Requests that are approved by the PIV Sponsor will be forwarded to the GSFC Security Division, Code 240, PIV Authorization, Badge enrollment, and Badge issuance.

(d) The Contractor shall submit an annotated PIV Report each month. The GSFC PIV Manager will furnish a PIV print-out to the Contractor no later than the end of each month. The Contractor shall annotate this provided report monthly to correct and update the information as follows:

(e) The Contractor shall ensure that all personnel who have NASA/GSFC issued PIV cards, keys or other property who leave its employment or that no longer work onsite, process out through the GSFC Security Division, Code 240. Employees must return all GSFC issued identification and any Government property no later than the last day of their employment or the last day they work onsite under this contract. REQUIREMENT TO PROVIDE CONTRACT HISTORICAL DATA (AUG 2013)**

As part of this follow-on competition, NASA may include historical labor category descriptions, full-time equivalents (FTEs), average direct labor rates, and other information from this contract in the follow-on solicitation for use by all potential offerors. Including this data in the solicitation is intended to ensure a comprehensive and fair evaluation of competitive proposals and increase the probability that realistic pricing is provided in future proposals submitted. **I.10 52.222-99 ESTABLISHING A MINIMUM WAGE FOR CONTRACTORS (JUN 2014) (DEVIATION)**

This clause implements Executive Order 13658, Establishing a Minimum Wage for Contractors, dated February 12, 2014, and OMB Policy Memorandum M-14-09, dated June 12, 2014.

(a) Each service employee, laborer, or mechanic employed in the United States (the 50 States and the District of Columbia) in the performance of this contract by the prime Contractor or any subcontractor, regardless of any contractual relationship which may be alleged to exist between the Contractor and service employee, laborer, or mechanic, shall be paid not less than the applicable minimum wage under Executive Order 13658. The minimum wage required to be paid to each service employee, laborer, or mechanic performing work on this contract between January 1, 2015, and December 31, 2015, shall be \$10.10 per hour.

(b) The Contractor shall adjust the minimum wage paid under this contract each time the Secretary of Labor's annual determination of the applicable minimum wage under section 2(a) (ii) of Executive Order 13658 results in a higher minimum wage. Adjustments to the Executive Order minimum wage under section 2(a) (ii) of Executive Order 13658 will be effective for all service employees, laborers, or mechanics subject to the Executive Order beginning January 1 of the following year. The Secretary of Labor will publish annual determinations in the Federal Register no later than 90 days before such new wage is to take effect. The applicable published minimum wage is incorporated by reference into this contract.

(c) The Contracting Officer will adjust the contract price or contract unit prices under this clause only for the increase in labor costs resulting from the annual inflation increases in the Executive Order 13658 minimum wage beginning on January 1, 2016. The Contracting Officer shall consider documentation as to the specific costs and workers impacted in determining the amount of the adjustment.

(d) The Contractor Officer will not adjust the contract price under this clause for any costs other than those identified in paragraph (c) of this clause, and will not provide price adjustments under this clause that result in duplicate price adjustments with the respective clause of this contract implementing the Service Contract Labor Standards statute (formerly known as the Service Contract Act) or the Wage Rate Requirements (Construction) statute (formerly known as the Davis Bacon Act).

(e) The Contractor shall include the substance of this clause, including this paragraph (e) in all subcontracts.

(End of Clause)

**I.11 52.227-14 RIGHTS IN DATA-GENERAL (MAY 2014) –ALTERNATE II (DEC 2007) AND ALTERNATE III (DEC 2007) as modified by NASA FAR Supplement 1852.227-14**

(a) Definitions. As used in this clause-

"Computer database" or "database means" a collection of recorded information in a form capable of, and for the purpose of, being stored in, processed, and operated on by a computer. The term does not include computer software.

"Computer software"-

(1) Means

- (i) Computer programs that comprise a series of instructions, rules, routines, or statements, regardless of the media in which recorded, that allow or cause a computer to perform a specific operation or series of operations; and
- (ii) Recorded information comprising source code listings, design details, algorithms, processes, flow charts, formulas, and related material that would enable the computer program to be produced, created, or compiled.

(2) Does not include computer databases or computer software documentation.

"Computer software documentation" means owner's manuals, user's manuals, installation instructions, operating instructions, and other similar items, regardless of storage medium, that explain the capabilities of the computer software or provide instructions for using the software.

"Data" means recorded information, regardless of form or the media on which it may be recorded. The term includes technical data and computer software. The term does not include information incidental to contract administration, such as financial, administrative, cost or pricing, or management information.

"Form, fit, and function data" means data relating to items, components, or processes that are sufficient to enable physical and functional interchangeability, and data identifying source, size, configuration, mating and attachment characteristics, functional characteristics, and performance requirements. For computer software it means data identifying source, functional characteristics, and performance requirements but specifically excludes the source code, algorithms, processes, formulas, and flow charts of the software.

"Limited rights" means the rights of the Government in limited rights data as set forth in the Limited Rights Notice of paragraph (g)(3) if included in this clause.

"Limited rights data" means data, other than computer software, that embody trade secrets or are commercial or financial and confidential or privileged, to the extent that such data pertain to items, components, or processes developed at private expense, including minor modifications.

"Restricted computer software" means computer software developed at private expense and that is a trade secret, is commercial or financial and confidential or privileged, or is copyrighted computer software, including minor modifications of the computer software.

"Restricted rights," as used in this clause, means the rights of the Government in restricted computer software, as set forth in a Restricted Rights Notice of paragraph (g) if included in this clause, or as otherwise may be provided in a collateral agreement incorporated in and made part of this contract, including minor modifications of such computer software.

"Technical data" means recorded information (regardless of the form or method of the recording) of a scientific or technical nature (including computer databases and computer software documentation). This term does not include computer software or financial, administrative, cost or pricing, or management data or other information incidental to contract administration. The term includes recorded information of a scientific or technical nature that is included in computer databases (See 41 U.S.C. 116).

"Unlimited rights" means the rights of the Government to use, disclose, reproduce, prepare derivative works, distribute copies to the public, and perform publicly and display publicly, in any manner and for any purpose, and to have or permit others to do so.

(b) Allocation of rights.

(1) Except as provided in paragraph (c) of this clause, the Government shall have unlimited rights in-

- (i) Data first produced in the performance of this contract;
- (ii) Form, fit, and function data delivered under this contract;
- (iii) Data delivered under this contract (except for restricted computer software) that constitute manuals or instructional and training material for installation, operation, or routine maintenance and repair of items, components, or processes delivered or furnished for use under this contract; and
- (iv) All other data delivered under this contract unless provided otherwise for limited rights data or restricted computer software in accordance with paragraph (g) of this clause.

(2) The Contractor shall have the right to-

- (i) Assert copyright in data first produced in the performance of this contract to the extent provided in paragraph (c)(1) of this clause;
- (ii) Use, release to others, reproduce, distribute, or publish any data first produced or specifically used by the Contractor in the performance of this contract, unless provided otherwise in paragraph (d) of this clause;
- (iii) Substantiate the use of, add, or correct limited rights, restricted rights, or copyright notices and to take other appropriate action, in accordance with paragraphs (e) and (f) of this clause; and
- (iv) Protect from unauthorized disclosure and use those data that are limited rights data or restricted computer software to the extent provided in paragraph (g) of this clause.

(c) Copyright-

(1) Data first produced in the performance of this contract.

(i) Unless provided otherwise in paragraph (d) of this clause, the Contractor may, without prior approval of the Contracting Officer, assert copyright in scientific and technical articles based on or containing data first produced in the performance of this contract and published in academic, technical or professional journals, symposia proceedings, or similar works. The prior, express written permission of the Contracting Officer is required to assert copyright in all other data first produced in the performance of this contract.

(ii) When authorized to assert copyright to the data, the Contractor shall affix the applicable copyright notices of 17 U.S.C. 401 or 402, and an acknowledgment of Government sponsorship (including contract number).

(iii) For data other than computer software, the Contractor grants to the Government, and others acting on its behalf, a paid-up, nonexclusive, irrevocable, worldwide license in such copyrighted data to reproduce, prepare derivative works, distribute copies to the public, and perform publicly and display publicly by or on behalf of the Government. For computer software, the Contractor grants to the Government, and others acting on its behalf, a paid-up, nonexclusive, irrevocable, worldwide license in such copyrighted computer software to reproduce, prepare derivative works, and perform publicly and display publicly (but not to distribute copies to the public) by or on behalf of the Government.

(2) *Data not first produced in the performance of this contract.* The Contractor shall not, without the prior written permission of the Contracting Officer, incorporate in data delivered under this contract any data not first produced in the performance of this contract unless the Contractor-

(i) Identifies the data; and

(ii) Grants to the Government, or acquires on its behalf, a license of the same scope as set forth in paragraph (c)(1) of this clause or, if such data are restricted computer software, the Government shall acquire a copyright license as set forth in paragraph (g)(4) of this clause (if included in this contract) or as otherwise provided in a collateral agreement incorporated in or made part of this contract.

(3) *Removal of copyright notices.* The Government will not remove any authorized copyright notices placed on data pursuant to this paragraph (c), and will include such notices on all reproductions of the data.

(d) *Release, publication, and use of data.* The Contractor shall have the right to use, release to others, reproduce, distribute, or publish any data first produced or specifically used by the Contractor in the performance of this contract, except-

(1) As prohibited by Federal law or regulation (e.g., export control or national security laws or regulations);

(2) As expressly set forth in this contract; or

(3) If the Contractor receives or is given access to data necessary for the performance of this contract that contain restrictive markings, the Contractor shall treat the data in accordance with such markings unless specifically authorized otherwise in writing by the Contracting Officer.

(i) The Contractor agrees not to establish claim to copyright, publish or release to others any computer software first produced in the performance of this contract without the Contracting Officer's prior written permission.

(ii) If the Government desires to obtain copyright in computer software first produced in the performance of this contract and permission has not been granted as set forth in paragraph (d)(3)(i) of this clause, the Contracting Officer may direct the contractor to assert, or authorize the assertion of, claim to copyright in such data and to assign, or obtain the assignment of, such copyright to the Government or its designated assignee.

(iii) Whenever the word "establish" is used in this clause, with reference to a claim to copyright, it shall be construed to mean "assert".

(e) Unauthorized marking of data.

(1) Notwithstanding any other provisions of this contract concerning inspection or acceptance, if any data delivered under this contract are marked with the notices specified in paragraph (g)(3) or (g) (4) if included in this clause, and use of the notices is not authorized by this clause, or if the data bears any other restrictive or limiting markings not authorized by this contract, the Contracting Officer may at any time either return the data to the Contractor, or cancel or ignore the markings. However, pursuant to 41 U.S.C. 4703, the following procedures shall apply prior to canceling or ignoring the markings.

