**Attachment A.2 – NASA Protective Services Training Academy (NPSTA)
Curriculum**

NPSTA Basic Course (Federal Arrest Authority/FAA):

The Contractor shall provide students with the framework to perform duties in a position where they shall reasonably be expected to affect an arrest or use varying degrees of physical force in performance of Federal Arrest Authority as outlined in CFR Title 42 Section 2456a. This course is provided to new Contractor security police officers and NASA Federal Agents.

The attached lists provide the formal curriculum for the NPSTA. The approximate hourly breakdown represents the time required to conduct the core curriculum instruction. This may vary due to the number of students and added site-specific logistical and administrative topics as well as changing weather conditions that delay or cause adjustments to the training schedule. The hours do not include the time required for student practice, written and performance testing, and logistical matters associated with the training.
