Proposals are due by the date and time shown in block 8 of the SF 1449 (solicitation cover page).

3.8 PROPOSAL PREPARATION—GENERAL INSTRUCTIONS (GSFC 52.215-201) (JUL 2014)

It is NASA's intent, by providing the instructions set forth below, to solicit information that will demonstrate the Offeror's competence to successfully complete the requirements specified in the Statement of Work (SOW), Attachment A and Representative Task Orders. Generally, the proposal should:

- Demonstrate understanding of the overall and specific requirements of the proposed contract.

Solicitation NNH15534983R

- Convey the company's capabilities for transforming understanding into accomplishment.
- Present in detail, the plans and methods for so doing.
- Present the costs associated with so doing.

In the event that other organizations are proposed as being involved in conducting this work, their relationships during the effort shall be explained and their proposed contributions shall be identified and integrated into each part of the proposal, as appropriate.

As part of the Request for Proposal, the offer shall respond to how they would approach several Representative Task Orders (See 3.11.3). THE OFFEROR IS NOT TO PERFORM ANY ACTUAL WORK OR PRODUCE ANY DELIVERABLES ON THE REPRESENTATIVE TASK ORDERS (RTOs) IN RESPONSE TO THE RFP!

(a) PROPOSAL FORMAT AND ORGANIZATION

(1) Offerors shall submit proposals in four volumes as specified below:

Volume	Title	Copies
I	Offer Volume	Original plus 3 Hardcopies and two electronic copies
II	Mission Suitability Volume	Original plus 3 Hardcopies and two electronic copies
III	Price Volume	Original plus 3 Hardcopies, and two electronic copies
IV	Past Performance Volume	Original plus 3 Hardcopies and two electronic copies

(2) Offerors and proposed significant subcontractors for cost proposal purposes defined as any subcontract that is likely to exceed 25% of a proposed Representative Task Order (RTO) estimate shall include one (1) additional separately packaged hardcopy of their Cost Proposal, marked "Enter correct RFP number/NASA Proposal Evaluation Material".

(3) All pages of Volumes I, II, III and IV shall be numbered and identified with the offeror's name, RFP number and date. Subsequent revisions, if requested, shall be similarly identified to show revision number and date. A table of contents shall be provided with figures and tables listed separately.

(4) Two electronic copies of the offeror's proposal, designating one as "back-up," shall be submitted (in addition to the hardcopies specified above) in Microsoft Office Word and Excel 2010 or Adobe Portable Document Format (PDF) (version X or greater). Cost proposal exhibits shall use Microsoft Office Excel 2010 and shall contain all formulas. DO NOT compress any electronic files. DO NOT password protect any portion of your electronic submission.

Electronic files of Volumes I, II, III and IV shall be on virus free CD-ROM (CD-R format) discs with an external label indicating: (1) the name of the offeror, (2) the RFP number, (3) the format and software versions used, (4) a list of the files contained on the disk and (5) date of the information. The Offeror shall provide written documentation that describes the contents of each CD-ROM and of each file. In the event of any inconsistency between data provided on electronic media and hardcopies, the hardcopy data will be considered to be correct. The Offeror must certify that the electronic medium is virus free.

(5) The format for each proposal volume shall parallel, to the greatest extent possible, the format of the evaluation factors and subfactors contained in Section 4 of this solicitation.

The proposal content shall provide a basis for evaluation against the requirements of the solicitation. Each volume of the proposal shall specify the relevant evaluation criteria being addressed, if appropriate. The proposal shall include a matrix showing where in the proposal the technical requirements of the SOW and the evaluation criteria of this RFP are satisfied (i.e. SOW element versus offeror's proposal page numbers). It is intended that this be a simple matrix that should in no way inhibit an innovative approach or burden the offeror. This proposal matrix is excluded from the page limitations contained in paragraph (b)(1) below.

(6) Information shall be precise, factual, detailed and complete. Offerors shall not assume that the evaluation team is aware of company abilities, capabilities, plans, facilities, organization or any other pertinent fact that is important to accomplishment of the work as specified in the SOW. The evaluation will be based primarily on the information presented in the written proposal. The proposal shall specifically address each listed evaluation factor and subfactor.

