

**National Aeronautics and Space Administration
John F. Kennedy Space Center, FL
Purchase Request 4200545788**

Sole Source Justification

NASA, John F. Kennedy Space Center, will negotiate with iGrafx Flowcharter for the purchase of the 2015 iGrafx Flowcharter Licensee GOV. The total estimated cost is \$79,854.20. The estimated period of performance is one year from ARO.

Pursuant to FAR 11.105(c) the required supplies are deemed available from only one responsible source and no other type of supplies or services will satisfy the government's requirements.

KSC currently utilizes iGrafx Flowcharter software and has over 1000 processes across 376 Kennedy Document Process (KDPs), and uses the iGrafx software for many other program related and internal process documents. Therefore, the software must be iGrafx Flowcharter brand to ensure same configuration and compatibility between new and existing software. The additional associated costs for testing with using different equipment are not expected to be recovered through competition as well as, the potential compatibility issues that may impact mission support activities.

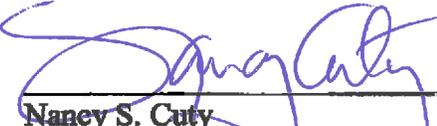

Based upon the information above, I hereby determine the circumstances of the contract action deem only one source is reasonable available for this acquisition.
