse are diseases which require medical and/or psychological treatment. For that reason, the company has established an Employee Assistance Program (EAP) through the Human Resources Department and encourages employees to seek treatment and rehabilitation, when necessary. In order to encourage those in need of assistance to utilize the EAP, employees who voluntarily seek treatment before being found in violation of this Policy will not be subject to discipline for enrolling in an EAP or while in compliance with a rehabilitation program. Employees who enroll in an EAP upon receipt of a first confirmed positive drug or alcohol test result shall not be subject to discharge while undergoing rehabilitation. Employees who have returned to duty following rehabilitation and subsequently test positive for substance abuse shall be terminated from employment.

The Human Resources Department shall develop *information and communications to ensure* that employees are informed about the dangers of drug and alcohol abuse in the workplace, and other legally required information, including the employment consequences of an employee's refusal or failure to comply with the requirements of this Policy.

Medical expenses incurred by an employee for treatment of alcohol and drug abuse shall be covered by the medical benefits plan in which the employee participates, to the extent provided by that plan. Employees who are disabled by substance abuse problems shall be covered by the Company disability pay policies and accident and health insurance plans on the same basis as for disabilities for any other reason.

## **Types of Testing**

Following notification of this Policy, including specifically the employee's obligation to cooperate in the administration of such test and consequences for failing to do so as well as of the employee's right to have a Union official witness the administration of the test, the Company may test employees to whom the drug and alcohol testing provisions of this Policy apply as follows:

(1) *Pre-employment.* Applicants will be required to submit to controlled substance and alcohol testing as a condition of employment. If an applicant's test results are confirmed positive, the employment offer will be withdrawn. Applicants that fail to submit to a controlled substance and alcohol test upon request will not be considered for employment.

(2) *Reasonable Suspicion.* An employee shall be tested upon the Company's determination that there is a reasonable suspicion to believe that the covered employee has used a prohibited drug or is under the influence of alcohol. The Company's determination that reasonable suspicion exists shall be based on specific, contemporaneous, articulable observations concerning the appearance, behavior, speech, or body odors of the covered employee. The required observations must be made by at least two supervisors, at least one of which has received training in a prescribed training program endorsed by the Company in detecting the signs and symptoms of drug or alcohol, speech, breath odor or conduct which indicates the need for a medical evaluation. Suspicion is not reasonable and, thus, not a basis for testing, if it is based solely on third party reports or the observation of an untrained supervisor. The supervisors shall make separate, written statements of their observations upon which the test is based within twenty-four hours and shall provide a copy of each statement to the employee and shop steward or other union official, upon receipt. Once notified of selection by a designated Company official, the employee must provide specimen for testing within two hours.

(3) *Random.* The Company shall at various times, randomly select covered employees for unannounced drug testing. The selection of covered employees shall be made by a

scientifically valid method, such as a random-number table or a computer based random number generator that is matched with covered employees' Social Security numbers, payroll identification numbers, or other comparable identifying numbers. Each covered employee shall be in a pool from which random selection is made. Generally ten percent (10%) of the pool shall be tested each fiscal year. Each covered employee in the pool shall have an equal chance of selection and shall remain in the pool, whether or not the covered employee is ever tested. Once notified of selection by a designated Company official, the employee must provide specimen for testing within two hours.

(4) **Post-accident.** An employee shall be subject to testing following an accident involving a commercial, company or government property resulting in death, bodily injury requiring medical treatment, away from the accident scene, or property damage totaling \$4,400 or more. Such test shall be administered as soon as practicable after the accident but an alcohol test may not be administered more than 2 hours after the accident, nor may a drug test be administered more than 32 hours after the accident.

(5) **Follow-Up.** Where, following a positive drug or alcohol test, a covered employee has been evaluated by a substance abuse professional, identified as needing assistance in resolving problems associated with alcohol misuse or controlled substances use, and properly completed a rehabilitation program, such employee shall be subject to unannounced follow-up alcohol and controlled substances testing for up to 24 months following employee's return to duty. Once notified of selection by a designated Company official, the employee must provide specimen for testing within two hours.

### **Testing Procedures**

Alcohol and drug testing procedures and practices shall conform to those contained in 49 CFR Part 40, Procedures for Transportation Workplace Drug Testing Programs. The testing protocols shall conform with the Department of Health and Human Services "Mandatory Guidelines for Federal Workplace Drug Testing Programs," (59 FR 29008).

Any employee to be tested shall be transported to and from the collection facility or test site on Company time and at Company expense. The employee shall receive the applicable rate of compensation for all time spent at the collection site. If requested, the employee will sign a consent form authorizing the collection facility to withdraw specimens of urine and release the results of the laboratory tests to the Company's Medical Review Officer, but the employee shall not be required to waive any causes of action or claims under the law. The Company and Union agree to adopt a mutually acceptable consent form which shall then be used when required.

Any employee who is removed from service or suffers a loss of earnings based upon a drug test result which is ultimately found to be negative (a "false positive" result) or otherwise invalid shall be compensated for all time lost and made whole for any benefits lost.

### **Confidentiality**

The Company will designate an official who will be responsible for receiving and maintaining records regarding all drug or alcohol tests administered under this Policy. These records shall be maintained in separate files from routine personnel files and the Company shall limit access to those specifically authorized management personnel. The Company will conduct the Policy in a manner calculated to preserve the employee's privacy and dignity. Information concerning testing and test results shall be restricted to those management personnel who need such information in order to make and implement decisions concerning the employee.

In the event a grievance is filed as a result of a positive drug test, the Company shall obtain from the laboratory its records relating to the drug test and, if necessary, any records which might be in the possession of the MRO (Medical Review Officer). The Company shall provide copies of all information to the Union, provided that the employee authorized the release of the medical records. *The Union and the Company shall confer and adopt a mutually acceptable release form.*

### **Searches**

In order to enforce this Policy the Company may conduct inspections of Company/Government facilities and equipment as well as employee property located on Company or Government owned or operated facilities. Inspections of employee property shall only be conducted if there is reasonable cause to believe that the employee is concealing illegal drugs or alcohol in violation of this Policy. Under no circumstances shall an inspection of employee property occur unless the employee is present for the inspection and has been specifically informed of his or her right to be accompanied by a Union representative.

## APPENDIX G

### MEMORANDUM OF AGREEMENT OCONUS TRAVEL – HARDSHIP OR DANGER ZONES 15 SEPTEMBER 2006

The parties agree that travel Outside the Continental United States (OCONUS) to military bases and facilities in government-designated Hardship or Danger Zones is regulated by the following standards:

- The Company will notify the Union upon communications from NASA that such deployment is expected and meet to negotiate the details of such deployment.
- CSC shall first select employees who have the necessary qualifications to be considered for travel on a voluntary basis following basic provisions for trip assignment as outlined in the 15.6 above. In the event that no CBA members volunteer for the assignment, the Company may fill the assignment from outside the bargaining unit. CBA members declining the assignment will not be charged for declining the travel.
- Wage compensation differentials shall be determined in accordance with the Department of State Standardized Regulations (DSSR) Table of Allowances for work in hazard zones Outside the Continental United States (OCONUS) as authorized by NASA's Contracting Officer.
- Accountability for overtime shall be in accordance with 15.7 above. Persons turning down such deployment shall be charged for time worked by those deployed.

APPENDIX H

APPENDIX H

MEMORANDUM OF UNDERSTANDING

Compliance with Article 13, Overtime and Article 15, Travel

The parties have agreed to the following understandings and interpretations of practices established under and in compliance with the following Articles of the Agreement:

Article 13, Overtime -

- Under Art 13, Section 2 - When special skills are required within the workcenter for overtime opportunities, employees not possessing these skills will not be charged for that overtime. Special skills are defined as skills required for Sheet Metal, Corrosion, Hydraulic and Engine work.
- The term bi-weekly in Section 9 means every other week. Even though the overtime is calculated daily for distribution purposes, postings will occur every other week.
- Timely on-the-job training as stated in Section 13 refers to training obtained while holding the job to obtain all of the required or desired skills which may apply to that job rather than a quick training session to be able to perform an overtime assignment.

Article 15, Travel -

- Under Article 15, Section 1 - When special skills are required within the workcenter for travel opportunities, employees not possessing these skills will not be charged for that trip. Special skills are defined as skills required for Sheet Metal, Corrosion, Hydraulic and Engine work.
- Employees will not be charged twice for the same trip even though the trip list will continue to be run for every trip assignment.
- Overtime distribution for persons on TDY assignment will be done in the same manner as for employees working at Ellington Field in order to assure distribution of overtime opportunities on a daily basis.

**12. PUBLIC RELEASE** Any information (classified or unclassified) pertaining to this contract shall not be released for public dissemination except as provided by the industrial Security Manual or unless it has been approved for public release by appropriate U.S. Government authority. Proposed public release shall be submitted for approval prior to release

Direct

Through (Specify):

NASA/Johnson Space Center AP/Public Affairs Office Houston, TX 77058-3696

To the Office of Public Affairs, National Aeronautics and Space Administration, Washington, DC 20546, for review.

to the Directorate for Freedom of Information and Security Review, Office of the Assistant Secretary of Defense (Public Affairs)\* for review.  
\*In the case of non-DoD User Agencies, requests for disclosure shall be submitted to that agency.

**13. SECURITY GUIDANCE.** The security classification guidance needed for this effort is identified below. If any difficulty is encountered in applying this guidance or if any other contributing factor indicates a need for changes in this guidance, the contractor is authorized and encouraged to provide recommended changes: to challenge the guidance or classification assigned to any information or material furnished or generated under this contract; and to submit any questions for interpretation of this guidance to the official identified below. Pending final decision, the information involved shall be handled and protected at the highest level of classification assigned or recommended. (Fill in as appropriate for the classified effort. Attach, or forward under separate correspondence, any document/guides/extracts referenced herein. Add additional pages as needed to provide complete guidance.)

Performance of this contract will involve the receipt and storage of classified information at the actual performance location, see Section 8. Access to classified information/areas will occur at the user agency NASA/JSC as being the primary location and other locations where the requirement is covered by the obligations specified in Section C of the basic contract document. Only U.S. citizens granted a final personnel security clearances are eligible for access to classified material. The contractor must meet and comply with the facility clearance requirements for TOP SECRET level clearances. In addition, must meet and maintain the industrial security requirements for access to classified information at the TOP SECRET level. This being in accordance with the National Industrial Security Program Operating Manual, DOD 5220.22-M, dated February 28, 2006 and other NASA/JSC security procedures and guidelines.

The period of performance is from Month/Day/Year, through Month/Day/Year. (When contract has been awarded)

The period of performance is from Month/Day/Year, through Month/Day/Year. (When contract has been awarded)

Questions or request concerning clarification or interpretation regarding security requirements shall be directed to the NASA/JSC Industrial Security Specialist at 281-483-6700.

“THIS DD FORM 254 IS ISSUED FOR PRE-AWARD PURPOSES ONLY.”

**14. ADDITIONAL SECURITY REQUIREMENTS.** Requirements, in addition to ISM requirements, are established for this contract. (If Yes, identify the pertinent contractual clauses in the contract document itself, or provide an appropriate statement which identifies the additional requirements. Provide a copy of the requirements to the cognizant security office. Use Item 13 if additional space is needed.)

Yes  No

(a) National Industrial Security Program Operating Manual, DOD 5220.22-M, dated February 28, 2006; (b) JSC Security Handbooks, Manuals, Regulations, Instructions, and Directives (current editions as of the date of Contract Award), as well as any other applicable policies and procedures set forth within the Contract and as identified by NASA.

**15. INSPECTIONS.** Elements of this contract are outside the inspection responsibility of the cognizant security office. (If Yes, explain and identify specific areas or elements carved out and the activity responsible for inspections. Use Item 13 if additional space is needed.)

Yes  No

**16. CERTIFICATION AND SIGNATURE.** Security requirements stated herein are complete and adequate for safeguarding the classified information to be released or generated under this classified effort. All questions shall be referred to the official named below.

## **SECTION K - REPRESENTATIONS, CERTIFICATIONS, AND OTHER STATEMENTS OF OFFERORS**

K.1 52.203-11 CERTIFICATION AND DISCLOSURE REGARDING PAYMENTS TO INFLUENCE CERTAIN FEDERAL TRANSACTIONS. (SEP 2007) (Applies to Fixed-Price and Cost)

K.2 52.204-5 WOMEN-OWNED BUSINESS (OTHER THAN SMALL BUSINESS). (MAY 1999) (Applies to Fixed-Price and Cost)

[Complete only if the offeror is a women-owned business concern and has not represented itself as a small business concern in paragraph (b)(1) of FAR 52.219-1, Small Business Program Representations, of this solicitation.]

K.3 52.222-38 COMPLIANCE WITH VETERANS' EMPLOYMENT REPORTING REQUIREMENTS. (SEP 2010) (Applies to Fixed-Price and Cost)

K.4 52.223-1 BIOBASED PRODUCT CERTIFICATION. (DEC 2007) (Applies to Fixed-Price and Cost)

K.5 52.223-4 RECOVERED MATERIAL CERTIFICATION. (MAY 2008) (Applies to Fixed-Price and Cost)

K.6 52.203-2 CERTIFICATE OF INDEPENDENT PRICE DETERMINATION. (APR 1985) (Applies to Fixed-Price)

(a) The offeror certifies that -

(1) The prices in this offer have been arrived at independently, without, for the purpose of restricting competition, any consultation, communication, or agreement with any other offeror or competitor relating to -

(i) Those prices;

(ii) The intention to submit an offer, or

(iii) The methods or factors used to calculate the prices offered.

(2) The prices in this offer have not been and will not be knowingly disclosed by the offeror, directly or indirectly, to any other offeror or competitor before bid opening (in the case of a sealed bid solicitation) or contract award (in the case of a negotiated solicitation) unless otherwise required by law; and

(3) No attempt has been made or will be made by the offeror to induce any other concern to submit or not to submit an offer for the purpose of restricting competition.

(b) Each signature on the offer is considered to be a certification by the signatory that the signatory

-

- (1) Is the person in the Offeror's organization responsible for determining the prices being offered in this bid or proposal, and that the signatory has not participated and will not participate in any action contrary to paragraphs (a)(1) through (a)(3) of this provision; or
- (2)(i) Has been authorized, in writing, to act as agent for the following principals in certifying that those principals have not participated, and will not participate in any action contrary to paragraphs (a)(1) through (a)(3) of this provision [Offeror Fill In];
- (ii) As an authorized agent, does certify that the principals named in subdivision (b)(2)(i) of this provision have not participated, and will not participate, in any action contrary to paragraphs (a)(1) through (a)(3) of this provision; and
- (iii) As an agent, has not personally participated, and will not participate, in any action contrary to subparagraphs (a)(1) through (a)(3) of this provision.
- (c) If the offeror deletes or modifies subparagraph (a)(2) of this provision, the offeror must furnish with its offer a signed statement setting forth in detail the circumstances of the disclosure.

(End of provision)

**K.7 52.204-8 ANNUAL REPRESENTATIONS AND CERTIFICATIONS. (MAY 2011)  
(Applies to Fixed-Price and Cost)**

- (a)(1) The North American Industry Classification System (NAICS) code for this acquisition is [insert NAICS code].
- (2) The small business size standard is [insert size standard].
- (3) The small business size standard for a concern which submits an offer in its own name, other than on a construction or service contract, but which proposes to furnish a product which it did not itself manufacture, is 500 employees.
- (b)(1) If the clause at 52.204-7, Central Contractor Registration, is included in this solicitation, paragraph (d) of this provision applies.
- (2) If the clause at 52.204-7 is not included in this solicitation, and the offeror is currently registered in CCR, and has completed the ORCA electronically, the offeror may choose to use paragraph (d) of this provision instead of completing the corresponding individual representations and certifications in the solicitation. The offeror shall indicate which option applies by checking one of the following boxes:
  - [ ] (i) Paragraph (d) applies.
  - [ ] (ii) Paragraph (d) does not apply and the offeror has completed the individual representations and certifications in the solicitation.
- (c)(1) The following representations or certifications in ORCA are applicable to this solicitation as indicated:
  - (i) 52.203-2, Certificate of Independent Price Determination. This provision applies to solicitations when a firm-fixed-price contract or fixed-price contract with economic price adjustment is

contemplated, unless--

- (A) The acquisition is to be made under the simplified acquisition procedures in Part 13;
  - (B) The solicitation is a request for technical proposals under two-step sealed bidding procedures;  
or
  - (C) The solicitation is for utility services for which rates are set by law or regulation.
- (ii) 52.203-11, Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions. This provision applies to solicitations expected to exceed \$150,000.
  - (iii) 52.204-3, Taxpayer Identification. This provision applies to solicitations that do not include the clause at 52.204-7, Central Contractor Registration.
  - (iv) 52.204-5, Women-Owned Business (Other Than Small Business). This provision applies to solicitations that--
    - (A) Are not set aside for small business concerns;
    - (B) Exceed the simplified acquisition threshold; and
    - (C) Are for contracts that will be performed in the United States or its outlying areas.
  - (v) 52.209-2, Prohibition on Contracting with Inverted Domestic Corporations-Representation. This provision applies to solicitations using funds appropriated in fiscal years 2008, 2009, or 2010.
  - (vi) 52.209-5, Certification Regarding Responsibility Matters. This provision applies to solicitations where the contract value is expected to exceed the simplified acquisition threshold.
  - (vii) 52.214-14, Place of Performance--Sealed Bidding. This provision applies to invitations for bids except those in which the place of performance is specified by the Government.
  - (viii) 52.215-6, Place of Performance. This provision applies to solicitations unless the place of performance is specified by the Government.
  - (ix) 52.219-1, Small Business Program Representations (Basic & Alternate I). This provision applies to solicitations when the contract will be performed in the United States or its outlying areas.
    - (A) The basic provision applies when the solicitations are issued by other than DoD, NASA, and the Coast Guard.
    - (B) The provision with its Alternate I applies to solicitations issued by DoD, NASA, or the Coast Guard.
  - (x) 52.219-2, Equal Low Bids. This provision applies to solicitations when contracting by sealed bidding and the contract will be performed in the United States or its outlying areas.
  - (xi) 52.222-22, Previous Contracts and Compliance Reports. This provision applies to solicitations that include the clause at 52.222-26, Equal Opportunity.

- (xii) 52.222-25, Affirmative Action Compliance. This provision applies to solicitations, other than those for construction, when the solicitation includes the clause at 52.222-26, Equal Opportunity.
  - (xiii) 52.222-38, Compliance with Veterans' Employment Reporting Requirements. This provision applies to solicitations when it is anticipated the contract award will exceed the simplified acquisition threshold and the contract is not for acquisition of commercial items.
  - (xiv) 52.223-1, Biobased Product Certification. This provision applies to solicitations that require the delivery or specify the use of USDA-designated items; or include the clause at 52.223-2, Affirmative Procurement of Biobased Products Under Service and Construction Contracts.
  - (xv) 52.223-4, Recovered Material Certification. This provision applies to solicitations that are for, or specify the use of, EPA-designated items.
  - (xvi) 52.225-2, Buy American Act Certificate. This provision applies to solicitations containing the clause at 52.225-1.
  - (xvii) 52.225-4, Buy American Act--Free Trade Agreements--Israeli Trade Act Certificate. (Basic, Alternate I, and Alternate II) This provision applies to solicitations containing the clause at 52.225-3.
    - (A) If the acquisition value is less than \$25,000, the basic provision applies.
    - (B) If the acquisition value is \$25,000 or more but is less than \$50,000, the provision with its Alternate I applies.
    - (C) If the acquisition value is \$50,000 or more but is less than \$67,826, the provision with its Alternate II applies.
  - (xviii) 52.225-6, Trade Agreements Certificate. This provision applies to solicitations containing the clause at 52.225-5.
  - (xix) 52.225-20, Prohibition on Conducting Restricted Business Operations in Sudan--Certification. This provision applies to all solicitations.
  - (xx) 52.225-25, Prohibition on Engaging in Sanctioned Activities Relating to Iran-Certification. This provision applies to all solicitations.
  - (xxi) 52.226-2, Historically Black College or University and Minority Institution Representation. This provision applies to--
    - (A) Solicitations for research, studies, supplies, or services of the type normally acquired from higher educational institutions; and
    - (B) For DoD, NASA, and Coast Guard acquisitions, solicitations that contain the clause at 52.219-23, Notice of Price Evaluation Adjustment for Small Disadvantaged Business Concerns.
- (2) The following certifications are applicable as indicated by the Contracting Officer:
- (Contracting Officer check as appropriate.)

- [ ](i) 52.219-22, Small Disadvantaged Business Status.
- [ ](A) Basic.
- [ ](B) Alternate I.
- [ ](ii) 52.222-18, Certification Regarding Knowledge of Child Labor for Listed End Products.
- [ ](iii) 52.222-48, Exemption from Application of the Service Contract Act to Contracts for Maintenance, Calibration, or Repair of Certain Equipment Certification.
- [ ](iv) 52.222-52 Exemption from Application of the Service Contract Act to Contracts for Certain Services--Certification.
- [ ](v) 52.223-9, with its Alternate I, Estimate of Percentage of Recovered Material Content for EPA-Designated Products (Alternate I only).
- [ ](vi) 52.227-6, Royalty Information.
- [ ](A) Basic.
- [ ](B) Alternate I.
- [ ](vii) 52.227-15, Representation of Limited Rights Data and Restricted Computer Software.