(b) PROPOSAL CONTENT AND PAGE LIMITATIONS

(1) The following table contains the page limitations for each portion of the proposal submitted in response to this solicitation. Additional instructions for each component of the proposal are located in the contract provision noted under the Reference heading.

In addition, the Cost volume of your proposal is not page limited. However, this volume is to be strictly limited to cost and price information. Information that can be construed as belonging in one of the other volumes of the proposal will be so construed and counted against that volume's page limitation.

(4) The Government intends to evaluate proposals and award contract(s) without discussions with offerors (except clarifications as described in FAR 15.306(a)). Therefore, the Offeror's initial proposal should contain the offeror's best terms from a cost or price and technical standpoint. The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. If discussions are held and final proposal revisions are requested, the Government will specify separate page limitations in its request for that submission.

(5) Pages submitted in excess of the limitations specified in this provision will not be evaluated by the Government and will be returned to the offeror in accordance with NFS 1815.204-70(b).

B. MISSION SUITABILITY VOLUME

Contents of Mission Suitability Volume Instructions

1. General Instructions
2. Mission Suitability Volume Format
3. Mission Suitability Instructions by Subfactors
4. Offeror Deviations/Exceptions

1. General Instructions

The Mission Suitability Proposal should be specific, detailed, and provide all of the information requested by these instructions. The Mission Suitability Proposal must demonstrate that the offeror understands the requirements and has the ability to meet the requirements. General statements such as the "requirements are understood" or "standard procedures will be employed" are not adequate. Also, restatement or paraphrasing of the requirements should be avoided. Information previously submitted, if any, will not be considered unless it is resubmitted as part of the proposal. It must not be incorporated by reference.

The offeror must identify and discuss the risk factors associated with accomplishment of the requirements of the contemplated contract. This must be done as appropriate in the Mission Suitability Proposal. Risk factors may be those inherent in the work, unique to the offeror's chosen approach, and must include any risk factors that are specifically identified by the Government in this solicitation. General areas of possible risk that are of concern to NASA and of which pertain to this contract are: technical, schedule, and cost. The identification of risks is the responsibility of the offeror. However, these instructions may include Government identified risks that the offeror must also address. The offeror's discussion of a risk factor should provide the offeror's approach to managing the risk--the probability of the risk, impact and severity, time frame and risk acceptance or mitigation.

2. Mission Suitability Volume Format

The Mission Suitability Proposal must be divided and presented by each Mission Suitability subfactor as follows:

- Subfactor A–Technical Approach
- Subfactor B–Management Approach
- Subfactor C–Representative Task Orders Approach

3. Mission Suitability Instructions by Subfactors:

Subfactor A–Technical Approach

The offeror's technical approach should demonstrate an understanding of the requirements and provide the techniques and procedures that will be used to satisfy the requirements in a timely and cost effective manner. The technical approach shall address the following critical elements of the Statement of Work (SOW) in enough detail to clearly and fully demonstrate that the offeror understands the requirements and the inherent problems associated with the objectives of this procurement. The critical elements of the Statement of Work are sections: 3.1.3 2 – Post Onsite Requirements, 3.1.2 – Onsite Requirements, 3.1.1 – Pre-onsite Requirements, 3.2 – Desk-Audits, and 3.3 – Civil Rights Technical Assistance. The offeror shall explain the approach for identifying the optimum skill mix based upon the requirements of the SOW and the approach for matching skill mix to services/functions.

The offeror shall identify the most significant potential risks under this contract and also describe the risk management techniques that will be used to manage identified risks during contract performance. Risk factors may be those inherent in the work, unique to the offeror's chosen approach. General areas of possible risk that are of concern to NASA are technical, schedule, cost, security (including personnel, information technology), export control and environmental risks. The identification of risks is the responsibility of the offeror. However, these instructions may include Government identified risks that the offeror must also address.

