

SPECIFICATIONS FOR TUNABLE LASER SOURCE:

Shall have L-Band tuning range of 1570.01 to 1600 nm

Shall be single instrument package

Shall have Output Power > 13 dBm

Shall have Linewidth < 100 kHz

Shall have Absolute wavelength accuracy ± 25 pm

Shall have Instrument Control Interfaces: USB, LAN, GPIB

Shall have all tunable laser settings fully controlled via remote programming command

Shall have integrated >5 dB attenuator