(i) The Contracting Officer will make written inquiry to the Contractor affording the Contractor 60 days from receipt of the inquiry to provide written justification to substantiate the propriety of the markings;

(ii) If the Contractor fails to respond or fails to provide written justification to substantiate the propriety of the markings within the 60-day period (or a longer time approved in writing by the Contracting Officer for good cause shown), the Government shall have the right to cancel or ignore the markings at any time after said period and the data will no longer be made subject to any disclosure prohibitions.

(iii) If the Contractor provides written justification to substantiate the propriety of the markings within the period set in paragraph (e)(1)(i) of this clause, the Contracting Officer will consider such written justification and determine whether or not the markings are to be cancelled or ignored. If the Contracting Officer determines that the markings are authorized, the Contractor will be so notified in writing. If the Contracting Officer determines, with concurrence of the head of the contracting activity, that the markings are not authorized, the Contracting Officer will furnish the Contractor a written determination, which determination will become the final agency decision regarding the appropriateness of the markings unless the Contractor files suit in a court of competent jurisdiction within 90 days of receipt of the Contracting Officer's decision. The Government will continue to abide by the markings under this paragraph (e)(1)(iii) until final resolution of the matter either by the Contracting Officer's determination becoming

final (in which instance the Government will thereafter have the right to cancel or ignore the markings at any time and the data will no longer be made subject to any disclosure prohibitions), or by final disposition of the matter by court decision if suit is filed.

(2) The time limits in the procedures set forth in paragraph (e)(1) of this clause may be modified in accordance with agency regulations implementing the Freedom of Information Act (5 U.S.C. 552) if necessary to respond to a request thereunder.

(3) Except to the extent the Government's action occurs as the result of final disposition of the matter by a court of competent jurisdiction, the Contractor is not precluded by paragraph (e) of the clause from bringing a claim, in accordance with the Disputes clause of this contract, that may arise as the result of the Government removing or ignoring authorized markings on data delivered under this contract.

(f) Omitted or incorrect markings.

(1) Data delivered to the Government without any restrictive markings shall be deemed to have been furnished with unlimited rights. The Government is not liable for the disclosure, use, or reproduction of such data.

(2) If the unmarked data has not been disclosed without restriction outside the Government, the Contractor may request, within 6 months (or a longer time approved by the Contracting Officer in writing for good cause shown) after delivery of the data, permission to have authorized notices placed on the data at the Contractor's expense. The Contracting Officer may agree to do so if the Contractor-

- (i) Identifies the data to which the omitted notice is to be applied;
- (ii) Demonstrates that the omission of the notice was inadvertent;
- (iii) Establishes that the proposed notice is authorized; and
- (iv) Acknowledges that the Government has no liability for the disclosure, use, or reproduction of any data made prior to the addition of the notice or resulting from the omission of the notice.

(3) If data has been marked with an incorrect notice, the Contracting Officer may-

- (i) Permit correction of the notice at the Contractor's expense if the Contractor identifies the data and demonstrates that the correct notice is authorized; or
- (ii) Correct any incorrect notices.

(g) Protection of limited rights data and restricted computer software.

(1) The Contractor may withhold from delivery qualifying limited rights data or restricted computer software that are not data identified in paragraphs (b)(1)(i), (ii), and (iii) of this clause. As a condition to this withholding, the Contractor shall-

- (i) Identify the data being withheld; and

(ii) Furnish form, fit, and function data instead.

(2) Limited rights data that are formatted as a computer database for delivery to the Government shall be treated as limited rights data and not restricted computer software.

(3) Notwithstanding paragraph (g)(1) of this clause, the contract may identify and specify the delivery of limited rights data, or the Contracting Officer may require by written request the delivery of limited rights data that has been withheld or would otherwise be entitled to be withheld. If delivery of that data is required, the Contractor shall affix the following "Limited Rights Notice" to the data and the Government will treat the data, subject to the provisions of paragraphs (e) and (f) of this clause, in accordance with the notice:

Limited Rights Notice (Dec 2007)

(a) These data are submitted with limited rights under Government Contract No. \_\_\_\_\_ (and subcontract \_\_\_\_\_, if appropriate). These data may be reproduced and used by the Government with the express limitation that they will not, without written permission of the Contractor, be used for purposes of manufacture nor disclosed outside the Government; except that the Government may disclose these data outside the Government for the following purposes, if any; provided that the Government makes such disclosure subject to prohibition against further use and disclosure:

(i) Use (except for manufacture) by support service contractors.

(ii) Evaluation by nongovernment evaluators.

(iii) Use (except for manufacture) by other contractors participating in the Government's program of which the specific contract is a part.

(iv) Emergency repair or overhaul work.

(v) Release to a foreign government, or its instrumentalities, if required to serve the interests of the U.S. Government, for information or evaluation, or for emergency repair or overhaul work by the foreign government.

(vi) or any other legitimate government use

(b) This notice shall be marked on any reproduction of these data, in whole or in part.

(End of notice)

(4)(i) Notwithstanding paragraph (g)(1) of this clause, the contract may identify and specify the delivery of restricted computer software, or the Contracting Officer may require by written request the delivery of restricted computer software that has been withheld or would otherwise be entitled to be withheld. If delivery of that computer software is required, the Contractor shall affix the following "Restricted Rights Notice" to the computer software and the Government will

treat the computer software, subject to paragraphs (e) and (f) of this clause, in accordance with the notice:

Restricted Rights Notice (Dec 2007)

(a) This computer software is submitted with restricted rights under Government Contract No. \_\_\_\_\_ (and subcontract \_\_\_\_\_, if appropriate). It may not be used, reproduced, or disclosed by the Government except as provided in paragraph (b) of this notice or as otherwise expressly stated in the contract.

(b) This computer software may be-

(1) Used or copied for use with the computer(s) for which it was acquired, including use at any Government installation to which the computer(s) may be transferred;

(2) Used or copied for use with a backup computer if any computer for which it was acquired is inoperative;

(3) Reproduced for safekeeping (archives) or backup purposes;

(4) Modified, adapted, or combined with other computer software, provided that the modified, adapted, or combined portions of the derivative software incorporating any of the delivered, restricted computer software shall be subject to the same restricted rights;

(5) Disclosed to and reproduced for use by support service Contractors or their subcontractors in accordance with paragraphs (b)(1) through (4) of this notice; and

(6) Used or copied for use with a replacement computer and other legitimate government use.

(c) Notwithstanding the foregoing, if this computer software is copyrighted computer software, it is licensed to the Government with the minimum rights set forth in paragraph (b) of this notice.

(d) Any other rights or limitations regarding the use, duplication, or disclosure of this computer software are to be expressly stated in, or incorporated in, the contract.

(e) This notice shall be marked on any reproduction of this computer software, in whole or in part.

(End of notice)

(ii) Where it is impractical to include the Restricted Rights Notice on restricted computer software, the following short-form notice may be used instead:

Restricted Rights Notice Short Form (Jun 1987)

Use, reproduction, or disclosure is subject to restrictions set forth in Contract No. \_\_\_\_\_ (and subcontract, if appropriate) with \_\_\_\_\_ (name of Contractor and subcontractor).

(End of notice)

(iii) If restricted computer software is delivered with the copyright notice of 17 U.S.C. 401, it will be presumed to be licensed to the Government without disclosure prohibitions, with the minimum rights set forth in paragraph (b) of this clause.

(h) *Subcontracting*. The Contractor shall obtain from its subcontractors all data and rights therein necessary to fulfill the Contractor's obligations to the Government under this contract. If a subcontractor refuses to accept terms affording the Government those rights, the Contractor shall promptly notify the Contracting Officer of the refusal and shall not proceed with the subcontract award without authorization in writing from the Contracting Officer.

(i) *Relationship to patents or other rights*. Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government.

(End of clause)

**I.12 52.227-17 RIGHTS IN DATA –SPECIAL WORKS (DEC 2007) as modified by

“Unlimited rights” means the rights of the Government to use, disclose, reproduce, prepare derivative works, distribute copies to the public, and perform publicly and display publicly, in any manner and for any purpose, and to have or permit others to do so.

(b) Allocation of Rights.

(1) The Government shall have-

(i) Unlimited rights in all data delivered under this contract, and in all data first produced in the performance of this contract, except as provided in paragraph (c) of this clause.

(ii) The right to limit assertion of copyright in data first produced in the performance of this contract, and to obtain assignment of copyright in that data, in accordance with paragraph (c)(1) of this clause.

(iii) The right to limit the release and use of certain data in accordance with paragraph (d) of this clause.

(2) The Contractor shall have, to the extent permission is granted in accordance with paragraph (c)(1) of this clause, the right to assert claim to copyright subsisting in data first produced in the performance of this contract.

(c) Copyright-

(1) Data first produced in the performance of this contract.

(i) The Contractor shall not assert or authorize others to assert any claim to copyright subsisting in any data first produced in the performance of this contract without prior written permission of the Contracting Officer. The Contractor grants to the Government, and others acting on its behalf, a paid-up, nonexclusive, irrevocable, worldwide license for all delivered data to reproduce, prepare derivative works, distribute copies to the public, and perform publicly and display publicly, by or on behalf of the Government.

(ii) If the Government desires to obtain copyright in data first produced in the performance of this contract and permission has not been granted as set forth in paragraph (c)(1)(i) of this clause, the Contracting Officer shall direct the Contractor to assign (with or without registration), or obtain the assignment of, the copyright to the Government or its designated assignee.

The provisions of this paragraph do not apply unless the Government provides notice to the Contractor as soon as practicable of any claim or suit, affords the Contractor an opportunity under applicable laws, rules, or regulations to participate in the defense of the claim or suit, and obtains the Contractor's consent

to the settlement of any claim or suit other than as required by final decree of a court of competent jurisdiction; and these provisions do not apply to material furnished to the Contractor by the Government and incorporated in data to which this clause applies.

(1) Any such clause is unenforceable against the Government.

(2) Neither the Government nor any Government authorized end user shall be deemed to have agreed to such clause by virtue of it appearing in the EULA, TOS, or similar legal instrument or agreement. If the EULA, TOS, or similar legal instrument or agreement is invoked through an "I agree" click box or other comparable mechanism (e.g., "click-wrap" or "browse-wrap" agreements), execution does not bind the Government or any Government authorized end user to such clause.

(3) Any such clause is deemed to be stricken from the EULA, TOS, or similar legal instrument or agreement.

(b) Paragraph (a) of this clause does not apply to indemnification by the Government that is expressly authorized by statute and specifically authorized under applicable agency regulation and procedures.

