Existing TFOME Contract Purchase Information

The historical information in this Attachment is intended to give the reader a general idea as to the types, sizes and quantities of purchase transactions that can be expected under the TFOME-II contract. Purchasing activity can be expected to fluctuate due to many factors, and this information should not be interpreted as a guarantee of work. The following table shows the types, sizes and quantities of purchases under the TFOME contract for Fiscal Year (FY) 2013.
