

ADDENDUM
SOURCE SELECTION STATEMENT FOR THE
KENNEDY GROUND SYSTEMS DEVELOPMENT AND OPERATIONS PROGRAM
SUPPORT SERVICES CONTRACT – TWO (KLXS-II)
REQUEST FOR PROPOSAL
(SOLICITATION NUMBER NNK13447748R)

Correction:

The third sentence of the fourth paragraph of the “Past Performance Evaluation” section of the Source Selection Statement should state “the SEB found that ARES had very highly relevant experience in the following PWS areas: PWS 1.0, General Contract Requirements; PWS 2.0 Program Management; PWS 3.0, Cross-cutting Functions; and PWS 4.0 Technical Integration and Management,” not that “ARES had highly relevant experience.”

Additionally, the “Selection Decision” section of the Source Selection Statement that compares the past performance of ARES and Millennium should state that “ARES demonstrated very highly relevant experience” in PWS sections 1.0 - 4.0, not “ARES demonstrated highly relevant experience.”

The presentation and materials accompanying that presentation correctly stated that the Source Evaluation Board (SEB) found that ARES had “very highly relevant experience” in PWS sections 1.0 – 4.0. The clerical omissions did not affect the SSA’s decision to select Millennium Engineering and Integration Company for award of the KLXS-II Contract.