(d) The offeror has completed the annual representations and certifications electronically via the Online Representations and Certifications Application (ORCA) website at <http://orca.bpn.gov>. After reviewing the ORCA database information, the offeror verifies by submission of the offer that the representations and certifications currently posted electronically that apply to this solicitation as indicated in paragraph (c) of this provision have been entered or updated within the last 12 months, are current, accurate, complete, and applicable to this solicitation (including the business size standard applicable to the NAICS code referenced for this solicitation), as of the date of this offer and are incorporated in this offer by reference (see FAR 4.1201); except for the changes identified below (offeror to insert changes, identifying change by clause number, title, date). These amended representation(s) and/or certification(s) are also incorporated in this offer and are current, accurate, and complete as of the date of this offer.

FAR Clause	Title	Date	Change

Any changes provided by the offeror are applicable to this solicitation only, and do not result in an update to the representations and certifications posted on ORCA.

(End of Provision)

**K.8 52.209-5 CERTIFICATION REGARDING RESPONSIBILITY MATTERS. (APR 2010) (Applies to Fixed-Price and Cost)**

(a)(1) The Offeror certifies, to the best of its knowledge and belief, that -

- (i) The Offeror and/or any of its Principals -
- (A) Are [ ] are not [ ] presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;
- (B) Have [ ] have not [ ], within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks "have", the offeror shall also see 52.209-7, if included in this solicitation);
- (C) Are [ ] are not [ ] presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision; and
- (D) Have [ ], have not [ ], within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.
- (1) Federal taxes are considered delinquent if both of the following criteria apply:
- (i) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.
- (ii) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.
- (2) Examples. (i) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.
- (ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.
- (iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

- (iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).
- (ii) The Offeror has [ ] has not [ ], within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.
- (2) "Principal," for the purposes of this certification, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

This Certification Concerns a Matter Within the Jurisdiction of an Agency of the United States and the Making of a False, Fictitious, or Fraudulent Certification May Render the Maker Subject to Prosecution Under Section 1001, Title 18, United States Code.

- (b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- (c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.
- (d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- (e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

(End of provision)

**K.9 52.209-7 INFORMATION REGARDING RESPONSIBILITY MATTERS. (JAN 2011) (Applies to Fixed-Price and Cost)**

(a) Definitions. As used in this provision--

"Administrative proceeding" means a non-judicial process that is adjudicatory in nature in order to make a determination of fault or liability (e.g., Securities and Exchange Commission Administrative Proceedings, Civilian Board of Contract Appeals Proceedings, and Armed Services Board of Contract Appeals Proceedings). This includes administrative proceedings at the Federal and State level but only in connection with performance of a Federal contract or grant. It does not include agency actions such as contract audits, site visits, corrective plans, or inspection of deliverables.

"Federal contracts and grants with total value greater than \$10,000,000" means--

- (1) The total value of all current, active contracts and grants, including all priced options; and
- (2) The total value of all current, active orders including all priced options under indefinite-delivery, indefinite-quantity, 8(a), or requirements contracts (including task and delivery and multiple-award Schedules).

"Principal" means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

(b) The offeror [ ] has [ ] does not have current active Federal contracts and grants with total value greater than \$10,000,000.

(c) If the offeror checked "has" in paragraph (b) of this provision, the offeror represents, by submission of this offer, that the information it has entered in the Federal Awardee Performance and Integrity Information System (FAPIS) is current, accurate, and complete as of the date of submission of this offer with regard to the following information:

(1) Whether the offeror, and/or any of its principals, has or has not, within the last five years, in connection with the award to or performance by the offeror of a Federal contract or grant, been the subject of a proceeding, at the Federal or State level that resulted in any of the following dispositions:

(i) In a criminal proceeding, a conviction.

(ii) In a civil proceeding, a finding of fault and liability that results in the payment of a monetary fine, penalty, reimbursement, restitution, or damages of \$5,000 or more.

(iii) In an administrative proceeding, a finding of fault and liability that results in--

(A) The payment of a monetary fine or penalty of \$5,000 or more; or

(B) The payment of a reimbursement, restitution, or damages in excess of \$100,000.

(iv) In a criminal, civil, or administrative proceeding, a disposition of the matter by consent or compromise with an acknowledgment of fault by the Contractor if the proceeding could have led to any of the outcomes specified in paragraphs (c)(1)(i), (c)(1)(ii), or (c)(1)(iii) of this provision.

(2) If the offeror has been involved in the last five years in any of the occurrences listed in (c)(1) of this provision, whether the offeror has provided the requested information with regard to each occurrence.

(d) The offeror shall post the information in paragraphs (c)(1)(i) through (c)(1)(iv) of this provision in FAPIS as required through maintaining an active registration in the Central Contractor Registration database at <http://www.ccr.gov> (see 52.204-7).

**K.10 52.219-1 SMALL BUSINESS PROGRAM REPRESENTATIONS. (APR 2011) -**

ALTERNATE I (APR 2011) (Applies to Fixed-Price and Cost)

- (a)(1) The North American Industry Classification System (NAICS) code for this acquisition is 488190
- (2) The small business size standard is \$7.0 Million.
- (3) The small business size standard for a concern which submits an offer in its own name, other than on a construction or service contract, but which proposes to furnish a product which it did not itself manufacture, is 500 employees.
- (b) *Representations.* (1) The offeror represents as part of its offer that it [ ] is, [ ] is not a small business concern.
- (2) *(Complete only if the offeror represented itself as a small business concern in paragraph (b)(1) of this provision.)* The offeror represents, for general statistical purposes, that it [ ] is, [ ] is not, a small disadvantaged business concern as defined in 13 CFR 124.1002.
- (3) *(Complete only if the offeror represented itself as a small business concern in paragraph (b)(1) of this provision.)* The offeror represents as part of its offer that it [ ] is, [ ] is not a women-owned small business concern.
- (4) Women-owned small business (WOSB) concern eligible under the WOSB Program. *(Complete only if the offeror represented itself as a women-owned small business concern in paragraph (b)(3) of this provision.)* The offeror represents as part of its offer that-
- (i) It [ ] is, [ ] is not a WOSB concern eligible under the WOSB Program, has provided all the required documents to the WOSB Repository, and no change in circumstances or adverse decisions have been issued that affects its eligibility; and
- (ii) It [ ] is, [ ] is not a joint venture that complies with the requirements of 13 CFR part 127, and the representation in paragraph (b)(4)(i) of this provision is accurate in reference to the WOSB concern or concerns that are participating in the joint venture. *[The offeror shall enter the name or names of the WOSB concern or concerns that are participating in the joint venture: ll.]* Each WOSB concern participating in the joint venture shall submit a separate signed copy of the WOSB representation.
- (5) Economically disadvantaged women-owned small business (EDWOSB) concern. *(Complete only if the offeror represented itself as a women-owned small business concern eligible under the WOSB Program in (b)(4) of this provision.)* The offeror represents as part of its offer that-
- (i) It [ ] is, [ ] is not an EDWOSB concern eligible under the WOSB Program, has provided all the required documents to the WOSB Repository, and no change in circumstances or adverse decisions have been issued that affects its eligibility; and
- (ii) It [ ] is, [ ] is not a joint venture that complies with the requirements of 13 CFR part 127, and the representation in paragraph (b)(5)(i) of this provision is accurate in reference to the EDWOSB concern or concerns that are participating in the joint venture. *[The offeror shall enter the name or names of the EDWOSB concern or concerns that are participating in the joint venture:.]* Each EDWOSB concern participating in the joint venture shall submit a separate signed copy of the EDWOSB representation.

(6) *(Complete only if the offeror represented itself as a small business concern in paragraph (b)(1) of this provision.)* The offeror represents as part of its offer that it [ ] is, [ ] is not a veteran-owned small business concern.

(7) *(Complete only if the offeror represented itself as a veteran-owned small business concern in paragraph (b)(6) of this provision.)* The offeror represents as part of its offer that it [ ] is, [ ] is not a service-disabled veteran-owned small business concern.

(8) *(Complete only if the offeror represented itself as a small business concern in paragraph (b)(1) of this provision.)* The offeror represents, as part of its offer, that-

(i) It [ ] is, [ ] is not a HUBZone small business concern listed, on the date of this representation, on the List of Qualified HUBZone Small Business Concerns maintained by the Small Business Administration, and no material changes in ownership and control, principal office, or HUBZone employee percentage have occurred since it was certified in accordance with 13 CFR Part 126; and

(ii) It [ ] is, [ ] is not a HUBZone joint venture that complies with the requirements of 13 CFR Part 126, and the representation in paragraph (b)(8)(i) of this provision is accurate for each HUBZone small business concern participating in the HUBZone joint venture. *[The offeror shall enter the names of each of the HUBZone small business concerns participating in the HUBZone joint venture: .]* Each HUBZone small business concern participating in the HUBZone joint venture shall submit a separate signed copy of the HUBZone representation.

(9) *(Complete if offeror represented itself as disadvantaged in paragraph (b)(2) of this provision.)* The offeror shall check the category in which its ownership falls:

\_\_\_\_\_ Black American.

\_\_\_\_\_ Hispanic American.

\_\_\_\_\_ Native American (American Indians, Eskimos, Aleuts, or Native Hawaiians).

\_\_\_\_\_ Asian-Pacific American (persons with origins from Burma, Thailand, Malaysia, Indonesia, Singapore, Brunei, Japan, China, Taiwan, Laos, Cambodia (Kampuchea), Vietnam, Korea, The Philippines, U.S. Trust Territory of the Pacific Islands (Republic of Palau), Republic of the Marshall Islands, Federated States of Micronesia, the Commonwealth of the Northern Mariana Islands, Guam, Samoa, Macao, Hong Kong, Fiji, Tonga, Kiribati, Tuvalu, or Nauru).

\_\_\_\_\_ Subcontinent Asian (Asian-Indian) American (persons with origins from India, Pakistan, Bangladesh, Sri Lanka, Bhutan, the Maldives Islands, or Nepal).

\_\_\_\_\_ Individual/concern, other than one of the preceding.

(c) *Definitions.* As used in this provision -

"Economically disadvantaged women-owned small business (EDWOSB) concern" means a small business concern that is at least 51 percent directly and unconditionally owned by, and the management and daily business operations of which are controlled by, one or more women who are citizens of the United States and who are economically disadvantaged in accordance with 13 CFR part 127. It automatically qualifies as a women-owned small business concern eligible under the

WOSB Program.

"Service-disabled veteran-owned small business concern" -

(1) Means a small business concern -

- (i) Not less than 51 percent of which is owned by one or more service-disabled veterans or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more service-disabled veterans; and
- (ii) The management and daily business operations of which are controlled by one or more service-disabled veterans or, in the case of a service-disabled veteran with permanent and severe disability, the spouse or permanent caregiver of such veteran.

(2) Service-disabled veteran means a veteran, as defined in 38 U.S.C. 101(2), with a disability that is service-connected, as defined in 38 U.S.C. 101(16).

"Small business concern" means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (a) of this provision.

"Veteran-owned small business concern" means a small business concern -

- (1) Not less than 51 percent of which is owned by one or more veterans (as defined at 38 U.S.C. 101(2)) or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more veterans; and
- (2) The management and daily business operations of which are controlled by one or more veterans.

"Women-owned small business concern" means a small business concern -

- (1) That is at least 51 percent owned by one or more women; or in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more women; and
- (2) Whose management and daily business operations are controlled by one or more women.

"Women-owned small business (WOSB) concern eligible under the WOSB Program" (in accordance with 13 CFR part 127), means a small business concern that is at least 51 percent directly and unconditionally owned by, and the management and daily business operations of which are controlled by, one or more women who are citizens of the United States.

(d) *Notice.* (1) If this solicitation is for supplies and has been set aside, in whole or in part, for small business concerns, then the clause in this solicitation providing notice of the set-aside contains restrictions on the source of the end items to be furnished.

(2) Under 15 U.S.C. 645(d), any person who misrepresents a firm's status as a business concern that is small, HUBZone small, small disadvantaged, service-disabled veteran-owned small, economically disadvantaged women-owned small, or women-owned small eligible under the WOSB Program in order to obtain a contract to be awarded under the preference programs established pursuant to section 8, 9, 15, 31, and 36 of the Small Business Act or any other

provision of Federal law that specifically references section 8(d) for a definition of program eligibility, shall-

- (i) Be punished by imposition of fine, imprisonment, or both;
- (ii) Be subject to administrative remedies, including suspension and debarment; and
- (iii) Be ineligible for participation in programs conducted under the authority of the Act.

(End of provision)

**K.11 52.219-22 SMALL DISADVANTAGED BUSINESS STATUS. (OCT 1999) (Applies to Fixed-Price and Cost)**

(a) *General.* This provision is used to assess an Offeror's small disadvantaged business status for the purpose of obtaining a benefit on this solicitation. Status as a small business and status as a small disadvantaged business for general statistical purposes is covered by the provision at FAR 52.219-1, Small Business Program Representation.

(b) *Representations.* (1) *General.* The offeror represents, as part of its offer, that it is a small business under the size standard applicable to this acquisition; and either -

\_\_\_ (i) It has received certification by the Small Business Administration as a small disadvantaged business concern consistent with 13 CFR 124, Subpart B; and

(A) No material change in disadvantaged ownership and control has occurred since its certification;

(B) Where the concern is owned by one or more disadvantaged individuals, the net worth of each individual upon whom the certification is based does not exceed \$750,000 after taking into account the applicable exclusions set forth at 13 CFR 124.104(c)(2); and

(C) It is identified, on the date of its representation, as a certified small disadvantaged business concern in the database maintained by the Small Business Administration (PRO-Net); or

\_\_\_ (ii) It has submitted a completed application to the Small Business Administration or a Private Certifier to be certified as a small disadvantaged business concern in accordance with 13 CFR 124, Subpart B, and a decision on that application is pending, and that no material change in disadvantaged ownership and control has occurred since its application was submitted.

(2) *For Joint Ventures.* The offeror represents, as part of its offer, that it is a joint venture that complies with the requirements at 13 CFR 124.1002(f) and that the representation in paragraph (b)(1) of this provision is accurate for the small disadvantaged business concern that is participating in the joint venture. (*The offeror shall enter the name of the small disadvantaged business concern that is participating in the joint venture: \_\_\_\_\_.*)

(c) *Penalties and Remedies.* Anyone who misrepresents any aspects of the disadvantaged status of a concern for the purposes of securing a contract or subcontract shall -

(1) Be punished by imposition of a fine, imprisonment, or both;

(2) Be subject to administrative remedies, including suspension and debarment; and

- (3) Be ineligible for participation in programs conducted under the authority of the Small Business Act.

(End of provision)

**K.12 52.222-18 CERTIFICATION REGARDING KNOWLEDGE OF CHILD LABOR FOR LISTED END PRODUCTS. (FEB 2001) (Applies to Fixed-Price and Cost)**

(a) *Definition.*

"Forced or indentured child labor" means all work or service -

- (1) Exacted from any person under the age of 18 under the menace of any penalty for its nonperformance and for which the worker does not offer himself voluntarily; or
  - (2) Performed by any person under the age of 18 pursuant to a contract the enforcement of which can be accomplished by process or penalties.
- (b) *Listed end products.* The following end product(s) being acquired under this solicitation is (are) included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, identified by their country of origin. There is a reasonable basis to believe that listed end products from the listed countries of origin may have been mined, produced, or manufactured by forced or indentured child labor.

Listed End Product Listed Countries of Origin

[ ]

(c) *Certification.* The Government will not make award to an offeror unless the offeror, by checking the appropriate block, certifies to either paragraph (c)(1) or paragraph (c)(2) of this provision.

[ ] (1) The offeror will not supply any end product listed in paragraph (b) of this provision that was mined, produced, or manufactured in a corresponding country as listed for that end product.

[ ] (2) The offeror may supply an end product listed in paragraph (b) of this provision that was mined, produced, or manufactured in the corresponding country as listed for that product. The offeror certifies that it has made a good faith effort to determine whether forced or indentured child labor was used to mine, produce, or manufacture such end product. On the basis of those efforts, the offeror certifies that it is not aware of any such use of child labor.

(End of provision)

**K.13 52.222-22 PREVIOUS CONTRACTS AND COMPLIANCE REPORTS. (FEB 1999) (Applies to Fixed-Price and Cost)**

The offeror represents that -

- (a) It [ ] has, [ ] has not participated in a previous contract or subcontract subject the Equal Opportunity clause of this solicitation;

- (b) It [ ] has, [ ] has not filed all required compliance reports; and
- (c) Representations indicating submission of required compliance reports, signed by proposed subcontractors, will be obtained before subcontract awards.

(End of provision)

**K.14 52.222-25 AFFIRMATIVE ACTION COMPLIANCE. (APR 1984) (Applies to Fixed-Price and Cost)**

The offeror represents that -

- (a) It [ ] has developed and has on file, [ ] has not developed and does not have on file, at each establishment, affirmative action programs required by the rules and regulations of the Secretary of Labor (41 CFR 60-1 and 60-2); or
- (b) It [ ] has not previously had contracts subject to the written affirmative action programs requirement of the rules and regulations of the Secretary of Labor.

(End of provision)

**K.15 52.225-2 BUY AMERICAN ACT - CERTIFICATE. (FEB 2009) (Applies to Fixed-Price and Cost)**

- (a) The offeror certifies that each end product, except those listed in paragraph (b) of this provision, is a domestic end product and that for other than COTS items, the offeror has considered components of unknown origin to have been mined, produced, or manufactured outside the United States. The offeror shall list as foreign end products those end products manufactured in the United States that do not qualify as domestic end products, i.e., an end product that is not a COTS item and does not meet the component test in paragraph (2) of the definition of "domestic end product." The terms "commercially available off-the-shelf (COTS) item," "component," "domestic end product," "end product," "foreign end product," and "United States" are defined in the clause of this solicitation entitled "Buy American Act--Supplies."

(b) Foreign End Products:

Line Item No	Country of Origin
_____	_____
_____	_____
_____	_____

*(List as necessary)*

- (c) The Government will evaluate offers in accordance with the policies and procedures of Part 25 of the Federal Acquisition Regulation.

(End of provision)

**K.16 52.225-20 PROHIBITION ON CONDUCTING RESTRICTED BUSINESS OPERATIONS IN SUDAN--CERTIFICATION. (AUG 2009) (Applies to Fixed-Price and Cost)**

(a) Definitions. As used in this provision--

"Business operations" means engaging in commerce in any form, including by acquiring, developing, maintaining, owning, selling, possessing, leasing, or operating equipment, facilities, personnel, products, services, personal property, real property, or any other apparatus of business or commerce.

"Marginalized populations of Sudan" means--

(1) Adversely affected groups in regions authorized to receive assistance under section 8(c) of the Darfur Peace and Accountability Act (Pub. L. 109-344) (50 U.S.C. 1701 note); and

(2) Marginalized areas in Northern Sudan described in section 4(9) of such Act.

"Restricted business operations" means business operations in Sudan that include power production activities, mineral extraction activities, oil-related activities, or the production of military equipment, as those terms are defined in the Sudan Accountability and Divestment Act of 2007 (Pub. L. 110-174). Restricted business operations do not include business operations that the person (as that term is defined in Section 2 of the Sudan Accountability and Divestment Act of 2007) conducting the business can demonstrate--

(1) Are conducted under contract directly and exclusively with the regional government of southern Sudan;

(2) Are conducted pursuant to specific authorization from the Office of Foreign Assets Control in the Department of the Treasury, or are expressly exempted under Federal law from the requirement to be conducted under such authorization;

(3) Consist of providing goods or services to marginalized populations of Sudan;

(4) Consist of providing goods or services to an internationally recognized peacekeeping force or humanitarian organization;

(5) Consist of providing goods or services that are used only to promote health or education; or

(6) Have been voluntarily suspended.

(b) Certification. By submission of its offer, the offeror certifies that the offeror does not conduct any restricted business operations in Sudan.

(End of provision)

**K.17 52.227-15 REPRESENTATION OF LIMITED RIGHTS DATA AND RESTRICTED COMPUTER SOFTWARE. (DEC 2007) (Applies to Fixed-Price and Cost)**

(a) This solicitation sets forth the Government's known delivery requirements for data (as defined in the clause at 52.227-14, Rights in Data--General). Any resulting contract may also provide the Government the option to order additional data under the Additional Data Requirements clause at 52.227-16, if included in the contract. Any data delivered under the resulting contract will be subject to the Rights in Data--General clause at 52.227-14 included in this contract.

Under the latter clause, a Contractor may withhold from delivery data that qualify as limited rights data or restricted computer software, and deliver form, fit, and function data instead. The latter clause also may be used with its Alternates II and/or III to obtain delivery of limited rights data or restricted computer software, marked with limited rights or restricted rights notices, as appropriate. In addition, use of Alternate V with this latter clause provides the Government the right to inspect such data at the Contractor's facility.

(b) By completing the remainder of this paragraph, the offeror represents that it has reviewed the requirements for the delivery of technical data or computer software and states (offeror check appropriate block)--

( ) None of the data proposed for fulfilling the data delivery requirements qualifies as limited rights data or restricted computer software; or

( ) Data proposed for fulfilling the data delivery requirements qualify as limited rights data or restricted computer software and are identified as follows:

-----  
-----  
-----

(c) Any identification of limited rights data or restricted computer software in the Offeror's response is not determinative of the status of the data should a contract be awarded to the offeror.

(End of provision)

**K.18 52.230-1 COST ACCOUNTING STANDARDS NOTICES AND CERTIFICATION.  
(OCT 2008) (Applies to Fixed-Price and Cost)**

Note: This notice does not apply to small businesses or foreign governments. This notice is in three parts, identified by Roman numerals I through III.

Offerors shall examine each part and provide the requested information in order to determine Cost Accounting Standards (CAS) requirements applicable to any resultant contract.

