

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION
JOHN F. KENNEDY SPACE CENTER, FLORIDA

UPGRADE CAMERA INFRASTRUCTURE, LC 39B (PCN 99009)

JUSTIFICATION FOR OTHER THAN FULL AND OPEN COMPETITION

- 1.) Based on the justification provided herein, I recommend that an acquisition be made by other than full and open competition for the contract action described below:

This contract action is for the acquisition of one RusselStoll Model No. 7144W receptacle. The receptacle will be installed near the 90/99 interface and be used to provide 60 hertz power to the following facilities:

- Vehicle Assembly Building (VAB) High Bay 1
- VAB High Bay 2
- VAB High Bay 3
- Outside VAB High Bay 1
- Outside VAB High Bay 3
- CT Yard North
- CT Yard South
- Mobile Service Structure Park Site
- East Park Site
- Outside Pad B Gate

The material cost for the receptacle is approximately \$4,300 and is approximately 0.39% of the estimated total contract cost.

- 2.) Contracting without full and open competition is permitted pursuant to 10 U.S.C. 2304 (c) (1) because the equipment required by KSC is available from only one responsible manufacturer and no other manufacturer's equipment will fully satisfy KSC's requirements.
- 3.) This RusselStoll receptacle is the only known manufactured receptacle that is compatible with equipment already installed at the locations identified above. Procuring a receptacle from another source will require modifications to existing equipment to the ten (10) facilities.

Certification by Technical/Requirements Personnel of input for Justification for Other than Full and Open Competition.

Pursuant to FAR 6.303-2(b), I hereby certify that the supporting data furnished in support of contracting by other than full and open competition, under 10 U.S.C. 2304(c) (1), with RusselStoll is complete and accurate to the best of my knowledge and belief.