Subfactor B–Management Approach

Provide written position description(s) for position(s) considered critical to meet the requirements of the contract. The position description shall include the rationale for identifying the position as critical. The position descriptions shall include the qualifications associated with each critical position and will include the position title, to whom the position reports, summary of duties and responsibilities, and minimum education and minimum experience required for the critical position. All position descriptions will be incorporated into the resultant contract.

Each position description shall not exceed one page in length.

Provide representative resumes for critical positions, which include:

- A brief description of the position and the individual's responsibility for the performance of the work.
- Educational background.
- Summary of general work experience.
- Summary of specialized, professional experience relevant to this contract to include writing experience in the development of compliance letters and reports and federal government experience as a civil rights attorney or investigator conducting federal agency compliance reviews under the federal statute as described in the Statement of Work, Attachment A.

Each representative resume shall not exceed one page in length.

Identify all of the potential risks under this contract and also describe the risk management techniques that will be used to manage identified risks during contract performance.

The Technical Approach and the Management Approach, combined, shall not exceed 10 pages (see Section 3, Subsection 3.8).

Subfactor C–Representative Task Order Approach

The Representative Task Order (RTO), Exhibit 2, will be used for evaluation purposes only, and may or may not be issued during the performance period. These representative tasks provide the offeror with the opportunity to demonstrate in detail an understanding of the requirements and to illustrate processes that would typically be used to accomplish the representative tasks.

The offeror shall provide a written task plan addressing the representative task order which pertains to the federal statute. In accordance with the Task Ordering Procedure clause in Section 1, Subsection 1.1 of this solicitation, the task plan shall identify the technical approach, labor categories, projected hours, Government interface; the flow of activities from start to completion (including time line), and any other information required to determine the adequacy and reasonableness of the offeror's plan. The plan must be specific, detailed, and complete to demonstrate a clear and full understanding of the objectives; potential technical problems, risks, and critical issues; and possible problem mitigation/resolution. Any assumptions made in preparing a response to these representative task orders must be clearly stated.

The offeror shall identify any significant subcontractors (defined as any subcontract that is likely to exceed 25 percent of a proposed RTO estimate), their roles and responsibilities, and their proposed effect on the performance of the RTO.

The Representative Task Order Approach shall not exceed 3 pages (see Section 3, Subsection 3.8).

C. PAST PERFORMANCE VOLUME

An Offeror's past performance record indicates the relevant quantitative and qualitative aspects of performing services or delivering products similar in size and content to the requirements of this acquisition.

The Offeror shall provide, at a minimum, the following information in support of its proposal to facilitate the evaluation of the Offeror's past performance as related to the requirements of the proposed contract.

(a) INFORMATION FROM THE OFFEROR

Prime Offerors shall furnish the information requested below for all of your most recent contracts (completed and ongoing) for similar efforts with a minimum average annual cost/fee incurred of \$25,000 that your company has had within the last 3 years of the RFP release date.

For the purposes of the Past Performance Volume, a proposed significant subcontractor is defined as any proposed subcontractor that is estimated to meet/exceed an average annual cost/fee of \$25,000. For IDIQ contracts that use RTOs, see instructions below for estimating value. *Note, the definition of significant subcontractor for the past performance evaluation may be different than for the cost evaluation.* The Offeror shall provide the information requested below for any significant subcontractor(s) for those similar efforts within the last 3 years of the RFP release date with a minimum average annual cost/fee incurred of at least 25% of the estimated average annual dollar value of the proposed significant subcontract.

For example (note, these example numbers may not relate to this specific procurement), if a procurement is valued at an average annual value of \$50M and a proposed significant subcontractor for the effort has a proposed average annual cost/fee of \$16M, the Offeror shall provide relevant current/past contract references that have a minimum average annual cost/fee incurred at/above \$4M (25*% of \$16M) for that significant subcontractor.

If a prime Offeror or significant subcontractor is submitting past performance data on a current/past contract vehicle that includes multiple tasks, orders, etc, all effort under that contract vehicle may be consolidated for the purposes of meeting the average annual cost/fee incurred in the instructions above and for the purpose of evaluating contract relevance for the proposed requirement.