If the offeror is an educational institution, Part II does not apply unless the contemplated contract will be subject to full or modified CAS coverage pursuant to 48 CFR 9903.201-2(c)(5) or 9903.201-2(c)(6), respectively.

**I. Disclosure Statement - Cost Accounting Practices and Certification**

(a) Any contract in excess of \$650,000 resulting from this solicitation will be subject to the requirements of the Cost Accounting Standards Board (48 CFR Chapter 99), except for those contracts which are exempt as specified in 48 CFR 9903.201-1.

(b) Any offeror submitting a proposal which, if accepted, will result in a contract subject to the requirements of 48 CFR Chapter 99 must, as a condition of contracting, submit a Disclosure Statement as required by 48 CFR 9903.202. When required, the Disclosure Statement must be

submitted as a part of the Offeror's proposal under this solicitation unless the offeror has already submitted a Disclosure Statement disclosing the practices used in connection with the pricing of this proposal. If an applicable Disclosure Statement has already been submitted, the offeror may satisfy the requirement for submission by providing the information requested in paragraph (c) of Part I of this provision.

Caution: In the absence of specific regulations or agreement, a practice disclosed in a Disclosure Statement shall not, by virtue of such disclosure, be deemed to be a proper, approved, or agreed-to practice for pricing proposals or accumulating and reporting contract performance cost data.

(c) Check the appropriate box below:

(1) *Certificate of Concurrent Submission of Disclosure Statement.* The offeror hereby certifies that, as a part of the offer, copies of the Disclosure Statement have been submitted as follows:

(i) Original and one copy to the cognizant Administrative Contracting Officer (ACO) or cognizant Federal agency official authorized to act in that capacity (Federal official), as applicable; and

(ii) One copy to the cognizant Federal auditor.

(Disclosure must be on Form No. CASB DS-1 or CASB DS-2, as applicable. Forms may be obtained from the cognizant ACO or Federal official and/or from the loose-leaf version of the Federal Acquisition Regulation.)

Date of Disclosure Statement: [*Name and Address of Cognizant ACO or Federal Official Where Filed:*]

The offeror further certifies that the practices used in estimating costs in pricing this proposal are consistent with the cost accounting practices disclosed in the Disclosure Statement.

(2) *Certificate of Previously Submitted Disclosure Statement.* The offeror hereby certifies that the required Disclosure Statement was filed as follows:

Date of Disclosure Statement:

Name and Address of Cognizant ACO or Federal Official Where Filed:

The offeror further certifies that the practices used in estimating costs in pricing this proposal are consistent with the cost accounting practices disclosed in the applicable Disclosure Statement.

(3) *Certificate of Monetary Exemption.* The offeror hereby certifies that the offeror, together with all divisions, subsidiaries, and affiliates under common control, did not receive net awards of negotiated prime contracts and subcontracts subject to CAS totaling \$50 million or more in the cost accounting period immediately preceding the period in which this proposal was submitted. The offeror further certifies that if such status changes before an award resulting from this proposal, the offeror will advise the Contracting Officer immediately.

(4) *Certificate of Interim Exemption.* The offeror hereby certifies that (i) the offeror first exceeded the monetary exemption for disclosure, as defined in (3) of this subsection, in the cost accounting period immediately preceding the period in which this offer was submitted and (ii) in accordance with 48 CFR 9903.202-1, the offeror is not yet required to submit a Disclosure Statement. The offeror further certifies that if an award resulting from this proposal has not been made within 90 days after the end of that period, the offeror will immediately submit a revised

certificate to the Contracting Officer, in the form specified under subparagraph (c)(1) or (c)(2) of Part I of this provision, as appropriate, to verify submission of a completed Disclosure Statement.

Caution: Offerors currently required to disclose because they were awarded a CAS-covered prime contract or subcontract of \$50 million or more in the current cost accounting period may not claim this exemption (4). Further, the exemption applies only in connection with proposals submitted before expiration of the 90-day period following the cost accounting period in which the monetary exemption was exceeded.

## II. Cost Accounting Standards - Eligibility for Modified Contract Coverage

If the offeror is eligible to use the modified provisions of 48 CFR 9903.201-2(b) and elects to do so, the offeror shall indicate by checking the box below. Checking the box below shall mean that the resultant contract is subject to the Disclosure and Consistency of Cost Accounting Practices clause in lieu of the Cost Accounting Standards clause.

The offeror hereby claims an exemption from the Cost Accounting Standards clause under the provisions of 48 CFR 9903.201-2(b) and certifies that the offeror is eligible for use of the Disclosure and Consistency of Cost Accounting Practices clause because during the cost accounting period immediately preceding the period in which this proposal was submitted, the offeror received less than \$50 million in awards of CAS-covered prime contracts and subcontracts. The offeror further certifies that if such status changes before an award resulting from this proposal, the offeror will advise the Contracting Officer immediately.

Caution: An offeror may not claim the above eligibility for modified contract coverage if this proposal is expected to result in the award of a CAS-covered contract of \$50 million or more or if, during its current cost accounting period, the offeror has been awarded a single CAS-covered prime contract or subcontract of \$50 million or more.

## III. Additional Cost Accounting Standards Applicable to Existing Contracts

The offeror shall indicate below whether award of the contemplated contract would, in accordance with subparagraph (a)(3) of the Cost Accounting Standards clause, require a change in established cost accounting practices affecting existing contracts and subcontracts.

yes  no

(End of provision)

### K.19 52.230-7 PROPOSAL DISCLOSURE--COST ACCOUNTING PRACTICE CHANGES. (APR 2005) (Applies to Fixed-Price and Cost)

The offeror shall check "yes" below if the contract award will result in a required or unilateral change in cost accounting practice, including unilateral changes requested to be desirable changes.

\_\_\_ Yes \_\_\_ No

If the offeror checked "Yes" above, the offeror shall--

(1) Prepare the price proposal in response to the solicitation using the changed practice for the

period of performance for which the practice will be used; and

- (2) Submit a description of the changed cost accounting practice to the Contracting Officer and the Cognizant Federal Agency Official as pricing support for the proposal.

(End of provision)

**(END OF SECTION)**

## **SECTION L - INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS**

- L.1 52.211-14 NOTICE OF PRIORITY RATING FOR NATIONAL DEFENSE, EMERGENCY PREPAREDNESS, AND ENERGY PROGRAM USE. (APR 2008) (Applies to Fixed-Price and Cost)
- Any contract awarded as a result of this solicitation will be DO-C9 rated order certified for national defense, emergency preparedness, and energy program use under the Defense Priorities and Allocations System (DPAS) (15 CFR 700), and the Contractor will be required to follow all of the requirements of this regulation.
- L.2 52.214-34 SUBMISSION OF OFFERS IN THE ENGLISH LANGUAGE. (APR 1991) (Applies to Fixed-Price and Cost)
- L.3 52.214-35 SUBMISSION OF OFFERS IN U.S. CURRENCY. (APR 1991) (Applies to Fixed-Price and Cost)
- L.4 52.215-1 INSTRUCTIONS TO OFFERORS - COMPETITIVE ACQUISITION. (JAN 2004) (Applies to Fixed-Price and Cost)
- L.5 52.215-16 FACILITIES CAPITAL COST OF MONEY. (JUN 2003) (Applies to Fixed-Price and Cost)
- L.6 52.215-22 LIMITATIONS ON PASS-THROUGH CHARGES--IDENTIFICATION OF SUBCONTRACT EFFORT. (OCT 2009) (Applies to Cost)
- L.7 52.219-24 SMALL DISADVANTAGED BUSINESS PARTICIPATION PROGRAM - TARGETS. (OCT 2000) (Applies to Fixed-Price and Cost)
- L.8 52.222-24 PREAWARD ON-SITE EQUAL OPPORTUNITY COMPLIANCE EVALUATION. (FEB 1999) (Applies to Fixed-Price and Cost)
- L.9 52.222-46 EVALUATION OF COMPENSATION FOR PROFESSIONAL EMPLOYEES. (FEB 1993) (Applies to Fixed-Price and Cost)
- L.10 52.237-1 SITE VISIT. (APR 1984) (Applies to Fixed-Price and Cost)
- L.11 52.237-10 IDENTIFICATION OF UNCOMPENSATED OVERTIME. (OCT 1997) (Applies to Fixed-Price and Cost)
- L.12 1852.227-71 REQUESTS FOR WAIVER OF RIGHTS TO INVENTIONS. (APR 1984) (Applies to Fixed-Price and Cost)
- L.13 52.215-20 REQUIREMENTS FOR CERTIFIED COST OR PRICING DATA OR DATA OTHER THAN COST OR PRICING DATA. (OCT 2010) (Applies to Fixed-Price and Cost)

(a) *Exceptions from certified cost or pricing data.*

(1) In lieu of submitting certified cost or pricing data, offerors may submit a written request for exception by submitting the information described in the following subparagraphs. The Contracting Officer may require additional supporting information, but only to the extent necessary to determine whether an exception should be granted, and whether the price is fair and reasonable.

(i) *Identification of the law or regulation establishing the price offered.* If the price is controlled under law by periodic rulings, reviews, or similar actions of a governmental body, attach a copy of the controlling document, unless it was previously submitted to the contracting office.

(ii) *Commercial item exception.* For a commercial item exception, the offeror shall submit, at a minimum, information on prices at which the same item or similar items have previously been sold in the commercial market that is adequate for evaluating the reasonableness of the price for this acquisition. Such information may include -

(A) For catalog items, a copy of or identification of the catalog and its date, or the appropriate pages for the offered items, or a statement that the catalog is on file in the buying office to which the proposal is being submitted. Provide a copy or describe current discount policies and price lists (published or unpublished), *e.g.*, wholesale, original equipment manufacturer, or reseller. Also explain the basis of each offered price and its relationship to the established catalog price, including how the proposed price relates to the price of recent sales in quantities similar to the proposed quantities;

(B) For market-priced items, the source and date or period of the market quotation or other basis for market price, the base amount, and applicable discounts. In addition, describe the nature of the market;

(C) For items included on an active Federal Supply Service Multiple Award Schedule contract, proof that an exception has been granted for the schedule item.

(2) The offeror grants the Contracting Officer or an authorized representative the right to examine, at any time before award, books, records, documents, or other directly pertinent records to verify any request for an exception under this provision, and the reasonableness of price. For items priced using catalog or market prices, or law or regulation, access does not extend to cost or profit information or other data relevant solely to the Offeror's determination of the prices to be offered in the catalog or marketplace.

(b) *Requirements for certified cost or pricing data.* If the offeror is not granted an exception from the requirement to submit certified cost or pricing data, the following applies:

(1) The offeror shall prepare and submit certified cost or pricing data, data other than certified cost or pricing data, and supporting attachments in accordance with the instructions contained in Table 15-2 of FAR 15.408, which is incorporated by reference with the same force and effect as though it were inserted here in full text. The instructions in Table 15-2 are incorporated as a mandatory format to be used in this contract, unless the Contracting Officer and the Contractor agree to a different format and change this clause to use Alternate I.

(2) As soon as practicable after agreement on price, but before contract award (except for unpriced actions such as letter contracts), the offeror shall submit a Certificate of Current Cost or Pricing Data, as prescribed by FAR 15.406-2.

(End of provision)

L.14 52.216-1 TYPE OF CONTRACT. (APR 1984) (Applies to Fixed-Price and Cost)

The Government contemplates award of a hybrid contract with Cost Plus Award Fee (CPAF) and Fixed Price Award Fee (FPAF) elements resulting from this solicitation.

(End of provision)

L.15 52.233-2 SERVICE OF PROTEST. (SEP 2006) (Applies to Fixed-Price and Cost)

(a) Protests, as defined in section 33.101 of the Federal Acquisition Regulation, that are filed directly with an agency, and copies of any protests that are filed with the Government Accountability Office (GAO), shall be served on the Contracting Officer (addressed as follows) by obtaining written and dated acknowledgment of receipt from

Name: Alice J. Pursell/ BJ  
E-mail: [alice.j.pursell@nasa.gov](mailto:alice.j.pursell@nasa.gov)  
Address: NASA Johnson Space Center  
2101 NASA Parkway  
Houston, Texas 77058-3696

(b) The copy of any protest shall be received in the office designated above within one day of filing a protest with the GAO.

(End of provision)

L.16 52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE. (FEB 1998) (Applies to Fixed-Price and Cost)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es):

Federal Acquisition Regulation (FAR) clauses: <http://www.acqnet.gov/far/>

NASA FAR Supplement (NFS)  
clauses: <http://www.hq.nasa.gov/office/procurement/regs/nfstoc.htm>

(End of provision)

L.17 52.252-3 ALTERATIONS IN SOLICITATION. (APR 1984) (Applies to Fixed-Price and Cost)

Portions of this solicitation are altered as follows: Clause 52.243-2, Changes - Cost-Reimbursement, is modified by deleting the 30-day reference and inserting a reference to 60

days in lieu thereof.

(End of provision)

**L.18 52.252-5 AUTHORIZED DEVIATIONS IN PROVISIONS. (APR 1984) (Applies to Fixed-Price and Cost)**

(a) The use in this solicitation of any Federal Acquisition Regulation (48 CFR Chapter 1) provision with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the provision.

(b) The use in this solicitation of any NASA FAR Supplement (48 CFR Chapter 18) provision with an authorized deviation is indicated by the addition of "(DEVIATION)" after the name of the regulation.

(End of provision)

**L.19 1852.215-81 PROPOSAL PAGE LIMITATIONS. (FEB 1998) (Applies to Fixed-Price and Cost)**

(a) The following page limitations are established for each portion of the proposal submitted in response to this solicitation. For each volume, the subject pages shall be consecutively numbered using integer numbers beginning with "1".

<b>Proposal Volume</b>	<b>Proposal Section</b>	<b>Page Limitation</b>
<b>Volume I</b>	<b>Mission Suitability</b>	<b>175</b>
Part 1	Management Approach	
Part 2	Technical Approach	
Part 3	Safety and Health Approach	No Limit for DRD-S02
Part 4	Small Business Utilization	No Limit
<b>Volume II</b>	<b>Past Performance</b>	<b>50</b>
	OSHA Forms 300 and 300A	No Limit
<b>Volume III</b>	<b>Cost/Price</b>	<b>No Limit</b>
<b>Volume IV</b>	<b>Completed, Signed Model Contract, Reps/Certs, and Additional Information</b>	<b>No Limit</b>
Total Volumes I and II		200

(b) A page is defined as one side of a sheet, 8 1/2" x 11", with at least one inch margins on all sides, using not smaller than 12 point Times New Roman Font. Tables and Labels inserted as a graphic or part of a graphic may use no smaller than 8 point Times New Roman Font. Foldouts count as an equivalent number of 8 1/2" x 11" pages. The metric standard format most closely approximating the described standard 8 1/2" x 11" size may also be used.

(c) Title pages and tables of contents are excluded from the page counts specified in paragraph (a) of this provision. In addition, the Cost section of your proposal is not page limited. However,

this section is to be strictly limited to cost and price information. Information that can be construed as belonging in one of the other sections of the proposal will be so construed and counted against that section's page limitation.

- (d) If final revisions are requested, separate page limitations will be specified in the Government's request for that submission.
- (e) Pages submitted in excess of the limitations specified in this provision will not be evaluated by the Government and will be returned to the offeror.
- (g) Hard copy volumes shall be separately bound in 3-ring binders that permit the volume to lie flat when open. Staples shall not be used. A cover sheet shall be included on each binder, clearly marked with date of offer, volume number, title, copy number, solicitation number and the offeror's name. The same identifying data should be placed on the spine of each binder. Information should not be incorporated by reference. A suitable table of contents shall be provided with each volume for ready reference to sections, tables, and figures. All pages in each volume shall be numbered sequentially with Arabic numerals for contents subject to page limitations or with lower case Roman numerals for contents not subject to page limitations (e.g., title pages, tables of contents, and acronym lists). Offerors shall tab each subsection within each volume for ease of reference. Tabs and dividers are not included in the page count limitations.

(End of provision)

**L.20 1852.219-73 SMALL BUSINESS SUBCONTRACTING PLAN. (MAY 1999)  
(Applies to Fixed-Price and Cost)**

- (a) This provision is not applicable to small business concerns.
- (b) The contract expected to result from this solicitation will contain FAR clause 52.219-9, "Small Business Subcontracting Plan." The offeror must submit the complete plan as part of its proposal.

(End of provision)

**L.21 1852.223-73 SAFETY AND HEALTH PLAN. (NOV 2004) (Applies to Fixed-Price and Cost)**

- (a) The offeror shall submit a detailed safety and occupational health plan as part of its proposal (see NPR 8715.3, NASA Safety Manual, Appendices). The plan shall include a detailed discussion of the policies, procedures, and techniques at JSC and LaRC that will be used to ensure the safety and occupational health of Contractor employees and to ensure the safety of all working conditions throughout the performance of the contract.
- (b) When applicable, the plan shall address the policies, procedures, and techniques that will be used to ensure the safety and occupational health of the public, astronauts and pilots, the NASA workforce (including Contractor employees working on NASA contracts), and high-value equipment and property.
- (c) The plan shall similarly address subcontractor employee safety and occupational health for those proposed subcontracts that contain one or more of the following conditions:

- (1) The work will be conducted completely or partly on premises owned or controlled by the government.
  - (2) The work includes construction, alteration, or repair of facilities in excess of the simplified acquisition threshold.
  - (3) The work, regardless of place of performance, involves hazards that could endanger the public, astronauts and pilots, the NASA workforce (including Contractor employees working on NASA contracts), or high value equipment or property, and the hazards are not adequately addressed by Occupational Safety and Health Administration (OSHA) or Department of Transportation (DOT) regulations (if applicable).
  - (4) When the assessed risk and consequences of a failure to properly manage and control the hazards warrants use of the clause.
- (d) This plan, as approved by the Contracting Officer, will be included in any resulting contract.

(End of provision)

**L.22 1852.231-71 DETERMINATION OF COMPENSATION REASONABLENESS. (MAR 1994) (Applies to Fixed-Price and Cost)**

- (a) The proposal shall include a total compensation plan. This plan shall address all proposed labor categories, including those personnel subject to union agreements, the Service Contract Act, and those exempt from both of the above. The total compensation plan shall include the salaries/wages, fringe benefits and leave programs proposed for each of these categories of labor. The plan also shall include a discussion of the consistency of the plan among the categories of labor being proposed. Differences between benefits offered professional and non-professional employees shall be highlighted. The requirements of this plan may be combined with that required by the clause at FAR 52.222-46, "Evaluation of Compensation for Professional Employees."
- (b) The offeror shall provide written support to demonstrate that its proposed compensation is reasonable.
- (c) The offeror shall include the rationale for any conformance procedures used or those Service Contract Act employees proposed that do not fall within the scope of any classification listed in the applicable wage determination.
- (d) The offeror shall require all service subcontractors (1) with proposed cost reimbursement or non-competitive fixed-price type subcontracts having a total potential value in excess of \$500,000 and (2) the cumulative value of all their service subcontracts under the proposed prime contract in excess of 10 percent of the prime contract's total potential value, provide as part of their proposals the information identified in (a) through (c) of this provision.

(End of provision)

**L.23 1852.233-70 PROTESTS TO NASA. (OCT 2002) (Applies to Fixed-Price and Cost)**

Potential bidders or offerors may submit a protest under 48 CFR Part 33 (FAR Part 33) directly to

the Contracting Officer. As an alternative to the Contracting Officer's consideration of a protest, a potential bidder or offeror may submit the protest to the Assistant Administrator for Procurement, who will serve as or designate the official responsible for conducting an independent review. Protests requesting an independent review shall be addressed to Assistant Administrator for Procurement, NASA Code H, Washington, DC 20546-0001.

(End of provision)

**L.24 1852.245-80 GOVERNMENT PROPERTY MANAGEMENT INFORMATION.  
(JAN 2011) (Applies to Fixed-Price and Cost)**

- (a) The offeror shall identify the industry leading or voluntary consensus standards, and/or the industry leading practices, that it intends to employ for the management of Government property under any contract awarded from this solicitation.
- (b) The offeror shall provide the date of its last Government property control system analysis along with its overall status, a summary of findings and recommendations, the status of any recommended corrective actions, the name of the Government activity that performed the analysis, and the latest available contact information for that activity.
- (c) The offeror shall identify any property it intends to use in performance of this contract from the list of available Government property in the provision at 1852.245-81, List of Available Government Property.
- (d) The offeror shall identify all Government property in its possession, provided under other Government contracts that it intends to use in the performance of this contract. The offeror shall also identify: The contract that provided the property, the responsible Contracting Officer, the dates during which the property will be available for use (including the first, last, and all intervening months), and, for any property that will be used concurrently in performing two or more contracts, the amounts of the respective uses in sufficient detail to support prorating the rent, the amount of rent that would otherwise be charged in accordance with FAR 52.245-9, Use and Charges (June 2007), and the contact information for the responsible Government Contracting Officer. The offeror shall provide proof that such use was authorized by the responsible Contracting Officer.
- (e) The offeror shall disclose cost accounting practices that allow for direct charging of commercially available equipment, when commercially available equipment is to be used in performance of the contract and the equipment is not a deliverable.
- (f) The offeror shall identify, in list form, any equipment that it intends to acquire and directly charge to the Government under this contract. The list shall include a description, manufacturer, model number (when available), quantity required, and estimated unit cost. Equipment approved as part of the award need not be requested under NFS clause 1852.245-70,
- (g) The offeror shall disclose its intention to acquire any parts, supplies, materials or equipment, to fabricate an item of equipment for use under any contract resulting from this solicitation when that item of equipment:

Will be titled to the government under the provisions of the contract; is not included as a contract deliverable; and the Contractor intends to charge the costs of materials directly to the contract. The

disclosure shall identify the end item or system and shall include all descriptive information, identification numbers (when available), quantities required and estimated costs.