\*\*\*As part of the Request for Proposal, the offer shall respond to how they would approach Sections 1.3 – 1.7 of the SOW and the three RTOs (See L.13). THE OFFEROR IS NOT TO PERFORM ANY ACTUAL WORK OR PRODUCE ANY DELIVERABLES ON THE REPRESENTATIVE TASK ORDERS (RTOs) IN RESPONSE TO THE RFP!\*\*\*

(a) PROPOSAL FORMAT AND ORGANIZATION

(1) Offerors shall submit proposals in four volumes as specified below:

<b>Volume</b>	<b>Title</b>	<b>Copies</b>
I	Offer Volume	Original plus 3 Hardcopies and two electronic copies

III	Cost Volume	Original plus 5 Hardcopies and one additional hardcopy marked for DCAA and two electronic copies

Subsequent revisions, if requested, shall be similarly identified to show revision number and date. A table of contents shall be provided with figures and tables listed separately.

(4) Two electronic copies of the offeror's proposal, designating one as “back-up,” shall be submitted (in addition to the hardcopies specified above) in Microsoft Word and Excel

(Windows XP) or Portable Document Format (PDF) (version 8.0 or greater). Cost proposal exhibits shall use Microsoft Excel (with backwards compatibility for Microsoft Excel 2003) and shall contain all formulas. DO NOT compress any electronic files. Electronic files of Volumes I, II, III, and IV shall be on virus free CD-ROM (CD-R format) discs with an external label indicating: (1) the name of the offeror, (2) the RFP number, (3) the format and software versions used, (4) a list of the files contained on the disk and (5) date of the information. In the event of any inconsistency between data provided on electronic media and hardcopies, the hardcopy data will be considered to be correct. The Offeror must certify that the electronic medium is virus free.

(5) The format for each proposal volume shall parallel, to the greatest extent possible, the format of the evaluation factors and subfactors contained in Section L of this solicitation. The proposal content shall provide a basis for evaluation against the requirements of the solicitation. Each volume of the proposal shall specify the relevant evaluation criteria being addressed, if appropriate. The proposal shall include a matrix showing where in the proposal the technical requirements of the SOW and the evaluation criteria of this RFP are satisfied (i.e. SOW element versus offeror's proposal page numbers). It is intended that this be a simple matrix that shall in no way inhibit an innovative approach or burden the offeror. This proposal matrix is excluded from the page limitations contained in paragraph (b)(1) below.

(6) Information shall be precise, factual, detailed and complete. Offerors shall not assume that the evaluation team is aware of company abilities, capabilities, plans, facilities, organization or any other pertinent fact that is important to accomplishment of the work as specified in the SOW. The evaluation will be based primarily on the information presented in the written proposal. The proposal shall specifically address each listed evaluation factor and subfactor.

**(b) PROPOSAL CONTENT AND PAGE LIMITATIONS**

(2) A page is defined as one side of a sheet, 8-1/2" x 11", with at least one inch margins on all sides, using not smaller than 12 point type Times New Roman font. Line spacing or the amount of vertical space between lines of text shall not be less than single line (Microsoft Word's default line spacing). Character spacing shall be "Normal", not "Expanded" or "Condensed." The margins may contain headers and footers, but shall not contain any proposal content to be evaluated. Foldouts count as an equivalent number of 8-1/2" x 11" pages. The metric standard format most closely approximating the described standard 8-1/2" x 11" size may also be used.

Volumes I, II, III, and IV shall be submitted in separate ringed (or similarly bound) binders. Text in Diagrams, schedules, charts, tables, artwork, and photographs shall be no smaller than 10 point. (3) Title pages, tabs, and tables of contents are excluded from the page counts specified in paragraph (1) of this provision (as well as other documents specified in table (b)(1) above). In addition, the Cost volume of your proposal is not page limited except for the page limit for the Basis of Estimate (BOE) section specified in table (b)(1) above. However, this volume is to be strictly limited to cost and price information. Information that can be construed as belonging in one of the other volumes of the proposal will be so construed and counted against that volume's page limitation.

(4) The Government intends to evaluate proposals and award contract(s) without discussions with offerors (except clarifications as described in FAR 15.306(a)). Therefore, the Offeror's initial proposal shall contain the offeror's best terms from a cost or price and technical standpoint. The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. If discussions are held and final proposal revisions are requested, the Government will specify separate page limitations in its request for that submission.

(5) Pages submitted in excess of the limitations specified in this provision will not be evaluated by the Government and will be returned to the offeror in accordance with NFS 1815.204-70(b).

Annual representations and certifications shall be completed electronically via the System for Awards Management (SAM) web site accessed through <https://www.acquisition.gov>, in accordance with provision K.1, Annual Representations and Certifications (52.204-8). The balance of the solicitation need not be returned unless the Offeror has made changes to other pages that will constitute part of the contract. Any such changes must be separately identified in the Summary of Exceptions. **All SF 33s require original signatures.**

(1) It is requested that Offerors indicate, in Block 12 of the SF 33, a proposal validity period of 390 days. However, in accordance with paragraph (d) of FAR provision 52.215-1, "Instructions to Offerors--Competitive Acquisitions," a different validity period may be proposed by the Offeror.

Include the reason for the exception, new terms, conditions, and/or clauses, including any proposed benefit to the Government. This list must include all exception(s), deviation(s) and/or conditional assumptions taken.

Offerors are cautioned that exceptions or new terms, conditions, or clauses may result in a determination of proposal unacceptability (NFS 1815.305-70), may preclude award to an Offeror if award is made without discussions, or may otherwise affect an Offeror's competitive standing.

(c) ADDITIONAL INFORMATION TO BE FURNISHED

(1) Business Systems

State whether all business systems, including but not limited to accounting, property control, purchasing, estimating, and employee compensation, which require Government acceptance or approval (as applicable) are currently accepted/approved without condition.

Provide the date of acceptance/approval for each system and the cognizant contract administration office. Explain any existing conditional acceptances/approvals and the compliance status of any systems(s) for which acceptance or approval is currently withheld.

FAR 16.301-3 requires that a contractor's accounting system be adequate for determining costs applicable to the contract prior to the award of a cost-reimbursement contract. The Offeror shall provide evidence of an adequate accounting system as determined by the cognizant administrative office for accumulating and reporting incurred costs. If an Offeror is relying on the accounting system adequacy of a Joint Venture team member, sister company, or any other affiliated company's accounting system, they must demonstrate a convincing basis for using that system as a basis for determining their own adequacy. An adequate accounting system is not an evaluation criterion. It is a basic contract requirement with a pass/fail determination. A contract may only be awarded to the Offeror(s) who are determined to have an adequate accounting system.

Offerors who do not have an adequate accounting system determination shall provide evidence of any independent audit and system approvals as well as documented system ability to segregate and accrue costs by contract.

If SBA has not approved the joint venture agreement at the time of proposal submission, the Offeror shall describe its status in achieving joint venture approval from the Small Business Administration, including:

- Identify the companies included in the joint venture.
- Identify the district SBA office and SBA Point of Contact/Business Development Specialist (name, address, phone number, and email) that the application was submitted to for review and approval.

This comprehensive plan shall incorporate any previous studies performed; thoroughly analyze all organizational conflicts of interest that might arise because the Contractor has access to other companies' sensitive information; and establish specific methods to control, mitigate, or eliminate all problems identified. The Contracting Officer shall review the plan for completeness and identify to the Contractor substantive weaknesses and omissions for necessary correction. Once the Contractor has corrected the substantive weaknesses and omissions, the Contracting Officer shall incorporate the approved plan into the contract, as a compliance document.

## **L.13 GSFC 52.215-210 MISSION SUITABILITY VOLUME INSTRUCTIONS (COMPETITIVE) (MAY 2014)**

Contents of Mission Suitability Volume Instructions

1. General Information
2. Mission Suitability Volume Format

### 3. Mission Suitability Instructions by Subfactor

#### 1. General Instructions

The Mission Suitability Volume shall be specific, detailed, and provide all the information requested by these instructions. The Mission Suitability Volume must demonstrate that the offeror understands the requirements and has the ability to meet the requirements. General statements such as the "requirements are understood" or "standard procedures will be employed" are not adequate. Also, restatement or paraphrasing of the requirements shall be avoided. Information previously submitted, if any, will not be considered unless it is resubmitted as part of the Mission Suitability Volume. It must not be incorporated by reference.

Although the Government does not encourage/discourage enhancements to the contract's technical performance documents (e.g. Statement of Work, Specification, etc.), offerors may choose to propose performance enhancements. In order for the Government to consider a proposed enhancement's value, the offeror must clearly define the enhancement(s) in Contract Attachment L, "Contractor Proposed Enhancements", in accordance with the SOW requirements in Attachment A. In addition, the offeror must describe the associated benefit(s) of the proposed enhancement(s) in their Mission Suitability Volume under the applicable Mission Suitability subfactor(s). The offeror shall include Contract Attachment L as part of the model contract in the Contract Volume of their proposal. The offeror may receive credit for the proposed enhancement(s) only to the extent of its description in Attachment L, and the associated benefits explained in its Mission Suitability Volume. Inconsistent statements about any enhancement(s) in an offeror's proposal may result in a neutral or negative evaluation by the Government. Any enhancement(s) may result in a positive, neutral, or negative evaluation in spite of the Government's right to waive an enhancement(s) during contract performance in accordance with the GSFC 52.211-100, "Contractor Proposed Enhancements," clause in Section H of the contract. If the successful offer does not include any proposed enhancements, GSFC clause 52.211-100 and Attachment L will be removed from the resultant contract.

#### 2. Mission Suitability Volume Format

The Mission Suitability Volume must be divided and presented by each Mission Suitability subfactor as follows:

### 3. Mission Suitability Instructions by Subfactor

The offeror's technical approach shall demonstrate an understanding of the requirements and provide the techniques and procedures that will be used to satisfy the requirements in a timely

and cost effective manner. The technical approach shall address Sections 1.3 – 1.7 of the SOW in enough detail to clearly and fully demonstrate that the offeror understands the requirements and the inherent problems associated with the objectives of this procurement.

The offeror shall identify the most significant potential risks under this contract and also describe the risk management techniques that will be used to manage identified risks during contract performance. Risk factors may be those inherent in the work, unique to the offeror's chosen approach. General areas of possible risk that are of concern to NASA are technical, schedule, cost, security (including personnel, information technology), export control and environmental risks. The identification of risks is the responsibility of the offeror. The offeror's discussion of a risk factor shall provide the offeror's approach to managing the risk--the probability of the risk, impact and severity, time frame and risk acceptance or mitigation.

The offeror shall describe any new or innovative methods, techniques or technologies. The offeror shall fully describe each method, technique or technology and explain how they impact the performance of the SOW under the proposed contract. Efficiencies shall be quantified where possible.