The Offeror shall provide an estimated value and percentage of work to be performed on this contract by the Prime Offeror and each significant subcontractor. Offerors shall estimate prime contract and significant subcontract percentages and value based on an assumption that the contract will meet the Maximum Ordering Value and performance will reflect all areas of the Statement of Work (Offerors shall also consider other RFP information and available historical performance data in this estimate). Indicate the primary functions in the Statement of Work to be performed by the Prime Offeror and each proposed significant subcontractor. Indicate which contracts are most related (i.e. similar in size and content) and how they are related to the proposed effort, as well as which contracts were performed by the division of your company (if applicable) that will perform the proposed contract/subcontract.

If applicable, Offerors may provide the experience or past performance of a parent or affiliated or predecessor company to an Offeror (including Joint Venture prime partner companies and/or a parent or affiliated company that is being otherwise proposed as a subcontractor on this effort) where the firm's proposal demonstrates that the resources of the parent or affiliate or predecessor will affect the

Solicitation NNH15534983R

performance of the Offeror. The Offeror shall demonstrate that the resources of the parent or affiliate or predecessor company (its workforce, management, facilities or other resources) shall be provided or relied upon for contract performance such that the parent or affiliate or predecessor will have meaningful involvement in contract performance.

The Offeror shall provide the following information on all past/current contract references that meet the above criteria for the Prime Offeror and each significant subcontractor:

- Customer's name, address, and telephone number of both the lead contractual and technical personnel most familiar with the Offeror's performance record. (Please verify the telephone numbers provided are current and correct).

As of the latest cost report which reflected cost/fee through the first 2 years and 4 months of performance, the total amount of cost/fee incurred by the Offeror over the duration of the contract was \$43,500,000.

In this example, an Offeror would provide the following:

Include contracts that were "descoped" by the customer because of performance or cost problems. (Excluded from the page limitation).

(b) PRIOR CUSTOMER EVALUATIONS (PAST PERFORMANCE QUESTIONNAIRES)

The offeror and any proposed significant subcontractor(s) [as defined in paragraph (a)] shall provide the questionnaires provided as Exhibit 1 to each of the above references to establish a record of past performance. The Offeror shall instruct each of its references to return the questionnaire directly to the Government in a sealed envelope. PART 4

4.1 EVALUATION - COMMERCIAL ITEMS (52.212-2) (OCT 2014)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

- Mission suitability—composed of Subfactor A—Technical approach; Subfactor B—Management approach; and Subfactor C—Representative task order approach.
- Past performance
- Price

Mission suitability and past performance, when combined, are significantly more important than price.

(b) *Options.* The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of provision)

ADDENDUM TO FAR CLAUSE 52.212-2

The Government contemplates awarding a contract resulting from this request to the responsible offeror whose proposal conforming to this request will be most advantageous to the Government, price and other factors considered. Offerors are advised that a proposal meeting the objectives and requirements with the lowest price may not be selected if award to a higher priced offeror is determined to be most advantageous to the Government. Also, offeror information provided for one factor may be used to assess other factors if the Government deems appropriate.

The Mission Suitability Proposal will be evaluated using adjectival ratings as follows:

Adjectival Rating	Definitions
Excellent	Of exceptional merit; exemplary performance in a timely, efficient, and economical manner; very minor (if any) problems with no adverse effect on overall performance; and experience that is highly relevant to this procurement. Based on the offeror's performance record, essentially no doubt exists that the offeror will successfully perform the required effort.
Very Good	Very effective performance; fully responsive to contract requirements; contract requirements accomplished in a timely, efficient, and economical manner for the most part; only minor problems with little identifiable effect on overall performance; and experience is very relevant to this procurement. Based on the offeror's performance record, little doubt exists that the offeror will successfully perform the