- (h) Existing Government property may be reviewed at the following locations, dates, and times:  
Ten days after release of the Request for Proposal (or the next business day should this date fall on a weekend or holiday).

(End of provision)

L.25 1852.245-81 LIST OF AVAILABLE GOVERNMENT PROPERTY. (JAN 2011) (Applies to Fixed-Price and Cost)

- (a) The Government will make the following Government property available for use in performance of the contract resulting from this solicitation, on a no-charge-for-use basis in accordance with FAR 52.245-1, Government Property, included in this solicitation. The offeror shall notify the Government, as part of its proposal, of its intention to use or not use the property.

**NO GOVERNMENT PROPERTY WILL BE MADE AVAILABLE OR PROVIDED TO THE CONTRACTOR AS GOVERNMENT FURNISHED PROPERTY (GFP) UNDER THIS CLAUSE. PROPERTY UNDER AMOS WILL BE AVAILABLE AS INSTALLATION ACCOUNTABLE PROPERTY IN ACCORDANCE WITH NASA FAR SUPPLEMENT (NFS) 1852.245-71 (JAN 2011) UNLESS OTHERWISE AUTHORIZED IN THIS CONTRACT.**

- (b) The Government will make the following Government property available for use in performance of the contract resulting from this solicitation, on a no-charge-for-use basis in accordance with FAR 52.245-2, Government Property Installation Operation Services, as included in this solicitation. The offeror shall notify the Government of its intention to use or not use the property.

**NO GOVERNMENT PROPERTY WILL BE MADE AVAILABLE OR PROVIDED TO THE CONTRACTOR AS GOVERNMENT FURNISHED PROPERTY (GFP) UNDER THIS CLAUSE. PROPERTY UNDER AMOS WILL BE AVAILABLE AS INSTALLATION ACCOUNTABLE PROPERTY IN ACCORDANCE WITH NASA FAR SUPPLEMENT (NFS) 1852.245-71 (JAN 2011) UNLESS OTHERWISE AUTHORIZED IN THIS CONTRACT.**

- (c) The selected Contractor will be responsible for costs associated with transportation, and installation of the property listed in this provision.

(End of provision)

L.26 PROPOSAL MARKING AND DELIVERY (Applies to Fixed-Price and Cost)

- (a) Methods of Proposal Delivery

Proposals shall be delivered to the designated proposal receiving office by one of the following methods:

U.S. Postal Service  
Commercial Delivery Service

Delivery by company employee or other individual agent

Regardless of the method of delivery chosen, the Offeror is responsible for delivery of the proposal to the designated receiving office no later than the date and time stated on the Standard Form 33. of the solicitation.

(b) External Marking of Proposal Package(s)

All proposal packages must be closed, sealed, and marked in large letters “PROPOSAL – DELIVER UNOPENED”. Proposals packages must include the solicitation number, the contracting officer’s name, mail code/stop, and the Offeror’s name and address clearly marked on the outside of the package.

The Offeror shall include a notice on the cover of the proposal package as follows: “NOTICE: THIS PROPOSAL MUST BE DELIVERED TO THE SPECIFIED ADDRESS NO LATER THAN (See Block 9 of the Standard Form (SF) 33 “Solicitation, Offer, and Award”)

(c) Delivery Address

Proposals must be delivered to the address/location specified on the Standard form 33.

Proposals submitted by commercial delivery service or hand carried packages must be delivered to:  
NASA Johnson Space Center  
Central Receiving, Bldg 420  
2101 NASA Parkway  
Houston, TX 77058-3696

JSC Central Receiving can only be accessed through JSC Gate 4, which is located off Space Center Boulevard. Offerors are cautioned that the delivery process may require an hour or more for packages to be screened through security and subsequently transported and delivered by the Offeror at the designated building while being accompanied by an employee of the U.S. Government. Receipt of the proposal shall not be considered complete until the proposal has cleared the screening process described above and received by a civil servant. Any attempt by an Offeror to deliver a proposal on a weekend or a Federal holiday shall be coordinated through the Contracting Officer at least 48 hours prior to the planned delivery date. The Offeror is encouraged to notify the Contracting Officer one day in advance of the proposal submission.

Please note that starting October 1, 2011 all mail deliveries from the US Post Office will now be at 1 p.m. on Tuesdays and Thursdays for Building 420. Building 420 will continue to receive packages daily from commercial mail or hand delivery services. Therefore, the Offeror is encouraged to plan accordingly depending on its chosen proposal delivery method.

(End of provision)

**L.27 INTRODUCTION TO INSTRUCTIONS FOR PREPARATION OF PROPOSAL  
(Applies to Fixed-Price and Cost)**

In providing these instructions, the Government’s intention is to solicit information that will permit a competitive evaluation of the Offeror’s proposal. The information solicited will demonstrate the Offeror’s competence and capability to successfully complete the requirements specified in the AMOS Statement of Work (SOW). Generally, the proposal shall:

- (a) Demonstrate understanding of the overall and specific requirements of the proposed contract; convey the company's capabilities for transforming understanding into accomplishment; provide in detail, the plans and methods for so doing; and provide, as requested below, the cost/price associated with so doing.
- (b) The proposal shall be clear, concise, and shall include sufficient detail for effective evaluation and substantiation of all information. The proposal should not simply rephrase or restate the Government's requirements, but rather shall provide convincing rationale to address how the Offeror intends to meet these requirements.

Elaborate brochures or documentation, detailed artwork, or other superfluous embellishments are unnecessary and are not desired, unless specifically requested in a scenario response.

Offerors are requested to provide information responsive to the items set forth below. This information is considered essential for the Government to conduct a fair and uniform evaluation of proposals in accordance with the evaluation factors and sub-factors provided in Section M. The items listed are not, however, all-inclusive and you should include in your proposals any further discussion you believe to be necessary or useful in demonstrating your ability to perform the work under this Contract.

For a more complete understanding of this part of Section L, refer to Section M. The instructions in this part of Section L are directly related to the evaluation factors set forth in Section M.

**Note: At the time of proposal, offerors shall possess a Facility (Security) Clearance (FCL) at the TOP SECRET/SECRET level. Offerors shall provide documentation of current FCL with proposal.**

Performance of the AMOS contract will not involve the receipt, generation, and storage of classified information at the contractor's facility; therefore, classified material cannot be sent to the contractor under this contract. Access to classified information/areas will occur at NASA/JSC and other locations required in the performance of this contract. Only U.S. citizens granted a personnel security clearance are eligible for access to classified material. The contractor must meet and comply with the facility clearance requirements for TOP SECRET / SECRET level clearances and must meet and maintain the industrial security requirements for access to classified information at the TOP SECRET / SECRET level in accordance with the National Industrial Security Operational Manual, (NISPOM) DoD 5220.22-M, dated February 28, 2006, and other NASA/JSC security procedures and guidelines.

<b>Cost and Price Factor-Volume III</b>	L.27.8	<b>Cost and Price Factor</b>	M.5
<b>Model Contract-Volume IV</b>	L.27.9	<b>Model Contract</b>	M.6

This procurement shall be conducted utilizing a combination of mission suitability, past performance and cost/price factors. The Government seeks to select an Offeror whose proposal represents the best value after evaluation.

All unacceptable proposals will be eliminated from further evaluation.

**L.27.1 PROPOSAL ARRANGEMENT, PAGE LIMITATIONS, COPIES, AND DUE DATES (Applies to Fixed-Price and Cost)**

(a) Proposal Arrangement

Offerors shall arrange their proposals as set forth below.

**Table L-2: Overview of Proposal Volumes and Page Limitations**

Volume No.	Title	Page Limits	Electronic Format
<b>I</b>	<b>Mission Suitability (MS)</b>	175	
	<i>Management-MS Sub-factor 1</i>		
	Management Approach (MA1-MA5)	Included in 175	MS Word
	<i>Technical-MS Sub-factor 2</i>		
	Technical Approach with Associated Specific Technical Understanding and Resources (TA1-TA5)	Included in 175	MS Word
	<i>Safety and Health-MS Sub-factor 3</i>		
	Safety and Health Approach	Included in 175	MS Word
	Note: DRD-S02, Safety and Health Plan is not included in the page count limit.	Note: DRD-S02 is not included in the page limit	
	<i>Small Business Utilization-MS Sub-factor 4</i>		
	Small Business Utilization Approach (SBU1-SBU2)	Not Limited	MS Word
<b>II</b>	<b>Past Performance</b>	50	
	Past Performance Description		MS Word
	Past Performance Attachments Note: OSHA Forms 300 and 300A are not subject to page count limitations		MS Word
<b>III</b>	<b>Cost/Price Proposal</b>	<b>Not Limited</b>	
	Templates	Not Limited	MS Excel
	Cost Narrative	Not Limited	MS Word
<b>IV</b>	<b>Model Contract</b>	<b>Not Limited</b>	
	Sections A-J, with all fill-ins completed; and Section K, Representations and Certifications, with all fill-ins completed; and additional information.	Not Limited; Note: DRD-M20 does not have a page limitation	MS Word

(b) Volumes shall be separately bound in 3-ring binders that permit the volume to lie flat when open. Staples shall not be used. A cover sheet shall be included on each binder, clearly marked with date of offer, volume number, title, copy number, solicitation number and the Offeror’s name. The same identifying data should be placed on the spine of each binder. Information should not be incorporated by reference. A suitable table of contents shall be provided with each volume for ready reference to sections, tables, and figures. Pages shall be formatted in a

standard page style, without the use of columns. All pages in each volume shall be numbered sequentially with Arabic numerals for contents subject to page limitations or with lower case Roman numerals for contents not subject to page limitations (e.g., title pages, tables of contents, and acronym lists). Offerors shall tab each sub-section within each volume for ease of reference. Tabs and dividers are not included in the page count limitations.

- (c) If final revisions are requested, separate page limitations will be specified in the Government's request for that submission.
- (d) Pages submitted in excess of the limitations specified in this provision will not be evaluated by the Government and will be returned to the Offeror.
- (e) Proposal Copies and Due Dates

**Table L-3: Proposal Copies and Due Dates**

<b>Due Date</b>	<b>Volume</b>	<b>Title</b>	<b>Time Due</b>	<b>Delivery Location</b>	<b>Copies</b>
<b>11/30/11</b>	I	Mission Suitability	<b>1400 CS</b>	JSC (See L.26)	1 original, 11 hard copy, 2 CD-ROM
<b>11/22/11</b>	II	Past Performance	<b>1400 CS</b>	JSC (See L.26)	1 original, 11 hard copy, 2 CD-ROM
<b>11/30/11</b>	III	Cost/Price Proposal	<b>1400 CS</b>	JSC and DCAA (See L.26)	1 original, 11 hard copy, 2 CD-ROMs for JSC Review (see L.26)  1 hard copy, 1 CD-ROM (JSC) for DCAA review. (see L.26)
<b>11/30/11</b>	IV	Sections A-J, with all fill-ins completed; and Section K, Representations and Certifications, with all fill-ins completed; and additional information.	<b>1400 CS</b>	JSC (See L.26)	3 originals, 2 CD-ROM (JSC)

\* Proposal Volume II, Past Performance, and the Cognizant Audit Office Template (CAOT) are requested early, but not officially due until 11/30/11.

- (f) Each Offeror is required to submit its proposal in two formats, one conventional hard copy bound format in the quantities specified above, and one in an electronic format in the quantities specified above. The electronic submission must be compatible with the software and hardware specification described below. Electronic media must be labeled or tagged with the RFP Number, Company Name, Date Prepared, an indication of the files or range of files contained on the disks marked and in accordance with FAR 52.215-1(e), Restriction on Disclosure and Use of Data, and FAR 3.104-5, Disclosure, Protection, and Marking of Contractor Bid or Proposal Information and Source Selection Information.
- (g) Electronic copies of the proposal shall be prepared and submitted in Microsoft Office® 2003 or 2007 applications (Word and Excel). Further, the Microsoft Excel spreadsheets shall be submitted in Microsoft Excel format, and not in a scanned Microsoft Word or Adobe PDF file.

To the extent of any inconsistency between data provided electronically and proposal hard copies, the hard copy data will be considered to be the intended data. For electronic submissions, each volume of the proposal should be submitted as a separate electronic file. If a volume extends to multiple disks, the Offeror shall clearly indicate the sequence number. The Offeror shall not embed sound or video files into the proposal files. Minimize the use of scanned images and keep embedded graphics as simple as possible.

- (h) A cover sheet should be contained as the first page of each book, clearly marked with volume number, title, solicitation identification, and the Offeror's name. Be sure to apply all appropriate markings, including those prescribed in accordance with FAR 52.215-1(e), Restriction on Disclosure and Use of Data, and FAR 3.104-5, Disclosure, Protection, and Marking of Contractor Bid or Proposal Information and Source Selection Information.
- (i) Provide a Cross Reference List that tracks the page and paragraph numbers of the Offer's proposal to the page and paragraph numbers in the Government's instructions. A Cross Reference List shall be submitted in each Volume for that particular volume.

(End of provision)

#### L.27.2 Mission Suitability Factor -Volume I (Applies to Fixed-Price and Cost)

The proposal must demonstrate that the offered items(s)/services(s) meet the requirement. The Offeror shall describe or provide the following in Volume I:

- Sub-factor 1. Management Approach
- Sub-factor 2. Technical Approach
- Sub-factor 3. Safety & Health Approach
- Sub-factor 4. Small Business Utilization

The proposal shall be detailed and complete enough to clearly and fully demonstrate that the Offeror understands the requirements and the inherent risks associated with the objectives of this procurement. It is inadequate to simply state that the Offeror understands and will comply with the requirements, or to paraphrase the requirements such as: "standard procedures will be employed to" and "well-known techniques will be used for..."

The Proposal shall comprehensively explain how you propose to comply with the applicable specifications, as well as the techniques and procedures you propose to implement.

**Previously submitted information will not be considered unless it is resubmitted as part of the proposal; it must not be incorporated by reference. Offerors must not assume that the Evaluation Team is aware of their company abilities, capabilities, plans, facilities, organization or any other pertinent fact that is important to the accomplishment of the work.**

#### L.27.3 Management Approach (MA)-Mission Suitability Sub-factor 1 (Applies to Fixed-Price and Cost)

The Offeror shall describe its approach to and rationale for meeting the management requirements of the Statement of Work (SOW), as required on the MA1, MA2, MA3, MA4, and MA5 sub-factors below. **(Responses to DRDs, excluding resumes, will be incorporated into the contract).**

**MA1. Management Plan**

The Offeror shall provide a detailed response to the following elements of DRD-M01 Management Plan: Paragraph c. Content: Sub-paragraphs i, ii, iv, vi, vii, ix and xi.

The Offeror shall provide a detailed response to DRD-M03 Contractor Work Breakdown Structure (WBS) and Dictionary.

The Offeror shall provide a detailed response to the following elements of DRD-M15 Total Compensation Plan: Paragraph c. Content: Sub-paragraphs 1-6 and 11.

**MA2. Training and Certification Plan**

The Offeror shall provide a detailed response to the following elements of DRD-M11 Training and Certification Plan: Paragraph c. Content: Subparagraph 2, Item b.

**MA3. Phase-In Plan**

The Offeror shall provide a detailed response to the following elements of DRD-M13 Phase-In Plan: Paragraph c. Content, Subparagraph i, Items 1), 2), 3), 4), 6), 7), and 10).

**MA4. Key Personnel**

The Offeror shall provide a detailed response to DRD-M17 Key Personnel Plan, Paragraph c. Content: Items a., d., e., f., and g.. The Offeror shall submit a letter of intent for employment for individuals not currently under employment by the Offeror.

**MA5. Quality Plan**

The Offeror shall provide a detailed response to the following elements of DRD-Q1 Quality Plan: Paragraph c. Content: Sub-paragraph 1.

**L.27.4 Technical Approach (TA)-Mission Suitability Sub-factor 2 (Applies to Fixed-Price and Cost)**

The Offeror shall demonstrate their understanding of the requirements and the specific labor resources needed to successfully perform the requirements of this Contract. Since the paragraphs and Tables described in these instructions are also intended to facilitate the technical evaluation of the Offeror's Cost/Price proposal, Offerors should carefully follow these instructions.

The Offeror's response to this section shall be consistent with the proposed Management Approach. Likewise, the Full Time Equivalents (FTEs) listed on the Fixed Priced Technical Resources Summary Templates (Fixed Price TRST) must agree with the resources in the Volume III, Cost/Price. FTEs are defined as the proposed productive hours needed to comprise one average full time employee. This may be one employee or several part time employees. Productive Hours are defined as the total available hours for productive work in a year, excluding overtime, less paid time off.

Referring to Section C, the SOW, the Offeror shall provide, the basis of estimate including any efficiencies proposed; an estimate in the form of a technical resources summary templates (Fixed

Priced TRST), and detailed responses to the scenarios;

### **Basis of Estimates (BOE) and Efficiencies**

Include a discussion regarding how the proposed FTEs were estimated. Also, include a discussion associated with any assumptions made regarding the requirements that led to the proposed resources such as: "we assume that a verification plan for the XYZ deliverables already exist and all we are responsible for is the maintenance of the plan." Include sufficient narrative discussion to convince the Government that the proposed resources are realistic for the proposed technical and management approach.

Explain any applicable efficiencies in sufficient detail to allow for a comprehensive analysis. If efficiencies are being proposed, ensure sufficient supporting information to perform a technical analysis is provided. Also, describe how any proposed methodologies, processes and techniques used to gain efficiencies would be implemented. Address risks and risk mitigation plans associated with savings or improvements. Make sure historical references to other contracts are relevant in size and complexity. Also explain in detail how the proposed efficiencies can actually be achieved. Proposed efficiencies and innovations including any associated Contract Clauses must be included in the model contract and clearly identified along with a specific SOW reference in the response to this evaluation factor.

### **Resources**

The resource details shall be contained in the Fixed Price Technical Resources Summary Template (Fixed Price TRST) located in the Technical Workbook.

In addition, the offeror shall complete the individual SOW resource templates located in the Technical Workbook. The SOW resource templates are identified by SOW section. The tabs are identified as; SOW 4.XX, SOW 6.XX, SOW 7.XX, SOW 9.XX, etc) within each tab of the SOW resource templates as individual worksheets. The detailed levels within each SOW area identified are the areas that the offeror shall complete by identifying resources commensurate with that SOW.

The Fixed Price TRST shall reconcile to the cost volume as indicated in the cost proposal instructions for a pricing model.

Note that the Fixed Price TRST are also submitted as part of Volume III, Cost/Price.

### **Detailed Response to the Scenarios**

The Offeror shall describe its approach and rationale to meet the technical requirements of the SOW, in accordance with TA1 thru TA5 Scenarios, below:

#### **TA1. Scenario 1**

The Offeror shall provide a detailed response to the following scenario:

A NASA T-38 has had three consecutive discrepancies against the same system. Technical data was adhered to in all repair events and ground verification operations indicated that discrepancies were corrected. This same aircraft is released to fly and the same discrepancy occurs. What actions would you take to ensure the root cause of the discrepancy is determined prior to commencing any further corrective actions? Explain within the content of your response, the section(s) of SOW where your conclusion was derived.

**TA2. Scenario 2**

The Offeror shall provide a detailed response to the following scenario:

WB-57 aircraft are deployed to 3 different, remote foreign locations on other continents, each with a Contractor staff of maintenance, quality, and operations personnel. At one location (where government provided transportation is not available), the deployed aircraft develops a “not mission capable maintenance”(NMCM) condition where the right hand engine develops an anomaly requiring intense maintenance activity, and the experienced engine mechanic deployed with that aircraft has a medical problem requiring evacuation to a location with full service medical facilities.

Describe your proposed method to evacuate and provide medical services to the subject employee while addressing the maintenance requirement and staffing deficiency at the deployed location in addition to returning the aircraft to mission capable (MC) status as expeditiously as possible.

**TA3. Scenario 3**

The Offeror shall provide a detailed response to the following scenario:

A customer requests that a payload be installed in the WB-57 aircraft. The payload is to be installed in the aircraft payload bay. Additionally, the payload includes an antenna mounted on the outside of the nose, data recorders installed in the nose, and an operator’s interface in the rear cockpit. The customer has requested that the payload installation be compatible with all three WB-57 aircraft knowing that the electrical and mechanical interfaces on all three aircraft may not be the same. Describe your systems engineering approach to most effectively integrate the payload on all three aircraft.

**TA4. Scenario 4**

The Offeror shall provide a detailed response to the following scenario:

The Mechanical Back Shop is working “fixed price” repair items as requested by Contractor Logistics Manager and approved by the Contractor Maintenance Manager to eliminate a ‘zero’ inventory/stock balance on high failure/usage stock. These repairs, if not completed, could result in an adverse impact to meeting the T-38 flight schedule and the ability to de-dock two T-38 aircraft currently in inspection with similar parts on order with long lead times to fill these open DOD requisitions. In the middle of this work, the mechanical back shop receive an urgent request from the WB-57 Program Office to disassemble two WB-57 hot air valves obtained from Aircraft Maintenance And Regeneration Center (AMARC) and restore one to a flyable condition to meet forthcoming high-visibility flight requirements (*within the same shop*). Describe:

1. How you would manage resources to ensure these multiple maintenance requirements are met?
2. Analyze the above scenario and advise what process improvements you would develop to avoid logistics sustainability shortfalls and what alternative maintenance planning process you would put in place.