The offeror shall provide written task plans addressing each RTO included as **Enclosure(s) 1-3**. In accordance with the Task Ordering Procedure clause in Section I of this solicitation, each task plan shall identify the technical approach, labor categories, projected hours, the flow of activities from start to completion (including time line), and any other information required to determine the adequacy and reasonableness of the offeror's plan. The plan must be specific, detailed, and complete to demonstrate a clear and full understanding of the objectives; potential technical problems, risks, and critical issues; and possible problem mitigation/resolution. Any assumptions made in preparing a response to these RTOs must be clearly stated.

### **Subfactor B –Management Approach**

The Offeror shall describe its management approach towards accomplishing ALL of the requirements of the SOW. The Offeror shall address any features of its approach that support the most efficient and effective approach to changing workload fluctuations and priorities.

The offeror shall describe its strategy for using (or not using) significant subcontractors (based on the definition of significant subcontractor in the cost volume instructions). If significant subcontractors are proposed, identify their interfaces to your organizational structure and provide: 1) the basis for selection of the subcontractor, 2) the nature and extent of the work to be performed by the subcontractor, including split of responsibilities and the potential percentages of work to be performed 3) the benefits of these arrangements to the Government, and 4) methods of management and reporting to GSFC of subcontractors' financial and technical plans and performance. The offeror shall discuss its plans for addressing any problems that arise as a result of the proposed organization structure or poor and/or non-performance of subcontracted portions of the contract.

Provide a detailed description of the responsibilities and authorities for management of this contract, from lower levels through intermediate management to top-level management. The

offeror shall include such elements as the span of control and lines of communication. All interfaces with GSFC personnel and subcontractors must be clearly delineated. The Offeror shall also discuss the processes for resolving priority conflicts for resources and functions within the organization.

The Offeror shall provide an in-depth discussion of the independence and degree of autonomy of the Program Manager, clearly stating the Program Manager's reasons for and methods of accessing corporate officials and his/her control over essential resources/functions necessary to accomplish the work, including the Program Manager's authority to utilize and redirect subcontract resources and/or Joint Venture partner resources (if applicable). Describe the process to be followed by the Program Manager in obtaining decisions beyond his/her authority and in resolving priority conflicts for resources/functions not under the Program Manager's direct control such as personnel, finances, and facilities. The Offeror shall describe the type and degree of corporate support and resources that are under the direct control of the Program Manager in the performance of this contract. Describe the Program Manager's support staff (delineating the span of control and duties of other personnel who have supervisory responsibilities) and demonstrate capability to operate as a team.

The offeror shall identify its minimum essential critical positions required to meet all of the requirements of the SOW. Additionally, the rationale for identifying these positions as critical shall be provided, as well as a description for each position. The description shall include the position title, to whom the position reports, summary of duties and responsibilities, any specific requirements/licensing, and minimum education and minimum experience required for the position. In addition, offerors shall provide written position qualifications for the specific labor categories envisioned for this requirement. Offerors shall address the minimum requirements in the position description, to include the necessary experience, summary of duties and responsibilities, specific requirements/licensing, minimum education and minimum experience required for the position. Each position qualification shall not exceed ½ page in length. All position qualifications will be incorporated into the resultant contract as Attachment B.

The offeror shall provide a complete staffing plan that shows how it will fill the staff requirements. Consolidations, improvements, and other changes shall be explained in detail with a clear, convincing rationale for every action. The staffing plan shall describe how the offeror intends to staff this effort and how the approach will allow the offeror to meet the requirements of this contract. The staffing plan shall include a comprehensive hiring plan which presents the expected number of personnel to be hired from incumbents (if any), those to be transferred from within the offeror's own organization, and those from other sources. Describe what effort will be undertaken to recruit staff not currently employed by the Offeror. Additionally, offerors shall provide a backup plan that describes the approach the offeror would take if its primary staffing approach was not successful.

Offerors shall address the availability of funding and other financial resources available for this effort. The offeror shall describe the corporate resources available to enhance technical, operational, and management performance.

Task orders will be issued in accordance with the Task Ordering Procedure clause in Section H of this solicitation. Each offeror shall detail its process for responding quickly and efficiently to requests for task plans. Each offeror shall detail its plans for organizing, assigning staff, tracking, and managing task orders from task initiation to completion, including configuration control, subcontracting, schedule, and cost. The offeror shall describe their approach for managing multiple tasks.

The offeror shall provide a detailed phase-in plan that addresses, at a minimum, the offeror's approach to phase-in sufficient to ensure continuity and a smooth transition with the incumbent Contractor during the 45-day phase-in period. The phase-in plan shall clearly demonstrate an ability to assume full contract responsibility on the effective date of the contract. The phase-in plan shall also specifically address how ongoing work will be maintained, the proposed management organization, schedule, orientation and training of personnel. The offeror shall address their preparation for the timely processing of the Personal Identify Verification (PIV) requirements. If the phase-in plan assumes any dependency upon the incumbent contractor, please identify. Also, specify the extent of involvement of NASA personnel during this period. The 45-day phase-in period will be accomplished through the issuance of a separate firm-fixed price contract.

The offeror shall provide a Total Compensation Plan (TCP) for all personnel proposed, in accordance with NFS provision 1852.231-71, "Determination of Compensation Reasonableness," and FAR provision 52.222-46, "Evaluation of Compensation for Professional Employees." The required professional compensation plan must:

Classify all labor categories proposed as "exempt" or "non-exempt" positions. Briefly define the terms "exempt" and "non-exempt" as used by an offeror's organization and correlate its definition with that provided for in the Code of Federal Regulations.

Identify the categories of personnel that are in a bona fide executive, administrative or professional capacity as defined by FAR 22.1102 and 29 CFR 541.

In accordance with the Exhibit 10 "Fringe Benefit Chart", the offeror and all service subcontractors (as defined in paragraph (d) of NFS provision 1852.231-71) shall provide a detailed list of their fringe benefits and company estimated cost per hour, along with an itemization of the benefits that require employee contributions and the amount of that contribution as a percentage of the total cost of the benefit. Two exhibits shall be submitted, one containing the average of fringe benefit information for all the exempt labor categories and one containing the average of fringe benefit information for all the non-exempt labor categories. (The Mission Suitability Volume must not include Exhibit 10 but shall reference where the information appears in the Cost Volume.)

Provide supporting data, such as recognized national, regional, and local compensation surveys and studies of professional, public and private organizations, used in establishing the total professional compensation structure.

The offeror shall submit a written Quality Assurance Plan (QAP) that shall identify the offeror's approach to ensuring quality services throughout the duration of the contract. Specifically, the offeror shall identify in the plan the procedure for continually monitoring, surveilling, identifying and correcting deficiencies. The QAP shall describe the offeror's method (i.e., 100% inspection, planned sampling, random sampling, customer complaints, or incidental inspections) to determine whether performance requirements in the SOW are met. The QAP shall describe whether measurements of performance are subjective or objective and shall identify the quality, quantity, and timeliness of the services to be provided. The QAP will be incorporated into the contract as an Attachment.

The offeror shall provide a safety and health plan in accordance with NFS Provision 1852.223-73, "Safety and Health Plan". The offeror shall discuss its approach to compliance with all applicable NASA policies and procedures relative to safety, occupational health, and NASA Procedural Requirements (NPR) 8715.3 "NASA General Safety Program Requirements." The offeror shall discuss its approach to protection of subcontractor employees for any proposed subcontract.

This plan, as approved by the Government, will be included in any resulting contract. Offerors are directed to NPR 8715.3, Appendix E instructions regarding the contents of Safety and Health Plan. NPR 8715.3 can be accessed at the following website:

<http://nodis3.gsfc.nasa.gov/displayDir.cfm?t=NPR&c=8715&s=3C>

The offeror shall indicate if any of the standard contents of the Safety and Health Plan, as prescribed by NPR 8715.3, would not be applicable to this specific contract, and provide an explanation for that determination.

#### **L.14 GSFC 52.215-223 COST VOLUME INSTRUCTIONS (AUG 2014)**

The Federal Acquisition Regulation (FAR) requires Contracting Officers to purchase supplies and services from responsible sources at fair and reasonable prices. It is expected that adequate price competition will be obtained under this solicitation so that submission of certified cost or pricing data is not required pursuant to FAR 52.215-20, Requirements for Certified Cost or Pricing Data and Data Other Than Certified Cost or Pricing Data--Alternate IV. The term "data other than certified cost or pricing data" is defined at FAR 2.101.

##### **1. Instructions**

An important prerequisite for the award of the contract is the Prime Offerors must have an accounting system that has been determined adequate by the cognizant administrative office for accumulating and reporting incurred costs prior to contract award. While these proposals are not required to be cost certified, they are to be in sufficient detail to allow direct and indirect rate verification and audit of selected costs. The cost proposal shall be prepared in a manner consistent with each offeror's current accounting system.

The required format for other than certified cost or pricing data is for evaluation purposes. The cost for any resultant contract will be awarded on the basis of the successful Offeror's normal estimating and/or accounting system or the system set forth in the Cost Accounting Standards Board Disclosure Statement required by Public Law 100-679, if applicable. If the Offeror's estimating and/or accounting practice differs from the required cost proposal format, the costs shall be computed in accordance with the Offeror's normal accounting and estimating procedures and provide its rationale for the format adjustments.

Direct labor must be estimated on the basis of productive effort. Productive effort is the estimated number of hours required to perform the work. Vacations, holidays, sick leave, and any other paid absences shall not be cited as direct labor, but shall be separately identified and priced or included in indirect cost.

Final monetary extensions in the cost proposal shall be expressed as the closest whole dollar amount, with cents omitted.

Duty charges, if any shall be included in the cost, regardless of whether or not duty free certificates are obtained.

A "subcontract" is any contract, purchase order, material order, interorganizational transfer, etc. that is a direct cost to this acquisition. The Offeror shall provide sufficient detail to support and explain all costs proposed. For the purposes of the Cost Volume, a significant subcontractor is defined as a subcontractor expected to exceed 10% or more of the Government Pricing Model (GPM) total estimated cost value. A proposed significant subcontractor shall complete and submit **Exhibits 2A, 2B, and 4 through 11B** and provide the same supporting information that is requested from the Prime Offeror. Any prospective subcontractor may submit proprietary cost data, under separate cover, directly to the Government no later than the date and time specified in the instructions for receipt of proposals for this RFP.

Offerors, including proposed significant subcontractors, shall submit electronic copies of the cost proposal charts contained in the referenced exhibits in Microsoft Excel format on CD-ROMs. Two copies of the CD-ROMs shall be submitted with one copy identified as the backup. This requirement is in addition to the required hard copies. Offerors shall include all formulas in the cost charts to substantiate the whole dollar amount proposed. Offerors shall certify that all disks are virus-free. In the event of any inconsistency between data provided on electronic media and hard copies, the hard copy data will be considered to be correct.

