

Applicable Section	Question	Response
DRD 1-6	1. Is there any training provided for the ECMRA system? 2. Will there be any additional information to see what is required, including minimum system requirements to interface (e.g. browser software/version, data fields/definitions)?	1. At this time it is not the Government's intention to provide training on this system. 2. The Government plans to revise the RFP to clarify.
DRD 1-9	1. Is there any training provided for the JOCAS II system? 2. Will there be any additional information to see what is required, including minimum system requirements to interface (e.g. browser software/version, data fields/definitions)?	1. At this time it is not the Government's intention to provide training on this system. 2. The Government plans to revise the RFP to clarify.
DRD 1-18	1. Is there a historical cost basis of non-routine repair and non-routine maintenance that this allowance is derived from? 2. For the DRD, is there a minimum dollar limit for items (the cost to track low dollar items may far outweigh the benefit)?	1. See clause G.10 2. See DRD 1-18
	Would the government consider price breaks for volume pricing?	At this time the Government does not anticipate price breaks for volume pricing.
	Is the government willing to provide metrics (time, EP, etc.) for the services being requested?	At this time the Government does not anticipate providing metrics.
J-02 Catalog of Services to be Provided	Are the “BEQ” quantities defined in the Schedule B (Table B.1.1) expected to represent minimum order quantity when Task Order IDIQ’s are issued? Or is the unit of measure defined as the smallest “Unit” of measure (i.e., shipment, mscf, gallon, k-bottle, hr, SCAPE Suit, etc.)?	BEQs are used for evaluation purposes only and do not represent a minimum order quantity (see clause I.6). The unit of measure in Table B.1.1 represents the smallest unit to be priced. However, during contract performance fractional units may be ordered.
J-09 Government Furnished Facilities	Facility 1044 is not identified in DRFP; What facility is intended to provide secondary containment for JP-8 tanker parking, and offload of vendor tankers?	Facility 1044 will be provided as a government furnished facility for secondary containment for JP-8 tanker parking and offload of vendor tankers.
J-01 PWS	As a FFP contract how does the government envision PWS 1.2.3 – Contract Management expectations for flexibility when staffing is otherwise determined “as needed” after TO is approved?	It is the responsibility of the offerors, depending on their approach, to staff appropriately to maximize flexibility.
J-01 PWS	Who is maintaining FIMS and LSSS on the KPLSS contract? No mention of these is made in J-11, Government Furnished Services.	Maintenance of FIMS and LSSS will be a Government provided service.

	With items that have high cost fluctuations, would the government consider cost options other than fixed unit price?	No.
J-02 Catalog of Services to be Provided	Given that all work is to be performed as IDIQ; yet a minimum \$7.5M will be committed can we expect to have certain subset of services and quantities to be defined as baseline?	No.
DRD 1-7	Is gaseous methane planned for use at KSC or is this for the LNG?	No. The Government plans to revise the RFP to clarify.
	Section G-10 requirement for CAGP of \$500K annually? Is this part of \$7.5M/year guaranteed value and not associated with customer specific IDIQ TO's?	See Section L.17.3 Pricing Instructions.
J-01 PWS	Current asset information resides in Maximo; what information will be provided to migrate this data into a new system (i.e. data mapping, etc.) for effective transition on contract day 1?	See Section L.17.4 Plans and other Data, 3. Phase-in.
J-01 PWS	Can an estimate of TO's and DD Form 250's be provided?	The Government does not anticipate providing this information.
J-08 GFP CAGP	Please clarify the attachment for Government-Furnished Property (J-07) and confirm attachment for Contractor-Accountable Government Property (CAGP) is Attachment J-08. If J-07 is correct, are there any provisions for equipment operating past its useful life?	The Government plans to revise the RFP to clarify.
J-01 PWS	What is the average number of EO's on current drawings? If above five, is there a transition period to achieve this goal (current ISC requirement is 10).	The Government plans to revise the RFP to clarify.
B.1.1	Provide price for 400 PHEs or PHE suitings?	The Government plans to revise the RFP to clarify.
B.1.1	Provide price for each lot of 15 ECU fills?	The Government plans to revise the RFP to clarify.
	Section F.1, price template L-02 and the solicitation release all state the Basic Period of Performance Starts on 10/01/2015, but sections B.1 and B.2 show the start date as 10/01/2016. Please clarify.	The Government plans to revise the RFP to clarify.
	Can the Government please provide the number of hours that it will use to determine the evaluated price for TINs X00701A, X00701B, X00702A and X00702B?	The Government plans to revise the RFP to clarify.

	<p>For TIN X00801 Government Directed Travel/Equipment/Material, is the Government going to reimburse the offeror for labor, indirect rates and fee associated with this effort?</p>	<p>The Government plans to revise the RFP to clarify.</p>
	<p>Are there any geographical restrictions that bound the places of performance for this contract? Is there a possibility that commercial customers may choose to work off-site but have signed a CLSA that provides P&LS?</p>	<p>There are no geographical restrictions. However, the fixed price menu of services covers the local area as defined in Attachment J-18.</p>