**TA5. Scenario 5**

The Offeror shall provide a detailed response to the following scenario:

NASA AOD operates a diverse fleet of aging aircraft, some one-of-a-kind, with dated technical data and limited logistic support chain that causes challenging sustainment concerns for these unique aircraft. In view of these challenges, describe:

1. Your approach to support AOD’s diverse fleet of aging and one-of-a-kind aircraft.
2. Your logistics approach to networking and establishing “in advance” customer/supplier relationships to support one-of-a-kind aircraft and obsolescent parts.

**L.27.5 Safety and Health Approach -Mission Suitability Sub-factor 3 (Applies to Fixed-Price and Cost)**

The Offeror shall provide their overall safety and health approach for fulfilling all contract requirements in Volume I. The Offeror’s response shall respond to requirements contained in DRD-S02, Safety and Health Plan.

**SH1. Safety and Health Plan**

Provide a Safety and Health Plan as described in DRD-S02, Safety and Health Plan. The plan shall include a detailed discussion of the policies, procedures, and techniques that will be used to ensure the safety and health of your employees (and subcontractor employees, if a subcontracting arrangement is proposed) through the performance of the contract. The major areas of the Safety and Health Plan are management commitment and employee involvement, worksite analysis, hazard prevention and control, and safety and health training. Emphasis should be placed on proactive programs to prevent injuries, illnesses and property damage in all of these areas. Include innovations, where appropriate, which can be substantiated to reduce injuries, mishaps or overall safety risk in accomplishing the tasks described in DRD-S02.

(End of provision)

**L.27.6 Small Business Utilization (SBU) Mission Suitability Sub-factor 4 (Applies to Fixed-Price and Cost)**

All Offerors, except small businesses, must complete the portion of the instructions under Small Business Subcontracting specific to the Small Business Subcontracting Plan, (DRD-M08). Small businesses are not required to submit Small Business Subcontracting Plans; however, small businesses are required to indicate the amount of effort proposed to be done by a small business either at the prime level or at the first tier subcontract level.

**SBU1. Small Business Subcontracting**

Small Business Subcontracting Plan (Required by the FAR)

- (a) This solicitation contains FAR Clause 52.219-9, “Small Business Subcontracting Plan and its Alternate II.” The Plan described and required by the Clause, including the associated subcontracting percentage goals and subcontracting dollars, shall be submitted with your proposal via the Small Business Subcontracting Plan, (DRD-M08).
- (b) The Contracting Officer’s determination of the appropriate subcontracting goals for this acquisition are as follows:

Small Businesses (SB)	18.0%
Small Disadvantaged Business Concerns (SDB) (Includes SDB's in represented and under-represented areas*)	3.0%
Women Owned Small Business Concerns (WOSB)	9.0%
Historically Black Colleges and Universities and Other Minority Institutions (HBCU/MI)	0.2%
HUBZone Small Business Concerns (HBZ)	2.0%
Veteran Owned Small Business Concerns (VOSB)	2.0%
Service-Disabled Veteran-Owned Small Business Concerns (SDVOSB)	0.2%

\*Although 15 U.S.C. 637(d) requires subcontracting plans to contain information about SDB concerns, case law prevents the Government from giving evaluation credit to business types based on race or ethnicity unless those businesses are in under-represented industries. The Section M evaluation for SDB participation ensures that the Government only evaluates participation of SDBs in industries that are designated by the Department of Commerce as underrepresented. For purposes of the Small Business Subcontracting Plan, the proposed subcontracting goal for SDBs will be evaluated based upon the SDB's status as a small business.

- (c) The numbers above reflect the Contracting Officer's assessment of the appropriate subcontracting goals to be achieved at the completion of contract performance. If it is anticipated that the proposed small business goals will not be met by the submission of the first Individual Subcontracting Report (ISR) for this effort as required by FAR 52.219-9, the Offeror shall discuss as part of their Small Business Subcontracting Plan their approach to include timeline for meeting the Small business goals and the associated rationale.
- (d) The stated goals represent the minimum for the AMOS contract. If the Offeror proposes goals higher than the Contracting Officer's recommendation, the Offeror shall document the methodology behind determining those goals and their approach to successfully managing the subcontractor and consistently meeting the higher proposed goals. Offerors shall also address their approach for managing the subcontractor for both positive and negative performance. The Offeror shall also describe in detail their approach for managing and maintaining high goals with an uncertain and unpredictable workload and constant workload fluctuation.
- (e) The Plan submitted with the proposal shall be incorporated in Section J as the Small Business Subcontracting Plan, **(DRD-M08)**, of the resulting contract. The requirements in the Plan must flow down to first tier large business subcontracts expected to exceed \$650,000 or \$1,500,000 for construction of a public facility. Although these first tier large business subcontractors are encouraged to meet or exceed the stated goals, it is recognized that the subcontracting opportunities available to these subcontractors may differ from those suggested in the solicitation based upon the nature of their respective performance requirements.
- (f) Offerors are advised that a proposal will not be rejected solely because the submitted Plan does not meet the NASA recommended goals that are expressed in Paragraph (a) (2) above in terms of percent of **TOTAL CONTRACT VALUE** (basic and all options combined). NASA will consider the amount of work being retained for performance by the prime contractor in-house and the associated rationale when determining whether a subcontracting plan is acceptable. Offerors shall discuss the rationale for any goal proposed that is less than the Contracting Officer's recommended goal in any category. In addition, the Offeror shall describe the efforts made to establish a goal for that category and what ongoing efforts, if any, the Offeror plans during performance to increase participation in that category.

- (g) In addition to submitting a Small Business Subcontracting Plan, Offerors shall complete Attachment L-1, **SMALL BUSINESS SUBCONTRACTING TABLES**, which provides a breakdown of the Offeror’s proposed goals, by small business category, expressed in terms of both a percent of **TOTAL CONTRACT VALUE** and a percent of **TOTAL PLANNED SUBCONTRACTS**. Offerors shall modify the exhibit to show the proposed subcontracting goals for the basic contract requirement and each option separately.
- (h) If a subcontracting arrangement is proposed, Offerors shall include specific detail in the following areas so that the Government can determine that the prime contractor making the offer will be performing the primary and vital requirements for the contract; address in Technical Acceptability.
  - (i) Who will manage the contract.
  - (ii) Which party possesses background and expertise necessary for contract performance.
  - (iii) Which party pursued the contract.
  - (iv) The degree of collaboration in preparation and submission of competitive proposal.
  - (v) Whether there are discreet tasks to be performed by each of the teaming partners, or whether there is instead commingling of personnel and resources.
  - (vi) The relative amount of work to be performed by each teaming partner.
  - (vii) Which party will perform the more complex and costly contract functions.
  - (viii) The business size of the other parties.
  - (ix) Which of the parties possess the qualifications relevant to the contract requirements.
  - (x) Describe how the Offeror will ensure compliance with FAR 52.219-14, Limitations on Subcontracting. For the purposes of this RFP, JSC defines “costs of contract performance incurred for personnel” to mean direct labor, labor overhead (including payroll taxes and benefits), and G&A. “Employees on the concern” means actual direct employees identified on the Offeror’s payroll records for which social security taxes are matched. JSC considers “cost of contract performance” to include all costs throughout contract completion (the full contract period of performance).

Note: For purposes of this requirement, major subcontractor is defined by this solicitation as a company that the Offeror anticipates providing at least \$1,000,000 of contract value in support of the Statement of Work effort.

- (i) If an 8(a) joint venture is proposed, offeror shall submit a Small Business Administration signed and approved joint venture agreement with submission of the proposal. If SBA has not approved the joint venture agreement at the time of proposal submission, the offeror shall describe its status in achieving joint venture approval from the Small Business Administration, including:
  - What companies are included in the joint venture?
  - To which district SBA office was the application submitted?

- If not yet approved, what steps have you taken toward achieving approval (include applicable dates of each activity)?
- (j) SBA must approve a joint venture agreement prior to the award of an 8(a) contract on behalf of the joint venture. Award of the contract will only be made to an approved 8(a) company or 8(a) Joint Venture.

**SBU2. Commitment to the Small Business Program:**

- (a) All Offerors shall briefly describe work that will be performed by small businesses. Proposals should also identify any work to be subcontracted that is considered “high technology.” High Technology is defined as research and development efforts that are within or advance the state-of-the-art in technology discipline and are performed primarily by professional engineers, scientists, and highly skilled and trained technicians or specialists. Offerors shall describe any potential risks or impacts to seamless performance throughout the site when subcontracting out such efforts.
- (b) If the subcontractor(s) is (are) known, Offerors must connect the work to the subcontractor and specify the extent of commitment to use the subcontractor(s) (enforceable vs. non-enforceable commitments). (Small Business Offerors shall provide this information to the extent subcontracting opportunities exist in their approach to performing the requirement.)
- (c) All Offerors shall provide information demonstrating the extent of commitment to utilize small business concerns and to support their development. Information provided should include a brief description of established or planned procedures and organizational structure for Small Business outreach, assistance, participation in the Mentor Protégé program, counseling, market research and Small Business identification, and relevant purchasing procedures. (For Large Business Offerors, this information should conform to applicable portions of the submitted Small Business Subcontracting Plan. Small Business Offerors shall provide this information to the extent subcontracting opportunities exist in their approach to performing the requirement.)

**L.27.7 Past Performance Factor-Volume II (Applies to Fixed-Price and Cost)**

Past Performance indicates how well an Offeror performed on earlier work and can be a significant indicator of how well it can be expected to perform the work at hand. Past Performance shall be provided in accordance with the instructions below.

**OFFERORS SHALL ENSURE THAT PHONE NUMBERS PROVIDED FOR REFERENCES ARE CURRENT AND CORRECT.**

An Offeror or major subcontractor with no Past Performance or no previous Government contracts shall so state. In the case of an Offeror without a record of relevant Past Performance or for whom information on Past Performance is not available, the Offeror may not be evaluated favorably or unfavorably on Past Performance, in accordance with FAR 15.305(a)(2)(iv).

**Technical and Management Past Performance**

For each company (including joint-ventures and subcontracts) associated with this offer, excluding minor sub-contracts below \$1M per year, the Offeror shall describe experience on current contracts or contracts in which the contractor has performed work within the past three years that is relevant

to this effort, with special emphasis on the experience of the division of the company which will perform the proposed contract. If the contract is ongoing, the Offeror should have performed work for a period of at least 12 months. Offerors are required to explain what aspects of the contracts are deemed relevant to the proposed effort, and to what aspects of the proposed effort they relate. It is not sufficient to state that the experience is comparable in magnitude and scope; the Offeror must provide rationale to demonstrate that it is relevant.

The Offeror shall describe and provide examples of its past performance and unique capabilities relevant to the performance of the requirements in the statement of work, with emphasis on the following technical and management areas. Offerors shall submit rationale for relevancy, recency, and magnitude of the effort(s) as they relate specifically to this requirement. This submission shall clearly detail what portion of the SOW, the prime, joint ventures (as applicable) and major subcontractors are responsible for.

- Successful performance of cost, schedule, and quality goals. Include what methodologies were used for management control and oversight. Include the methods used to determine root cause(s) of failures when goals were not met and the means to implement corrective action and follow-up procedures.
- Successful support of aircraft types and support ancillary equipment described in the AMOS SOW.
- Successful accomplishment of self-assessment similar to that described in the AMOS SOW. Provide rationale for providing percentages of audits found in conformance with policy and what percentage of those audits were performed by internal and/or external auditors.

In accordance with FAR 15.305(a)(2)(ii) the Offeror is authorized to provide information on problems encountered on the identified contracts and the Offeror's corrective actions. Reporting problems does not equate to a Limited or a No Confidence rating. In contrast, the Contractor's corrective action and process improvement program may allow the Offeror to be considered a substantial Confidence or Satisfactory Confidence candidate. The corrective action and process improvement program should clearly demonstrate management actions employed in overcoming problems and the effects of those actions in terms of improvements achieved or problems rectified.

In addition to the narrative information described above, the Offeror is required to provide the following:

**A. Collective Bargaining Unit Relations**

Offerors shall provide for the past three years data that demonstrates the ability to successfully work with collective bargaining organizations. Provide the names of the unions that your company has negotiated with, the location of the worksite, how many employees were represented and the average number of grievances per year that your company received. The narrative should include, but is not limited to, descriptions of how strikes, as applicable, were dealt with, how negotiations of new contracts were handled and integration of bargaining units from different contracts where contract consolidation has taken place. Provide a description of any difficulties encountered as well as how they were addressed.

**B. Safety and Environmental Past Performance**

Offerors shall provide the following performance data with explanatory remarks on contracts performed in the last three years. Offerors shall identify the applicable North American Industrial Classification System (NAICS) Code for each contract and shall include points of contact for each contract. If a joint venture or prime-subcontractor relationship is proposed, the same information shall be provided for each company proposed; Safety and Environmental Past Performance will only be required for the prime and major (over \$1M per year) subcontractors. Explanatory statements shall be included as appropriate. For all work performed during the past three years, Offerors shall provide the following:

(a) Environmental Data

Information includes copies of environmental notices of violation and citations from federal, state, or local agencies with explanatory remarks.

(b) Occupational Safety and Health Administration Data

- (i) Copies of any and all OSHA citations with explanatory remarks.
- (ii) Records of the company's OSHA recordable injuries and illnesses. These records shall include, for each worksite, as a minimum, 1 copy of each year's OSHA logs (Forms 300 and 300A) as required by Title 29 of the Code of Federal Regulations, Section 1904.5(d) including the applicable NAICS code, the number of employees at the worksite and the calculated OSHA recordable frequency rate.
- (iii) A list of all insurance carriers providing workers compensation coverage (or equivalent), including dates of coverage. Include points of contact and phone numbers. Offerors shall authorize the listed insurance carriers to respond to Government inquiries recording the Offeror's past safety performance.
- (iv) Calculations supporting the Offeror's workers' compensation experience modifier, including the state formula used for the computation, along with the loss ratio for each of the past three years (where the loss ratio is defined as the ratio of losses to premium). Show all figures used for computation.
- (v) A letter from the insurance carrier summarizing the Offeror's liability and lawsuit history related to safety and health performance for the past three years including a history of changes to the experience modifier rate. If an Offeror self insures, provide and certify the same information (except the experience modifier rate history) with the signature of the responsible Corporate Officer or official.

(a) Accident, Incident, and Mishap Data

A summary of all accidents, incidents and mishaps the Offeror was associated with during previous contract activities. The summary shall include the date of the incident, short title, initial cost estimate, corrective action status and final cost of each event. The summary should include total annual costs.

In the narrative, include the methodology used to determine root cause(s) and corrective action(s) taken by the Contractor to prevent reoccurrence. The narrative shall include detailed methodology for cost analysis.

**C. Small Business Past Performance**

The prime Offeror shall provide a statement of small business participation (targets, record, and type of work subcontracted) over the last three years on work that is relevant to this effort, with special emphasis on the division of the company which will perform the proposed contract.

**D. Organization Structure Change History**

Many companies have acquired, been acquired by, or otherwise merged with other companies, or reorganized their divisions, business groups, subsidiary companies, etc. In many cases, these changes have taken place during the time of performance of relevant present or past performance or between conclusion of recent past efforts and this source selection. As a result, it is sometimes difficult to determine what past performance is relevant to this acquisition. To facilitate this relevancy determination, include in this proposal volume a roadmap describing all such changes in the organization of your company. As part of this explanation, show how these changes impact the relevance of any efforts you identify for past performance evaluation. Since the Government intends to consider present and past performance information provided by other sources as well as that provided by the Offeror(s), your roadmap should be both specifically applicable to the efforts you identify and general enough to apply to efforts on which the Government receives information from other sources.

**E. Cross-reference List of Past Contracts and Contacts**

The Offeror shall provide a cross reference list of past contracts and points of contact corresponding with Attachments L-2, Past Performance Questionnaire Template, to be received from customer references (See Past Performance Questionnaires, below).

**F. Past Performance Questionnaires**

Separate from the General Past Performance narrative contained in Volume II, the Offeror shall provide references from organizations and companies for whom work has been performed.

For each company (including joint-ventures and subcontracts) associated with this offer, excluding minor subcontracts below \$1M per year, the Offeror shall provide their customer references with an Attachment L-2, Past Performance Questionnaire Template. This shall be done for at least three contracts completed within the past three years containing some or all of the functions defined in the SOW, if such experience exists. The Offeror shall request the customer references to fully complete the questionnaire in accordance with the instructions on the form and to return it in accordance with the return instructions on the form, on or before the Volume III due date. The Offeror is responsible for ensuring that questionnaires are submitted in time.

**G. Subcontractor Letter of Consent**

Provide with the proposal a letter from all subcontractors that will perform major or critical aspects of the requirement, consenting to the release of their past performance information to the prime contractor.

**L.27.8 Cost and Price Factor- Volume III (Applies to Fixed-Price and Cost)**

**Standard Labor Categories (SLC)**

Standard Labor Categories (SLC) applicable to this contract are provided to facilitate a consistent evaluation among offerors. Section C, Statement of Work, Appendix D “Personnel Requirements” addresses the recommended qualifications and experience levels of SLCs that are to be used for proposal purposes. When describing the proposed labor necessary to accomplish the SOW, the SLCs provided in Appendix D shall be used in the basis of estimates, resources and cost templates. However, offerors may include other additional labor categories that cannot be easily or logically mapped to those provided in Appendix D. Job descriptions similar to the ones listed in Appendix D shall be provided for any additional other categories proposed.

**Government Labor Resource Estimate for LOE and Fixed Price**

The Government Labor Resource Estimate set forth in Attachment L-4 which depicts the direct labor staffing, which is based on the Government’s experience and estimated requirements for both LOE and Fixed Price. The table depicts the Government’s Labor Resource Estimate for both LOE and for Firm Fixed Price portions of the contract.

The materials estimate is provided in the LOE resource estimate, which encompasses both LOE and the Fixed Price portion of the contract. The offeror shall estimate the costs associated with materials for both LOE and Fixed Price in the LOE section of the cost proposal.

**Instructions for Preparation of the Cost/Price Proposal**

Note: The offeror shall demonstrate in the cost proposal that an adequate accounting system is in place that addresses the cost type portion of this contract. If the offeror cannot demonstrate an adequate accounting system before award, the contract cannot be awarded to that offeror.

Certified cost and pricing data are not required; however, other than cost and pricing data are required. To ensure that the Government is able to perform a fair assessment of the proposed cost, each Offeror is required to submit a cost proposal that is suitable for evaluation. A cost/price volume that is suitable for evaluation shall:

- a. Account for all resources necessary to complete requirements of this RFP.
- b. Provide traceability to the technical/management proposal(s).
- c. Explain in detail all pricing and estimating techniques.
- d. Disclose the basis of all projections, rates, ratios, percentages, and factors in sufficient detail to facilitate the SEB’s understanding and ability to mathematically verify these estimating tools.
- e. Comply with applicable Federal Acquisition Regulation (FAR), NASA FAR Supplement (NFS), and governing statutory requirements.
- f. Include a narrative portion that explains all judgmental elements of cost projections and fee policies including any proposed cost ceilings and team fee sharing arrangements.
- g. Include all templates required in this RFP.  
The Offeror’s cost proposal shall be submitted in one volume labeled Volume III Cost/Price Proposal.

**Note: In order to comply with the budget requirement that contracts must be configured to coincide with the funds period of availability, NASA does not have authority to cross fiscal years with the available funds, and the fact that contract periods of the base and options do not line up in 12 month yearly increments, the cost proposal shall be proposed in increments of annual periods as described below, the offeror shall estimate both the LOE and Fixed Priced portions of their cost proposal in a two step process. The first step shall**

**involve pricing out both LOE and Fixed Price in annual 12 month increments with the templates provided. Then the offeror shall then convert those annualized evaluation periods into contract periods identified as Base Periods, Option 1 and Option 2.**

**Requirement for Concurrent Cost Proposal Delivery to DCAA**

A copy of the prime and all major subcontractor's cost proposals (both electronic and hardcopy) are to be delivered to each respective cognizant Defense Contract Audit Agency (DCAA) field audit office. If the Offeror does not know the cognizant DCAA field audit office, the information is readily available on the world-wide-web at [www.dcaa.mil](http://www.dcaa.mil). Once the web site is accessed, click on the "Audit Office Locator" link. Enter the Offeror's company's 5 digit Zip Code in the area provided and click on the adjacent "search" button. (It is important that the Offeror enter the 5 digit Zip Code for the Offeror's company location where auditable books and records supporting amounts in the Offeror's proposal physically reside.) Once the search is completed, the cognizant field audit office physical and E-Mail addresses and Voice and FAX telephone numbers will be displayed.

**EXCEL PRICING MODEL (EPM) FILE:**

**Format:** In order to achieve standardization, the Excel Pricing Model (EPM) includes four workbooks/files. The workbooks/files must be automated to the greatest extent possible:

- a. LOE Workbook (Fully Automated)
- b. Fixed Priced Workbook (Fully Automated)
- c. Other Supporting Workbook (Fully Automated)
- d. Technical Resources Workbook (Fully Automated)

The first workbook entitled "LOE Workbook" shall include the following templates: Annual Fully Burdened Rates Template (AFBR), Annual Minor Subcontract Pricing Template (AMST), Annual LOE Pricing Template (ALOEPT), Conversion Fully Burdened Template (CFBR).

The second workbook entitled "Fixed Priced Workbook" shall include the following templates: Labor Pricing Template (LPT), Overtime Pricing Template (OPT), Major Subcontractor Price Summary Template (MSCST), and Prime Price Summary Template (PPST).

The third workbook entitled "Other Supporting Workbook" shall include the following templates: Overhead Template (OHT), General & Administrative Template (GAT), Cognizant Audit Office Template (CAOT), Total Compensation Templates TC (a through e) and Phase in Template (PIT).