Offerors, including proposed significant subcontractors, shall provide one separately packaged copy of their cost proposal marked for their cognizant DCAA auditing office with their proposal. The name, mailing address, email address, and phone number of the cognizant DCAA office are to be included in the written narrative of the Offer Volume as well as **Exhibit 11A**. Please ensure that all contact information provided is current and correct.

All pricing and estimating techniques shall be clearly explained in detail (projections, rates, ratios, percentages, factors, etc.) and shall support the proposed costs in such a manner that audit,

computation, and verification can be accomplished. All past actuals shall show the periods of time and costs in detail when used as a basis for estimating the proposed costs.

In order to establish the reasonableness and realism of the proposed costs, and the extent to which costs reflect performance addressed in the Mission Suitability Volume, each Offeror, including proposed subcontractors, shall submit the other than certified cost or pricing data described in Section 2 below.

## **2. Cost Proposal Format**

### **(a) DIRECT AND INDIRECT RATE SUBSTANTIATION**

If salary surveys were used as the basis for the proposed direct labor rates, provide a summarization of all salary surveys used, including the name, date of survey, geography, survey labor categories, survey percentiles, and survey salaries. If proposing a salary lower than the median, identify the median and provide rationale.

Indicate how you have computed and applied your indirect cost rates, including cost breakdowns. Show numerical trends and budgetary data to provide a basis for evaluating the reasonableness of pool costs and base projections. It is important that rate pool components are clearly defined and reasonably estimated, that projections regarding future sales are fully supported and are reasonable in their estimation, and that completed/expiring contracts are properly accounted for as reductions in the business base projections. As such, provide a detailed narrative explaining the basis of the indirect rate derivation, describing the types of costs accumulated for the specific rate pool and their estimation rationale, and the methodology for the projected base of application. Also provide the actual indirect rates realized for the last three contractor fiscal years, annotating if the rate is audited or unaudited. The further your proposed rates depart from established, historical indirect rates, the more essential it is that the proposal thoroughly addresses and justifies the basis for the changes in your proposed rates. Failure to provide this justification may result in cost realism adjustments to your proposal due to the application of rates the Government deems more reasonable and supportable (e.g., historical rates as charged under existing contracts or as supplied by cognizant audit and administrative agencies).

The escalation proposed for labor must be stated along with the actual escalation experienced in the last three years. Provide a statement of rationale, including the derivation, for the proposed escalation rates. If escalation is not proposed, explain why. The Offeror shall also discuss the rationale for any escalation proposed for the other cost elements. The Offeror shall also include the company's escalation history for each other cost element experienced in the past three years.

The Offeror shall clearly identify and list any cost items that will be routinely direct charged as an Other Direct Cost in all task orders. The supporting rationale associated with these proposed ODC expenses shall also be submitted.

The Government does not intend to issue a separate task order for overall contract program management. Accordingly, in accordance with the Offeror's current accounting system, clearly

indicate how program management costs will be captured and charged on a task-by-task basis during performance of the contract.

**(b) DIRECT LABOR RATES, INDIRECT RATES AND FEE MATRICES**

Prime Offerors shall complete **Attachment B, DIRECT LABOR RATES, INDIRECT RATES, AND FEE MATRICES**, for each Contract Year. The direct labor and indirect rates and fee percentages included in **Attachment B** are "not to exceed" bid rates. During contract performance, Offerors will be permitted to offer costs for task orders to be placed at lower rates/fees than are listed in these matrices in accordance with the "**TASK ORDERING PROCEDURE**" and "**SUPPLEMENTAL TASK ORDERING PROCEDURES**" clauses of this contract. The direct labor categories proposed must reflect all labor categories and levels within each individual labor category anticipated to perform the requirements of the Statement of Work and shall range from entry level to the most senior level.

In **Attachment B**, the Prime Offeror shall propose, by Contract Year, unburdened direct labor rates for all labor categories in Section 1; all individual bid indirect rates in Section 2, clearly delineating Onsite; and all rates or factors for Cost Estimating Relationships in Section 3. Onsite is defined as NASA Goddard Space Flight Center, Wallops Flight Facility, or Headquarters. Offsite is defined as the Contractor's facility. The Offeror's fee percentage(s) included in Section 4 of the matrices shall be used to calculate the fixed fee for performing all task orders issued under the resultant contract. In Section 5, the Prime Offeror shall include a fully-loaded direct labor rate matrices for each significant subcontractor. In Section 6, provide Position Qualifications for all Offeror proposed direct labor categories specified in Section 1 and all subcontractors' proposed direct labor categories specified in Section 5.

The Offerors and Subcontractors' individual direct labor categories/rates and indirect rates used in **Exhibit 2A** to derive the loaded GPM-Specified Non-Management Direct Labor Category Rates (for Exhibit 1A) must match those proposed in **Attachment B DIRECT LABOR RATES, INDIRECT RATES, AND FEE MATRICES**. Also, the Offerors' and Subcontractors' individual direct labor categories/rates and indirect rates used in **Exhibit 2B** must match those proposed in **Attachment B DIRECT LABOR RATES, INDIRECT RATES, AND FEE MATRICES**.

**(c) GOVERNMENT PRICING MODEL**

**To be completed by the Prime Offeror ONLY**

**Exhibit 1A** contains the GPM-Specified Non-Management Direct Labor Categories the Government considers essential to perform task orders under this contract. The Prime Offeror **ONLY** shall complete **Exhibit 1A, Government Pricing Model**, for each Contract Year. **The Prime Offeror shall include in Exhibits 1A and 1B all Subcontractors, regardless of dollar value, expected to perform under this contract.** The Prime Offeror shall complete this exhibit in accordance with the following:

- At the top of **Exhibit 1A**, the Prime Offeror shall insert the Prime Offeror loadings (bid indirect rate(s) and/or fee(s) in **Exhibit 1A** that will be applied to the Subcontractor(s) GPM-Specified Non-Management Direct Labor Loaded Rates in accordance with the Prime Offeror's current accounting system. Specify the Element of Cost (e.g., Material Handling and/or G&A and/or Fixed Fee) and the proposed Contract Year rate for each Element of Cost (indirect rates must match the respective Contract Year indirect rates in **Exhibit 5**).
- In **Exhibit 1A**, the Prime Offeror shall insert the Prime Loaded Rate and/or Subcontractor Loaded Rate(s) for **each** respective GPM-Specified Non-Management Direct Labor Category into the respective categories. These loaded rates must match the Loaded GPM-Specified Non-Management Direct Labor Rates from the Prime and all Subcontractors in the **Exhibit 2A** workbooks. The Prime Offeror may modify **Exhibit 1A** to delete or add additional Subcontractor columns, if necessary.
- Using the respective Prime Offeror loadings specified at the top of **Exhibit 1A**, the Prime Offeror shall calculate and insert the "Sub Loaded Rate w/Prime Loading" rates for each Subcontractor by GPM-Specified Non-Management Direct Labor Category. For example, if the Subcontractor's Loaded Rate is \$100 and the Prime Offeror's bid loadings are G&A at 10% and Fixed Fee at 8%, the Sub Loaded Rate w/Prime Bid Loadings rate will be \$118.80  $[(\$100 * 110%) * 108\%]$ .
- For each GPM-Specified Non-Management Direct Labor Category in **Exhibit 1A**, the Prime Offeror shall insert the percentage of anticipated effort to be performed by the Prime and/or each Subcontractor. The Prime plus all Subcontractors Percent of Effort **must** total 100% for **each** GPM-Specified Non-Management Direct Labor Category.
- The Prime Offeror shall then add the results of multiplying the respective Percent of Effort against the Prime Loaded Rate and each Sub Loaded Rate w/Prime Loading Rate(s) to derive at the Total Composite GPM-Specified (Prime/Sub) Non-Management Loaded Rate for **each and every** GPM-Specified Non-Management Direct Labor Category in **Exhibit 1A**.
- The Total GPM-Specified (Prime/Sub) Non-Management Loaded Rates in **Exhibit 1A** for **each** GPM-Specified Non-Management Direct Labor Category shall be multiplied against the respective GPM estimated direct labor hours for each GPM-Specified Non-Management Direct Labor category set forth in **Exhibit 1A** to derive the Total GPM-Specified Non-Management Direct Labor Costs for each Category plus the overall Subtotal GPM-Specified Non-Management Direct Labor Costs. There **must** be a composite rate totaling 100% for **each and every** GPM-Specified Non-Management Direct Labor Category in **Exhibit 1A**. In addition, the GPM estimated non-management direct labor provided for each labor category in **Exhibit 1A** shall **not** be changed.
- The labor hours in the Government Pricing Model are based on a 40-hour work week with no uncompensated overtime. Unless specified, the hours are consistent each year throughout the period of performance.

- The Prime Offeror shall complete the OFFEROR MANAGEMENT and ADMINISTRATIVE HOURS/COSTS Section of **Exhibit 1A**, filling in all anticipated program management and administrative support required for this effort and direct charged via Offeror (and/or subcontractor, if applicable) labor categories and hours (**Exhibit 2B**) in addition to any labor-oriented recurring other direct costs (ODCs) and/or cost estimating relationships (CERs) consistent with **Exhibit 7**. The Prime Offeror shall then add all of the management and administrative proposed labor costs and labor-oriented recurring ODCs/CERs to derive the Subtotal Offeror Management/Administrative Labor Costs. **For evaluation purposes, all Management and Administration Costs shall be assumed Offsite.**
- The Prime Offeror shall complete the OFFEROR NON-LABOR RECURRING ODCS AND/OR COST-ESTIMATING RELATIONSHIP COSTS Section of **Exhibit 1A**, filling in all Non-labor recurring other direct costs (ODCs) and/or cost estimating relationships (CERs) consistent with **Exhibit 7**. The Prime Offeror shall include the rate, how it was applied at a contract level, any further loadings and fee applied, and the resulting cost. The **Exhibit 1A** columns and formatting may be adjusted in this area as necessary to achieve clarity. The Prime Offeror shall then add all of the non-labor-oriented recurring ODCs/CERs to derive the Subtotal Offeror Non-Labor Recurring ODCs and Costs Estimating Relationship Costs.
- The Prime Offeror shall complete **Exhibit 1B, Government Pricing Model Grand Total Summary – Bid Rates**. The Grand Total Government Pricing Model value is a summation of the Subtotal GPM-Specified Non-Management Direct Labor Costs (Onsite); the Subtotal Offeror Labor-oriented Management and Administrative Costs; and Subtotal Non-Labor Recurring ODCs and Cost Estimating Relationship Costs in **Exhibit 1A**.

