

CONTRACT HISTORICAL DATA

As provided in clause H.11 ADVANCE AGREEMENT BETWEEN THE PARTIES: REQUIREMENT TO PROVIDE CONTRACT HISTORICAL DATA, and based on the written request from the Contracting Officer, the Contractor shall provide all of the following historical data from this contract:

Provide all labor resources employed under this contract in the last twelve months, by Company Labor Category. For each labor category, provide the number of full-time equivalents (FTEs), the current average wage rate (unburdened “straight time” rate), and the average seniority level; For each labor category, identify the most recent date that wages were escalated and provide the percentage by which wages were escalated; For each labor category, identify whether the category is “exempt”, “non-exempt”, or “union” as governed under the Services Contract Act; For each labor category, provide a brief position description in sufficient detail to indicate the duties of each category and any minimum education and experience requirements.

Example Table of Requested Data

Labor Category	# of *FTE by Company’s Title	**Current Weighted Avg. Unburdened Hourly Rate for this category	Average Seniority for this category	Date and amount of last rate escalation	Identification “exempt,” “non-exempt”, “union”
Engineer 4	9	\$18.20	18 months	April 2005 (2.8%)	exempt

* 1 FTE is defined as the work of a full time equivalent. Example: Four employees working 2 hours per day make up one FTE.

**Straight time labor rates only, not bid rates or burdened rates

Provide the actual non-labor (other direct costs) expenditures for the prior twelve months, delineated by each of the following cost elements: Materials, equipment, travel, supplies, and any other non-labor expenditures (e.g. service centers, training, facilities, etc.); Provide an estimate of the number of FTEs, including associated labor category titles/descriptions, for those personnel currently supporting this contract that are accounted for as indirect. This may include administrative employees (e.g., accounting or clerical personnel), management employees and/ or technical employees (e.g. computer support personnel); and The information required in (1) through (6) above shall be provided for the prime contractor and all significant subcontractors. Significant subcontractors are those subcontractors that have performed more than \$7 million in work over the life of this contract.