The fourth workbook entitled "Technical Resources Workbook for FFP" shall include the following templates applicable to the firm fixed price: Firm Fixed Price TRST, SOW 4.XX, SOW 6.XX, SOW, 7.XX, SOW, SOW 10.XX and SOW 11.XX.

The goal of the EPM automated workbooks is to provide a comprehensive working model of the Offeror's proposed cost volume in an automated format. The pricing model will be designed to facilitate changes to source data such as direct labor hours and/or rates, overhead and G&A rates etc. and be sophisticated enough to compute the total impact of various changes to both cost and price. It is important that your model facilitate this process to ensure fidelity and is error free. For example; the model must be able to compute the cost and price impact of:

- a. Increasing (or decreasing) the number of Engineer I full time equivalent staff (FTE)
- b. Increasing (or decreasing) the overhead rate(s).

**Formulas:** All formulas used in the workbooks must be clearly visible in the individual cells and verifiable. Whereas linking among the spreadsheets or workbooks may be necessary; the use of external links (source data not provided to NASA) of any kind is prohibited. The workbooks shall not contain macros or hidden cells.

**Locks:** The EPM and all its associated workbooks shall not be locked/protected or secured by passwords.

**CD Cost/Price Proposal Organization**

All Cost/Price Templates are located in Attachment L-5. The Government intends to use a personal computer with Microsoft Excel to aid in the evaluation of the cost proposal. In addition to the hardcopy requirements of the preceding section, each prime and major subcontractor is required to submit its EPM and any other electronic cost data, including formulas, on CD only.

Each CD provided is to have an external label indicating:

- a. The name of the Prime or Major Subcontractor,
- b. The RFP number, and
- c. The files/workbooks or range of files/workbooks contained on the CD. Labeling CD case only does not fulfill this requirement. The CD itself must be labeled. The use of a permanent marker to label the CDs by hand is acceptable. As addressed above the CD structure includes four workbooks:
  - a. One fully automated workbook including all templates for LOE
  - b. One fully automated workbook including all templates for Fixed Priced
  - c. One fully automated workbook including all templates for Other Supporting
  - d. One fully automated workbook including all templates for Technical Resources

When multiple versions of the same template are required, then submit the multiple templates inside one worksheet stacked vertically. For example the Fully Burdened Rates Template – (FBR) is required for each year of the contract, therefore 5 vertically stacked templates will be submitted under a tab titled FBR under workbook LOE-Company Name.xls

All electronic file/workbook names included in the Offeror’s proposal shall begin with the appropriate workbook acronym, hyphen, followed by the first three letters of the Offeror’s company name. For example: Assume the Offeror’s company name is ABC Company and the Offeror have completed the LOE Form workbook; the file/workbook name would be LOE-ABC.xls. Offerors shall use the Template acronyms below in naming individual worksheets/tabs within an Excel file/workbook:

**Workbook Acronyms:**

- LOE Workbook** – All required LOE templates
- AFBR** – Annual Fully Burdened Rates Template
  - AMST** – Annual Minor Subcontractor Pricing Template
  - ALOEPT** – Annual LOE Pricing Template
  - CFBR** – Annual Conversion Fully Burdened Rates Template

- Fixed Priced Workbook** – All required Fixed Priced templates
- LPT** – Labor Pricing Template
  - MSPST** – Major Subcontractor Price Summary Template
  - PPST** – Prime Price Summary Template

**Other Supporting Workbooks** – All required supporting cost templates for both LOE and Fixed Price

**OHT** - Overhead Template

**GAT** - General & Administrative Expense Template

**CAOT** - Cognizant Audit Office Template

**TC(a)** – Compensation Template (a) Salaries & Wages – Non-Exempt

**TC(b)** – Compensation Template (b) Salaries & Wages –Exempt

**TC(c)** – Compensation Template (c) Fringe Benefit Analysis Package

**TC(d)** – Compensation Template (d) Personnel and Fringe Benefits Policies

**TC(e)** – Compensation Template (e): Incumbency Assumptions

**PIT** – Phase in Template

**Technical Workbook** – All required templates associated with resources

**Template Acronyms:**

**Firm Fixed Price TRST** – Technical Resources Summary Template Fixed Price at summary level by annualized evaluation period and by SLC

**SOW 4.XX** – Statement of Work areas for 4.XX

**SOW 6.XX** – Statement of Work areas for 6.XX

**SOW 7.XX** – Statement of Work areas for 7.XX

**SOW 10.XX** – Statement of Work areas for 10.XX

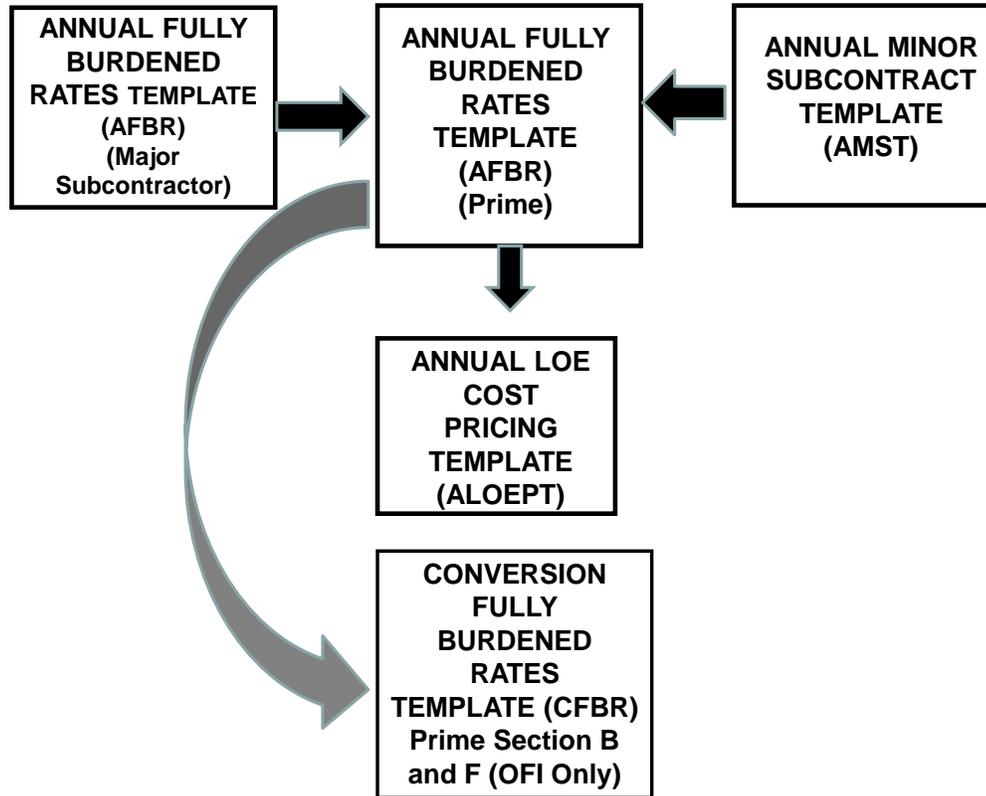

**SOW 11.XX** – Statement Work areas for 11.XX

The cost/price proposal templates are designed to provide NASA with information necessary to perform a cost realism analysis. The specific templates required can be found in Attachment L-5.

In completing the templates, the offeror shall propose cost elements in a manner that is consistent with its disclosed and approved estimating and accounting practices. Certain elements of cost on the NASA templates are specified as non-labor resources (for example facilities), however, when these costs are normally treated as an indirect expense in overhead, the offeror shall propose such costs in overhead and explain accounting treatment in the non-labor resources rationale.

**LOE WORKBOOK INSTRUCTIONS**

The following flowchart illustrates in a simplified manner how the different templates relate to one another to create a complete representation of proposed LOE cost.

With the exception of subcontractors proposed to provide LOE hours, the requirement for completed cost templates apply to the prime Offeror and all major subcontractors with an annual estimated annual value that exceeds \$1 Million (M). Subcontractors with an estimated annual value below \$1M are considered minor subcontractors.

**Cost Proposal Instructions for LOE**

These instructions apply to the prime offeror and all subcontractors proposing LOE hours. There is no distinction between major or minor subcontractors. If any of the contractors, be it prime or subcontractor, propose any LOE hours, then a separate cost proposal is required from that contractor.

For LOE uniformity of proposal preparation and evaluation, your proposal shall be for the number of LOE labor hours specified in the RFP for each labor year. For purposes of this proposal, you must use the standard labor categories provided. If your firm uses a different title for a particular standard labor category, please indicate this fact by placing such a title in parenthesis immediately adjacent to the provided classifications to which your firm’s title most readily conforms. Offerors should base their cost on the total hours listed in Attachment L-4; however, the Government plans to manage the LOE at the total level for each contract year. The actual skill mix may differ from the table during contract performance. The Government does not intend to entertain a future equitable adjustment related to skill mix. Therefore, you shall take this risk into consideration in proposing your LOE fee. The Offeror is responsible in determining if the Government Labor Resource estimate for straight time hours and overtime hours by SLC and functional area is appropriate. Offerors shall propose hours by SLC and functional area consistent with its technical and management approach. If the Offeror’s proposed distribution of hours by SLC differs from the Government Labor Resource estimate, the offeror shall explain how the proposed distribution of hours is achievable as proposed in the technical volume.

**Annual Fully Burdened Rates Development Template (AFBR)**

A separate AFBR is required for each contract year of the effort from the prime and is required from each major subcontractor(s). This template is provided so that each Offeror may show how they arrived at their individually proposed fully burdened rates including profit/fee. As noted towards the top of this template, the columns below the blue area shall be completed by the prime contractor; likewise, the columns below the yellow area shall be completed by the major subcontractor.

The first two columns address the Offeror’s direct labor categories and the NASA Standard Labor Categories. The Incumbent Retention % Column allows the Offeror to propose the percentage retention of the existing workforce per NASA SLC. The Offeror may propose any percentage per labor category that is based upon the proposed management and technical approach required for the statement of work. In the example, 100% is placed against an IT Professional II for illustrative purposes. The Percentage Usage Column is provided so that the Offeror may weigh the proposed direct labor per the Offeror’s labor categories. The usage percentage must total to 100% for each SLC. In addition the Direct Labor Rate Column is provided so that the Offeror may provide the average direct labor cost for each SLC while simultaneously mapping the Offeror’s job categories into the SLC’s. For example, assume that for the SLC “Warehouse Specialist I,” a company proposed two contractor specific categories that map into this category: “XYZ 1” at \$28.75/hr and “XYZ 2” at \$25.25/hr. For illustration, further assume it proposed specific labor categories will be utilized 75% and 25%, respectively. Then the rates in this example should show up as the consolidated SLC rate for this specific category is derived as follows:  $(\$28.75/\text{hr} * 75\%) + (\$25.25/\text{hr} * 25\%) = \$27.88$ . Note that this is simply an example and it may not capture all possibilities.

Next, Overhead Rate Column addresses the overhead rate(s). The Overhead Cost Column is the overhead cost added to the direct labor cost to compute the fully burdened rate. This column includes some typical indirect cost categories that may be applicable to Department of Labor (DOL) Wage Determination (WD) [Health & Welfare per hour, Holiday per hour, Vacation per hour, and Other which would typically include payroll taxes and miscellaneous]; however, it may be modified to accommodate your accounting system. You may add rows or columns to facilitate this. However, do not remove any SLC’s in your submitted templates.

The General and Administration (G&A) Rate Column addresses the G&A rate. The G&A Cost Column often addresses costs such as home office expenses.

The facilities capital cost of money column is provided if the offeror should this cost is proposed.

The fee column on this template is applicable to the major subcontractors only, if the major subcontractor is not sharing in the fee pool and is proposing their own separate fee structure.

The FBR column basically combines the direct labor hourly rate and all the indirect costs along with the subcontractor fee (if applicable) to arrive at the Prime’s or major subcontractor’s fully burdened labor rate per SLC.

The Subcontractor Price Input Area addresses the subcontractor fully burdened rates. This area shall be completed by the prime contractor. In the Subcontractor FBR column(s), the major subcontractor(s) shall provide to the prime contractor their fully burdened labor rate(s) and shall be one composite rate per SLC per subcontractor. The Subcontractor FBR is determined by the major subcontractor completing the FBR template and determining the FBR that shall be charged to the Prime Contractor. If more than one major subcontractor is being proposed, then the prime

contractor is responsible for providing each subcontractor fully burdened rate in each column. In the template, three columns are provided as an example for contractor “A”, “B” and “C”. In this example, subcontractor “A” is provided for illustrative purposes. If more than one subcontractor is proposed, then, the prime contractor shall provide those FBRs in the columns provided. If more columns are needed due to more than three subcontractors, then the prime contractor may include more columns in order to accommodate the other major subcontractors.

Note that major subcontractor(s) must complete the information on this template except at the subcontractor input area and to the right of the subcontractor input area. The subcontract price input area is only applicable to the prime contractor who must provide the integrated subcontractor FBR as part of the blended FBR of the prime and subcontractor.

The Prime Burdens Rate is what the Prime contractor may apply as a burden to the major subcontractor Composite FBR, if applicable. The Prime contractor then combines the Subcontractor FBR with the Prime Burdens Rate to arrive at a total rate that addresses the subcontractor.

The Percentage Usage Prime/Sub column addresses the weighting of the Prime FBR versus the Composite Subcontractor FBR. Based upon this weighting, the Composite Prime and Composite Sub FBR can be determined. For example, if the Percentage Usage Prime/Sub was 50/50, then 50% of the Prime’s FBR and 50% of the Subcontractor’s FBR can be used in determining the overall Composite Prime and Sub FBR.

The Composite Prime and Subcontractor FBR per Hour column address the final composite FBR that the prime calculated. This shall include the prime subcontractor and the composite major subcontractor(s) fully burdened labor rates by SLC that shall match the FBRs in Section B of the contract.

The last column to the right of this template addresses the Composite Overtime Prime and Subcontractor FBR per Hour. The Offeror must be clear on how the overtime FBR was calculated in their narrative with a discussion and also, as with the rest of the template, include the formula within the cell to demonstrate the calculation. For example, the formula should demonstrate that if a Technician is paid time and a half, that the fringe costs are not included at time and a half also.

**Note** that the annual fee applicable to the fully burdened rates shall be addressed at the Annual LOE Cost Pricing Summary Template (ALOEPT). The annual fee dollars shall agree with the fee dollars proposed in section B of the contract.

The AFBR also serves the purpose for calculating the Technical Options with the exception of Firm Fixed Price Technical Option which is addressed in the Fixed Price workbook instructions. At the right of the AFBR template is an area shaded in green where the offeror may include award fee per SLC per year, total burdened FBR with fee, total overtime award fee for SLC, and total burdened overtime FBR with fee. The calculations shall be commensurate with calculations used in calculating the Composite Prime and Subcontractor FBR.

### **Annual Minor Subcontractor Template (AMST)**

The minor subcontractor template is required of the prime only. This template is intended to provide the SEB a concise assessment of the substance of minor subcontracts. Minor subcontractors are subcontracts with an estimated annual contract value below \$1M. Two examples showing how this template is to be completed are included on this template.

**Annual LOE Cost Pricing Template (ALOEPT)**

This template is for pricing out the LOE hours that are provided in the hours’ section of this template. This template is divided into 3 sections:

The first section addresses the LOE productive hours. The LOE hours provided are the government’s best estimate for the required effort with respect to total hours and labor skill mix. The offeror may change the skill mix with respect to LOE hours provided, however, **note that the offeror shall not change the total LOE hours provided in the RFP**. If the skill mix is changed by the offeror, the total hours at the bottom of this section must match the total productive hours established in the LOE pool. In addition, a basis of estimate shall be provided by the offeror if changes are made to the skill mix with respect to the LOE table provided in Attachment 4.

The second section addresses the Contract rates that were determined in the Annual Fully Burdened Rates Template (AFBR).

The third section addresses the labor cost developed by multiplying the sample productive hours by the contract rates. This will be the fully burdened labor cost per labor category.

The bottom of the template addresses the fully burdened labor cost, prime fee (subcontractor fee shall be included in fully burdened labor rates unless a fee sharing arrangement is being proposed) and the total cost and fee.

**Conversion Fully Burdened Rates Template (CFBR)**

This template shall be used by the offeror to convert the rates determined in the AFBR to contract /fiscal year fully burdened rates. This template shall be completed by the prime contractor only since the prime’s AFBR template already addressed subcontractor rates. The template is divided into the basic and option periods and their respective dates. The offeror must provide a description (e.g. weighted average, average, etc.) in determining the methodology of arriving the fully burdened rates on this template. This methodology should provide the “roadmap” from the FBR to the CFBR.

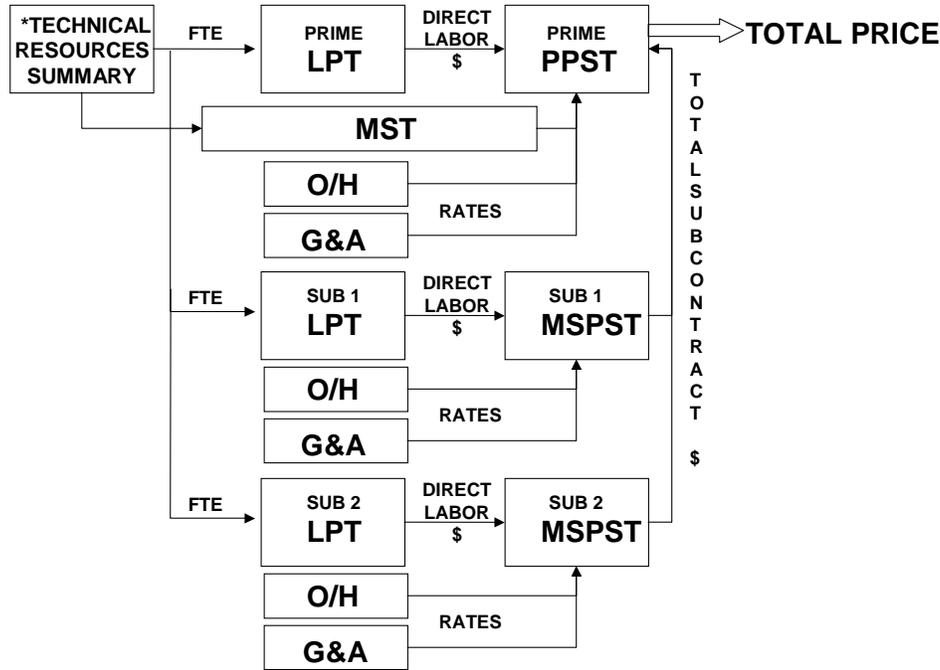

**FIXED PRICE WORKBOOK INSTRUCTIONS**

The Offeror’s proposed labor resources (FTE’s) for the fixed price portion of the work for the prime’s entire team (Prime, Major & Minor Subs) shall be accounted for and described in Volume I, Mission Suitability from a technical and management point of view, respectively. Subsequently, in Volume III only the Offeror’s proposed fixed priced FTE’s for the entire team (Prime, Major & Minor Subs) must be summarized in the Fixed Price TRST. The FTE’s are converted to productive hours and priced out using the Labor Pricing Template (LPT).

Each major subcontractor must prepare a Major Subcontractor Price Summary Template (MSCPT). The prime offeror combines prime’s entire team costs on the Prime’s Price Summary Template (PPST).

The following flowchart illustrates in a simplified manner how the different templates relate to one another to create a complete representation of proposed fixed price.

**FIRM FIXED PRICING FLOWCHART**

**FIRM FIXED PRICE TEMPLATES INSTRUCTIONS**

**1. Labor Pricing Template (LPT)**

A separate template is required from the prime and all proposed major subcontractors. This template serves to identify all compensated (straight time) productive hours and costs. This template shall support and reconcile to the direct labor hours and costs shown on the Prime Price Summary Templates (PPST). A narrative basis of estimate is required to accompany this template. This narrative as a minimum shall address methods used to estimate direct labor rates and incumbent retention. There are three steps to completing this template:

- a) Enter your Straight-time hours by labor category (from the Standard Labor Category Table) on the straight hour portion of the template.
- b) Enter the corresponding direct labor rates for each labor category on the straight rates portion of the template.
- c) Multiply Straight-time hours by the corresponding direct labor rates to compute the straight time cost by labor category on the straight time cost portion of the template.

**Note:** Comply with FAR Clause 52.222-43, Fair Labor Standards Act and Service Contract Act Price Adjustment (Multiple Year and Option Contracts). Describe how the proposed prices include all appropriate escalation the Offeror determines necessary to cover its increased cost of performing the contract over time. Escalation shall be incorporated into the proposed fixed prices to the extent the Offeror believes its prices need to increase to cover its risk that the cost of doing business will increase as time passes. However, to the extent the clause at 52.222-43 entitles a

contractor to request an equitable adjustment later for Government direction that adversely impacts a contractor's ability to perform at the prices proposed, proposed prices shall not include contingencies to protect against such potential Government-directed increases in the future (e.g. don't include a contingency in proposed prices in anticipation of a revision to the Service Contract Labor rates contained in the RFP.

### **2. Major Subcontractor Price Summary Template (MSPST)**

A separate Subcontractor Price Summary Template is required of each major subcontractor. This template serves as a summary of the proposed labor hours, cost, and profit by contract period. A reference column has been provided on the templates for the offeror to use to identify the supporting data for each cost element. The detailed data shall be clearly displayed so that the Government may understand the cost development and computations. If an award fee is proposed, each major subcontractor shall describe a description of their proposed fee structure.