(d) **NON-MANAGEMENT DIRECT LABOR CATEGORY CONVERSION**

Prime Offerors and **all** Subcontractors (regardless of dollar value) included in **Exhibit 1A** shall complete **Exhibit 2A, Non-Management Direct Labor Category Conversion**. This exhibit show how the Prime Offeror's and **all** Subcontractors' individual direct labor categories/rates are proportioned and converted to the GPM-Specified Non-Management Direct Labor Categories. **Exhibit 2A** summarizes the unburdened direct labor rates, bid indirect rates, and fee rate used to derive each Loaded GPM-Specified Non-Management Direct Labor Category Rate used in **Exhibit 1A**. Prime Offerors and **all** Subcontractors shall complete a separate **Exhibit 2A** for each performance site (onsite and offsite) for which they are providing GPM-Specified Non-management Direct Labor using the applicable bid rates for each site. The Offerors' and Subcontractors' individual direct labor categories/rates and indirect rates used in **Exhibit 2A** to derive the loaded GPM-Specified Non-Management Direct Labor Category Rates (for **Exhibit 1A**) must match those proposed in **Attachment B DIRECT LABOR RATES, INDIRECT RATES, AND FEE MATRICES**. When completing this exhibit, Offerors must specify the applicable site (onsite and offsite) and provide rates only for those labor categories specified in **Exhibit 1A** for the site indicated. (For instance, Offerors shall only propose a rate for the [Cyber

Security Specialist] in the **Exhibit 2A** designated “Onsite” since no “Offsite” or “Manufacturing Site” hours are specified for this position.)” Offerors shall note that **Exhibit 2A** is site-specific. When completing this form, Offerors must specify the applicable site (Onsite or Offsite) and provide rates only for those labor categories specified in **Exhibit 1A** for the site indicated.

For each GPM-Specified Non-Management Direct Labor Category, a composite rate can be comprised of no more than 3 labor categories. If a composite rate is comprised of 2 or more labor categories, the composite rate shall not contain any labor category with less than 20% of anticipated effort.

(e) **OFFEROR MANAGEMENT AND ADMINISTRATIVE LABOR**

All Prime Offerors must complete and submit **Exhibit 2B, Offeror Management and Administrative Labor**, for all Offeror proposed management and/or administrative labor categories included in **Exhibit 1A**. If any Subcontractor management and/or administrative labor categories are also proposed in **Exhibit 1A**, the respective Subcontractor shall also complete and submit **Exhibit 2B**. The Offerors’ and Subcontractors’ individual direct labor categories/rates and indirect rates used in **Exhibit 2B** must match those proposed in **Attachment B DIRECT LABOR RATES, INDIRECT RATES, AND FEE MATRICES**. The Loaded Management and Administrative Bid Labor Rates derived in **Exhibit 2B** must match the Prime Offeror and/or Subcontractor Loaded Management and Administrative Bid Labor Rates used in **Exhibit 1A**.

For **Exhibit 2B**, Offerors will note that all Management and Administrative labor categories shall be proposed using Offsite rates.

(f) **GOVERNMENT PRICING MODEL EXPRESSED IN ELEMENTS OF COST**

All Prime Offerors shall complete **Exhibit 3, Government Pricing Model by Elements of Cost**, to include Direct Labor Hours, Direct Labor Dollars, Fringe Benefits (if separate), Overhead, Other Direct Costs, G&A and fixed fee. The Grand Total of **Exhibit 3** shall match the Grand Total of **Exhibit 1B**. Offerors may adjust the elements of cost to be consistent with your current accounting system.

(g) **GPM BASIS OF ESTIMATES (BOE)**

At the contract level, the Offerors shall give the Government insight into the cost estimating thought processes and methodologies used by the Offeror in estimating the Program Management and Administrative Support and subcontracting. Emphasis shall be placed on a description of the cost estimating processes and methodologies themselves, and how these relate to the technical approach described in the proposal.

For Program Management and Administrative Support, explain in detail how it is estimated. If direct, explain the estimating approach and assumptions (direct labor rates, hours per year, percentage of direct labor hours or costs, etc.). If indirect, identify what pool each function is included.

Describe how subcontracts were estimated and how determined reasonable. Please note if you have experience with the proposed subcontractor(s), if utilized. For any significant subcontract that has a potential estimated value in excess of the threshold stated in Section 1 instructions above, BOEs must be provided by that significant subcontract following the above specified format.

**(h) CONTRACT SOURCE OF PERSONNEL**

**Exhibit 4** shows the Offeror's plans to obtain the required personnel at the contract level. The Offeror shall show the total number of staff proposed for each position, how many are available from within the company, and how many will be newly hired for the first contract year.

**(i) SUMMARY OF INDIRECT RATES**

**Exhibit 5** summarizes the Contractor Fiscal Year to Contract Year conversion for Overhead, G&A, and any "Other" indirect rates that the Offeror proposes in accordance with their current accounting system. Please note that the Contract Year Composite indirect rates shall match the rates proposed in **Section 2 of Attachment B, DIRECT LABOR RATES, INDIRECT RATES, AND FEE MATRICES.**

**(j) INDIRECT RATE EXPENSE POOLS:**

**Exhibit 6A Overhead Expense Pool**

**Exhibit 6A** shows the details of the expenses in the overhead pool by Contractor Fiscal Year. If fringe benefits are included in a separate pool, provide a separate exhibit entitled, "Fringe Benefit Pool". This exhibit shows the actual expenses for the prior three years and projected expenses through the life of the contract. This exhibit also shows the conversion of the overhead rate from the Contractor Fiscal Year to Contract Year. (Note: for any offerors who are proposing as an Unpopulated Small Business Administration-approved Joint Venture (JV), then the actual expenses for the prior three years of both entities that comprise the JV must be provided; this portion cannot be left blank.)

If more than one overhead pool is proposed, a separate **Exhibit 6A** shall be included for each pool. Include the rationale for multiple overhead pools. If the rates are negotiated forward pricing rates, furnish date of negotiation and with whom negotiated. If not negotiated, furnish explanation and basis of rates.

**Exhibit 6B General and Administrative (G&A) Expense Pool**

**Exhibit 6B** shows the details of the expenses in the G&A pool by Contractor Fiscal Year. This exhibit shows the actual expenses for the prior three years and projected expenses through the life of the contract. This exhibit also shows the conversion of the G&A rate from the Contractor Fiscal Year to Contract Year. (Note: for any offerors who are proposing as an Unpopulated Small Business Administration-approved Joint Venture (JV), then the actual expenses for the

prior three years of both entities that comprise the JV must be provided; this portion cannot be left blank).

If more than one G&A pool is proposed, a separate **Exhibit 6B** shall be included for each pool. Include the rationale for multiple G&A pools. If the rates are negotiated forward pricing rates, furnish date of negotiation and with whom negotiated. If not negotiated, furnish explanation and basis of rates.

(k) **SUMMARY OF RECURRING OTHER DIRECT COSTS (ODCs)/COST ESTIMATING RELATIONSHIPS (CERs)**

Offerors shall complete **Exhibit 7** for any recurring ODCs (e.g. computer usage, program management, depreciation, administrative support, etc.) routinely bid on an established Cost Estimating Relationship (CER) in accordance with your current accounting system. In this exhibit, the Offerors shall show the percentage, rate, and/or dollar amount used, as well as, a detailed explanation of the basis of application and estimating approaches and assumptions. Please note that any Recurring ODCs and CERs listed in **Exhibit 7** must match those proposed in **Section 3 of Attachment B, DIRECT LABOR RATES, INDIRECT RATES, AND FEE MATRICES**.

If any recurring ODCs are included in your indirect expenses, **DO NOT** remove them from your indirect pools and include them in this exhibit. If you do not have any established CERs, insert "NONE" in this exhibit.

(l) **PHASE-IN PLAN**

Offerors shall propose the total firm-fixed-price associated with the 45-day phase-in period, which will be performed under a separate, firm-fixed-price order. **Exhibits 8 and 8A** shall be used to state the proposed price for the phase-in, which is expected to commence on or about **TBD**.

(m) **PRODUCTIVE WORK YEAR CALCULATIONS**

(End of Provision)

**L.15 GSFC 52.215-230 PAST PERFORMANCE VOLUME (JUN 2014)**

An Offeror's past performance record indicates the relevant quantitative and qualitative aspects of performing services or delivering products similar in size and content to the requirements of this acquisition.

The Offeror shall provide, at a minimum, the following information in support of its proposal to facilitate the evaluation of the Offeror's past performance as related to the requirements of the proposed contract.

(a) **INFORMATION FROM THE OFFEROR**

Prime Offerors shall furnish the information requested below for all of your most recent contracts (completed and ongoing) for similar efforts with a minimum average annual cost/fee incurred of \$4M that your company has had within the last 3 years of the RFP release date.

For the purposes of the Past Performance Volume, a proposed significant subcontractor is defined as any proposed subcontractor that is estimated to meet/exceed an average annual cost/fee of \$4M. Note, the definition of significant subcontractor for the past performance evaluation may be different than for the cost evaluation. The Offeror shall provide the information requested below for any significant subcontractor(s) for those similar efforts within the last 3 years of the RFP release date with a minimum average annual cost/fee incurred of at least 10% of the estimated average annual dollar value of the proposed significant subcontract. For example (note, these example numbers may not relate to this specific procurement), if a procurement is valued at an average annual value of \$50M and a proposed significant subcontractor for the effort has a proposed average annual cost/fee of \$16M, the Offeror shall provide relevant current/past contract references that have a minimum average annual cost/fee incurred at/above \$1.6M (10% of \$16M) for that significant subcontractor.

If a prime Offeror or significant subcontractor is submitting past performance data on a current/past contract vehicle that includes multiple tasks, orders, etc., all effort under that contract vehicle may be consolidated for the purposes of meeting the average annual cost/fee

incurred in the instructions above and for the purpose of evaluating contract relevance for the proposed requirement.

The Offeror shall provide an estimated value and percentage of work to be performed on this contract by the Prime Offeror and each significant subcontractor, consistent with the cost data in the Government Pricing Model. Indicate the primary functions in the SOW to be performed by the Prime Offeror and each proposed significant subcontractor. Indicate which contracts are most related (i.e. similar in size and content) and how they are related to the proposed effort, as well as which contracts were performed by the division of your company (if applicable) that will perform the proposed contract/subcontract.

If applicable, Offerors may provide the experience or past performance of a parent or affiliated or predecessor company to an Offeror (including Joint Venture prime partner companies and/or a parent or affiliated company that is being otherwise proposed as a subcontractor on this effort) where the firm's proposal demonstrates that the resources of the parent or affiliate or predecessor will affect the performance of the Offeror. The Offeror shall demonstrate that the resources of the parent or affiliate or predecessor company (its workforce, management, facilities or other resources) shall be provided or relied upon for contract performance such that the parent or affiliate or predecessor will have meaningful involvement in contract performance.