Solicitation NNH15534983R

	required effort.
Good	Effective performance; fully responsive to contract requirements; reportable problems, but with little identifiable effect on overall performance; and experience is relevant to this procurement. Based on the offeror's performance record, some doubt exists that the offeror will successfully perform the required effort.
Fair	Meets or slightly exceeds minimum acceptable standards; adequate results; reportable problems with identifiable, but not substantial, effects on overall performance; and experience is at least somewhat relevant to this procurement. Based on the offeror's performance record, substantial doubt exists that the offeror will successfully perform the required effort. Changes to the offeror's existing processes may be necessary in order to achieve contract requirements.
Poor	Does not meet minimum acceptable standards in one or more areas; remedial action required in one or more areas; problems in one or more areas which adversely affect overall performance. Based on the offeror's performance record, extreme doubt exists that the offeror will successfully perform the required effort.

In evaluating proposals, findings will be identified and categorized as a strength, significant strength, weakness, significant weakness, or deficiency. Definitions of these findings are as follows:

FINDING	DEFINITION
Strength	A proposal area that enhances the potential for successful performance or contributes toward exceeding the contract requirements in a manner that provides additional value to the government (this could be associated with a process, technical approach, materials, facilities, etc.).
Significant Strength	A proposal area that greatly enhances the potential for successful performance or contributes significantly toward exceeding the contract requirements in a manner that provides additional value to the government.
Weakness	A flaw in the proposal that increases the risk of unsuccessful contract performance.
Significant Weakness	A flaw that appreciably increases the risk of unsuccessful contract performance.
Deficiency	A material failure of a proposal to meet a Government requirement or a combination of significant weaknesses in a proposal that increases the risk of unsuccessful contract performance to an unacceptable level.

Mission Suitability Evaluation Subfactors:

Subfactor A—Technical Approach

The offeror's technical approach will be evaluated to determine the offeror understanding of the requirements. The offeror's techniques and procedures to satisfy requirements in a cost effective and timely manner will be evaluated. The Government will evaluate the Offeror's technical approach for fully satisfying the critical elements of the Statement of Work identified as sections 3.1.3 2 – Post Onsite Requirements, 3.1.2 – Onsite Requirements, 3.1.1 – Pre-onsite Requirements, 3.2 – Desk-Audits, and 3.3 – Civil Rights Technical Assistance to determine the extent to which the offeror clearly

and fully demonstrates an understanding of the requirements and the inherent problems associated with the objectives of this procurement.

The Offeror's identification of potential contract risks and description of risk management techniques will be evaluated for effectiveness and completeness to determine how well the Offeror understands the inherent problems that can occur during contract performance.

Subfactor B—Management Approach

The Government will evaluate the organizational structure, policies, procedures, and techniques for efficiently managing the proposed work. The interrelationships with NASA personnel and the technical management, business management, and subcontract management will be assessed.

The offeror's process for responding quickly and efficiently to requests for task plans will be evaluated, to include the offeror's plans for organizing, assigning staff, tracking, and managing task orders from task initiation to completion, subcontracting, schedule, and cost.

The management approach will also be evaluated on the ability to provide critical personnel with the appropriate qualifications as identified in the SOW. The offeror's rationale for identifying critical positions will be evaluated to determine relevancy and adequacy in relation to this requirement. The proposed critical personnel position descriptions containing the qualifications will be evaluated to determine the offeror's level of understanding of the contract requirements. The representative resumes of critical positions will be evaluated for appropriateness based upon the requirements of the contract.

The identification of potential risks and risk management techniques used to manage the identified risks will be evaluated.

Subfactor C—Representative Task Order Approach

The offeror's approach in performing the RTO will be evaluated to determine the offeror's understanding of the objectives and requirements of the RTO. The Government will consider—

- Thoroughness of discussion on how the representative task would be accomplished, including technical approach; management approach; interrelationship procedures between the offeror and the government; and the flow of activities from start to completion.
- Completeness of the discussion on the nature, scope, and complexity of the RTO work; the accurate identification of potential technical problems; the thoroughness of the response to problem mitigation/resolution; and the reasonableness of the basis for any assumptions made in preparing a response to the representative tasks orders.
- Completeness and accuracy of technical and organizational interfaces with any significant subcontractors proposed, and the effectiveness of the approach in using and managing subcontractors in the performance of RTOs.