### **3. Prime Price Summary Template (PPST)**

This template serves as a summary of the proposed labor hours, cost, and profit by contract period and is required of the prime only. A reference column has been provided on the templates for the offeror to use to identify the supporting data for each cost element. The detailed data shall be clearly displayed so that the Government may evaluate the cost development and computations. The maximum award fee amount shall be **4%** of total cost before profit. Maximum award fee shall not include profit as part of the base for calculating award fee.

The PPST also serves the purpose for calculating the Technical Options for decrease in T-38 aircraft. At the bottom of the PPST, an area shaded in red is included where the offeror shall address the options for decrease of one T-38 aircraft and a reduction of 300 flight hours. Also, an area is included for a reduction for two T-38 aircraft and a reduction of 600 flight hours. The offeror's calculation shall be commensurate with calculations used in calculating the total price and award fee. The offeror shall explain the methodology and calculations in arriving at the option price of removing one T-38/300 flight hours and a reduction of 2 T-38s/600 flight hours per year. The offeror shall convert the fixed priced options to the base period, option period 1 and option period 2, respectively. The offeror shall also explain the methodology and calculations in arriving at the conversion from annual evaluation periods to base period, option 1 and option 2.

### **Other Supporting Workbook Instructions (applicable to both LOE and Fixed Price)**

#### **Overhead Template (OHT)**

Provide your Forward Pricing Rate Agreement (FPRA) used to price this proposal or provide a completed Overhead template that includes estimated expenses and base for the period of performance to develop the overhead rates used to price this proposal. This template is required from the prime contractor and all major subcontractor(s). This template shall provide insight into the composition of the burden pool for the proposed overhead rates. A separate template for each of the proposed burden pools is to be completed. In addition, provide overhead cost history for the prior three years and for the term of the contract. The basis for projections of overhead shall also be provided and an explanation in support of any significant changes in either expenses or base of application that exist from one year to the next. In the event the Offeror's fiscal year and anticipated contract year do not coincide, the offeror shall complete the rate reconciliation showing how the fiscal year overhead rates result in the proposed overhead rates for each contract year. The Government does not require or mandate that you propose indirect rate ceilings. However, if proposed, the template includes an area for overhead ceilings. A few cost elements are included on the template, which represent the type of cost detail the Government requires visibility into. If these cost elements are not applicable to any proposed indirect cost pool, leave blank.

**G&A Template (GAT):**

Provide your Forward Pricing Rate Agreement (FPRA) used to price this proposal or provide a completed General and Administrative (G&A) template that includes estimated expenses and base for the period of performance to develop the G&A rates used to price this proposal. This template is required from the prime contractor and all major subcontractor(s). This template shall provide insight into the composition of the burden pool for the proposed G&A rate. Identify the estimated G&A expense and explain the method for its calculation. Provide G&A cost history including the actual expense pool and application base amounts for the prior three years. The basis for projections of G&A shall also be provided and an explanation in support of any significant changes in either expenses or base of application that exist from one year to the next. In the event the Offeror’s fiscal year and anticipated contract year do not coincide, the offeror shall complete the rate reconciliation showing how the fiscal year G&A rate results in the proposed G&A rate for each contract year. The Government does not require or mandate that you propose indirect rate ceilings. However, if proposed, the template includes an area for G&A ceilings.

A few cost elements are included on the template, which represent the type of cost detail the Government requires visibility into. If these cost elements are not applicable to your proposed G&A cost pool, leave blank.

**Cognizant Audit Office Template (CAOT):**

This template is required for each prime contractor, teaming partner, joint venture partner, and major subcontractor. This template is designed to capture relevant information concerning:

- (1) the specific location (address or addresses for prime and subcontractors) where auditable cost information physically resides that supports amounts proposed;
- (2) the person or persons (name, address, phone number, e-mail address etc) who can be contacted by Defense Contract Audit Agency (DCAA) to provide cost realism audit information for the prime contractor,
- (3) the person or persons (name, address, phone number, e-mail address etc) who can be contacted by DCAA to provide cost realism audit information for your company or partners (in a teaming, joint venture or partnership situation) and subcontractor(s); and
- (4) the name and address of the cognizant DCAA field audit office to which electronic and hardcopy proposals were sent.

**Total Compensation Templates Instructions**

The following compensation templates are required in order for the Government to perform an evaluation of your labor relations. These templates should reconcile with the cost templates described above, wherever applicable.

**1. Compensation Template (a): SALARIES AND WAGES NON-EXEMPT - CONTRACT YEAR 1: CT (a)**

The offeror shall submit a completed Compensation Template (a) for non-exempt personnel for contract year 1. This template is required of the offeror proposed as prime and all proposed major subcontractor(s). In the “LABOR CATEGORY - Offeror’s” column, list all proposed labor classifications (included in the cost proposal), by titles from the Offeror’s estimating system. Each of the Offeror’s Labor Categories should be mapped to the Government Standard

Labor Category. The DOL WD category should be mapped to the LABOR CATEGORY - Offeror's. Depending on whether the category is DOL or CBA covered, include the wage rate in the appropriate column. The "Contract Year 1 Actual Proposed Labor Rate" is the Offeror's actual proposed composite labor rate starting in Contract Year 1. The "Escalation rates for year 2-5" column should include your annual escalation percentage. A source column has been provided on the template for the offeror to use to identify the supporting data for each labor category, which should include the source data (DOL, WD or CBA#) for non-exempt personnel. An example is included on the template for illustration purposes only.

**2. Compensation Template (b): SALARIES AND WAGES EXEMPT - CONTRACT YEAR 1: CT (b)**

The offeror shall submit a completed Compensation Template (b) for exempt personnel for contract years 1. This template is required of the offeror proposed as prime and all proposed major subcontractor(s). In the "LABOR CATEGORY - Offeror's" column, list all labor classifications included in the proposal, by titles from the Offeror's estimating system. Each of the Offeror's Labor Categories should be mapped to the Government Standard Labor Category. The "Contract Year 1 Actual Proposed Labor Rate" is the Offeror's actual proposed composite labor rate starting in Contract Year 1. The "Escalation rates for year 2-5" column should include your annual escalation percentage. The "Actual Proposed Annual Salary" is the salary of the proposed labor category. A source column has been provided on the template for the offeror to use to identify the supporting data for each labor category, which should include the source data (Actual or Wage Survey) for exempt personnel. An example is included on the template for illustration purposes only.

**3. Compensation Template (c): FRINGE BENEFITS ANALYSIS OF COMPENSATION PACKAGE - Contract Year 1: CT (c)**

A separate Template (c) shall be completed for Exempt, Non-Exempt Nonunion, and Non-Exempt Union direct labor. This template is required of the offeror proposed as prime and all proposed major subcontractor(s). It should be noted that the minimum hourly fringe benefits rate cannot be less than the DOL specified minimum rate listed in the RFP under Section J for non-exempt employees. The column entitled, "Cost of Fringe Benefit" should include the cost, not rate, associated with the fringes specified (i.e. life insurance, disability insurance, etc.) that are proposed on this contract for each of the related personnel type (exempt, non-exempt union/non-union). The next column entitled, "Percent of Direct Labor Cost" should include the percentage of each of the related specified fringe costs as a percent of direct labor cost. The third column should include hourly rates based on the average cost per labor hour proposed per specified fringe.

**4. Compensation Template (d): PERSONNEL AND FRINGE BENEFITS POLICIES - Contract Year 1: CT (d)**

This template is required of the offeror proposed as prime and all proposed major subcontractor(s). This template provides visibility, by employee category, into personnel policies and fringe benefits, which shall be in effect at the time of contract award. Although only brief explanations are desired, sufficient information is required to allow an evaluation and estimate of all potential costs, which will arise upon award of the contract. Comments are required pertaining to all items listed below under the proper column, whether or not the policy is written. The established practice of the offeror and applicability to this proposal shall be provided. If the items below are not applicable, so state. Items pertinent to the Offeror, which are not identified must be included if cost recovery is anticipated.

**5. Compensation Template TC(e): Incumbency Assumptions Contract Year 1: TC(e)**

This template is required of the Offeror proposed as prime and all proposed subcontractors (major and minor). This template provides visibility into any incumbency assumptions proposed by each Offeror pertaining to incumbency labor rates and incumbency seniority rights for fringe benefit purposes. Offerors shall select only one option in each category.

In the area entitled, “Labor Rates”, the Offeror shall pick one of the three options: 1) Proposing to pay current incumbent labor rates, 2) Proposing to not pay current incumbent labor rates or, 3) Other. The Government understands that non-incumbent Offerors may be only able to estimate what the current incumbents are making; however, it simply wants to understand your intentions regarding pay for these employees if retained. The Offeror will provide a narrative explanation supporting or explaining the reason for selecting any of the options, particularly if option, “Other” is selected. Explain how your proposed salary structure will allow you to capture the proposed percentage of the qualified incumbent workforce.

In the area entitled, “Seniority Rights”, the Offeror shall pick one of the three options: 1) Proposing to maintain seniority rights for fringe purposes, 2) Proposing to not maintain seniority rights for fringe purposes or, 3) Other. The SEB understands that non-incumbent Offerors may be only able to estimate the current incumbents’ seniority levels; however, the SEB simply wants to understand your intentions regarding seniority for these employees if retained. The Offeror shall provide a narrative explanation supporting or explaining the reason for selecting any of the options, particularly if option, “Other” is selected. Explain how not maintaining seniority rights for fringe benefit purposes will allow you to capture and maintain the proposed percentage of the incumbent workforce.

**Phase-In Template (PIT)**

The phase-in template is required of the prime only and is designed to show the total price (include all subcontractor phase-in costs and profit). This template must be supported by a narrative basis of estimate (BOE). Include all skills and hours on this template and add rows if needed to account for all labor required. Use the SLCs for skill mix if appropriate or include your labor mix on the template with a brief job description in the narrative. The BOE should include a discussion of labor skill mix and significant non-labor resources (materials/supplies, equipment, other, etc.) necessary for accomplishment of phase-in requirements. The phase-in template is to include ALL phase-in prices necessary for full contract implementation.

**Additional information required from the offerors**

The following supplemental cost data, where appropriate, shall be submitted:

**1. Financial Accounting Standard (FAS) 13 Analysis:**

The offeror shall perform a FAS 13 analysis, as required by FAR 31.205-36 and FAR 31.205-11, in determining the classification of a lease as operating or capital. This applies to facilities and capital equipment. However, the requirement to submit this analysis to NASA will only be required of the successful offeror.

**2. Cost of Money for Facilities Capital:**

The offeror may choose to include the cost of money for facilities capital as authorized by Cost Accounting Standard (CAS) 414 and FAR 31.205-10 in the proposal.

In the event the offeror does not propose cost of money for facilities capital, FAR clause 52.215-17, “Waiver of Facilities Capital Cost of Money” will be included in the contract.

**3. Fee:**

This is applicable to cost reimbursable only. Provide a description of your proposed fee/profit structure. If a fee/profit sharing pool arrangement is proposed, include a discussion of the arrangement and the distribution of fee/profit earned. Include a discussion of how you derived at your proposed fee/profit and why it is reasonable for the type of effort (address risk: contract type, technical complexity, schedule, invested capital, etc.). If the proposed fee pool for the cost reimbursable translates to less than 4% of your proposed estimated cost, describe how this will be sufficient to motivate high performance throughout the term of the contract. Show that you have offset the cost of facilities capital cost of money, if proposed, from your proposed fee pool.

When proposing award fee, offerors are encouraged to develop the proposed amount after considering how their performance will be evaluated and scored in accordance with NFS 1816.405-275.

(End of Provision)

**L.27.9 Model Contract-Volume IV (Applies to Fixed-Price and Cost)**

**(a) STANDARD FORM (SF) 33, OFFEROR FILL INS AND SECTION K**

Blocks 12 through 18 of the SF 33 and the indicated Offeror required fill-ins in Sections B-K must be completed. The completed (blocks 12-18) and signed SF33 and the pages with the required fill-ins must be submitted. The Offeror shall provide three signed original SF 33s. Annual representations and certifications shall be completed electronically and submitted with this volume in accordance with provision K.7, Annual Representations and Certifications (FAR 52.204-8).

**All SF 33s require original signatures; the Offeror shall provide 3 originals.**

- i. Offerors shall indicate, in Block 12 of the SF 33, a proposal validity period of **240** days. However, in accordance with Paragraph (d) of FAR provision 52.215-1, “Instructions to Offerors--Competitive Acquisitions,” a different validity period may be proposed by the Offeror.
- ii. Provide the names, email addresses, and phone numbers of persons to be contacted for clarification of questions of a technical nature and business nature. Identify any consultants and/or subcontractors used in writing this proposal (if any) and the extent to which their services will be available in the subsequent performance of this effort.
- iii. NASA is not accepting alternate proposal in response to this solicitation.

**(b) SUMMARY OF INNOVATIONS AND EFFICIENCIES**

Include in the proposal (attached to the transmittal letter) a statement of acceptance of the proposed contract terms and conditions incorporated in this RFP and that will be included in the resultant contract.

Include a cross-reference summary list of any new proposed terms, conditions, clauses, and innovations or efficiencies proposed by the Offeror which are of benefit to the Government. The full discussion of proposed innovations and efficiencies and the benefit to the Government shall be contained in Volume I as appropriate.

Offerors are cautioned that exceptions may result in a determination of proposal unacceptability, may preclude award to an Offeror if award is made without discussions, or may otherwise affect an Offeror's competitive standing.

(c) ADDITIONAL INFORMATION TO BE FURNISHED

i. Business Systems

State whether all business systems, including but not limited to accounting, property control, purchasing, estimating, project reporting and employee compensation, which require Government acceptance or approval (as applicable) are currently accepted/approved, by DCAA, without condition. Provide documentation showing approval status including the following:

- Name of system/software
- Length of approval
- Provide 3 Contract Name(s) and Numbers where the business systems are currently in use
- Provide the name, number and email address of the COTR and CO, for each contract
- Provide the date of acceptance/approval for each system and the cognizant contract administration office. Explain any existing conditional acceptances/approvals and the compliance status of any systems(s) for which acceptance or approval is currently withheld.

FAR 16.301-3, Cost Sharing Contracts, requires that a contractor's accounting system be adequate for determining costs applicable to the contract prior to the award of a cost-reimbursement contract. The Offeror shall provide evidence of an adequate accounting system as determined by the cognizant administrative office for accumulating and reporting incurred costs. An adequate accounting system is not an evaluation criterion. It is a basic contract requirement with a pass/fail determination. A contract may only be awarded to the Offeror(s) who are determined to have an adequate accounting system. Additionally, in accordance with Clause H.16, Requirements For Cost Tracking and Accounting and Associated Business Systems, the Offeror shall provide evidence of their systems ability to employ an accounting and financial system capable of accurately collecting, segregating and recording costs by the contract and unique to each task order and as specified in the 533 and task order DRDs.

ii. Responsibility Information

Provide information addressing all of the elements under FAR 9.104, Standards, to demonstrate responsibility (address the elements under this section that are not addressed in another proposal volume. Provide reference points for those items that will not be addressed in this section).

a. NOTICE OF POTENTIAL ORGANIZATIONAL CONFLICTS OF INTEREST

(a.) Notice. The Contracting Officer has determined that this acquisition may give rise to a organizational conflict of interest (OCI). Accordingly, the attention of prospective Offerors is invited to FAR Subpart 9.5 --Organizational Conflicts of Interest. The Contracting Officer shall not award a contract until NASA determines any conflict of interest is reasonably resolved. The Contracting Officer has the sole authority to

determine whether an organizational conflict of interest exists and to determine whether the organizational conflict of interest has been reasonably resolved. The OCI plan will not be evaluated as part of mission suitability. However, before being eligible to receive an award, the Offeror shall submit an acceptable OCI plan (including mitigation plans for any identified OCIs). As such, the Government may communicate with any Offeror at anytime during the evaluation process concerning its OCI plan.

**Eligibility Requirement: To be eligible for award, Offerors must submit a response to DRD-M20 “Organizational Conflict of Interest Mitigation Plan,” which addresses Organizational Conflicts of Interest to an acceptable level of risk as determined by the Contracting Officer.**

- (b.) Description of Potential Conflict. The nature of this conflict is providing technical specifications and supporting documentation for procurements as described in:
- (1) Section C, Statement of Work, 5.3.3 1 “Acquisition Liaison Support;”
  - (2) 8.0 “Engineering,” 8.1 “General Requirements,” 8.1.1 “Overview” Sub-bullet # 10 “Technical specifications and supporting documentation for procurements;” and
  - (3) L.8.0; “Engineering,” L.8.1 “General Requirements,” L.8.1.1 “Overview” Sub-bullet # 10 “Technical specifications and supporting documentation for procurements”
- (c) Responsibility of Offeror.
- (1) Applying the principles of FAR Subpart 9.5, each Offeror shall assess whether there is an organizational conflict of interest associated with the proposal it submits. The Offeror must explain the actions it intends to use to resolve any organizational conflicts of interest it finds in the Government’s assessment and its own assessment.
  - (2) Offerors are encouraged to inform the Contracting Officer of any potential conflicts of interest, including those involving contracts with other Government organizations, in their proposal. The contracting officer will use this information to determine whether resolution of those conflicts will be required.
  - (3) If the Offeror’s proposed action to resolve an organizational conflict of interest is not acceptable, the Contracting Officer will notify the Offeror, providing the reasons why its proposed resolution is not considered acceptable and allow the Offeror a reasonable opportunity to respond before making a final decision on the organizational conflict of interest.
- (d) Representation. By submission of its offer, the Offeror represents, to the best of its knowledge and belief, that –
- (1) there are no relevant facts that could give rise to an OCI, as defined in FAR Part 2; or
  - (2) the Offeror has disclosed all relevant information regarding any actual or potential conflicts of interest.
- (e) Termination for default. If the successful Offeror was aware, or should have been

aware, of an OCI before award of this contract and did not fully disclose that conflict to the Contracting Officer, the Government may terminate the contract for default.

iii. Taxpayer Identification Number

Prime Offerors shall provide their Taxpayer Identification Number (TIN) (the number required by the Internal Revenue Service (IRS) to be used by the Offeror in reporting income tax and other returns).

iv. Waiver of Rights to Inventions

This solicitation contains NASA FAR Supplement (NFS) Clause 1852.227-70, “New Technology” and NFS provision 1852.227-71, “Request for Waiver to Rights to Inventions”. Any petitions for advance (prior to contract execution) waiver of rights to inventions should be included in this volume.

v. Cost Accounting Standards

State whether the Cost Accounting Standards (CAS) Disclosure Statement represented in Provision K.11, Cost Accounting Standards Notices and Certifications, has been approved by the cognizant Administrative Contracting Officer, and provide the date of such approval. If your CAS Disclosure Statement is currently not approved or there are some existing CAS non-compliance findings, please provide detailed explanation of the CAS non-compliance issues, corrective action status, and any potential impact on this procurement. A copy of the Offeror’s disclosure statement applicable to the resultant contract shall be submitted and the Offer shall clearly identify where in the disclosure statement where the following are addressed: H.27 Contractor Purchasing, H.16 Requirements for Cost Tracking and Accounting and Associated Business Systems.

vi. Subcontractor Listing

The Offeror shall provide a summary listing (by name and address) of all subcontractors (regardless of dollar value) that have been identified throughout the Offeror’s proposal and the subcontract value associated with each entity. This listing shall also include the subcontractors size classification (i.e. Small business (SB), Woman Owned Small Business (WOSB), etc) and cage code.

## Small Business Subcontracting Tables

(To be provided with contractor proposal)

**Table 1 – Proposed Goals as Percent of Contract Value and as Percent of Subcontracting Value:**

	<b>Column A</b>	<b>Column B</b>	<b>Column C</b>
<b>Business Category</b>	Goal as Percent of Contract Value	Dollar Value to be subcontracted per Category	Goal as Percent of Subcontracting Value
Small Business Concerns			
Large Business Concerns	N/A		
Total Dollars to be Subcontracted	N/A		
<b>Subcategories of Small Business Concerns</b>			
Women Owned Small Business			
Small Disadvantaged Business			
Veteran Owned Small Business			
Service-Disabled Veteran-Owned Small Business			
HUBZone Small Business			
Historically Black Colleges and Universities			

Table 1 Example – Contract proposed at \$100M with estimated subcontracts of \$50M:

	<b>Column A</b>	<b>Column B</b>	<b>Column C</b>
<b>Business Category</b>	Goal as Percent of Contract Value	Dollar Value to be subcontracted per Category	Goal as Percent of Subcontracting Value
Small Business Concerns	25 percent	\$25,000,000	50 percent
Large Business Concerns	n/a	\$25,000,000	50 percent
Total Dollars to be Subcontracted	n/a	\$50,000,000	100 percent*
<b>Subcategories of Small Business Concerns**</b>			
Women Owned Small Business	9 percent	\$9,000,000	18 percent
Small Disadvantaged Business	5.5 percent	\$5,500,000	11 percent
Veteran Owned Small Business	2.5 percent	\$2,500,000	5 percent
Service-Disabled Veteran-Owned Small Business	1.5 percent	\$1,500,000	3 percent
HUBZone Small Business	1.5 percent	\$1,500,000	3 percent
Historically Black Colleges and Universities	1.5 percent	\$1,500,000	3 percent

\* Shall be 100% if any dollars are subcontracted. \*\*The small business subcategories do not necessarily add up to the percentage and dollar amount in the “Small Business Concerns” category above, since some small businesses do not fall into any of the subcategories below, while others will fall into more than one subcategory below.