**The Offeror shall provide the following information on all past/current contract references that meet the above criteria for the Prime Offeror and each significant subcontractor:**

- Customer's name, address, and telephone number of both the lead contractual and technical personnel most familiar with the Offeror's performance record. *(Please verify the telephone numbers provided are current and correct).*
- Cage Code and/or DUNS Number of the contractor performing the work.
- Contract number, type, and total original and present or final contract value.
- The current contract expenditures incurred to date, the date in which the expenditures have been incurred through, and the Average Annual Cost/Fee Incurred to Date. For example (note, these example numbers may not relate to this specific procurement):

A current five year contract that you are performing has a total estimated value of \$100,000,000. As of the latest cost report which reflected cost/fee through the first 2 years and 4 months of performance, the total amount of cost/fee incurred by the Offeror over the duration of the contract was \$43,500,000.

In this example, an Offeror would provide the following:

Current Contract Expenditures incurred to Date:     \$43,500,000

Date in which Expenditures have been incurred through: Insert date of cost report that indicated cost/fee total of \$43,500,000 after 2 years and 4 months of performance.

## SECTION M –EVALUATION FACTOR FOR AWARD

### **M.1 GSFC 52.209-300 PROSPECTIVE CONTRACTOR RESPONSIBILITY (JAN 2014)**

(a) The standards and procedures for determining whether prospective contractors and subcontractors are responsible are set forth in FAR Subpart 9.1. Deficiencies concerning the general standards of prospective contractor responsibility at FAR 9.104-1, and any special standards established for this procurement under FAR 9.104-2, may be serious enough to result in a determination of non-responsibility. As with all aspects of prospective contractor responsibility, a finding of non-responsibility can be made at any time prior to contract award. However, even if such deficiencies are not so serious to result in such a determination, they will nonetheless be considered in the evaluation as conducted under the evaluation factors set forth in this solicitation.

(b) The following special standards of responsibility have been established for this procurement:  
NONE

(End of Provision)

### **M.2 GSFC 52.215-300 SOURCE SELECTION AND EVALUATION FACTORS – GENERAL (JAN 2014)**

#### 1. Source Selection

This competitive negotiated acquisition shall be conducted in accordance with FAR 15.3, "Source Selection", and NASA FAR Supplement (NFS) 1815.3, same subject. The Source Evaluation Board procedures at NFS 1815.370, "NASA Source Evaluation Boards" will apply.

The attention of offerors is particularly directed to NFS 1815.305, "Proposal evaluation" and to NFS 1815.305-70, "Identification of unacceptable proposals".

A trade-off process, as described at FAR 15.101-1, will be used in making source selection.

#### 2. Evaluation Factors and Subfactors

The evaluation factors are Mission Suitability, Cost, and Past Performance. These factors, as described at NFS 1815.304-70, will be used to evaluate each proposal. This Section M provides a further description for each evaluation factor, inclusive of subfactor. Only the Mission Suitability factor is numerically scored.

#### 3. Relative Order of Importance of Evaluation Factors

The Cost Factor is significantly less important than the combined importance of the Mission Suitability Factor and Past Performance Factor. As individual factors, the Mission Suitability Factor is most important and the Cost Factor and Past Performance Factor are approximately equal in importance.

(End of Provision)

### **M.3 GSFC 52.215-310 MISSION SUITABILITY FACTOR (MAY 2014)**

The Mission Suitability evaluation will take into consideration whether the resources proposed are consistent with the proposed efforts and accomplishments associated with each subfactor or whether they are overstated or understated for the effort to be accomplished as described by the offeror and evaluated by NASA. The offeror's justification for the proposed resources will be considered in this evaluation. If the offeror's proposal demonstrates a lack of resource realism, it will be evaluated as demonstrating a lack of understanding of or commitment to the requirements and may significantly affect the offeror's Mission Suitability evaluation.

The Government may choose to incorporate any positive aspects of an offeror's approach to meeting/exceeding contract requirements into the final contract, particularly if any positive proposal area results in Strength or Significant Strength findings in the Mission Suitability evaluation. An offeror's proposed Mission Suitability approach shall be consistent with its proposed cost information.

If an offeror elects to propose enhancements in accordance with the Mission Suitability Volume instructions in provision GSFC 52.215-210 (L.24), the offeror's completed Contract Attachment L, "Contractor Proposed Enhancements," and the description of the associated benefits for each proposed enhancement under the applicable Mission Suitability subfactor will be evaluated for reasonableness, effectiveness, and overall performance benefit.

#### **1. Mission Suitability Subfactors and Description of Each Subfactor**

##### **Subfactor A –Understanding the Technical Requirements/RTOs**

The Government will evaluate the offeror's technical approach in understanding the requirements, techniques and procedures that will be used to satisfy the requirements in a timely and cost effective manner for thoroughness and merit. The Government will evaluate the Offeror's technical approach in addressing Sections 1.3 – 1.7 of the SOW for thoroughness and clarity that demonstrate the offeror's understanding of the requirements and inherent problems associated with the objectives of this procurement.

The Government will evaluate the offeror's identification of the most significant potential risks under this contract and the risk management techniques that will be used to manage identified risks during contract performance for thoroughness and understanding. The Government will evaluate for effectiveness the offeror's approach to managing risk – the probability of risk, impact and severity, time frame and risk acceptance or mitigation.

The Government will evaluate the offeror's description of any new or innovative methods, techniques or technologies for efficiency and effectiveness.

The Government will evaluate the offeror's written task plans addressing each representative task for thoroughness and understanding. The Government will evaluate the offeror's technical approach, labor categories, projected hours, the flow of activities from start to completion (including time line), and any other information required for adequacy and reasonableness. The Government will evaluate the offeror's understanding of the objectives; potential technical problems, risks, and critical issues; and possible problem mitigation/resolution for thoroughness and understanding. The Government will also evaluate any assumptions made in preparing a response for the RTO for reasonableness.

### **Subfactor B –Management Approach**

The Offeror's management approach will be evaluated in terms of how well it implements an integrated and comprehensive approach to perform ALL SOW requirements in an efficient and effective manner. The approach towards accommodating changing workload fluctuations and priorities will be evaluated based on the feasibility, flexibility, reasonableness, effectiveness, and efficiency of the proposed approach.

The Government will evaluate for reasonableness and effectiveness the offeror's strategy for using (or not using) significant subcontractors (based on the definition of significant subcontractor in the cost proposal instructions). In the event significant subcontractors are proposed, the Government will evaluate the offeror's interfaces to the organizations structure, including the basis for the selection of the subcontractor, the nature and extent of the work to be performed by the subcontractor, the benefits of these arrangements to the Government and methods of management reporting to GSFC of subcontractor's financial and technical plans and performance, for efficiency and effectiveness. The Government will evaluate for effectiveness the Offeror's plan for addressing any problems that arise as a result of the proposed organization structure or poor and/or non-performance of subcontracted portions of the contract.

The Government will evaluate, for efficiency and effectiveness, the responsibilities and authorities for management of this contract, from lower levels through intermediate management to top-level management, to include elements such as span of control and lines of communication. The offeror's interfaces with GSFC personnel and subcontractors will be evaluated for clarity and efficiency. The offeror's process for resolving priority conflicts for resources and functions within the organization will be evaluated for reasonableness and effectiveness.

The Government will evaluate, for effectiveness, the offeror's discussion of the independence and autonomy of the Program Manager. The Program Manager's reason for and methods of accessing corporate officials and his/her control over essential resources functions necessary to accomplish work, including the Program Manager's authority to utilize and redirect subcontract resources and/or Joint Venture partner resources (if applicable) will be evaluated for reasonableness and effectiveness. The offeror's process to be followed by the Program Manager in obtaining decisions beyond his/her authority and in resolving priority conflicts for

resources/functions not under the Program Manager's direct control such as personnel, finances, and facilities will be evaluated for reasonableness and effectiveness. The Government will evaluate the type and degree of corporate support and resources that are under the direct control of the Program Manager in the performance of this contract for reasonableness and effectiveness. The Government will evaluate the offeror's Program Manager's support staff and demonstrated capability to operate as a team for efficiency and effectiveness.

The Government will evaluate the offeror's rationale for identifying certain positions as critical positions for reasonableness and to ensure an understanding of requirements and the nature of the work. The offeror's list of critical positions and qualifications of each critical position will be evaluated for effectiveness. In addition, the proposed position qualifications for each specific labor category will be evaluated for reasonableness and to determine the level of understanding by the offeror of the contract requirements.

The Government will evaluate the offeror's staffing plan for reasonableness and thoroughness. Consolidations, improvements, and other changes will be evaluated for effectiveness. The offeror description on how it intends to staff this effort and how the approach will allow the offeror to meet the requirements of this contract will be evaluated for effectiveness. The Government will evaluate the offeror's comprehensive hiring plan for reasonableness and effectiveness. The Government will evaluate the offeror's plan to recruit staff not currently employed by the company for reasonableness and effectiveness. The Government will evaluate the offeror's backup plan to its primary staffing approach for completeness and effectiveness.

The Government will evaluate the corporate resources defined in terms of staffing, corporate support, facilities and equipment, including relevance, sufficiency, and availability (either internal and/or external to the contractor) for use under this requirement for efficiency and effectiveness. Availability of funding and other financial resources available for this effort will be evaluated for reasonableness. The Government will evaluate the offeror's description of corporate resources available to enhance technical, operational, and management performance for thoroughness and effectiveness.

The Government will evaluate the offeror's process for responding quickly and efficiently to requests for task plans for efficiency and effectiveness. The offeror's plans for organizing, assigning staff, tracking, and managing task orders from task initiation to completion, including configurations control, subcontracting, schedule and cost will be evaluated for thoroughness. The offeror's approach for managing multiple tasks will be evaluated for efficiency and effectiveness.

The Government will evaluate the offeror's phase-in plan for continuity and a smooth transition with the incumbent contractors during the 45-day phase in period. The Government will evaluate for realism how clearly the phase-in plan demonstrates an ability to assume full contract responsibility on the effective date of the contract. The Government will evaluate the effectiveness of the phase-in plan, specifically how ongoing work will be maintained, the proposed management organization, schedule, orientation and training of personnel. The Government will evaluate the Contractor's Personal Identity Verification (PIV) requirements on a timely processing preparation. Any dependency upon the incumbent contractor will be

evaluated for reasonableness. Any involvement of NASA personnel during this period will also be evaluated for reasonableness.