4.1 PAST PERFORMANCE EVALUATION FACTOR (GSFC 52.215-330) (JUN 2014)

An offeror's past performance will be evaluated based on FAR Part 15 and the evaluation criteria in this provision. All past performance references must meet the "recent" and minimum average annual cost/fee expenditures criteria provided below for both prime contractor references and significant subcontractor references in order to be evaluated.

For purposes of past performance, the term "Offeror" refers to a prime contractor and its significant

Solicitation NNH15534983R

subcontractors. Accordingly, the past performance of significant(s) subcontractors shall also be evaluated and attributed to the Offeror. The past performance of a significant subcontractor will be compared to the work proposed to be performed by that subcontractor, and weighted accordingly in assigning the overall past performance adjectival rating to the Offeror. The past performance of the prime contractor will be weighted more heavily than any significant subcontractor or combination of significant subcontractors in the overall past performance evaluation.

A "recent" contract is a contract that is ongoing or completed less than 3 years prior to the issuance of this RFP. Contracts completed more than 3 years prior to issuance of this RFP will not be considered recent and will not be considered or evaluated.

A "relevant" contract depends on the size and content of the contract with respect to this acquisition.

For a prime contractor's contract reference(s) to be considered at least minimally "relevant", it must meet/exceed an average annual cost/fee incurred of at least \$25,000.

A proposed significant subcontractor for this procurement is defined as any proposed subcontractor that is estimated to meet/exceed an average annual cost/fee of \$25,000. *Note, the definition of significant subcontractor for the past performance evaluation may be different than for the cost evaluation.*

For a significant subcontractor's contract reference(s) to be considered at least minimally "relevant", it must meet/exceed an average annual cost/fee incurred of at least 25% of that portion of this procurement that the subcontractor is proposed (or estimated) to perform.

If the contract is deemed recent and meets the above minimum average annual cost/fee expenditures criteria, the Government will then determine the degree of relevance - i.e., level of pertinence - of the contract based on size and content. Content is more important than size in the evaluation of relevance. The term "content" means the type and complexity of services, work, or supplies, in comparison to the requirements of this solicitation. The Government may consider past quantities and periods of performance in evaluating overall relevance.

The performance evaluation will be based primarily on customer satisfaction and/or contract data in meeting technical, schedule, cost, and management requirements. Additional performance factors may include contract administration, occupational health, safety, security, subcontracting plan goals and small disadvantaged business participation targets, if applicable, and other contract requirements.

The Government may review and consider past performance information on other contracts that it is aware of or that are made available from other sources and inquiries with previous customers. These contracts (if any) must meet the above "recent" and minimum average annual cost/fee expenditures criteria to be evaluated.

As part of the past performance evaluation, the Government may attribute the experience or past performance of a parent or affiliated or predecessor company (including Joint Venture prime partner companies and/or a parent or affiliated company that is being otherwise proposed as a subcontractor on this effort) to the proposed prime contractor and/or significant subcontractor(s) where the proposal demonstrates that the resources of the parent or affiliate or predecessor company will affect the performance of the proposed prime contractor and/or significant subcontractor(s). The Government will take into consideration whether the resources of the parent or affiliate or predecessor company (its workforce, management, facilities or other resources) will be provided or relied upon for contract performance such that the parent or affiliate will have meaningful involvement in contract performance. These contracts (if any) must meet the above "recent" and minimum average annual

cost/fee expenditures criteria to be evaluated.

An Offeror shall not be rated favorably or unfavorably if the offeror does not have a record of "recent" and "relevant" past performance or if a record of past performance is unavailable. In such cases the offeror will receive a "Neutral" rating. However, an offeror with favorable, recent, and relevant past performance that meets the minimum average annual cost/fee expenditures indicated above may be considered more favorably than an offeror with no relevant past performance information.