It is recommended that Offerors first complete Column B by entering the dollar amount the Offeror proposes to subcontract to each business category and subcategory. To complete Column A, divide the dollar amount in Column B by the total offered price of the proposal (that is, total contract value). In the example above, Column A for Veteran Owned Small Business = \$2,500,000 divided by \$100,000,000, or 2.5%. To complete column C, divide the corresponding amount in Column B by the amount in the “Total Dollars to be Subcontracted” cell in Column B. In the example above, Column C for Veteran Owned Small Business = \$2,500,000 divided by

\$50,000,000, or 5%.

**Table 2 – List of Small Business Subcontractors:**

<b>Company Name</b>	<b>DUNS/ Cage Code</b>	<b>Type of Business</b>	<b>NAICS</b>	<b>SOW Ref.</b>	<b>Dollar Value</b>
<b>Total</b>					

Table 2 Example:

<b>Company Name</b>	<b>DUNS/ Cage Code</b>	<b>Type of Business</b>	<b>NAICS</b>	<b>SOW Ref.</b>	<b>Dollar Value</b>
XYZ Corp	123456789	SB, SDB	811212	3.2	\$400,000
Acme Ltd.	5KWH50	Large	541579	2.1	\$1,520,000
Smith & Jones		VOSB, SDVOSB	541512	2.4	\$4,650,000
<b>Total</b>					<b>\$6,570,000</b>

# Attachment L-2

## Past Performance Questionnaire

*Instructions: Please give a brief response to the following questions and return this inquiry to the following address no later than November 30, 2011:*

NASA Lyndon B. Johnson Space Center  
 Institutional Procurement Office  
 2101 NASA Parkway, Houston, TX 77058  
 Attention: Roger Roberts, Mail Code BJ4, FAX: 281-483-9738.

*If additional space for answers is required, attach paper to end of questionnaire. Multiple questionnaires may be submitted for firms who have performed more than 1 job for your firm.*

Name of Offeror to be evaluated:	
Address of Offeror:	

**I. FIRM INFORMATION**

Name of Firm/Agency		Contract Type	
Point of Contact/Title		Phone Number	
Place of Performance		Period of Performance	
Original Contract Dollar value		Final Contract Dollar value	

**II. GENERAL SURVEY QUESTIONS**

Please annotate the level of the Contractor's overall performance in each of the areas below: Excellent = Of exceptional merit; exemplary performance in a timely, efficient, and economical manner; very minor (if any) deficiencies with no adverse effect on overall performance.

Very Good Very effective performance, fully responsive to contract requirements; contract requirements accomplished in a timely, efficient, and economical manner for the most part; only minor deficiencies.

Good Effective performance; fully responsive to contract requirements; reportable deficiencies, but with little identifiable effect on the overall performance.

Satisfactory Meets or slightly exceeds minimum acceptable standards; adequate results; reportable deficiencies with identifiable, but no substantial effects on overall performance.

Poor/Unsat Does not meet minimum acceptable standards in one or more areas; remedial action required in one or more areas; deficiencies in one or more areas which adversely affect overall performance.

N/A Not Applicable

Work Area	Excellent	Very Good	Good	Satisfactory	Poor/Unsat	N/A
1. Management effectiveness.						
2. Identification of significant problems/initiative towards corrective action.						
3. Compliance with contractual terms and conditions.						
4. Effectiveness of controlling contract costs.						
5. Effectiveness in meeting contract technical requirements.						
6. Effectiveness in meeting contract schedules (including interim milestones).						
7. Quality and timeliness of reports and documentation.						

**PAST PERFORMANCE QUESTIONNAIRE Continued**

Work Area	Excellent	Very Good	Good	Satisfactory	Poor/ Unsat	N/A
8. Degree of cooperation and effectiveness of working relationships with users/customers.						
9. Responsiveness of the company in problem resolutions.						
10. Performance of this company in terms of:						
(a) Quality of Work						
(b) Safety, Health, and Environmental						
(c) Design Changes						
(d) Adaptability to Changing Requirements						
(e) Schedule						
(f) Cost						
11. Project Management in terms of:						
(a) Quality of Work						
(b) Design Changes						
(c) Adaptability to Changing Requirements						
(d) Schedule						
(e) Cost						
12. Describe the work performed for you by the above named company.						
13. If a Government Agency, has your agency ever issued a Contracting Officer's final decision to this firm? (a Yes No If yes, please provide brief details. ) _____						
Additional Comments:						

## SECTION M - EVALUATION FACTORS FOR AWARD

M.1 52.217-5 EVALUATION OF OPTIONS. (JUL 1990) (Applies to Fixed-Price and Cost)

M.2 Evaluation Factors for Award (Applies to Fixed-Price and Cost)

An initial review of proposals will be conducted to determine acceptability of the proposals in accordance with NFS 1815.305-70, Identification of Unacceptable Proposals. All unacceptable proposals will be eliminated from further evaluation.

Proposals will be evaluated by the Source Evaluation Board (SEB) in accordance with applicable regulations which include the Federal Acquisition Regulation (FAR) and the NASA FAR Supplement. The SEB will carry out the evaluation activities and report its findings to the Source Selection Authority (SSA) who is responsible for making the source selection decision.

The Government will award a contract resulting from this solicitation to the responsible Offeror whose proposal represents the best value to the Government. This procurement shall be conducted utilizing a combination of mission suitability, past performance and cost/price evaluation factors. The lowest price proposals may not necessarily receive an award; likewise, the highest technically rated proposals may not necessarily receive an award.

Of the three evaluation factors, mission suitability and past performance, when combined, are significantly more important than cost/price. Mission suitability is more important than past performance. Past Performance and cost/price are approximately equal in importance.

The Government will evaluate the Offeror's proposal using the factors and subfactors below. Although proposals are organized by factors and subfactors, the Government will conduct an integrated evaluation, considering any proposal data in its evaluation of each factor and subfactor, therefore all aspects of the Offeror's proposal will be considered during the evaluation process, including the Offeror's proposed Model Contract.

**Note: At the time of proposal, offerors shall possess a Facility (Security) Clearance (FCL) at the TOP SECRET/SECRET level. Offerors shall provide documentation of current FCL with proposal. Any proposal that does not provided documentation of current FCL will be considered unacceptable.**

**Eligibility Requirement: To be eligible for award, Offerors must submit a response to DRD-M20 "Organizational Conflict of Interest Mitigation Plan," which addresses Organizational Conflicts of Interest to an acceptable level of risk as determined by the Contracting Officer.**

(End of provision)

M.3 Mission Suitability Factor (Applies to Fixed-Price and Cost)

The Mission Suitability factor and associated sub-factors are used to assess the ability of the Offeror to provide and administer the requirements of the SOW. The Mission Suitability sub-factors and their corresponding weights reflecting relative importance are listed below. These weights are intended to be used as a guideline in the source selection decision-making process.

Management Approach	400 points
Technical Approach	350 points
Safety & Health Approach	150 points
Small Business Utilization	<u>100 points</u>
<b>TOTAL</b>	1000 points

Proposals will be evaluated and scored numerically based upon the sub-factors set forth below.

**M.3.1 Management Approach (MA)-Mission Suitability Sub-factor 1 (Applies to Fixed-Price and Cost)**

The Offeror’s management approach (with supporting rationale) for fulfilling the contract requirements will be evaluated using the Management Approach sub-factors as described below.

**MA1. Management Plan**

The Offeror’s response to the requested items from DRD-M01 Management Plan will be evaluated for overall demonstrated comprehensive understanding, effectiveness, feasibility, efficiency, and innovation.

**Please note that failure to capture proposed efficiencies and innovations in DRD- M01 Management Plan may result in loss of mission suitability points.**

The Offeror’s response to the requested items from DRD-M03 Contractor Work Breakdown Structure (WBS) and Dictionary will be evaluated for reasonableness, consistency and completeness.

The Offeror’s response to the requested items from DRD-M15 Total Compensation Plan and any other information pertaining to the compensation found in the proposal will be evaluated in accordance with FAR 52.222-46, “Evaluation of Compensation for Professional Employees,” and NFS 1852.231-71, “Determination of Compensation Reasonableness.”

**MA2. Training and Certification Plan**

The Offeror’s response to the requested items from DRD-M11 Training and Certification Plan will be evaluated for overall demonstrated comprehensive understanding, completeness, effectiveness, feasibility, and efficiency.

**MA3. Phase-In**

The Offeror’s response to the requested items from DRD-M13 Phase-In Plan will be evaluated for overall demonstrated comprehensive understanding, effectiveness, feasibility, efficiency, and completeness.

**MA4. Key Personnel**

The Offeror’s response to the DRD-M17 Key Personnel will be evaluated for relevant experience,

proven capability, education, overall capability, and commitment as demonstrated by a letter of intent for employment for individuals not currently under employment by the Offeror.

**MA5. Quality Plan**

The Offeror's response to the requested items from DRD-Q01 will be evaluated for overall demonstrated comprehensive understanding, effectiveness, feasibility, efficiency, and completeness.

**M.3.2 Technical Approach (TA)-Mission Suitability Sub-factor 2 (Applies to Fixed-Price and Cost)**

The Offeror's demonstrated in-depth understanding of the requirements (with supporting rationale) will be evaluated in Technical Approach sub-factors (scenarios) as described below.

A lack of resource realism in the various technical scenarios may adversely affect the Offeror's overall Mission Suitability score and subsequently result in cost realism adjustments under the cost evaluation factor.

**TA1. Scenario 1**

The Government will evaluate the Offeror's Scenario 1 response for overall demonstrated comprehensive understanding, effectiveness, soundness, feasibility, efficiency and consistency. For any proposed improvements, innovations, and efficiencies, the Government will evaluate the appropriateness and its potential for implementation in the contract. Failure to capture proposed efficiencies and innovations in the model contract may result in loss of mission suitability points.

**TA2. Scenario 2**

The Government will evaluate the Offeror's Scenario 2 response for overall demonstrated comprehensive understanding, effectiveness, soundness, feasibility, efficiency and consistency. For any proposed improvements, innovations, and efficiencies, the Government will evaluate the appropriateness and its potential for implementation in the contract. Failure to capture proposed efficiencies and innovations in the model contract may result in loss of mission suitability points.

**TA3. Scenario 3**

The Government will evaluate the Offeror's Scenario 3 response for overall demonstrated comprehensive understanding, effectiveness, soundness, feasibility, efficiency and consistency. For any proposed improvements, innovations, and efficiencies, the Government will evaluate the appropriateness and its potential for implementation in the contract. Failure to capture proposed efficiencies and innovations in the model contract may result in loss of mission suitability points.

**TA4. Scenario 4**

The Government will evaluate the Offeror's Scenario 4 response for overall demonstrated comprehensive understanding, effectiveness, soundness, feasibility, efficiency and consistency. For any proposed improvements, innovations, and efficiencies, the Government will evaluate the appropriateness and its potential for implementation in the contract. Failure to capture proposed efficiencies and innovations in the model contract may result in loss of mission suitability points.

**TA5. Scenario 5**

The Government will evaluate the Offeror’s Scenario 5 response for overall demonstrated comprehensive understanding, effectiveness, soundness, feasibility, efficiency and consistency. For any proposed improvements, innovations, and efficiencies, the Government will evaluate the appropriateness and its potential for implementation in the contract. Failure to capture proposed efficiencies and innovations in the model contract may result in loss of mission suitability points.

**M.3.3 Safety and Health Approach -Mission Suitability Sub-factor 3 (Applies to Fixed-Price and Cost)**

**SH1. Safety and Health Plan**

The Government will evaluate the Offeror’s approach to preventing injuries and illnesses. This evaluation will include:

- a) The overall quality of the Safety and Health Plan (DRD-S02, Safety and Health Plan) and how thoroughly it addresses each item in the DRD.
- b) How well the plan identifies the hazards associated with the statement of work tasks and methods to eliminate or control them.
- c) The Offeror’s proposed policies, procedures, and techniques used to ensure safety and health of its employees and any subcontractors and teaming partners.
- d) Innovations and proactive programs which can be substantiated to reduce injuries, mishaps or overall safety risk in accomplishing the tasks described in DRD-S02, Safety and Health Plan, may result in strengths for the Safety and Health sub-factor.

**M.3.4 Small Business Utilization (SBU)- Mission Suitability Sub-factor 4 (Applies to Fixed-Price and Cost)**

The evaluation of Small Business Subcontracting and Commitment to the Small Business Program applies to all Offerors, except that Small Businesses are not required to submit a Small Business Subcontracting Plan.

The evaluation of SDB participation applies to all Offerors.

**SBU1. Small Business Subcontracting**

The Small Business Subcontracting Plan, DRD-M08, will be evaluated in terms of reasonableness and soundness of the Offeror’s independent assessment to achieve the proposed overall subcontracting goals, in comparison to the Contracting Officer’s assessment of the appropriate subcontracting goals for this procurement. The Offeror’s Small Business Subcontracting Plan will also be evaluated in terms of meeting the requirements of FAR 19.704, Subcontracting Plan Requirements. The evaluation of the Small Business Subcontracting Plan will be on the basis of total contract value. Additionally, the Offeror’s rationale for proposing higher and/or lower goals than those determined appropriate by the Contracting Officer will also be evaluated. The information provided in the Small Business Subcontracting Tables, Attachment L-7, will be evaluated in addition to the supplied narrative.

Small businesses are not required to submit subcontracting plans. The Government will only evaluate the amount of work proposed to be performed by the small business prime and any small business at the first tier subcontract level. The proposed amount of work to be done by the prime small business and first tier small business subcontractors will be evaluated against the Contracting Officer's assessment of the overall subcontracting goal for this procurement. Individual subcontracting goals by small business categories will not be evaluated for small business primes and their first tier subcontractors.

**SBU2. Commitment to the Small Business Program**

The Government will evaluate the extent to which any work performed by a small business subcontractor(s) is identified as "high technology". NASA also will evaluate the extent of commitment to use the subcontractor(s) (enforceable vs. non-enforceable commitments). The Government will evaluate the potential risks or impacts to performance throughout the site when subcontracting out such efforts and the associated mitigations of those risks.

The Government will evaluate the extent to which the identity of the small business subcontractor is specified in the proposal as well as the extent of the commitment to use small businesses and to support their development. (For small business Offerors, NASA will evaluate this only if subcontracting opportunities exist.)

The Government will evaluate the Offeror's established or planned procedures and organizational structure for small business outreach, assistance, participation in the Mentor Protégé program, counseling, market research and small business identification, and relevant purchasing procedures. (For large businesses Offerors, this information should conform to its submitted Small Business Subcontracting Plan. For small business Offerors, NASA will evaluate this only if subcontracting opportunities exist.)

(End of provision)

**M.4 Past Performance Factor (Applies to Fixed-Price and Cost)**

The evaluation of Past Performance will be conducted in accordance with the FAR 15.305(a)(2), Proposal Evaluation, and NFS 1815.304-70, NASA Evaluation Factors. The Past Performance evaluation is an assessment of NASA's confidence in the Offeror's ability to perform the solicitation requirements, based upon the Offeror's relevant performance under previously awarded contracts.

The Government will evaluate all relevant past performance areas. Elements of the Past Performance evaluation are technical performance in areas germane to the SOW, the Offeror's management performance on other relevant contracts, meeting cost and schedule goals, customer satisfaction, labor relations, facility and systems operations, use of excess capacity, use of corporate resources, and small business performance. The evaluation will consider the Offeror's past performance on safety and health, where consideration will be given to OSHA citations, OSHA incident rates, and OSHA 300/300A reports. The evaluation will consider the Offeror's past performance and illustration of compliance with environmental regulations. The evaluation will be based on information provided by the Offeror in its narrative, from the Past Performance Questionnaires (Attachment L-2), and from communications with listed references, as well as any other information obtained independently by the SEB.

Past Performance will be evaluated for each Offeror using the following levels of confidence ratings:

**Very High Level of Confidence**

The Offeror’s relevant past performance is of exceptional merit and is highly pertinent to this acquisition; indicating exemplary performance in a timely, efficient, and economical manner; very minor (if any) problems with no adverse effect on overall performance. Based on the Offeror’s performance record, there is a very high level of confidence that the Offeror will successfully perform the required effort.

**High Level of Confidence**

The Offeror’s relevant past performance is highly pertinent to this acquisition; demonstrating very effective performance that would be fully responsive to contract requirements with contract requirements accomplished in a timely, efficient, and economical manner for the most part with only minor problems with little identifiable effect on overall performance. Based on the Offeror’s performance record, there is a high level of confidence that the Offeror will successfully perform the required effort.

**Moderate Level of Confidence**

The Offeror’s relevant past performance is pertinent to this acquisition, and it demonstrates effective performance; fully responsive to contract requirements; reportable problems, but with little identifiable effect on overall performance. Based on the Offeror’s performance record, there is a moderate level of confidence that the Offeror will successfully perform the required effort.

**Low Level of Confidence**

The Offeror’s relevant past performance is at least somewhat pertinent to this acquisition, and it meets or slightly exceeds minimum acceptable standards; adequate results; reportable problems with identifiable, but not substantial, effects on overall performance. Based on the Offeror’s performance record, there is a low level of confidence that the Offeror will successfully perform the required effort. Changes to the Offeror’s existing processes may be necessary in order to achieve contract requirements.

**Very Low Level of Confidence**

The Offeror’s relevant past performance does not meet minimum acceptable standards in one or more areas; remedial action required in one or more areas; problems in one or more areas which adversely affect overall performance. Based on the Offeror’s performance record, there is a very low level of confidence that the Offeror will successfully perform the required effort.

**Neutral/Unknown Confidence**

In the case of an Offeror without a record of relevant past performance or for whom information on past performance is not available; the Offeror may not be evaluated favorably or unfavorably on past performance (see FAR 15.305(a)(2)(ii) and (iv)).

(End of provision)

**M.5 Cost and Price Factor (Applies to Fixed-Price and Cost)**

To ensure that the final agreed-to prices are fair and reasonable the Government will perform price analysis and will also perform cost analysis to include a cost realism analysis, in accordance with FAR 15.305 - Proposal Evaluation, FAR 15.404 - Proposal Analysis, and NASA FAR Supplement (NFS) 1815.305 - Proposal Evaluation.

In order to comply with the budget requirement that contracts must be configured to coincide with the funds period of availability, also NASA does not have authority to cross fiscal years with the available funds, and due to the fact that contract periods of the base and options do not line up in 12 month yearly increments, the cost proposal shall be proposed in increments of annual periods as described in Section L of the Cost Instructions. The evaluation of the cost proposal shall likewise be evaluated as annual 12 month periods.

### **Cost-Reimbursable LOE**

The Government will perform a cost realism analysis of the proposed LOE direct labor rates and resources, and develop a probable cost estimate for the proposed approach for LOE. This evaluation of the cost factors will result in a probable cost which may differ from the proposed cost and reflects the Government's best estimate of the cost of any contract that is most likely to result from the Offeror's proposal. The proposed annualized FBRs for the entire potential period of performance will be evaluated. The Government will also evaluate the reasonableness of the non-labor resources.

The options for incremental increase of effort will be evaluated at bottom of the ALOEPT, which are the incremental cost per hour per year, the incremental fee per hour per year and incremental total cost and fee per hour per year. These fully burdened rates per hour will be checked to verify calculations commensurate with the method used in calculating the annualized evaluation periods.

The technical options will be evaluated on the AFBR template and will be checked to verify calculations commensurate with the method used in calculating the annualized evaluation periods.

If the Offeror's proposed distribution of hours by SLC differs from the Government Labor Resource estimates, the offeror is notified that a lack of resource realism may adversely affect their Mission Suitability scores and result in cost realism adjustments under the cost factor.

The converted contract year FBRs in the cost proposal shall match the FBRs in Section B of the model contract. However, if they do not match, the government will use the FBR in Section B as a basis for the **proposed** cost.

### **Firm-Fixed Price**

In accordance with FAR 15.404-1(d)(3), Cost Realism Analysis, and NFS 1815.305(a)(vi), Programmatic Risk to Mission Success, to ensure that the proposed resources are adequate and will not create a risk of quality or service shortfalls, the Government will perform cost realism on the labor and non-labor resources proposed for the fixed-price portion of the contract. The results of the analysis will be used in performance risk assessment and will be presented to the SSA. The fixed priced technical option for fixed priced on the PPST template will be evaluated and checked to verify calculations commensurate with the method used in calculating the annualized evaluation periods.

### **FFP Phase-in**

To promote fair competition, the price of phase-in is not a discriminator for selection purposes, as long as the proposed price of phase-in is determined to be reasonable. The Government will evaluate the proposed phase-in price for reasonableness.

### **Price and Probable Costs for Selection Purposes**

The results of the Government's cost and price evaluation will be presented to the Source Selection Authority (SSA) for consideration in making the source selection. For the LOE, the proposed and probable costs for all proposed years will be considered for selection purposes including period of

performance options. The SSA will also consider the proposed price of the FFP work in all years in making the source selection. The results from the evaluation of the technical options will also be presented to the SSA.

(End of provision)

**M.6 Model Contract (Applies to Fixed-Price and Cost)**

Offerors are required to meet all solicitation requirements, such as terms and conditions, representations and certifications, and technical requirements. Offerors will also be evaluated for complete and adequate responses to the requirements of L.27.9 Volume IV – Model Contract. Failure to comply with solicitation requirements and the requirements as detailed in L.27.9 Volume IV – Model Contract, may result in an Offeror being removed from consideration for award. As appropriate, information requested in L.27.9 Volume IV – Model Contract, will be used in determining responsibility in accordance with FAR 9.104-1 General Standards.

**Eligibility Requirement: To be eligible for award, Offerors must submit a response to DRD-M20 “Organizational Conflict of Interest Mitigation Plan,” which addresses Organizational Conflicts of Interest to an acceptable level of risk as determined by the Contracting Officer.**

**(END OF SECTION)**
