“Issuance of responses to questions/comments received on Request For Proposal – NNG140516081R”

<b>Questions or Comments</b>	<b>Responses</b>
<p><b>1.</b></p> <p>What information format is needed when compiling financial data for submission of the above mentioned RFP. Attachment E lists pretty simple structure as identified in line item #1-10. We would like confirmation that we are not required to complete an Incurred Cost Electronic (ICE) Schedule that would be required for a straight forward Cost Plus contract. Please confirm what format the financial data information should be in.</p>	<p><b>1.</b></p> <p>In respect to financial data, potential offerors are advised to refer to Clause L.22 Cost Volume. All potential offerors shall fully complete the cost exhibits that were released as part of the solicitation package.</p> <p>The ICE format is outside of what the Government has requested in regards to cost proposal and cost exhibits in this RFP. An ICE Schedule can be submitted as supplemental data in support of your rates, but primarily the Government will need the cost exhibits as completed by the potential offerors.</p>
