FROM: BR/Contracting Officer, Operations Support Office

SUBJECT: Request for Proposal (RFP) NNJ13473923R

The National Aeronautics and Space Administration (NASA) Lyndon B. Johnson Space Center (JSC) is pleased to release RFP NNJ13473923R for the JSC Administrative Support Services II (JASS II) contract. The JASS II contract provides support to JSC, including Ellington Field, Sonny Carter Training Facility, White Sands Test Facility, and other NASA operating locations or other alternate workspaces that may be determined subsequent to contract award by providing secretarial and administrative support to organizations in fulfilling JSC's mission and objectives. Offerors are advised to read all requirements contained herein and in the RFP.

The following information should be considered in proposal preparation:

ACQUISITION STRUCTURE:

The JASS II contract is reserved as an 8(a) set-aside under the authority of Federal Acquisition Regulation (FAR) 6.204(a), Section 8(a) Competition, and has been assigned North American Industry Classification System (NAICS) code 561110 – Office Administrative Services with a small business size standard of \$7 million per year. Only proposals from organizations meeting these standards will be accepted in response to solicitation number NNJ13473923R.

ACQUISITION FEATURES:

- The JASS II acquisition is for an indefinite delivery/indefinite quantity (IDIQ) contract comprised of firm-fixed price (FFP) task orders.
- The Government anticipates a 5-year period of performance, consisting of a 45-day phase-in from June 5 – July 20, 2014, and 5-year base period from July 21, 2014, to July 20, 2019.
- The addition of Administrative Specialist positions.
- Subcontracting information is required for any small business proposing a subcontracting arrangement and will be evaluated as part of RFP Section 6.1.4.A, Subcontractor Arrangement Information.

- JSC has implemented Phase I of a Super-Flex program by which the Center strives to embrace and enhance workplace flexibility as a positive balance for the workforce while meeting Federal mandates to reduce energy intensity and carbon footprint. Through Super-flex, civil servants are encouraged to take a simultaneous flex day every other Friday by utilizing our maxiflex schedules and telework to accomplish 80 hours during the pay period without working on site on Flex Fridays. JSC will not require that our contractor team members adopt a matching schedule; however, you should be aware that many of your civil service customers will not be on site on those Flex Fridays and plan to support contract requirements, while accommodating JSC's new work schedule. During the current phase, JSC facilities remain fully operational Monday-Friday in preparation for transition to full weekend mode operations. For Phase II, much of the Center will operate as if it is in a standard weekend mode on Flex Fridays. Many JSC buildings (except 24/7 buildings), gates, cafés, and clinic will be placed in "bi-weekly weekend mode" on Flex Fridays. On those days, Center operations will be at the same level as on the weekend (no lights and air in many buildings).

Offerors should ensure their company is listed in the on-line database and have submitted the required documentation for the following:

- Central Contractor Registry: System for Award Management (SAM) at www.sam.gov
