

Notice Regarding Draft Request for Proposal for SES II

Last week, 2 additional documents (Past Performance Questionnaire and Position Descriptions) were uploaded to NAIS because they had been inadvertently left out of the original posting of the draft RFP. When that action was completed, it removed all the previously uploaded documents and replaced with the two that had been previously left out.

Please note that there have been NO changes to the draft RFP, attachments, enclosures or exhibits. It just looks like they are “new” because all of the documents had to be re-posted.

Questions are due by COB November 3, 2014.

Thank you,

Lisa Mullen

Contracting Officer.
