

**NATIONAL AERONAUTICS AND SPACE ADMINISTRATION
JOHN F. KENNEDY SPACE CENTER**

Sole Source Justification

I recommend that NASA, John F. Kennedy Space Center negotiate with Vision Research for the Service Maintenance on the current Vision Research Camera's.

This recommendation is made pursuant to FAR 13.106-1(b), 13.106-3(b)(3)(i), and for the acquisition of supplies or services determined to be reasonably available from only one brand. Competition is impractical for the following reason:

NASA owns Vision Research High Speed Camera's purchased under order NNK11MB25P that are in need of service maintenance. Vision Research is the manufacturer of this camera system we currently own and is the only certified company to provide this service maintenance. Use of any other maintenance would not be practical or feasible at this time.

Based upon the above, I hereby determine that the circumstances of the contract action deem only one source reasonably available for this acquisition.
