

JUSTIFICATION FOR SOLE SOURCE ACQUISITION
VALUES \$2,501 - \$100,000
RECOMMENDATION AND DETERMINATION TO SOLICIT FROM ONE SOURCE
4200416199

NASA, John F. Kennedy Space Center, will negotiate with Marotta Controls for twenty-two (22) Solenoid Valves. ~~Estimated lead time is 8 to 10 weeks ARO.~~ the estimated lead time is 8 to 10 weeks ARO.

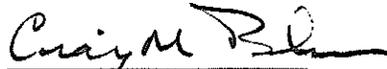

Pursuant to FAR 13.106-1(b) and 13.106-3(b), the acquisition of the solenoid valves is determined to be available from only one source. Competition is impractical for the following reasons:

These valves are being procured per a KSC 80K component specification as a continuation of 21st Century GSE fabrication procurement. Similar components have already been procured for current fabrication contracts and deviation from the specified Flodyne models will incur additional cost to the government in design changes and operational and maintenance issues for the GSE.

Contracting without full and open competition is permitted pursuant to 10 USC 2304 (c)(1) and/or other authority as appropriate, because the products required by KSC are available from only one responsible source and no other type of supplies or services will satisfy our requirements. Specifically, the capability required is unique to this company's capabilities and uniquely meets KSC's minimum needs e.g. requiring the authority cited.

The requirement is required to be synopsisized in NAIS/EPS.

Based upon the above, I hereby determine that the circumstances of the contract action deem only one source reasonably available for this acquisition. I certify that the supporting data presented in this justification are accurate and complete.
