Reply to Attn of: 12/Stubbs

April 11, 2014

**TO:** ALL INTERESTED PARTIES  
**FROM:** 126/Contracting Officer  
**SUBJECT:** Solicitation NNL14504840E Second Site Visit

A second site visit has been scheduled for the referenced NASA LaRC solicitation to enable those interested parties to enter the crawl space underneath Building 1213 to visually confirm the condition and amounts of asbestos insulation which needs to be removed. Although not mandatory, prospective bidder's attendance is strongly encouraged so an accurate estimate for abatement can be established.

The site visit is scheduled for Thursday, April 17, 2014 at 9:00 a.m. Due to the unstable condition of some of the insulation, the following Personal Protective Equipment (PPE) shall be mandatory for all persons wishing to enter the crawlspace:

- Respirator
- Gloves
- Disposable Tyvek Overalls (including booties)
- Safety Glasses
- Hard Hat
- Steel Toed Shoes

Individual attendees shall be responsible for bringing their own PPE, as NASA will not be providing any of the required PPE items. Attendees shall email their badge request to M.T. [Stubbs@nasa.gov](mailto:Stubbs@nasa.gov) as soon as possible, but no later than 4:00 p.m. EST on Wednesday, April 16, 2014. After picking up their badge at the LaRC Badge & Pass Office, attendees will proceed directly to the parking lot adjacent to Building 1213 (site of previous site visit parking) prior to the 9:00 a.m. start time, where you will be met by NASA personnel.