The Government will consider an Offeror's explanation of any problems encountered on any identified contracts, and any corrective actions taken by the offeror.

The overall confidence rating assigned to an Offeror's Past Performance (see below) will reflect a subjective evaluation of the information contained in the oral presentation, if applicable; written narrative; past performance evaluation input provided through customer questionnaires; and other references, if any, that the Government may contact for additional past performance information.

Past Performance Ratings – The level of confidence ratings set forth below will be used to evaluate the Past Performance factor for each Offeror.

Each of the adjective ratings below has a "performance" component and a "relevance" component as discussed above. As used in the ratings below, the term "pertinent" is equivalent to the term "relevant." The following adjectival rating guidelines will be used when subjectively assessing both components.

Very High Level of Confidence

The Offeror's relevant past performance is of exceptional merit and is very highly pertinent to this acquisition; indicating exemplary performance in a timely, efficient, and economical manner; very minor (if any) problems with no adverse effect on overall performance. Based on the Offeror's performance record, there is a very high level of confidence that the Offeror will successfully perform the required effort.

High Level of Confidence

The Offeror's relevant past performance is highly pertinent to this acquisition; demonstrating very effective performance that would be fully responsive to contract requirements with contract requirements accomplished in a timely, efficient, and economical manner for the most part with only minor problems with little identifiable effect on overall performance. Based on the Offeror's performance record, there is a high level of confidence that the Offeror will successfully perform the required effort.

Moderate Level of Confidence

The Offeror's relevant past performance is pertinent to this acquisition, and it demonstrates effective performance; fully responsive to contract requirements; reportable problems, but with little identifiable effect on overall performance. Based on the Offeror's performance record, there is a moderate level of confidence that the Offeror will successfully perform the required effort.

Low Level of Confidence

The Offeror's relevant past performance is at least somewhat pertinent to this acquisition, and it meets or slightly exceeds minimum acceptable standards; adequate results; reportable problems with identifiable, but not substantial, effects on overall performance. Based on the Offeror's performance record, there is a low level of confidence that the Offeror will successfully perform the required

effort. Changes to the Offeror's existing processes may be necessary in order to achieve contract requirements.

Very Low Level of Confidence

The Offeror's relevant past performance does not meet minimum acceptable standards in one or more areas; remedial action required in one or more areas; problems in one or more areas which adversely affect overall performance. Based on the Offeror's performance record, there is a very low level of confidence that the Offeror will successfully perform the required effort.

Neutral

In the case of an Offeror without a record of relevant past performance or for whom information on past performance is not available, the Offeror may not be evaluated favorably or unfavorably on past performance [see FAR 15.305(a) (2) (ii) and (iv)].

(End of provision)

4.2 PRICE EVALUATION FACTOR

The proposed price of the RTO, as submitted on **Exhibit 3**, will be assessed to determine reasonableness based on the quantity of direct labor hours, direct labor costs, and other direct costs.

The total proposed price for the RTO will be evaluated and presented to the selection official. All price analysis will be performed at the Representative Task Order (RTO) level; there is no separate price analysis of the contract. This factor is used to determine the reasonableness of the proposed price for the Government, should the proposal be selected for award.

The Government will evaluate each offeror's proposed pricing to establish that it is reasonable. In the Contracting Officer's discretion, price reasonableness may be presumed without further review based on adequate price competition for the requirement that is the subject of this solicitation. Where adequate price competition is deemed not to exist based on proposals received or on other factors, the Government, at its election, may determine the reasonableness of any offeror's proposed pricing with reference to the factors identified at FAR 15.404-1(b)(2)(ii)-(vii). The Government reserves the right to reject, without further consideration and without notice to the offeror, any offer where the proposed pricing is determined to be unreasonable.

For evaluation purposes, offeror shall not propose travel costs for any RTO.

(4) ___ Have, ___ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples.* (A) The taxpayer has received a statutory notice of deficiency, under I.R.C. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. 6320 entitling the taxpayer to request a hearing with

Solicitation NNH15534983R

the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for *Listed End Products* (*Executive Order 13126*).
