The purpose of amendment #8 is to update sections in the Final RFP. See page 2 for changes. After further consideration the Government has decided to restore a modified version of Task Order 10 to the RFP. The Government has determined that narrowing the expected proposal content associated with TO-10 to focus on technology, corporate assets, innovation and efficiencies in narrative form, and providing all potential offerors with the information related to Task Order 10 which was inadvertently released within the JSC firewall adequately meets the original objective desired from TO-10 and addresses the concern of equal access to information.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.