The Government will evaluate the offeror's Total Compensation Plan (TCP) to determine if it reflects a sound management approach and understanding of the contract requirements. The total compensation plan will be evaluated for the offeror's ability to provide uninterrupted high-quality work. The total compensation plan will be evaluated for its expected impact on recruiting and retention and its realism. The plan will be evaluated to determine if the compensation levels proposed reflect a clear understanding of the work to be performed and that the capability of the proposed compensation is structured to obtain and keep suitably qualified personnel to meet mission objectives. Offerors are cautioned that lowered compensation for essentially the same professional work may indicate lack of sound management judgment and lack of understanding of the requirement.

The Government will evaluate the offeror's Quality Assurance Plan (QAP) for effectiveness in ensuring quality services throughout the duration of the contract. The offeror's plan for continually monitoring, surveilling, identifying and correcting deficiencies will be evaluated for efficiency and effectiveness. The offeror's method to determine whether performance requirements in the SOW are met will be evaluated for thoroughness and understanding. The Government will evaluate the offeror's QAP identification of types of measurements of performance, quality, quantity and timeliness of services provided for completeness and effectiveness.

The Government will evaluate the adequacy of the offeror's Safety and Health Plan to ensure that supplies and services are furnished in a safe and healthful manner, and that the offeror develops, produces, and/or delivers products to NASA that will be safe and successful for their intended use.

The offeror's Safety and Health Plan will be evaluated for compliance with applicable Federal and State statutory and regulatory requirements, as well as compliance with NPR 8715.3, NFS 1852.223-73 and applicable NASA Agency-wide and Installation specific policies and/or procedures including the adequacy of protection of life, health, and well-being of NASA and Contractor employees, property and equipment. Further, the Safety and Health Plan will be evaluated to determine the adequacy of protection for subcontractor employees for any proposed subcontract.

## **2. Evaluation Findings**

The Government will evaluate proposals by classifying findings as strengths, weaknesses, significant strengths, significant weaknesses, or deficiencies using the following:

Weakness –a flaw in the proposal that increases the risk of unsuccessful contract performance

Significant Weakness –a proposal flaw that appreciably increases the risk of unsuccessful contract performance

Deficiency –a material failure of a proposal to meet a Government requirement or a combination of significant weaknesses in a proposal that increases the risk of unsuccessful contract performance to an unacceptable level

Strength (not in FAR/NFS) – a proposal area that enhance the potential for successful performance or contributes toward exceeding the contract requirements in a manner that provides additional value to the government (this could be associated with a process, technical approach, materials, facilities, etc.)

Significant Strength (not in FAR/NFS) –a proposal area that greatly enhances the potential for successful performance or contributes significantly toward exceeding the contract requirements in a manner that provides additional value to the government

### **3. Weights and Scoring**

In accordance with NFS 1815.304-70(b)(1), the Mission Suitability factor will be weighted and scored on a 1000 point scale.

The weights (points) associated with each Mission Suitability subfactor are as follows:

	<u>Points</u>
Subfactor A –Understanding the Technical Requirements/RTOs	500
Subfactor B –Management Approach	<u>500</u>
Total	1000

The Mission Suitability subfactors will be evaluated using the adjectival rating, definitions, and percentile ranges at NFS 1815.305(a)(3)(A). The maximum points available for each subfactor will be multiplied by the assessed percent for each subfactor to derive the score for the particular subfactor. For example, if a subfactor has possible 200 points and receives a percent rating 80 then the score for that subfactor would be 160 points.

(End of Provision)

#### **M.4 GSFC 52.215-323 COST EVALUATION FACTOR (JUN 2014)**

The proposed costs of the Government Pricing Model and the rates proposed in Attachment B, Direct Labor Rates, Indirect Rates and Fee Matrices will be assessed to determine reasonableness and cost realism. The cost evaluation will be conducted in accordance with FAR 15.305(a)(1) and NFS 1815.305(a)(1)(B). Offerors shall refer to FAR 2.101(b) for a definition of “cost realism” and to FAR 15.404-1(d) for a discussion of “cost realism analysis” and “probable cost”.

Both the "proposed and probable cost" will typically reflect the Offeror’s proposed fee amount. Proposed fee will be corrected to resolve mathematical errors, if any. Proposed fee will not be adjusted as result of any cost realism adjustments to establish probable cost.

The total FFP Phase-In price and the proposed and probable Government Pricing Model evaluated cost (including proposed fee amount) will be presented to the Source Selection Authority as well as any cost risk associated with the proposal.

(End of Provision)

#### **M.5 GSFC 52.215-330 PAST PERFORMANCE EVALUATION FACTOR (JUN 2014)**

An offeror's past performance will be evaluated based on FAR Part 15 and the evaluation criteria in this provision. All past performance references must meet the "recent" and minimum average annual cost/fee expenditures criteria provided below for both prime contractor references and significant subcontractor references in order to be evaluated.

For purposes of past performance, the term "Offeror" refers to a prime contractor and its significant subcontractors. Accordingly, the past performance of significant(s) subcontractors shall also be evaluated and attributed to the Offeror. The past performance of a significant subcontractor will be compared to the work proposed to be performed by that subcontractor, and weighted accordingly in assigning the overall past performance adjectival rating to the Offeror. The past performance of the prime contractor will be weighted more heavily than any significant subcontractor or combination of significant subcontractors in the overall past performance evaluation.

A "recent" contract is a contract that is ongoing or completed less than 3 years prior to the issuance of this RFP. Contracts completed more than 3 years prior to issuance of this RFP will not be considered recent and will not be considered or evaluated.

A "relevant" contract depends on the size and content of the contract with respect to this acquisition.

For a prime contractor's contract reference(s) to be considered at least minimally "relevant", it must meet/exceed an average annual cost/fee incurred of at least 4M.

A proposed significant subcontractor for this procurement is defined as any proposed subcontractor that is estimated to meet/exceed an average annual cost/fee of \$4M. *Note, the definition of significant subcontractor for the past performance evaluation may be different than for the cost evaluation.*

For a significant subcontractor's contract reference(s) to be considered at least minimally "relevant", it must meet/exceed an average annual cost/fee incurred of at least 10% of that portion of this procurement that the subcontractor is proposed (or estimated) to perform.

If the contract is deemed recent and meets the above minimum average annual cost/fee expenditures criteria, the Government will then determine the degree of relevance - i.e., level of pertinence - of the contract based on size and content. Content is more important than size in the evaluation of relevance. The term "content" means the type and complexity of services, work, or

supplies, in comparison to the requirements of this solicitation. The Government may consider past quantities and periods of performance in evaluating overall relevance.

The performance evaluation will be based primarily on customer satisfaction and/or contract data in meeting technical, schedule, cost, and management requirements. Additional performance factors may include contract administration, occupational health, safety, security, subcontracting plan goals and small disadvantaged business participation targets, if applicable, and other contract requirements.

The Government may review and consider past performance information on other contracts that it is aware of or that are made available from other sources and inquiries with previous customers. These contracts (if any) must meet the above “recent” and minimum average annual cost/fee expenditures criteria to be evaluated.

As part of the past performance evaluation, the Government may attribute the experience or past performance of a parent or affiliated or predecessor company (including Joint Venture prime partner companies and/or a parent or affiliated company that is being otherwise proposed as a subcontractor on this effort) to the proposed prime contractor and/or significant subcontractor(s) where the proposal demonstrates that the resources of the parent or affiliate or predecessor company will affect the performance of the proposed prime contractor and/or significant subcontractor(s). The Government will take into consideration whether the resources of the parent or affiliate or predecessor company (its workforce, management, facilities or other resources) will be provided or relied upon for contract performance such that the parent or affiliate will have meaningful involvement in contract performance. These contracts (if any) must meet the above “recent” and minimum average annual cost/fee expenditures criteria to be evaluated.

An Offeror shall not be rated favorably or unfavorably if the offeror does not have a record of “recent” and “relevant” past performance or if a record of past performance is unavailable. In such cases the offeror will receive a “Neutral” rating. However, an offeror with favorable, recent, and relevant past performance that meets the minimum average annual cost/fee expenditures indicated above may be considered more favorably than an offeror with no relevant past performance information.

The Government will consider an Offeror’s explanation of any problems encountered on any identified contracts, and any corrective actions taken by the offeror.

The overall confidence rating assigned to an Offeror’s Past Performance (see below) will reflect a subjective evaluation of the information contained in the oral presentation, if applicable; written narrative; past performance evaluation input provided through customer questionnaires; and other references, if any, that the Government may contact for additional past performance information.

Past Performance Ratings –The level of confidence ratings set forth below will be used to evaluate the Past Performance factor for each Offeror.

Each of the adjective ratings below has a “performance” component and a “relevance” component as discussed above. As used in the ratings below, the term “pertinent” is equivalent to the term “relevant”. The following adjectival rating guidelines will be used when subjectively assessing both components.

Very High Level of Confidence

The Offeror’s relevant past performance is of exceptional merit and is very highly pertinent to this acquisition; indicating exemplary performance in a timely, efficient, and economical manner; very minor (if any) problems with no adverse effect on overall performance. Based on the Offeror’s performance record, there is a very high level of confidence that the Offeror will successfully perform the required effort.

High Level of Confidence

The Offeror’s relevant past performance is highly pertinent to this acquisition; demonstrating very effective performance that would be fully responsive to contract requirements with contract requirements accomplished in a timely, efficient, and economical manner for the most part with only minor problems with little identifiable effect on overall performance. Based on the Offeror’s performance record, there is a high level of confidence that the Offeror will successfully perform the required effort.

Moderate Level of Confidence

The Offeror’s relevant past performance is pertinent to this acquisition, and it demonstrates effective performance; fully responsive to contract requirements; reportable problems, but with little identifiable effect on overall performance. Based on the Offeror’s performance record, there is a moderate level of confidence that the Offeror will successfully perform the required effort.

Low Level of Confidence

The Offeror’s relevant past performance is at least somewhat pertinent to this acquisition, and it meets or slightly exceeds minimum acceptable standards; adequate results; reportable problems with identifiable, but not substantial, effects on overall performance. Based on the Offeror’s performance record, there is a low level of confidence that the Offeror will successfully perform the required effort. Changes to the Offeror’s existing processes may be necessary in order to achieve contract requirements.

Very Low Level of Confidence

The Offeror’s relevant past performance does not meet minimum acceptable standards in one or more areas; remedial action required in one or more areas; problems in one or more areas which adversely affect overall performance. Based on the Offeror’s performance record, there is a very low level of confidence that the Offeror will successfully perform the required effort.

Neutral

In the case of an Offeror without a record of relevant past performance or for whom information on past performance is not available, the Offeror may not be evaluated favorably or unfavorably on past performance [see FAR 15.305(a) (2) (ii) and (iv)].
